Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at [behend@michigan.gov](mailto:behend@michigan.gov).

Thank you again for all the good work you do. I hope you have a great week ahead.

David

## Protest Activity

---

### Date/Time:

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

### Details:

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Michigan State Employees banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJJK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

**DTMB Customer Service**

**Managers Meeting Minutes**

**January 19, 2016**

**Conference Room 116, Hollister Bldg. 1<sup>st</sup> FL**

**8:30 a.m. – 10:00 a.m.**

**Attendees**

	Dan Sellepack	Mike Cooley	Steven Klann	Ajay Singh
	Jim Hogan	Yvonne Sebok	Jennifer Merricle	Louis Rutare
	Roger Parsons	Manny Rosales	Toni Falcon	

**Standing Updates**

- **Review Hot Topics for time awareness**
- **Executive Updates (Manny)**
  - **Billing Group** – Dan has been doing a good job working with the billing group, looking into process. Manny stated that he backs anyone joining a group.
  - **Recruitment** – Jim Hogan has coordinated a meeting with MSU for Project Management specifically, speaking with folks on the project management track.
  - **PCI Audit for our Agency** – No Issues, not much changed. Amy Kelso had most of the information – types of transactions we have with our Agencies.
  - **IBM** – Meeting with IBM this week to start transition of VMS, share documentation. This will be to demo 4.0 – get them access to documentation of what we have and get a quote.
  - **Project Status: Red, Yellow, Green** Projects guide us on our Project priority and PM needs as resources - Manny will talk to Yvonne about Change Requests and Red, yellow and Green projects and PM needs.
- **ITOT (Manny)**
  - **Manny is going to take up at ITOT his purchasing concerns;** it may take up to 9 months on purchase, and a year for a RFP – Manny wants to get an update on what has changed, why this is.
  - **Had Denial Service Issues for the weekend.** Network problems, (Servers did not have appropriate updates). MOE – BRM are to going over a schedule with Agencies as to when

- we are going to do patches. Server Maintenance window communicate and do updates to servers we control – Manny will talk to Mike and Ajay about a schedule
- EIM – Enterprise Information Management (Governors Initiative) – had client in talking about schedules, did not say how this aligns with agency and cost justification for agency. Ability for the entire Agency to have data available to other Agencies. Manny will send out a link to a Power Point Presentation. Manny will bring up at ITOT.
  - Cisco any connect – When will they be rolling this out to everyone? Manny will bring up at ITOT.
- Project Priority Review (Dan, Mike, Manny)
    - Dan reviewed spreadsheet.
    - Jennifer is to update Window 10 with a comment/driver what percentage of a PM's time no permeant PM has been assigned.
    - Computer-Based Certification Exam – PM Need or BA need? If not need to get off from priority list. Need in comment – doing in house? It is thru EASA – Manny will ask Lori what it will take for implementation if a PM is needed. Running as project should get a PM.
    - Commercial Forest Database – Louis Rutare: Need Comments estimated PM and BA needs?
    - IE 11 Upgrade – Gideon is PM
    - Create Plan for DNR-wide decommission and replacement of legacy database and PowerBuilder applications – Phil Bernardi will be taking this over as the BA, when he starts. Need to know the percentages of BA and PM – comments need to be updated, we are ready to go.
  - Support Team (Ajay)
  - BA & Developer Team's (Roger, Steven) – Dan
    - Dan
      - Telecommuting – Follow-up meeting for managers to make decision and incorrupt what Yvonne and Mike already have – Jim is going to give Manny his policy. Toni will schedule a meeting. Manny will sent out email to staff regarding telecommuting on Holiday week and telling staff that guidelines will be going out soon.
  - Quality Assurance Team Update (Louis)
  - New Employee – Radhika Kara started today. New IT Student – Omas is looking through resumes now.

- CRM Updates (Jennifer)
  - Awareness: H Drive is full in the office – Jennifer ran a report on this, a lot of folks that are not even in this area any more. It may be something that Randy or Joe can do to help on this. Dan; Is this something that folks can utilize 1-drive? Action item for Jennifer – get the 1-drive instructions, can use if on Office 2013 and IE11 – not everyone is. Jennifer will talk to Randy about 1-drive and deleting files – and where to put application files.
  - Matt Armstrong – Still working at OPS with OA to the first week in February. Jennifer is sending him to Share Point training. Share Point Support tier – The Client have their own Share Point Support and then it is Lori Franz (DTMB/our office) and then if Lori can't fix goes to CSS. Mat is in the Remedy que – if a Remedy ticket s for Share Point go to Matt. Dan felt that we should not be second level support for our clients.
  - Flint Water data– Jim Hogan may be asking for: Process for how we gather data – how do we engage the Server Team if we need a whole recovery of a whole database. Where is the best area to store data? NAS is what we used for Kalamazoo oil spill and believes NAS may be the best for this. Jennifer is documenting process.
  - New ITS14 Client Specialist – Rachelle Davis starts today and Jennifer will let everyone know what is transferred to her.
- PMO Updates (Yvonne)
  - New Employee Rick Stankiewicz ITPM15 was introduced to group.
- Office Moves – Meeting Schedule: Jan 27, Feb 17 – Nothing Reported.
- Continuous Process Improvement (All)
  1. Implement required (2015) objectives from the Strategic Plan – Next Meeting: Jan 21st @ 12:30 – a few groups will present for closure, Next Meeting February 11<sup>th</sup>, Jan 21th is the last meeting before All Staff. Dan did question if the contractors could also be invited to be a part of one of the objectives.
  2. TFS folder structure reorganization
- All Staff Agenda – Monday, February 1<sup>st</sup> @ 1:00
  1. Presentation to clients
  2. BAD Branding (Roger)
  3. Time Keeping (Manny)
  4. Business Process Reengineering (Jim)

## 5. Strategic Plan – Accomplishments and new Team Goals

- **Hiring (All)**
  - Review Hiring Grid
- **Action Item Review/Follow-up**

Date Item was raised	Action Item	Person Responsible	Due Date
10/14/14	Send all the Hot Topics to Toni for next meeting.	Everyone	Ongoing
10/14/14	Managers will send their HR/contract updates to the HR grid to Toni	Managers	Ongoing
5/12/15	Disaster Recovery – Understanding of our involvement in Agencies DR plans. Do Agencies have a DR plan and what it is?	Jim	11/24/15
6/2/15	<p>OA File &amp; Print servers in the field offices – Manny will check on enterprise perspective. Will treat as small project – Manny/Jennifer</p> <p>Find out what DTMB is going to do - extended support or replace.</p> <p>Manny Pushing back on Field Servers going to talk to John McQuaid.</p> <p><i>Clients will not get billed – relief for customer, Jennifer still working on which sites can be migrated. Moving along.</i></p>	<p>Manny/Jennifer</p> <p>Manny/Jim</p> <p>Manny</p>	11/24/15
8/1/15	Jennifer will write up her prospective on Liaison group members – for Jim H for good governance group.	Jennifer	11/24/15
9/17/15	ITSR for MDARD Oracle to SQL – Send out the presentation to group. Manny will find out if Marcy ever submitted.	Mike C	11/24/15
10/27/15	TFS assessment. Louis will arrange a meeting to flush out the requirements.	Louis	11/17/15

10/27/15	Password for the ftp server – changes every 90 days. Need security exception – Manny will talk to Todd. Understand policy – keeps changing, need a permeant exception.	Manny	11/24/15
11/10/15	Ask at ITOT if anyone has success using SKYPE.	Mike	11/17/15
11/17/15	ADA Compliance – Opportunity Board is looking for direction; do we need to make everything ADA Compliance? Manny will get with Jim for clarity and see what rest of DTMB is doing?	Manny	11/24/15
11/17/15	2015 accomplishments- Manny asked group to send him any ideas they have and short write-up. Ajay will do VMS	Managers	11/24/15
12/1/15	Send out ITOT presentations to managers.  Send out Marcy's Fisheries presentation.	Manny Jennifer	12/8/15
12/8/15	Send out link to Projects of our shared DTMB partners to Managers.	Manny	12/15/15
12/15/15	Roger will draft an employee departure procedure (He already has a on boarding)	Roger	1/26/16
12/15/15	Manny is going to check with other BRM's if they have had success with posting to job sites.	Manny	12/22/15
1/5/15	Toni will schedule a meeting to talk through Telecommuting as a group. Done 1/11. Manny will look into rules prior to.  Yvonne will review EPMO survey @ meeting – was to send out to group.	Toni Manny Yvonne	1/12/16
1/5/15	"ICC update" Manny will talk to Brad and Eric and status.	Manny	1/12/16
1/19/16	ITOT  Manny is going to take up at ITOT his purchasing concerns on what has changed.	Manny	1/26/16

**Subject:** RE: MiFI QA not working?  
**Importance:** High

David,

Somehow our project team missed the important task of collaborating with DNR ArcGIS specialists to implement changes to the MiFI application. We really need someone from your team to help reconcile these changes immediately. We have UAT scheduled at the RAM Center next week and absolutely cannot go forward with testing for the VMS 4.0 project unless MiFI is working in QA. Every other task has been completed; this is our only hold up.

Please let us know how we can help get this done by COB tomorrow.

Thank you,

**Jeremy Newman**, CAPM, CSM

IT Project Coordinator

**Subject:** RE: MiFi QA not working?

Jason,

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

**Subject:** Fw: MiFI QA not working?

**Importance:** High

Guys,

We have a problem with the MiFI QA push that needs immediate attention or we will have to delay next week's UAT, and potentially push this project release off again. As you can imagine, after last summer's debacle that is something we need to avoid at all costs.

Brian and Scott, can you tie in with Tom Summers and troubleshoot what is wrong? See below for a description of what we are seeing.

Jason

**Subject:** RE: MiFI QA not working?

Jeremy – I’m already on it. Trying to get Brian pulled back a bit from Flint work. Here is an email that I just sent to Deb Begalle:

Deb – FYI that Brian’s full time assignment to Flint is having a direct impact upon the planned testing of VMS4.0/MiFI 3.0 next week (Tuesday-Wednesday). There is a problem with some data tables that needs to be sorted out before we can go to the QA environment, and only Brian and Scott Noldy can work this. Here is the issue per Scott Noldy:

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

Right now Brian doesn't think that he can work with Scott Noldy until next Tuesday (the day the testing was to begin). Moving the test date may be problematic b/c all the dates, places, and staff involved in testing and rollout have been set for months. The easiest solution to our problem is to pull Brian back from Flint enough to sort out this issue with Scott today or tomorrow. Can we make that happen?

Thanks.

**Importance:** High

David,

Somehow our project team missed the important task of collaborating with DNR ArcGIS specialists to implement changes to the MiFI application. We really need someone from your team to help reconcile these changes immediately. We have UAT scheduled at the RAM Center next week and absolutely cannot go forward with testing for the VMS 4.0 project unless MiFI is working in QA. Every other task has been completed; this is our only hold up.

Please let us know how we can help get this done by COB tomorrow.

Guys,

We have a problem with the MiFI QA push that needs immediate attention or we will have to delay next week's UAT, and potentially push this project release off again. As you can imagine, after last summer's debacle that is something we need to avoid at all costs.

Brian and Scott, can you tie in with Tom Summers and troubleshoot what is wrong? See below for a description of what we are seeing.

**Subject:** RE: MiFI QA not working?

Ajay,

Please ensure you are coordinating with Jeremy. I had a discussion with Jeremy and explained that this is a project issue and he (as the PM) is the one that needs to stay on this and ensure it gets resolved. He will involve you if he needs to have something escalated from the client side. I want to ensure we aren't duplicating efforts.

David Price has already responded to Jeremy and he is pulling Brian (the required resource to fix the issue) to work on this. I have asked Jeremy to ensure both you and Mike are included on decisions and progress being made.

Thanks,

Yvonne

**Subject:** RE: MiFi QA not working?

Jeremy – I'm already on it. Trying to get Brian pulled back a bit from Flint work. Here is an email that I just sent to Deb Begalle:

Deb – FYI that Brian's full time assignment to Flint is having a direct impact upon the planned testing of VMS4.0/MiFI 3.0 next week (Tuesday-Wednesday). There is a problem with some data tables that needs to be sorted out before we can go to the QA environment, and only Brian and Scott Noldy can work this. Here is the issue per Scott Noldy:

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

Right now Brian doesn't think that he can work with Scott Noldy until next Tuesday (the day the testing was to begin). Moving the test date may be problematic b/c all the dates, places, and staff involved in testing and rollout have been set for months. The easiest solution to our problem is to pull Brian back from Flint enough to sort out this issue with Scott today or tomorrow. Can we make that happen?

Thanks.

**Importance:** High

David,

Somehow our project team missed the important task of collaborating with DNR ArcGIS specialists to implement changes to the MiFI application. We really need someone from your team to help reconcile these changes immediately. We have UAT scheduled at the RAM Center next week and absolutely cannot go forward with testing for the VMS 4.0 project unless MiFI is working in QA. Every other task has been completed; this is our only hold up.

Please let us know how we can help get this done by COB tomorrow.

Thank you,

**Jeremy Newman**, CAPM, CSM

**Subject:** RE: MiFI QA not working?

Jason,

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

**Subject:** MiFI QA not working?

**Importance:** High

Donovan and I just tried to verify the MiFI QA environment (<http://iga.dnr.state.mi.us/MiFi/#>) is ready for testing, and neither of us have data in the map. I got the impression from this morning's scrum that we should be able to begin preparations for UAT next week. Did I miss something?

**Subject:** MiFi QA not working?

**Importance:** High

Donovan and I just tried to verify the MiFi QA environment (<http://iqa.dnr.state.mi.us/MiFi/#>) is ready for testing, and neither of us have data in the map. I got the impression from this morning's scrum that we should be able to begin preparations for UAT next week. Did I miss something?

**Subject:** RE: MiFI QA not working?

**Importance:** High

David,

Somehow our project team missed the important task of collaborating with DNR ArcGIS specialists to implement changes to the MiFI application. We really need someone from your team to help reconcile these changes immediately. We have UAT scheduled at the RAM Center next week and absolutely cannot go forward with testing for the VMS 4.0 project unless MiFI is working in QA. Every other task has been completed; this is our only hold up.

Please let us know how we can help get this done by COB tomorrow.

Thank you,

**Subject:** RE: MiFi QA not working?

Jason,

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

**Subject:** Fw: MiFI QA not working?

**Importance:** High

Guys,

We have a problem with the MiFI QA push that needs immediate attention or we will have to delay next week's UAT, and potentially push this project release off again. As you can imagine, after last summer's debacle that is something we need to avoid at all costs.

Brian and Scott, can you tie in with Tom Summers and troubleshoot what is wrong? See below for a description of what we are seeing.

**Importance:** High

David,

Somehow our project team missed the important task of collaborating with DNR ArcGIS specialists to implement changes to the MiFI application. We really need someone from your team to help reconcile these changes immediately. We have UAT scheduled at the RAM Center next week and absolutely cannot go forward with testing for the VMS 4.0 project unless MiFI is working in QA. Every other task has been completed; this is our only hold up.

Please let us know how we can help get this done by COB tomorrow.

Thank you,

**Subject:** RE: MiFI QA not working?

Jason,

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

**Importance:** High

Guys,

We have a problem with the MiFI QA push that needs immediate attention or we will have to delay next week's UAT, and potentially push this project release off again. As you can imagine, after last summer's debacle that is something we need to avoid at all costs.

Brian and Scott, can you tie in with Tom Summers and troubleshoot what is wrong? See below for a description of what we are seeing.

### **Chief's Update**

The unexpected, recent chain of events finds me trying to fill my and Bill O'Neill's shoes, while Bill fills his boss' shoes. There is a lot going on!

The department, our division and staff have been called upon to help with the Flint water situation because of our expertise, experience, and our "we can do it" attitude. And we can. We have an Incident Management Team working here in Constitution Hall helping with the Flint situation. We also have a GIS team working to develop a GIS map of water distribution lines in Flint. In addition, Kerry Wieber filled in as a Public Information

Officer (PIO) on one of the support teams. We have several other staff filling in for vacancies, working on some great projects, and everyone works day-to-day on our core functions. We make an amazing team!

I'll continue with these monthly newsletters and the division will explore other ways for better communication throughout the division. In the meantime, here are some things that are going on:

### **Communication Updates**

There are some good things happening with our outreach and education efforts, which are helping us to better meet our goals outlined in the strategic plan. Here are a couple of things on the horizon:

- FRD's inaugural promotional video is just about complete. We're waiting on the production company to make a small change, but it should be ready for viewing at our upcoming professional development. We're extremely pleased with the finished product and have heard great feedback from those outside of the division who reviewed it.
- For those of you who aren't aware, FRD is starting collaboration with 98.5 WUPS, a classic rock radio station out of Houghton Lake. The new "Facts from the Forest" segment will include 30-second quick facts about all facets of forestry in Michigan. The facts will run Monday-Friday, every week of the year. They will be short, fun and informative, but will still include DNR messaging. It's a great opportunity that we couldn't let pass us by. Thank you to those of you who took the time to provide forestry facts for the first couple of months of this collaboration. Stay tuned for more on this as we get some samples to share.
- Don't forget that we're always looking for photos and video of what you're working on in the field. If you think what you're doing is interesting, there's a good chance that others will agree! You don't have to be an expert photographer or videographer to participate. Beth Fults recently attended the Council of Western State Foresters communications meeting in Sun River, Oregon, and a marketing professional based out of Colorado was in attendance. He stressed the importance of real-time photo and video, explaining that research shows people find raw video footage more convincing than professionally produced pieces. This doesn't mean that we won't invest in future professional videos, but it does mean that we have an opportunity to educate people about what we do via our smart phones. Beth is working with the social media coordinator to make it easier for you to be able to submit photo and video files to an online location, but in the meantime feel free to send her anything that you capture that you find interesting ([fultsb@michigan.gov](mailto:fultsb@michigan.gov)). Remember that shorter is better when it comes to videos – 30 seconds or less is perfect.
- Development of the FY15 accomplishments report is on the horizon. We're excited to announce that it will be taking on a new format this year. We're shooting for shorter blurbs to result in quicker impact. If you're asked to provide information, please take deadlines seriously.

### **Invasive Species Website now Active**

The new Michigan Invasive Species website is now available to the public at

[www.michigan.gov/invasivespecies](http://www.michigan.gov/invasivespecies). Thank you to all who spent time conceptualizing and constructing the site – a major, collaborative effort across all three Quality of Life departments! The website workgroup will continue to add information and update the site on a regular basis.

### **Foresters for Fish**

Water quality issues have been in the news in Michigan lately, and the Forest Resources Division has a new project that seeks to inform the public that good forest management produces clean water for all Michigan citizens to enjoy. Michigan's 20 million acres of forest land provide many goods and services, and clean water should be a benefit that every forester is proud to produce. "Foresters for Fish!" is a new three-year project, coordinated by FRD, to help public and private sector foresters communicate the message that "healthy forests provide abundant clean water." This project is a partnership between FRD, Fisheries Division, Michigan Trout Unlimited, American Tree Farm System, Michigan Association of Consulting Foresters, and Michigan Association of Timbermen. The project will develop educational and marketing materials, and offer workshops about forestry best management practices, clean water, and fish habitat. Mike Smalligan is the project manager for "Foresters for Fish!" which is funded by a \$255,000 grant from the USFS State and Private Forestry.

## **New Traverse City Office**

Staff at the Traverse City Office is looking forward to a new place to call home; their work home that is! The current facility is cramped and the current rental arrangement is not ideal from a financial standpoint. The search for a new office has been ongoing for several years now so when monies became available and the right location and building was found, the decision was made to move.

Dan Lord and Steve Gregory (Finance and Operations staff) have been working hard to secure a new location on M-37, just south of what is known in the Traverse City area as Chums Corners. No date has been set for the move, but improvements and modifications are being made so the office will be a “state-of-the-art” DNR facility. When the move is made, the new facility will be named the Traverse City Customer Service Center.

Conversations are ongoing regarding the Newberry and the Sault offices. They are toward the top of the list for solutions to their issues. Also, the Crystal Falls office may be remodeled this year if funding is still available.

## **Toughpad Rollout**

It's been a long road, but the rollout of Toughpads to the majority of field foresters and technicians is slated for February. Jason Stephens is leading a team that will hold a series of training sessions in the NLP and U.P. where staff will receive their Toughpads and get basic instruction on their functionality and use. Tentative training dates and locations are: February 16-18 at the RAM Center for NLP FMUs, and February 23 at the ICC in Marquette for the U.P. FMUs. Additional details will be coming soon!

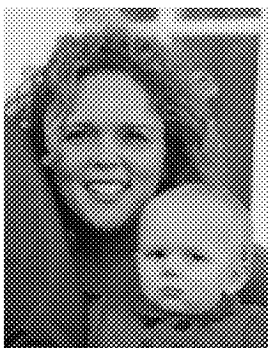

## **VMS 4.0/MiFi 3.0 Rollout**

The development of VMS 4.0 (Proposal Module) and MiFi 3.0 has been an even longer journey, but thanks to the leadership of Doug Heym, Donovan Asselin, and Dan Heckman the rollout is finally scheduled for this April! This module will greatly streamline the proposal development, review, and approval process, and result in greater efficiency and productivity for this part of our timber sale program. An announcement for six training courses was sent out by Fran Ryan on January 20. If you have not already done so, please RSVP your preferred course date to Margaret Spagnuolo ([spagnuolom2@michigan.gov](mailto:spagnuolom2@michigan.gov)).

## **On-line Bidding Update**

The release of On-line Bidding to our timber producers is going well, and is a great example of our hard work to improve customer service and satisfaction. We are gradually building up our customer base using this application, currently having nine companies and 16 people registered and using it to bid on timber sales. Customer feedback thus far has been very positive, specifically pointing out its ease of use and convenience, and even going so far to say that “it is the best thing that the state has ever done”! High praise indeed! So far there has only been a limited release. We will be making an announcement to all producers with a full release after the VMS 4.0 rollout.

## **Employee Spotlight**

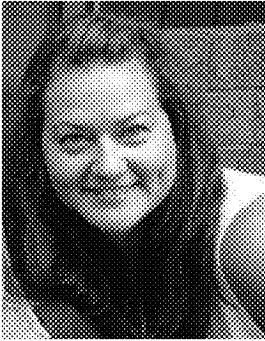

### **Lisa Parker**

**Started at the DNR in:** 2002; joined FRD in 2015.

**What I do:** My responsibility is to oversee the accounting functions for FRD including monitoring fund balances, reconciling revenue and expenditures, preparing financial reports, and ensuring that year end closing functions are performed and completed. I am responsible for setting up account coding for the division and assisting program staff with any accounting related questions or tasks.

**In my spare time:** In my spare time, my husband and I keep busy with our three kids, Landon (9), Alaina (7), and Mara (1), and all of their activities including football, basketball, lacrosse, soccer and dance. We love going to the movies in our free time and spend summers at our new lake house on Gun Lake.

**Beth Webert**

**Started at the DNR in:** 2015; was with MDOT finance before coming to FRD.

**What I do:** I am the new account tech. I am the liaison for FRD procurement cards, fuel cards and hotel cards. I also enter requisitions, purchase orders, payments and other assigned duties for FRD staff.

**In my spare time:** I hang out with my family. My husband and I have three boys. We own a Jeep and go to Silver Lake Sand Dunes three times a year.

**Employee Spotlight – Submissions Needed**

If you haven't yet been featured in the Employee Spotlight section, please email a photo and your answers to the following three questions to Kim Korbecki, ([korbeckik@michigan.gov](mailto:korbeckik@michigan.gov)):

1. When did you start at the DNR?
2. What do you do (in one or two sentences)?
3. What do you like to do in your spare time?

This is a fun addition to these notes and it's really nice to be able to put faces with names.

**Parting Shots**

I was very saddened by the loss of one of our DNR family members, Billy Rollo. I knew Billy a little bit and I know many of you knew him as well. Like most, Billy loved his job and was passionate about managing our natural resources.

I hope you all feel as I do...I never take for granted my job or my families...my DNR family and my family at home.

I look forward to seeing you all at our Professional Development Training beginning on February 9. Last minute information will be sent out next week.

In the meantime, enjoy the beauty of the snow, the ice on the lake for fishing, and all the other parts of winter that make you happy!

Debbie

**To:** Newman, Jeremy (DTMB);Rosales, Manny (DTMB)  
**Subject:** RE: VMS 4.0 - MiFI QA Implementation Issue Analysis

Manny,

In the past (when Dave was here), the application inventory in Changepoint was updated I believe to capture these types of items. I believe it's the BA or Developer that has responsibility for ensuring the Application Inventory records are updated and maintained. It doesn't appear that may have happened when VMS 3.5 went live???

Jeremy,

Thank you for the assessment. This activity is on our Closeout checklist and should have been completed with VMS 3.5 (with Raj). I would also suggest we add this item to our Startup check list to view application inventory notes when we start a project.

Yvonne Sebok, PMP, CSM, ITIL

Cc: Sebok, Yvonne (DTMB) <[SebokY@michigan.gov](mailto:SebokY@michigan.gov)>  
Subject: VMS 4.0 - MiFI QA Implementation Issue Analysis

Manny,

Summary:

The MiFI related tasks progressed slowly and required extra attention to complete. Ownership for these tasks could have been better. Similar tasks have historically been somewhat challenging as they involve close partnership between CSS and Agency Services. Also the need for DNR to be involved in applying database changes to MiFI was not identified. These two factors created an issue which put our QA deployment and subsequent project milestones at risk.

Lessons learned:

1. All task implementation dependencies should be identified early.
  - a. Detailed implementation plans for each application should be created.
  - b. Past implementation plans for an individual application should be reviewed.
2. Clear expectations as to what "task ownership" entails should be given.
  - a. Task ownership should be taken seriously.

Details:

- We had meetings to identify and assign ownership for every task required to prepare the UAT (QA) environments for OLB, VMS, and MiFI. Here is our output from those meetings:

VMS 4.0 – QA Implementation Plan

Meeting: 1/14/16; 2:00 pm – 3:00 pm

Purpose: Review draft QA implementation plan produced by the Tech Lead

Attendees:

Jeremy Newman – Scrum Master/Project manager Allen Simmons – Tech Lead Mark Anderson – SME

Meeting: 1/22/16; 11:00 am – 12:00 pm

Purpose: Review and Finalize QA implementation plan with the project team

Attendees:

Jeremy Newman – Scrum Master/Project manager Doug Heym – VMS Product Owner Dan Heckman – MiFI Product Owner Tom Summers – MiFI Developer Allen Simmons – Tech Lead Eswar Avidi – Lead Developer Mark Anderson – SME Carl Prestel – Business Analyst Bhavna Raizada – Quality Analyst Scott Noldy – Enterprise GIS Administrator (CSS) Jason Bau – Web Support Jeff Kennedy – DB Support

- MiFI related tasks progressed slowly and required extra attention to complete.

· The copying of data production data to QA (task #2) required escalation to complete (see QA Refresh Request email).

· Identifying the database changes and publishing the code to QA for MiFI (task #10) required escalation to complete (see MiFI QA Implementation email).

· Applying the changes to the QA database for MiFI (task #14) required escalation to complete (see MiFI QA Database Changes email).

- The requirement for DNR to be involved in applying database changes for MiFI was not identified in either of our QA planning meetings. The documentation reflected that the task could be completed by CSS and Tom. During execution of this task CSS identified some structural changes to GIS feature classes and required assistance from DNR to reconcile the changes. Though DNR has a team of GIS specialists, only one had the particular knowledge needed to complete this task. This individual had a conflict of priorities as he was scheduled to help with the Flint water crisis. Escalation of the issue to DNR management resulted in the individual being made available to help CSS work through the task. The task required hands on interaction for no more than one hour to complete.

On this same topic, David and I had a conversation with the Governor's office after our post-EMT meeting this morning. They have agreed that as a general rule, before we do work on anything, it must be approved by the SEOC.

Further, they have agreed that if there is something urgent that the Governor or LG's office needs to get done prior to (or in lieu of) the SEOC approving it, these requests should all come in through me. Beth Clement was going to share this message with Gov's office and LG's office staff.

Procurement should have the new form up today for vendors to use as well. We can share that with you once it is working.

Subject: Flint Assistance Offers and SEOC

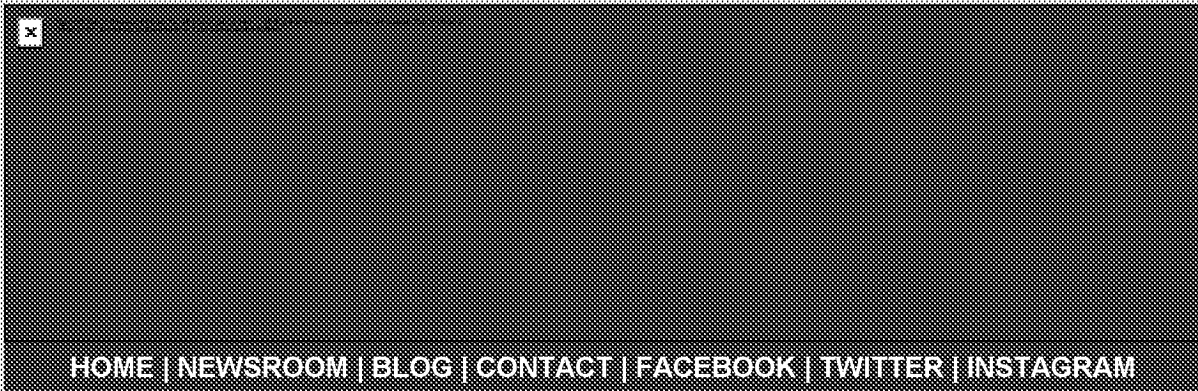

Per our discussion on Monday at the EMT meeting, Chris Christiansen has provided information on where to refer vendors looking to assist Flint and contact information for DTMB-SEOC. Please see below for the details.

- If you are contacted by a vendor that would like to provide donation for the Flint water problem, please direct them to [Flintdonations@michigan.gov](mailto:Flintdonations@michigan.gov)
- If you have any additional questions relating to the Flint issue please direct them to [DTMBECC@michigan.gov](mailto:DTMBECC@michigan.gov)

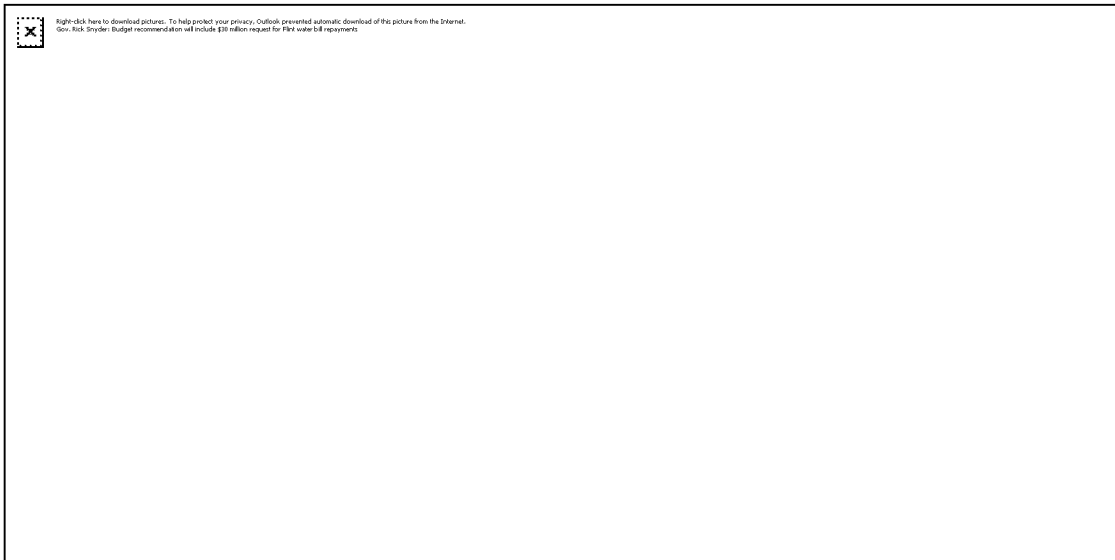

Thank you,

Chanda

**Subject:** "Flint residents should not have to pay for water they cannot drink"

## Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). **[Click here to watch the video.](#)**

**Subject:** RE: Quick Question

Sharon,

We communicated this to staff that will work on FDWP. As of now there are really no hours to report. Everything has been just a couple minutes of activity that has been done as needed. If you believe there is activity that we have not recorded correctly as FDWP let me know and I will have the activity corrected.

We really don't anticipate recording many if any hours.

Thanks,  
Dan Sellepack

**Subject:** Quick Question

We are setting up a coding structure to account for all of the costs incurred in the response to the Flint water situation. We already establish a DCDS activity code for our staff to use. It is "FDWP". Would it be too confusing for your staff to use this code when they are doing things like setting up the ECC? It would simplify things for us if we can establish the same code. Thanks, Sharon

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

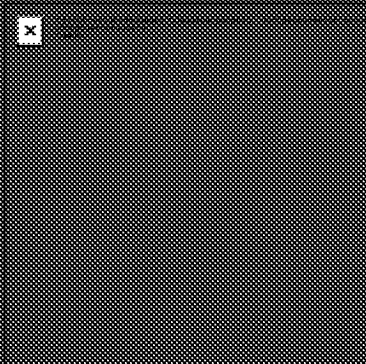

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

### Click a tweet to tweet it out:

The #MiBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> [www.mi.gov/MiBudget](http://www.mi.gov/MiBudget)

--> @OneToughNerd's #MiBudget includes \$72 million a year for Detroit Public Schools. It is time to act now --> [www.mi.gov/MiBudget](http://www.mi.gov/MiBudget)

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MiBudget [www.mi.gov/MiBudget](http://www.mi.gov/MiBudget)

**\*This attachment was updated 2/18/16**

\*See agenda below

**Requested By:**

DTMB Executive Staff

**Location:**

Ottawa Building  
Upper Level – Conference Room 4  
611 W. Ottawa Street  
Lansing, MI 48933

Call-in: [REDACTED]

Access code: [REDACTED]

**Security:**

Please have your State Employee ID showing at all times.

**Parking:**

Metered parking is available along Ottawa and Pine street.

**Briefing:**

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

**Agenda**

- 1) Kickoff – Brom Stibitz, Chief Deputy Director
- 2) Why you are here – Jean Ingersoll, Interim Chief of Staff
- 3) What you need to do (February 22, 2016 deadline) – Jean
- 4) What will be done for you – Jean
- 5) What's next – Jean
- 6) Public Information Reminder – Caleb Buhs, Public Information Officer
- 7) Questions and Answers - Group

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET  
LANSING

DAVID B. BEHEN  
DIRECTOR

February 18, 2016

**TO:** All DTMB Custodians of Correspondence Related to Flint

**FROM:** Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

**SUBJECT:** Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

**Microsoft 365 – Outlook (includes emails, calendar items) and OneDrive**

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

**Network Drives**

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians *do not* need to independently conduct a network drive search for the search terms below.

**Non-Network Drives – includes hard drives, desktop, and thumb/flash drives**

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

### **Paper Files**

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

### **Home Computer**

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

### **Conclusion**

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

### **Attachments**

- FOIA Checklist
- Attachment 1 – Search Guidance

## Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word*. For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

### Search Terms:

- |   |  |  |
|---|--|--|
| <input type="checkbox"/> "Legionnaire"                | <input type="checkbox"/> "Karegnondi"                | <input type="checkbox"/> "Pb" & "water"    |
| <input type="checkbox"/> "Legionella"                 | <input type="checkbox"/> "Genesee County Health      | <input type="checkbox"/> "KWA"             |
| <input type="checkbox"/> "boil water order" & "Flint" | Department"  | <input type="checkbox"/> "Flint" & "water" |
| <input type="checkbox"/> "coli" & "Flint"             | <input type="checkbox"/> "Flint" & "utilities"       |  |
| <input type="checkbox"/> "bacteria" & "Flint"         | <input type="checkbox"/> "Lead and Copper Rule"      |  |
| <input type="checkbox"/> "microb" & "Flint"           | <input type="checkbox"/> "Detroit Water and Sewerage |  |
| <input type="checkbox"/> "TTHM" & "Flint"             | Department" & "Flint"                                |  |
| <input type="checkbox"/> "Lead" & "Flint"             | <input type="checkbox"/> "DWSD" & "Flint"            |  |
| <input type="checkbox"/> "emergency" & "Flint"        | <input type="checkbox"/> "Flint River"               |  |

Search conducted on the email account of: \_\_\_\_\_

By (your name): \_\_\_\_\_

Date completed: \_\_\_\_\_

Please return this completed Checklist to DTMB Director's Office staff by  
Monday, February 22, 2016, at  
[DTMB@michigan.gov](mailto:DTMB@michigan.gov), or  
Directors Office, Cass Building, Second Floor

## APPENDIX 1 – Search Guidance

Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

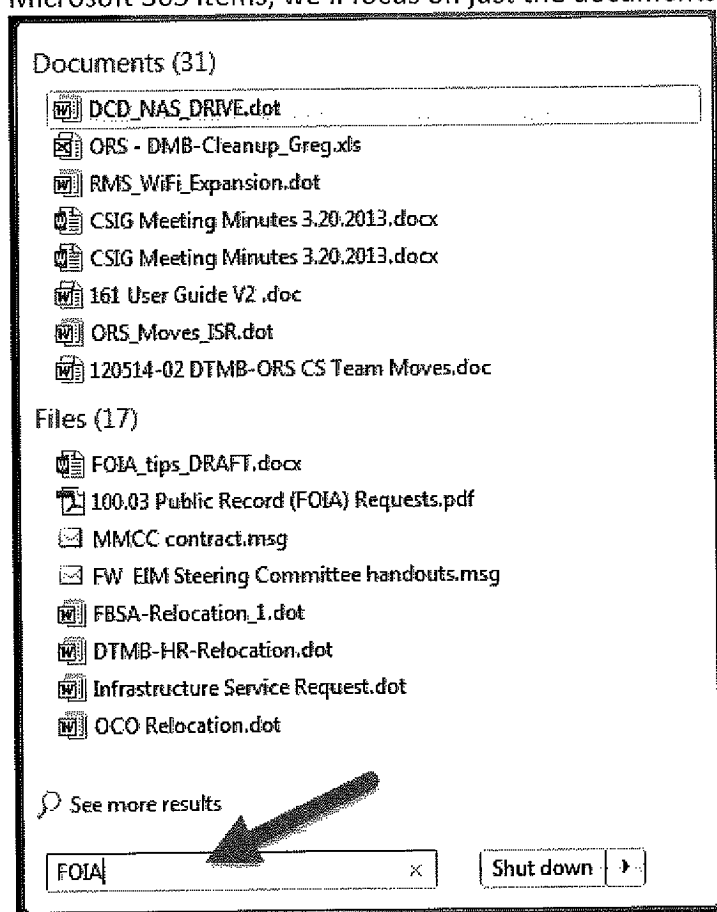

### Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

► All Programs

Search programs and files

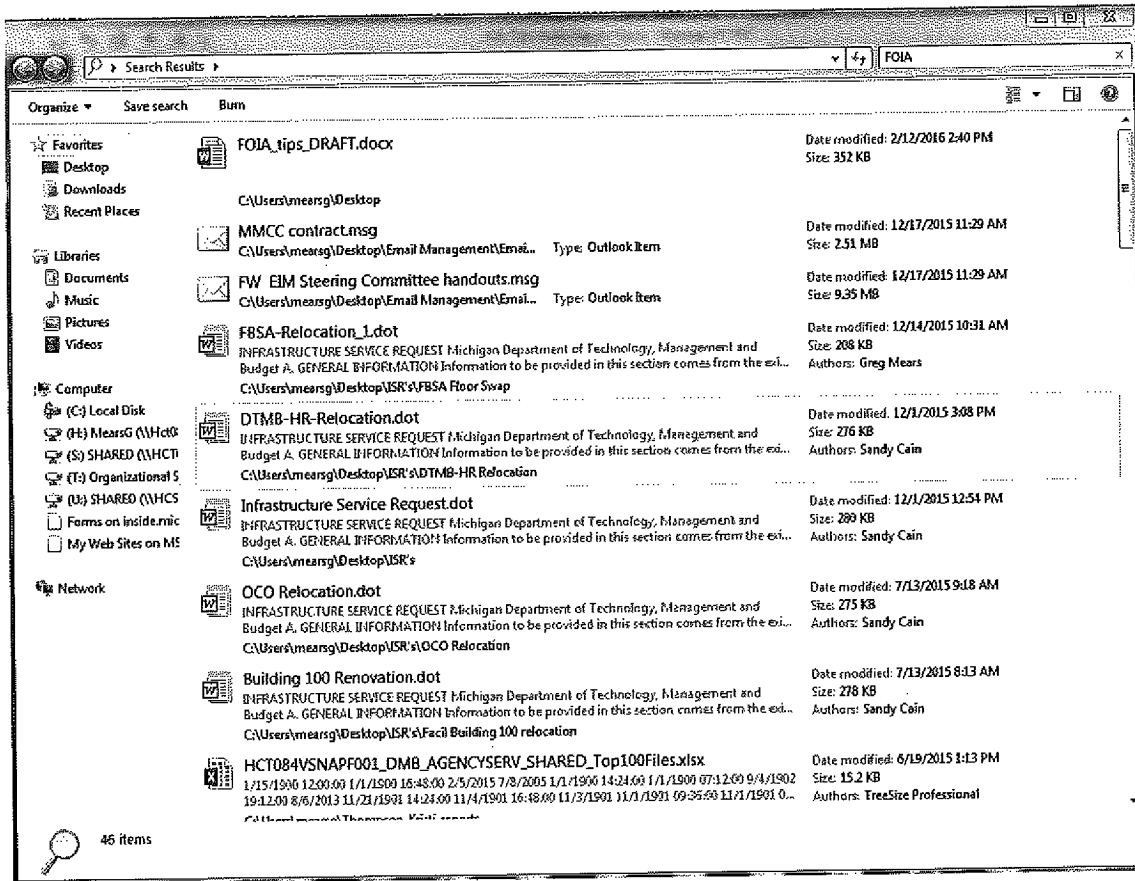

This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.

You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

**Subject:** RE: Flint Water Drive

Hey Everyone,

Thanks for all of the generosity with the water drive. We were able to find the money yesterday thank goodness! With all of the donations we were able to buy 25 cases of water from this office alone. All of the water for this drive is going to Flint public schools. The national guard passes out water to people's houses, but the school system gets very limited rations. Our donations will help so that whichever schools it goes to, can have more water to be able to give students.

Thank you all again for your participation in this cause!

-Tony

**Subject:** FW: Flint Water Drive

Hi Everyone,

I just wanted to let everyone know that my church is doing a **water drive for those in need in Flint**. For those who would like to participate, I figured rather than everyone trudging through the snow bringing jugs of water or cases of bottled water (If you would still like to do that you are welcome to, and I would get it to the right place.) we could just collect money and I would go to the store, buy it all, and deliver it because it would probably be easier for everyone that way. I will have an envelope being circulated around the office so everyone has an opportunity to help. By no means feel obligated to donate, but I definitely think it's a great cause that could impact the residents of Flint in a big way.

I'm sorry it is short notice because the drive is this **Wednesday January 13<sup>th</sup>**. I was hoping for those who wanted to help I could collect water/money **now through Wednesday**, and then after work Wednesday I could go purchase cases with the money collected.

If there are any questions please feel free to stop by and ask!

Thank you all,

Tony Whalen

**Subject:** RE: MiFI QA not working?

Ajay,

Please ensure you are coordinating with Jeremy. I had a discussion with Jeremy and explained that this is a project issue and he (as the PM) is the one that needs to stay on this and ensure it gets resolved. He will involve you if he needs to have something escalated from the client side. I want to ensure we aren't duplicating efforts.

David Price has already responded to Jeremy and he is pulling Brian (the required resource to fix the issue) to work on this. I have asked Jeremy to ensure both you and Mike are included on decisions and progress being made.

Thanks,

Yvonne

**Subject:** RE: MiFI QA not working?

Jeremy – I'm already on it. Trying to get Brian pulled back a bit from Flint work. Here is an email that I just sent to Deb Begalle:

Deb – FYI that Brian's full time assignment to Flint is having a direct impact upon the planned testing of VMS4.0/MiFI 3.0 next week (Tuesday-Wednesday). There is a problem with some data tables that needs to be sorted out before we can go to the QA environment, and only Brian and Scott Noldy can work this. Here is the issue per Scott Noldy:

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

Right now Brian doesn't think that he can work with Scott Noldy until next Tuesday (the day the testing was to begin). Moving the test date may be problematic b/c all the dates, places, and staff involved in testing and rollout have been set for months. The easiest solution to our problem is to pull Brian back from Flint enough to sort out this issue with Scott today or tomorrow. Can we make that happen?

Thanks.

**Importance:** High

Guys,

We have a problem with the MiFI QA push that needs immediate attention or we will have to delay next week's UAT, and potentially push this project release off again. As you can imagine, after last summer's debacle that is something we need to avoid at all costs.

Brian and Scott, can you tie in with Tom Summers and troubleshoot what is wrong? See below for a description of what we are seeing.

**Importance:** High

Guys,

We have a problem with the MiFI QA push that needs immediate attention or we will have to delay next week's UAT, and potentially push this project release off again. As you can imagine, after last summer's debacle that is something we need to avoid at all costs.

Brian and Scott, can you tie in with Tom Summers and troubleshoot what is wrong? See below for a description of what we are seeing.

**Subject:** RE: MiFI QA not working?

Ajay,

Please ensure you are coordinating with Jeremy. I had a discussion with Jeremy and explained that this is a project issue and he (as the PM) is the one that needs to stay on this and ensure it gets resolved. He will involve you if he needs to have something escalated from the client side. I want to ensure we aren't duplicating efforts.

David Price has already responded to Jeremy and he is pulling Brian (the required resource to fix the issue) to work on this. I have asked Jeremy to ensure both you and Mike are included on decisions and progress being made.

Thanks,

Yvonne

**Subject:** RE: MiFI QA not working?

Jeremy – I'm already on it. Trying to get Brian pulled back a bit from Flint work. Here is an email that I just sent to Deb Begalle:

Deb – FYI that Brian's full time assignment to Flint is having a direct impact upon the planned testing of VMS4.0/MiFI 3.0 next week (Tuesday-Wednesday). There is a problem with some data tables that needs to be sorted out before we can go to the QA environment, and only Brian and Scott Noldy can work this. Here is the issue per Scott Noldy:

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

Right now Brian doesn't think that he can work with Scott Noldy until next Tuesday (the day the testing was to begin). Moving the test date may be problematic b/c all the dates, places, and staff involved in testing and rollout have been set for months. The easiest solution to our problem is to pull Brian back from Flint enough to sort out this issue with Scott today or tomorrow. Can we make that happen?

Thanks.

**Subject:** RE: MiFI QA not working?

**Importance:** High

David,

Somehow our project team missed the important task of collaborating with DNR ArcGIS specialists to implement changes to the MiFI application. We really need someone from your team to help reconcile these changes immediately. We have UAT scheduled at the RAM Center next week and absolutely cannot go forward with testing for the VMS 4.0 project unless MiFI is working in QA. Every other task has been completed; this is our only hold up.

Please let us know how we can help get this done by COB tomorrow.

**Subject:** ATP - Not Urgent: MiFi QA not working?  
**Importance:** High

Hi Kalpana,

**\*\*\*\* Going forward – if I label an email to you with ATP in the Subject line, it means the email is not important and you can view it “as your time permits”. This will hopefully avoid you looking at emails from me that can wait.**

I will from time to time send you emails based on the fact you were closer to some of these projects than I. Please read the email below. I’m trying to understand how this could have happened so late in the project. Shouldn’t there have been a Story for data table updates? Also in an agile project, does anyone compare the stories (cards on the scrum board) to ensure everything promoted to the dev environment is accounted for in the QA environment?

Again, wanted to get your viewpoint on lessons learned and what process I can put in place for the PMs so this doesn’t get missed.

Thanks,

Yvonne

**Subject:** MiFI QA not working?

**Importance:** High

Donovan and I just tried to verify the MiFI QA environment (<http://iga.dnr.state.mi.us/MiFi/#>) is ready for testing, and neither of us have data in the map. I got the impression from this morning's scrum that we should be able to begin preparations for UAT next week. Did I miss something?

Update:

I just spoke with Scott and he will be meeting with Brian at 1:00. He is going through the SQL compare and narrowing down his questions for Brian. At this point Scott feels he will only need an hour or so of Brian's time as he just needs to understand the schema changes to the tables. I will update you again at 2:00.

Thank you,

Jeremy

**Subject:** RE: MiFI QA not working?

**Importance:** High

David,

Somehow our project team missed the important task of collaborating with DNR ArcGIS specialists to implement changes to the MiFI application. We really need someone from your team to help reconcile these changes immediately. We have UAT scheduled at the RAM Center next week and absolutely cannot go forward with testing for the VMS 4.0 project unless MiFI is working in QA. Every other task has been completed; this is our only hold up.

Please let us know how we can help get this done by COB tomorrow.

Thank you,

**Subject:** RE: MiFi QA not working?

Jason,

I was tasked with updating the dnrIFMAP (MiFI) database on our servers. When I went to do that it became apparent someone made modifications to feature classes using SQL Server tools and not ESRI tools. Columns that have been there for a long time are now gone or renamed. I need Brian to sit down with me to review these columns and the data that is currently in them so we don't lose data.

With Brian assisting in the Flint water situation he is not available to dedicate time to this until Tuesday.

**Importance:** High

Guys,

We have a problem with the MiFI QA push that needs immediate attention or we will have to delay next week's UAT, and potentially push this project release off again. As you can imagine, after last summer's debacle that is something we need to avoid at all costs.

Brian and Scott, can you tie in with Tom Summers and troubleshoot what is wrong? See below for a description of what we are seeing.

**Subject:** RE: Flint Assistance Offers and SEOC

On this same topic, David and I had a conversation with the Governor's office after our post-EMT meeting this morning. They have agreed that as a general rule, before we do work on anything, it must be approved by the SEOC.

Further, they have agreed that if there is something urgent that the Governor or LG's office needs to get done prior to (or in lieu of) the SEOC approving it, these requests should all come in through me. Beth Clement was going to share this message with Gov's office and LG's office staff.

Procurement should have the new form up today for vendors to use as well. We can share that with you once it is working.

**Subject:** RE: Quick Question

Sharon,

We communicated this to staff that will work on FDWP. As of now there are really no hours to report. Everything has been just a couple minutes of activity that has been done as needed. If you believe there is activity that we have not recorded correctly as FDWP let me know and I will have the activity corrected.

We really don't anticipate recording many if any hours.

Thanks,  
Dan Sellepack

**Subject:** Quick Question

We are setting up a coding structure to account for all of the costs incurred in the response to the Flint water situation. We already establish a DCDS activity code for our staff to use. It is "FDWP". Would it be too confusing for your staff to use this code when they are doing things like setting up the ECC? It would simplify things for us if we can establish the same code. Thanks,  
Sharon

**To:** Miller, Lynda (DTMB)  
**Cc:** Rosales, Manny (DTMB)  
**Subject:** DCDS Code for Flint Water

**Importance:** High

Hello Lynda,

I need DCDS code FDWP added to TKU 832. I looked in the DCDS PPE Activity listing and the activity description is Flint Drinking Water however the TKU CD Description is Mich Public Safety Comm System.

I'm not sure which description is used.

Please contact me if you have questions.

Thank you,

Yvonne

**Subject:** Meeting

Manny,

Per our discussion, I don't see anyone from your area invited to this meeting tomorrow.

**Requested By:**

DTMB Executive Staff

**Location:**

Ottawa Building

Upper Level – Conference Room 4

611 W. Ottawa Street

Lansing, MI 48933

**Security:**

Please have your State Employee ID showing at all times.

**Parking:**

Metered parking is available along Ottawa and Pine street.

**Briefing:**

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

**Agenda**

- 1) Kickoff – Brom Stibitz, Chief Deputy Director
- 2) Why you are here – Jean Ingersoll, Interim Chief of Staff
- 3) What you need to do (February 22, 2016 deadline) – Jean
- 4) What will be done for you – Jean
- 5) What's next – Jean
- 6) Public Information Reminder – Caleb Buhs, Public Information Officer
- 7) Questions and Answers - Group

**SOM Meeting Contact:**

Janelle Longanbach

**Subject:** RE: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint

**Importance:** High

Please note the attached document has been updated. Please discard the previous version. A paper copy will be provided to you at the meeting.

All DTMB  
Custodians of Co...

-----Original Appointment-----

**From:** Longanbach, Janelle (DTMB) **On Behalf Of** DTMB-Directors-Office

**Sent:** Wednesday, February 17, 2016 1:21 PM

**Subject:** Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint

**When:** Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).

**Where:** Ottawa Building - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

*Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.*

<< File: All DTMB Custodians of Correspondence Related to Flint.pdf >>

**\*This attachment was updated 2/18/16**

\*See agenda below

**Requested By:**

DTMB Executive Staff

**Location:**

Ottawa Building  
Upper Level – Conference Room 4  
611 W. Ottawa Street  
Lansing, MI 48933

Call-in: 866-390-1828

Access code: 1842654

**Security:**

Please have your State Employee ID showing at all times.

**Parking:**

Metered parking is available along Ottawa and Pine street.

**Briefing:**

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

## **Agenda**

- 1) Kickoff – Brom Stibitz, Chief Deputy Director
- 2) Why you are here – Jean Ingersoll, Interim Chief of Staff
- 3) What you need to do (February 22, 2016 deadline) – Jean
- 4) What will be done for you – Jean
- 5) What's next – Jean
- 6) Public Information Reminder – Caleb Buhs, Public Information Officer
- 7) Questions and Answers - Group

## **SOM Meeting Contact:**

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET  
LANSING

DAVID B. BEHEN  
DIRECTOR

February 18, 2016

**TO:** All DTMB Custodians of Correspondence Related to Flint

**FROM:** Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

**SUBJECT:** Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

**Microsoft 365 – Outlook (includes emails, calendar items) and OneDrive**

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

**Network Drives**

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians *do not* need to independently conduct a network drive search for the search terms below.

**Non-Network Drives – includes hard drives, desktop, and thumb/flash drives**

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

### **Paper Files**

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

### **Home Computer**

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

### **Conclusion**

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

### **Attachments**

- FOIA Checklist
- Attachment 1 – Search Guidance

## Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word*. For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

### Search Terms:

- |   |  |  |
|---|--|--|
| <input type="checkbox"/> "Legionnaire"                | <input type="checkbox"/> "Karegnondi"                | <input type="checkbox"/> "Pb" & "water"    |
| <input type="checkbox"/> "Legionella"                 | <input type="checkbox"/> "Genesee County Health      | <input type="checkbox"/> "KWA"             |
| <input type="checkbox"/> "boil water order" & "Flint" | Department"  | <input type="checkbox"/> "Flint" & "water" |
| <input type="checkbox"/> "coli" & "Flint"             | <input type="checkbox"/> "Flint" & "utilities"       |  |
| <input type="checkbox"/> "bacteria" & "Flint"         | <input type="checkbox"/> "Lead and Copper Rule"      |  |
| <input type="checkbox"/> "microb" & "Flint"           | <input type="checkbox"/> "Detroit Water and Sewerage |  |
| <input type="checkbox"/> "TTHM" & "Flint"             | Department" & "Flint"                                |  |
| <input type="checkbox"/> "Lead" & "Flint"             | <input type="checkbox"/> "DWSD" & "Flint"            |  |
| <input type="checkbox"/> "emergency" & "Flint"        | <input type="checkbox"/> "Flint River"               |  |

Search conducted on the email account of: \_\_\_\_\_

By (your name): \_\_\_\_\_

Date completed: \_\_\_\_\_

Please return this completed Checklist to DTMB Director's Office staff by  
Monday, February 22, 2016, at  
[DTMB@michigan.gov](mailto:DTMB@michigan.gov), or  
Directors Office, Cass Building, Second Floor

## APPENDIX 1 – Search Guidance

Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

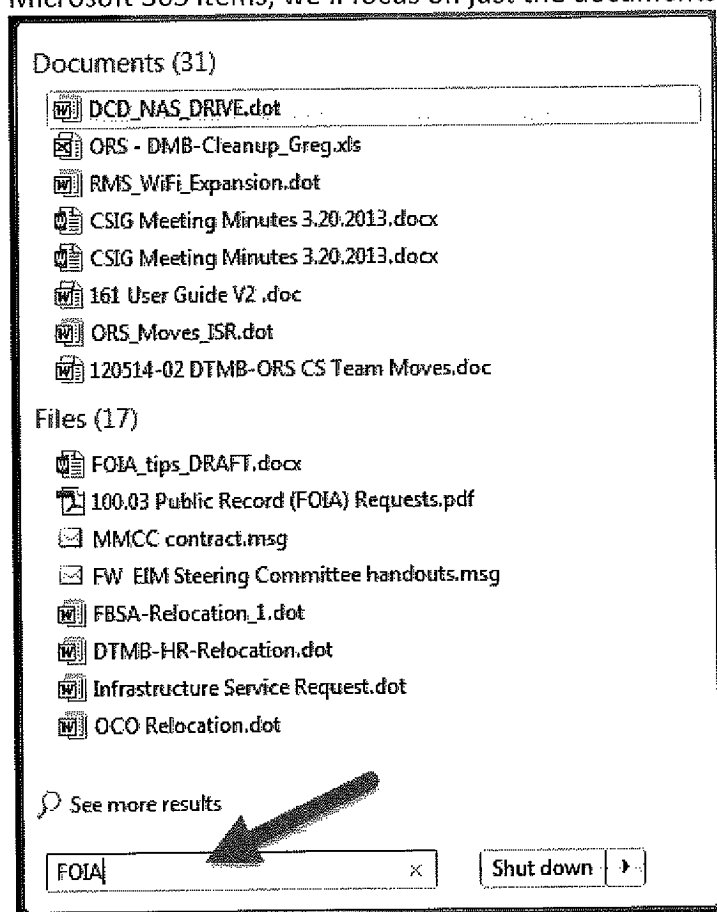

### Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

► All Programs

Search programs and files

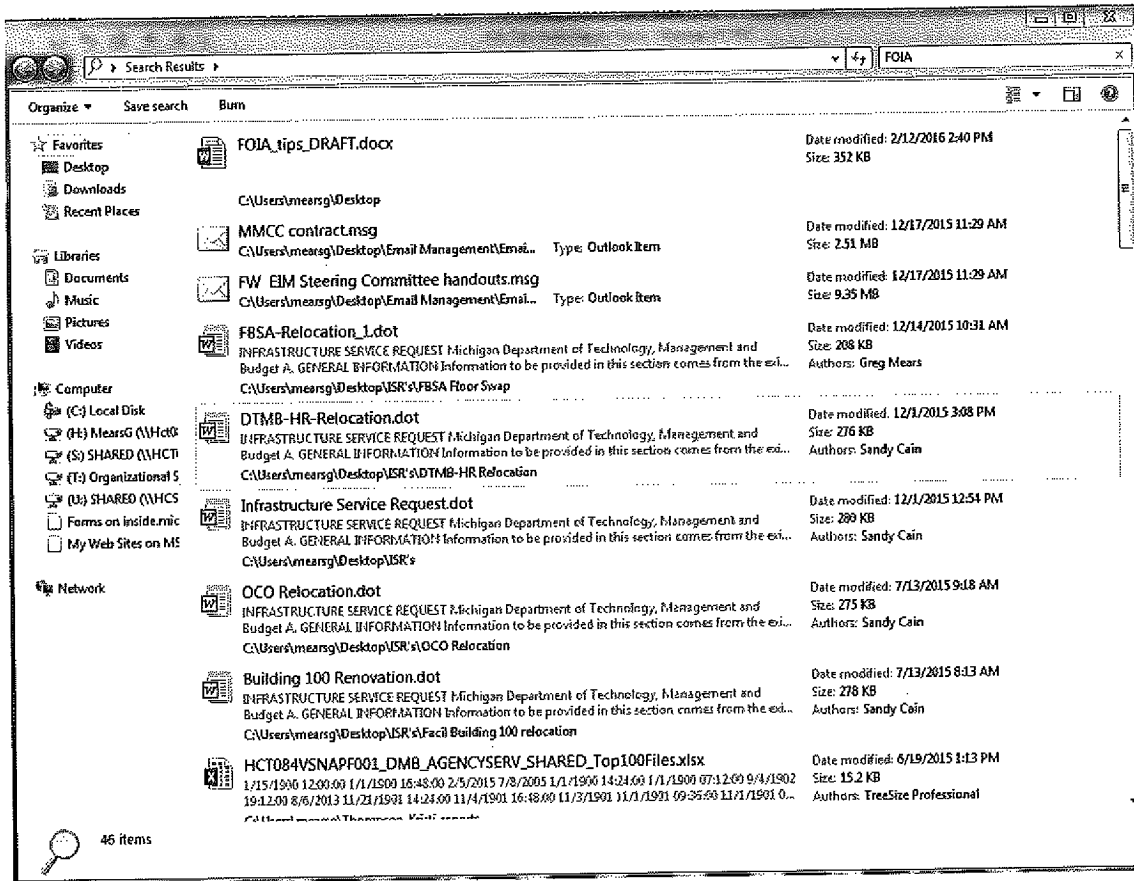

This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.

You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

**To:** Maher, Sharon (DEQ); Rosales, Manny (DTMB)  
**Subject:** RE: Quick Question

Sharon,

We communicated this to staff that will work on . As of now there are really no hours to report. Everything has been just a couple minutes of activity that has been done as needed. If you believe there is activity that we have not recorded correctly as FDWP let me know and I will have the activity corrected.

We really don't anticipate recording many if any hours.

Thanks,  
Dan Sellepack

**Subject:** Quick Question

We are setting up a coding structure to account for all of the costs incurred in the response to the Flint water situation. We already establish a DCDS activity code for our staff to use. It is "FDWP". Would it be too confusing for your staff to use this code when they are doing things like setting up the ECC? It would simplify things for us if we can establish the same code. Thanks, Sharon

Michigan State Employee banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJKK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

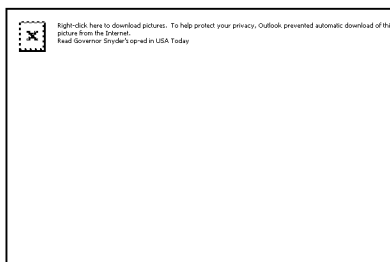

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click [here](#) to read the Governor's full op-ed.

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

**Subject:** Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. [Administrative Policy 200.37](#) establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

**Subject:** "Flint residents should not have to pay for water they cannot drink"

## Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

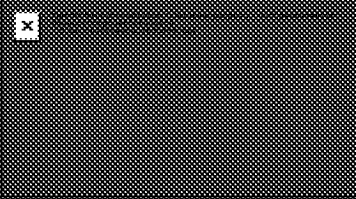

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

 Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.  
[Learn more about the \\$30 million request](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). Facility Notification

# Flint Drinking Water

---

## Details:

An advisory has been issued by the City of Flint asking water customers within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the identified area. DTMB continues to offer tap and bottled water in public areas on each floor as options in the Flint State Office Building.

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

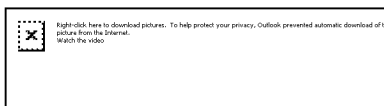

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

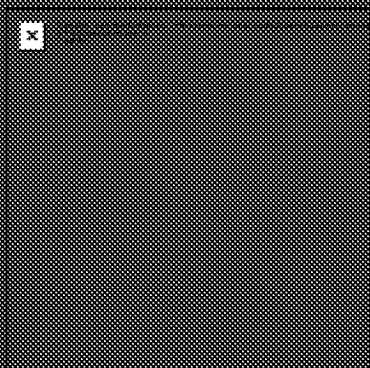

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. [Click here to learn more about the top 6 takeaways from the](#)

## VIDEO: How volunteers are helping Flint

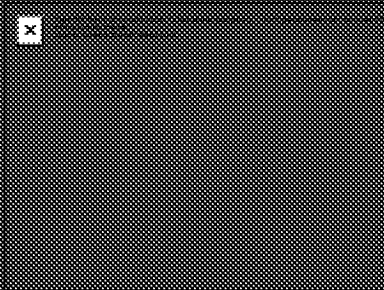

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

[Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.](#)

## LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. [Click here to listen to the call.](#)

**Subject:** The Gov. Snyder's Budget Proposal

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.  
DTMB Header 02/22/16

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at [behend@michigan.gov](mailto:behend@michigan.gov).

Thank you again for all the good work you do. I hope you have a great week ahead.

David

**Subject:** RE: Downtown Office Space

Attached is the spreadsheet showing each room as well as an overall recap. Looks like 1N has a room that is only used 14% of the time. It's the William Cudlip room and holds up to 10. There is one on 2N that is only used 7% of the time called the Stephen Nisbet but Outlook doesn't show how many it holds.

The problem is that I don't know if these rooms are being charge to a specific agency or if they are "owned" by DTMB and the charges are spread out the building occupants. Maybe Kris Garrison can help us determine which rooms belong to DTMB so you can say you are taking it off the Outlook calendar??

Yes, the Flint water was the demise of our director which is very unfortunate because he's a great guy and truly had good intentions for this department. In my opinion, I think he decided to take the heat off the Gov by stepping down....he was planning to retire when the Gov was done anyway...there are a few appointed positions by him that I'm assuming will be changing soon....I have a feeling there are going to be a LOT of changes in the near future....it will be interesting to see who the Gov appoints as the permanent director...

**Subject:** Flint needs us

Troy,

Are you as outraged as I am by the failings that caused lead contaminated water in Flint?

Responsibility for this devastating public health emergency lies with the State of Michigan, and **the people of Flint deserve better from their government.**

That is why I'm working hard in Washington to right this wrong for the people of Flint, especially its children, who are most vulnerable to the effects of lead exposure. We must ensure this problem is fixed both in the short and long-term.

**I urge you to stand with me in support of the Flint community by donating your time or money.**

Take a look at a few of the ways you can give back:

- For financial donations, visit [www.flintkids.org](http://www.flintkids.org) or call 810-767-8279 to contribute to the Community Foundation of Greater Flint.
- The United Way of Genesee County is accepting donations for the purchase of filters, bottled water, emergency support services and prevention efforts. Click [here](#) to donate.
- If you are in the Flint, volunteers are also needed to participate in water response teams. Please consider volunteering your time with the Red Cross at 1401 S. Grand Traverse, Flint. Click [here](#) for shift times.

**Flint needs us now more than ever, and I know the everyone in Michigan will join together to do all we can to help the City of Flint and its residents recover from this catastrophe.**

Thank you,

Gary

Request for Space

	A	B	C	D	E
		Requestor	#618	Current Location	number of people
1	Agency				
2	Internal audit	Fran wresinski	Email request	Romney, Grand Tower, Ottawa, Grand View Plaza, Con Hall	70
3	Education	James Shilling Guerrant	Yes	S. Washington	40
4	AS-MDOC/MDOT/MSP/DMVA	Kirt Berwald	No	Hannah 1st, S. Washington	65
5	Infrastructure & Operations	David Bates	Yes	OPS, Westshire, Hannah	650
6	AS-LARA/DIF/MDOS	Stu Willard Buckwater	Yes	Phoenix-3rd floor	108

**Request for Space**

	F	G	H	I	J	K
	Requested space	Recommendation	Funding Approved	Priority	Comments	Next Steps
1.					Request via email to Mike. Internal Audit wants to consolidate staff several locations in the Romney Building (preferred) or another state owned building downtown. Currently, there is not space available in State owned space to accommodate this request. Troy Spitzley has advised Fran of this and suggested leasing space at Capitol Tower which is located across the street from the Romney Building. Fran will advise Jeff and ask about leasing option.	Troy and Fran have a meeting scheduled on 2/18 to talk about a partial consolidation of staff in Romney as a short term solution and plan for a long term solution.
2	Romney or other state owned space.	Leased location (Capitol Tower)	Partially (Building Occupancy cost only)		Education believes they had an agreement with DTMB that AS-MDOC would vacate their space in the Hannah Bldg. 1st floor for Education to move people from a leased location into state owned space in exchange for allowing CEPI to remain in Education space in the Library. This move allows Education to have all their staff in one location and eliminate S. Washington lease (\$112,054 annually). Education cannot move into Hannah until AS-MDOC moves out. AS-MDOC does not have funding to move.	
3	Hannah 1st floor	Hannah 1st floor (West)	No		AS-MDOC agreed to relocate from Hannah 1st to a leased location (no state owned available) so that Education could move their staff from a leased location into the Hannah Building. However, AS-MDOC does not have funding and feel they should not have to pay for the move since they are leaving to accommodate Education. Education does not feel they should pay to move AS-MDOC because they would have moved into the Library if not for CEPI.	Need determination on funding for the AS-MDOC part of this move.
4	Downtown	Leased location (downtown)	No		I & O wants consolidate staff from several locations into one location. The consolidation would free space in OPS, 1st floor, Hannah 1st floor and eliminate Westshire lease (\$287,640 annually). Programming documents have been completed and are still being reviewed. I & O needs approx. 68,000 sq. ft. of space to consolidate staff. Currently, there isn't any space in state owned space to accomplish this so we will need to do an RFP for leased space.	Who is funding this move?
5	Lansing	Leased space	No		Recommend moving AS to the Hannah Bldg. space vacated by Telecom when I&O consolidates staff. This would allow AS-LARA to be close to their client and eliminate Phoenix Bldg. lease (\$130,036 annually). This move is dependent on I & O consolidating their space.	Review programming documents. Determine funding source.
6	Lansing	Hannah 1st (East)	No			Determine if I & O will be able to fund project to consolidate staff and move Telecom to free up space for AS-LARA.

## Request for Space

	A	B	C	D	E
7	Treasury	Ann Luepnitz		OPS	Unknown
8	AS-Lottery/AG/MSHDA/Landbank	Carmen Redwine	No (Con Hall/Mason swing space)	Hollister-1st floor	22
9	Field Services	Vickie Myer	No (Con Hall/Mason swing space)	Hollister-2nd floor	40
10	TIA	Teri Martin	Yes	Lansing, One Michigan, Cadillac Place, Saginaw	110
11	MSP	Tim Bolles	Email request	MSP HQ	2
12	DHHS	Patty Curtis	Email Request	Flint State Office Building	20

Request for Space

	F	G	H	I	J	K
					Treasury is expanding their operations and would like additional space in the OPS Center. Additional space would be available for Treasury if DTMB - I & O consolidates staff and relocates to a new location.	Determine if I & O will be able to fund project to consolidate staff and move out of OPS.
7	OPS		No		AS was moved to the Hollister Building swing space as part of the Con Hall/Mason Bldg. project. AS was supposed to move to the Mason building upon its completion. That did not happen and the Hollister Building rental rate has increased to \$13/sq. ft. since then. The rate is too high for that property and AS wants nicer space. Capitol Tower has new space available for \$12/sq. ft. Who should fund this move since AS' was originally part of the Mason Building moves?	
8	Downtown	Capitol Tower	No		Field Services was moved to the Hollister Building swing space as part of the Con Hall/Mason Bldg. project. Field Services was supposed to move to the Mason building upon its completion. That did not happen and the Hollister Building rental rate has increased to \$13/sq. ft. since then. The rate is too high for that property and Field Services wants nicer space. Capitol Tower has new space available for \$12/sq. ft. Who should fund this move since Field Services was originally part of the Con Hall/Mason Building moves?	Need determination on funding.
9	Downtown	none	No			Need determination on who is funding.
10	Lansing	Leased location	No		UIA would like to consolidate UIA from around the state into one location.	Waiting for approval from the Governor's Office to consolidate staff in Lansing.
11	Romney or Downtown	None	?		As part of the CAR project, MSP is moving their headquarters to the GOB at the Secondary Complex. MSP is requesting two workstations downtown, preferably in the Romney building so that Colonel and Legislative Liaisons have a place to use while working downtown.	Trying to locate available suitable space for MSP. Will need to confirm that MSP understands they will need a BOA on the final space selected.
12	Flint State Office Building	Flint State Office Building	Yes		The DHHS staff in Flint is continually growing. Since Civil Rights moved out of the 5th floor, DHHS has requested to take over the space.	This is delayed due to additional people needing to be in the building to respond to Flint's Water Situation. The space is accounted for and redesigned but the project is on hold until the space frees up.

Request for Space

	A	B	C	D	E
13	LARA	Ethan Thelen	Email request	Flint State Office Building	2
14					
15	<b>Note:</b> AS-MDOC/MDOT/MSP/DMVA and Education moves are dependent on one another.				
16					
17	<b>Note:</b> Infrastructure & Operations, AS-LARA, and Treasury moves are dependent on one another				

Request for Space

	F	G	H	I	J	K
						This is delayed due to additional people needing to be in the building to respond to Flint's Water Situation. The space is accounted for and redesigned but the project is on hold until the space frees up.
13	Flint State Office Buildnig	Flint State Office Building	Yes		LARA has brought more staff to Flint from another location and would like to add 2-3 additional stations to their area.

This was for the MCL violation of the city of Flint and you could not drink the water.

The decision was made to provide water for the tenants in the visitors in the building until further announcement in the city and was released.

Please let me know if you have any further questions

Michael Noonan

Marsha,

Kurt Warner, MDHHS Bureau of Organizational Services Director, has a procurement card and will need to use it for emergency purchases related to the Flint water crisis (e.g. bottled water). His current transaction limit is set at \$25,000 and cycle limit at \$100,000. We are requesting that both transaction/cycle limits be increased as high as possible given the urgency of the situation. Please advise.

Thank you,

Terri,

The request for an emergency increase to make purchases related to the Flint water crisis is approved. The limits on the emergency card for Dept of Human Svcs (Kurt Warner) have been increased to \$50,000 (single transaction limit) and \$200,000 (cycle limit).

Please ensure that this email is printed and attached to the transaction detail(s) in which these purchase appear.

Let me know if you have any questions or need anything else.

**Subject:** URGENT - PLEASE CALL ME ON EMERGENCY PURCHASES

**Importance:** High

Due to the declared emergency in Flint, I need to make an emergency purchase of laboratory water sample bottles. The vendor is not registered in MAIN and I don't have time to deal with that process. Can we get special authorization to use the PCard? The order(s), may be multiple, will be upwards of \$40,000 each.

Please call me. Thanks.

Michigan State Employees banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJJK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

**Subject:** SEOC Billing Index  
**Importance:** High

I am trying to make the billing process easier for everything happening in Flint. When we had the Detroit flooding issue we set up billing index's for the emergency. We used 45405 for MB and 90050 for IT, can we set up a billing index for Flint?

If it doesn't matter I need to know that because we are trying to track things and I wanted to make sure we are on the same page.

Thanks

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents. Water filters (Walmart is to donate them)

Also, can you tell us if you've placed any other orders related to the Flint water crisis. Printing, Temporary Fuel Cards, Rental agreement for warehouse space, 30 tablets

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it. The funds will be taken out of DHHS's supplemental funding to pay for 72 trucks at \$5,538.12 a truck, total cost \$398,744.64

**Subject:** RE: PCard Transactions

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents. Water filters (Walmart is to donate them)

Also, can you tell us if you've placed any other orders related to the Flint water crisis. Printing, Temporary Fuel Cards, Rental agreement for warehouse space, 30 tablets

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it. The funds will be taken out of DHHS's supplemental funding to pay for 72 trucks at \$5,538.12 a truck, total cost \$398,744.64

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents. Water filters (Walmart is to donate them)

Also, can you tell us if you've placed any other orders related to the Flint water crisis. Printing, Temporary Fuel Cards, Rental agreement for warehouse space, 30 tablets

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it. The funds will be taken out of DHHS's supplemental funding to pay for 72 trucks at \$5,538.12 a truck, total cost \$398,744.64

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents.

Also, can you tell us if you've placed any other orders related to the Flint water crisis.

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it.

**To:** Stansfield, Marsha (DTMB) <[StansfieldM@michigan.gov](mailto:StansfieldM@michigan.gov)>  
**Subject:** RE: Emergency Cards for Guard 8 and Guard 9

It will be quicker and easier to just get new cards. We have soldiers from all over the state and I don't have their home of record. They were using emergency cellular telephones when they worked in Flint, etc. For liability/security purposes I would prefer to close the accounts and reissue a new credit card.

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

Hi Nate,

One of our staff is heading to Flint for a week and is requesting a travel advance. I am checking with accounting on whether we can do that, but the alternative is for her to take one of our emergency procurement cards. I want to make sure the cards still have no vendor restrictions, which is how they were set up originally. Are you able to verify that? These are the 2 cards assigned to Dr. Jacqueline Scott. Also please let me know the current dollar limits (transactions and total) Please let me know asap.

**Subject:** FW: DCH Low-Usage Audit for Procurement Card

Hello Nate,

Dr. Scott asked me to reply to you. We are currently busy working on the response to the Flint water emergency. Dr. Scott has been assigned 2 emergency procurement cards to keep and hold until we need them in response to some emergency event. The purpose is that sometimes we need to respond to situations where we cannot wait for the usual procurement process. Since we are now activated for response to Flint we are using the emergency pcards. Please ask Tory Richards or Rita Hotchkin if you need more information as they are aware of this set up.

**Subject:** FW: DCH Low-Usage Audit for Procurement Card

Hello Nate,

Dr. Scott asked me to reply to you. We are currently busy working on the response to the Flint water emergency. Dr. Scott has been assigned 2 emergency procurement cards to keep and hold until we need them in response to some emergency event. The purpose is that sometimes we need to respond to situations where we cannot wait for the usual procurement process. Since we are now activated for response to Flint we are using the emergency pcards. Please ask Tory Richards or Rita Hotchkin if you need more information as they are aware of this set up.

Good afternoon,

Your Procurement Card appears on a low-usage audit for having 6 or fewer charges over the last 6 months.

Please respond and indicate you want me to close your card, or email back a justification for keeping the card active. Please respond no later than Thursday, January 28<sup>th</sup>. Thank you.

**Subject:** P-card for Hotel

Hi Trisha –

We have an employee that is assisting with supply deliveries in the City of Flint in response to the water emergency. Due to the long days he has been working, he requested a hotel room. MSP-EMHSD had originally reserved rooms for state employees with direct pay from MSP. However, when we contacted the hotel they did not have any “state” rate rooms available. Hotels in the area have been at full capacity due to the emergency and visitors coming into the area.

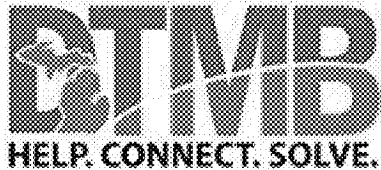

This morning I was able to reserve a room using Chris Christensen’s P-card at another hotel in the area for Bill Selleck with Vehicle and Travel Services. Bill will be staying Thursday, January 28, 2016 through Saturday, February 6.

If we continue to have drivers requesting hotel rooms, I will work with your office to obtain hotel cards for their use.

Thank you for your help!

Jeanette

**Subject:** Flint Water Crisis - P-Card limit

Hi Trisha,

We have been helping out with the Flint water crisis. We have used our drivers and trucks. They were still in need of more trucks and drivers, so I was asked to rent 3 24' straight trucks with lift gate to help out in Flint. Because of the urgency to get these trucks rented and be available for Flint, I put them on my P-Card. I do not have an end date of when we will be done with these, so I will need an increase to both my single limit and my cycle limit to be able to pay for these.

Kristi has approved this as well.

Thank you for all of your help Trisha!

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

**Subject:** New/Replacement/Expiring PCard(s)

Sue,

I'm putting a new PCard(s) for Ian Burton, Kristin Taylor, Steven Caryl, Denise Kinsinger, and Jerek Gutierrez in ID mail today. Let me know if you do not receive the card(s). Thank you.

☒ This PCard(s) is a new request for a card(s) or a replacement card(s).

The card must be activated before using. The activation code can be found in WORKS under Administration, Organization, Users looking in the Activation ID column.

☐ This PCard(s) is for a card(s) that is due to expire.

The card must be activated before using. The activation code can be found in WORKS under Administration, Organization, Users looking in the Activation ID column.

Remind the cardholder(s) that if the card number is on file with any vendors, it will need to be updated with the new expiration date and CVV number (from the back of the card). The old card is active until the end of the month shown as the card's expiration date, but the new card can be activated at any time before then. The old card should be disposed of according to your agency's regulations.

**Subject:** Departmentwide Exemption Request - Flint Crisis  
**Attachments:** Departmentwide Exemption Request - Flint Crisis.doc

**Importance:** High

Marsha, attached is the **draft** of the exemption request for the cardholders participating on the response team DNR is planning to submit to you for approval. Please look it over and let me know if I need to add anything further to the business justification. I want to make sure it is okay because this will be signed by Gary Hagler, Chief, Law Enforcement Division. He is the State Emergency Operations Center (SEOC) representative and the DNR/DEQ Emergency Coordinator. All purchasing for the Flint water emergency is approved by him.

I will be attaching an initial list of cardholders and their 4-digit card number, and as additional cardholders come on board, I will send you their name and card number. The cardholder will receive a copy of the exemption with a cc to their reconciler instructing that a copy of this exemption be attached to the documentation of each cycle they are under the emergency card. Currently there are five divisions of the DNR involved in this endeavor.

In looking at the names of staff that will be making purchases most are Forest Resources staff who are already fall under an exemption. Because this unfortunately is a man-made emergency, would you prefer the FRD staff be listed under this request or is the existing one for them enough?

As soon as I hear back from you, I'll get this to Chief Hagler for his signature. Thanks.

**Subject:** Emergency PCard Increase  
  
**Importance:** High

Hi Marsha,

I will be increasing the limit on the PCard assigned to Candra Wilcox to Emergency – STL: \$50,000 per transaction / \$100,000 per cycle. She may be using her card for emergency purchases associated with the declared emergency in Flint. The charges may be to purchase necessary gift cards for residents to participate in water sampling inside their homes, although we are working on donations of the gift cards, donations may or may not cover all of the expenses.

I have instructed Candra to call Bank of America prior to any large purchase to ensure the transaction is not denied. If there are additional codes associated with her card you need to add, please let me know.

I will be out of town from February 19<sup>th</sup> to the 29<sup>th</sup>. Nichole Churches will be handling any procurement issues while I am away, although Nichole does not have administration rights in WORKS and may be contacting you if assistance is needed.

Please let me know if you need further information. Thank you for your assistance.

Tara,

How long do you need the exemption for (trying to decide if an email is sufficient or an exemption form needs to be completed)? Is she only purchasing gift cards? Do you anticipate her purchasing \$50,000 worth of gift cards at one time? Why would this need to be in an emergency profile if purchasing gift cards?

Marsha

Tara,

Per our conversation please use the following language in the exemption request:

The cardholder will maintain a spreadsheet detailing the number of each card purchased from each vendor, the denomination of the cards, the name or identifier of who received the card, reason and date the card was given. The spreadsheet will be attached to the transaction detail report in which the transaction appears as documentation and tracking.

Let me know if you have any questions.

Marsha

**Subject:** RE: Emergency PCard Increase

Tara,

How long do you need the exemption for (trying to decide if an email is sufficient or an exemption form needs to be completed)? Is she only purchasing gift cards? Do you anticipate her purchasing \$50,000 worth of gift cards at one time? Why would this need to be in an emergency profile if purchasing gift cards?

Marsha

**Subject:** Emergency PCard Increase  
**Importance:** High

Hi Marsha,

I will be increasing the limit on the PCard assigned to Candra Wilcox to Emergency – STL: \$50,000 per transaction / \$100,000 per cycle. She may be using her card for emergency purchases associated with the declared emergency in Flint. The charges may be to purchase necessary gift cards for residents to participate in water sampling inside their homes, although we are working on donations of the gift cards, donations may or may not cover all of the expenses.

I have instructed Candra to call Bank of America prior to any large purchase to ensure the transaction is not denied. If there are additional codes associated with her card you need to add, please let me know.

I will be out of town from February 19<sup>th</sup> to the 29<sup>th</sup>. Nichole Churches will be handling any procurement issues while I am away, although Nichole does not have administration rights in WORKS and may be contacting you if assistance is needed.

Please let me know if you need further information. Thank you for your assistance.

Thanks, Brittany. I have a cardholder who discovered fraud on his card yesterday. He called the bank and will be receiving a new card. When Scott Lakowky's card arrives, could you please give me a call or drop me an e-mail and I will walk over and get it. He is currently here in Lansing on DNR's Emergency Management Response Team for the Flint water crisis. He needs his card while he is here on assignment. I told him I would get it to him as soon as I could.

Thanks.

**Subject:** New/Replacement/Expiring PCard(s)

Sue,

I'm putting a new PCard(s) for Ian Burton, Kristin Taylor, Steven Caryl, Denise Kinsinger, and Jerek Gutierrez in ID mail today. Let me know if you do not receive the card(s). Thank you.

☒ This PCard(s) is a new request for a card(s) or a replacement card(s).

The card must be activated before using. The activation code can be found in WORKS under Administration, Organization, Users looking in the Activation ID column.

☐ This PCard(s) is for a card(s) that is due to expire.

The card must be activated before using. The activation code can be found in WORKS under Administration, Organization, Users looking in the Activation ID column.

Remind the cardholder(s) that if the card number is on file with any vendors, it will need to be updated with the new expiration date and CVV number (from the back of the card). The old card is active until the end of the month shown as the card's expiration date, but the new card can be activated at any time before then. The old card should be disposed of according to your agency's regulations.

## Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*.

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

---

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

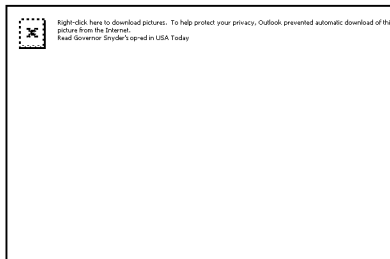

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click [here](#) to read the Governor's full op-ed.

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

**From:** Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>  
**Sent:** Tuesday, January 26, 2016 8:39 AM  
**To:** Stansfield, Marsha (DTMB)  
**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. [Administrative Policy 200.37](#) establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

**Sent:** Tuesday, January 26, 2016 8:57 AM  
**To:** Christensen, Chris (DTMB)  
**Subject:** RE: Flint PCard Purchases

Chris,

The DHHS Procurement Professional that Natalie sits on a team with requested the information. Since the person is asking for PCard related information, it is something that I would provide as the Statewide Procurement Card Administrator.

From: Christensen, Chris (DTMB)  
Sent: Monday, January 25, 2016 7:09 PM  
To: Stansfield, Marsha (DTMB) <[StansfieldM@michigan.gov](mailto:StansfieldM@michigan.gov)>  
Subject: RE: Flint PCard Purchases

Marsha,

We should talk about this, why you are having to provide that information to them. I mean it's very nice of you, it's just more work for you. All of the information is in the MICIMS program and if they go through the SEOC finance Chief Penny Berger she could give them all of this information. I have attached an example of the one of the purchases from my p-card.

Additionally because the information is already there I have a difficult time duplicating the efforts that we are doing at the SEOC.

Please let me know your thoughts

Thanks,

Chris Christensen  
Director of Infrastructure Protection  
Office: (517) 241-2188

Hi Nate,

One of our staff is heading to Flint for a week and is requesting a travel advance. I am checking with accounting on whether we can do that, but the alternative is for her to take one of our emergency procurement cards. I want to make sure the cards still have no vendor restrictions, which is how they were set up originally. Are you able to verify that? These are the 2 cards assigned to Dr. Jacqueline Scott. Also please let me know the current dollar limits (transactions and total) Please let me know asap.

Hello Nate,

Dr. Scott asked me to reply to you. We are currently busy working on the response to the Flint water emergency. Dr. Scott has been assigned 2 emergency procurement cards to keep and hold until we need them in response to some emergency event. The purpose is that sometimes we need to respond to situations where we cannot wait for the usual procurement process. Since we are now activated for response to Flint we are using the emergency pcards. Please ask Tory Richards or Rita Hotchkin if you need more information as they are aware of this set up.

[HOME](#) | [NEWSROOM](#) | [BLOG](#) | [CONTACT](#) | [FACEBOOK](#) | [TWITTER](#) | [INSTAGRAM](#)

## Budget recommendation will include \$30 million request for Flint water bill repayments

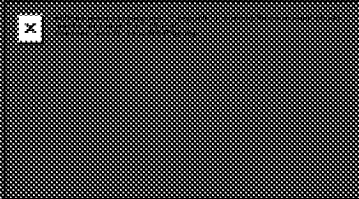

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). **Click here to watch the video.**

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

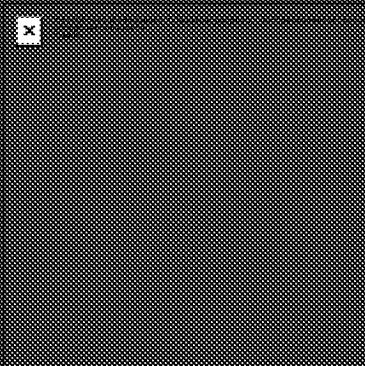

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

## VIDEO: How volunteers are helping Flint

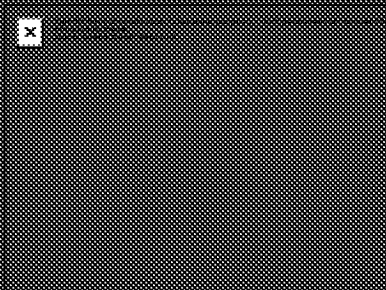

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

**Subject:** The Gov. Snyder's Budget Proposal

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.  
DTMB Header 9/22/15

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full [executive budget recommendations](#), which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at [behend@michigan.gov](mailto:behend@michigan.gov).

Thank you again for all the good work you do. I hope you have a great week ahead.

David

**Sent:** Wednesday, February 17, 2016 12:24 PM  
**To:** Premoe, Tara (DEQ)  
**Subject:** RE: Emergency PCard Increase

Tara,

How long do you need the exemption for (trying to decide if an email is sufficient or an exemption form needs to be completed)? Is she only purchasing gift cards? Do you anticipate her purchasing \$50,000 worth of gift cards at one time? Why would this need to be in an emergency profile if purchasing gift cards?

Marsha

Subject: Emergency PCard Increase  
Importance: High

Hi Marsha,

I will be increasing the limit on the PCard assigned to Candra Wilcox to Emergency – STL: \$50,000 per transaction / \$100,000 per cycle. She may be using her card for emergency purchases associated with the declared emergency in Flint. The charges may be to purchase necessary gift cards for residents to participate in water sampling inside their homes, although we are working on donations of the gift cards, donations may or may not cover all of the expenses.

I have instructed Candra to call Bank of America prior to any large purchase to ensure the transaction is not denied. If there are additional codes associated with her card you need to add, please let me know.

I will be out of town from February 19th to the 29th. Nichole Churches will be handling any procurement issues while I am away, although Nichole does not have administration rights in WORKS and may be contacting you if assistance is needed.

Please let me know if you need further information. Thank you for your assistance.

**Subject:** SEOC Billing Index  
**Importance:** High

I am trying to make the billing process easier for everything happening in Flint. When we had the Detroit flooding issue we set up billing index's for the emergency. We used 45405 for MB and 90050 for IT, can we set up a billing index for Flint?

If it doesn't matter I need to know that because we are trying to track things and I wanted to make sure we are on the same page.

Thanks

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents. Water filters (Walmart is to donate them)

Also, can you tell us if you've placed any other orders related to the Flint water crisis. Printing, Temporary Fuel Cards, Rental agreement for warehouse space, 30 tablets

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it. The funds will be taken out of DHHS's supplemental funding to pay for 72 trucks at \$5,538.12 a truck, total cost \$398,744.64

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents.

Also, can you tell us if you've placed any other orders related to the Flint water crisis.

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it.

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents. Water filters (Walmart is to donate them)

Also, can you tell us if you've placed any other orders related to the Flint water crisis. Printing, Temporary Fuel Cards, Rental agreement for warehouse space, 30 tablets

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it. The funds will be taken out of DHHS's supplemental funding to pay for 72 trucks at \$5,538.12 a truck, total cost \$398,744.64

**Subject:** RE: PCard Transactions

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents. Water filters (Walmart is to donate them)

Also, can you tell us if you've placed any other orders related to the Flint water crisis. Printing, Temporary Fuel Cards, Rental agreement for warehouse space, 30 tablets

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it. The funds will be taken out of DHHS's supplemental funding to pay for 72 trucks at \$5,538.12 a truck, total cost \$398,744.64

Chris,

Can you confirm the Walmart charge was for bottled water for Flint residents. Water filters (Walmart is to donate them)

Also, can you tell us if you've placed any other orders related to the Flint water crisis. Printing, Temporary Fuel Cards, Rental agreement for warehouse space, 30 tablets

We've heard truckloads of water are coming daily and wonder who may have placed the order and what funds are being used to pay for it. The funds will be taken out of DHHS's supplemental funding to pay for 72 trucks at \$5,538.12 a truck, total cost \$398,744.64

**Subject:** RE: DCH Low-Usage Audit for Procurement Card

The emergency cards are set up so that a Department is prepared so that you don't need our prior approval if an emergency is declared. Like Trisha said cash is not allowed on it, but also you still need to follow other purchasing guidelines that could apply.

We do ask that you let us know that an emergency was declared and that you are going to be using the emergency card.

Give me a call and we can discuss.

Hi Nate,

One of our staff is heading to Flint for a week and is requesting a travel advance. I am checking with accounting on whether we can do that, but the alternative is for her to take one of our emergency procurement cards. I want to make sure the cards still have no vendor restrictions, which is how they were set up originally. Are you able to verify that? These are the 2 cards assigned to Dr. Jacqueline Scott. Also please let me know the current dollar limits (transactions and total) Please let me know asap.

**Subject:** FW: DCH Low-Usage Audit for Procurement Card

Hello Nate,

Dr. Scott asked me to reply to you. We are currently busy working on the response to the Flint water emergency. Dr. Scott has been assigned 2 emergency procurement cards to keep and hold until we need them in response to some emergency event. The purpose is that sometimes we need to respond to situations where we cannot wait for the usual

procurement process. Since we are now activated for response to Flint we are using the emergency pcards. Please ask Tory Richards or Rita Hotchkin if you need more information as they are aware of this set up.

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
STATE BUDGET OFFICE  
LANSING

JOHN S. ROBERTS  
DIRECTOR

February 1, 2016

**MEMORANDUM**

TO: Chief Financial Officers and Human Resource Directors  
All State Agencies

FROM:  Michael J. Moody, Director  
Office of Financial Management

SUBJECT: Flint Water Expenditure and Activity Tracking

---

In order to facilitate the tracking and monitoring of expenditures and activity related to the Flint water emergency, the Office of Financial Management (OFM) has established the following coding and processes. The coding and processes described in this memo will be used to track expenditures in MAIN and state employee activity in DCDS. Separate instructions regarding the tracking of outputs related to the Flint water emergency will be forthcoming.

**Expenditure of Funds Appropriated in Public Act 3 of 2016**

OFM has established a line item appropriation number (88500) that will be used for all appropriations included in Public Act 3 of 2016 (HB 5520). Each affected agency is responsible for submitting Electronic Budget Adjustment (EBA) documents using the appropriation number established by OFM and providing the necessary D23 coding for the funding source(s) identified in the appropriation act.

In addition to the submitting EBA documents, affected agencies must establish and use Program Cost Account (PCA) coding in MAIN to specify which of the activities identified in the appropriation act boilerplate are supported by expenditures. Each of the established PCA codes must include multipurpose code FNT-WTR. OFM will contact affected agencies within the next week to discuss establishment and use of the needed PCA codes in more detail.

Please note that these instructions apply only to funds appropriated in Public Act 3 of 2016. Additional instructions will be issued when future appropriations related to the Flint water emergency are enacted.

## Flint Water Expenditure and Activity Tracking

Page 2

February 1, 2016

### Expenditure of Other Funds

OFM has established MAIN multipurpose code FNT-WTR to be used by agencies to track expenditures of funds not appropriated in Public Act 3 of 2016 that are related to the Flint water emergency. FNT-WTR is a statewide multipurpose code that is available for use with any PCA code.

If your agency already uses multipurpose code in a manner that conflicts with using it as described above, please contact OFM as soon as possible to discuss alternative methods for tracking.

### Tracking Time and Activity in DCDS

OFM has established a DCDS activity code (FDWP) that affected state employees should use to record the amount of time spent on activities related to the Flint water emergency. The activity code will be used to track employee hours devoted to activities related to the Flint water emergency. It is separate from and will have no impact on the expenditure tracking that will occur in MAIN. If employees are not familiar with the DCDS activity reporting process, the reporting is done biweekly on the "Activity" tab of the DCDS timesheet.

If you have questions regarding this memo, please contact Lora Mikula at 373-0447 or MikulaL@michigan.gov.

Good morning,

Attached is the list of primary state emergency management coordinators with office phone and email. Names and numbers occasionally change, so proceed accordingly. If you ever need to make an urgent contact, feel free to contact MSP Operations at 517-241-8000 and request contact from the EMHSD Duty Officer, who will be able to send a message using the Everbridge system.

Please let me know if you have any questions.

Heather

**Subject:** Flint Emergency Purchasing Procedures

Good afternoon,

Attached is the Flint Emergency Purchasing Procedures Jeff spoke about this afternoon.

Heather

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET  
LANSING

DAVID B. BEHEN  
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership  
FROM: DTMB Procurement  
SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint-related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

***Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.***

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

***Emergency Purchasing Procedure:***

Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- o Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- o Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- o Obtain three quotes whenever reasonably practicable
- o Post bids online to the extent practicable
- o Please escalate any questions to DTMB Procurement before executing a buy
- o DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- o DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- o Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

**Subject:** Flint Purchase - Over \$2500  
**Importance:** High

Marsha,

DTMB received a resource request to purchase a battery for the forklift at the Pierson Rd. warehouse. The current battery died and they are struggling to move pallets of water without the forklift. I reached out to Bell's Forklift in Flint and they quoted us a few options and we are going to go with the reconditioned battery at \$3,250 which includes installation and a 1-year warranty. We chose this option due to the availability and timeline for delivery. We are going to procure the battery with Chris' p-card.

In speaking with Lacey, she asked me to send you an email with the purchase details so we are all on the same page. Please let me know if you have any questions.

Thank you,

Ryan McKee

**Cc:** Churches, Nichole (DEQ) <CHURCHESN@michigan.gov>  
**Subject:** RE: Emergency PCard Increase

Please find attached the form. After discussion, the purchase may be one transaction of \$25,000. I changed the limit in WORKS to General \$50,000/\$70,000 since the single transaction limit of \$20,000 will not be enough.

Thank you for your assistance.

**To:** Premoe, Tara (DEQ)  
**Subject:** RE: Emergency PCard Increase

Tara,

Per our conversation please use the following language in the exemption request:

The cardholder will maintain a spreadsheet detailing the number of each card purchased from each vendor, the denomination of the cards, the name or identifier of who received the card, reason and date the card was given. The spreadsheet will be attached to the transaction detail report in which the transaction appears as documentation and tracking.

Let me know if you have any questions.

Marsha

**Subject:** RE: Emergency PCard Increase

This will be on a temporary basis until we complete the required testing at Sentinel sites; approximately 8 weeks. I do not anticipate the gift card purchase to be over \$25,000, and depending on donations, hopefully much less. I put it in the emergency profile because we consider it an emergency purchase; do you want it in another category?

**Subject:** RE: Emergency PCard Increase

Tara,

How long do you need the exemption for (trying to decide if an email is sufficient or an exemption form needs to be completed)? Is she only purchasing gift cards? Do you anticipate her purchasing \$50,000 worth of gift cards at one time? Why would this need to be in an emergency profile if purchasing gift cards?

**Subject:** Emergency PCard Increase  
**Importance:** High

Hi Marsha,

I will be increasing the limit on the PCard assigned to Candra Wilcox to Emergency – STL: \$50,000 per transaction / \$100,000 per cycle. She may be using her card for emergency purchases associated with the declared emergency in Flint. The charges may be to purchase necessary gift cards for residents to participate in water sampling inside their homes, although we are working on donations of the gift cards, donations may or may not cover all of the expenses.

I have instructed Candra to call Bank of America prior to any large purchase to ensure the transaction is not denied. If there are additional codes associated with her card you need to add, please let me know.

I will be out of town from February 19<sup>th</sup> to the 29<sup>th</sup>. Nichole Churches will be handling any procurement issues while I am away, although Nichole does not have administration rights in WORKS and may be contacting you if assistance is needed.

Please let me know if you need further information. Thank you for your assistance.

Thanks, Brittany. I have a cardholder who discovered fraud on his card yesterday. He called the bank and will be receiving a new card. When Scott Lakowky's card arrives, could you please give me a call or drop me an e-mail and I will walk over and get it. He is currently here in Lansing on DNR's Emergency Management Response Team for the Flint water crisis. He needs his card while he is here on assignment. I told him I would get it to him as soon as I could.

Thanks.

**Subject:** New/Replacement/Expiring PCard(s)

Sue,

I'm putting a new PCard(s) for Ian Burton, Kristin Taylor, Steven Caryl, Denise Kinsinger, and Jerek Gutierrez in ID mail today. Let me know if you do not receive the card(s). Thank you.

☒ This PCard(s) is a new request for a card(s) or a replacement card(s).

The card must be activated before using. The activation code can be found in WORKS under Administration, Organization, Users looking in the Activation ID column.

☐ This PCard(s) is for a card(s) that is due to expire.

The card must be activated before using. The activation code can be found in WORKS under Administration, Organization, Users looking in the Activation ID column.

Remind the cardholder(s) that if the card number is on file with any vendors, it will need to be updated with the new expiration date and CVV number (from the back of the card). The old card is active until the end of the month shown as the card's expiration date, but the new card can be activated at any time before then. The old card should be disposed of according to your agency's regulations.

## THIS WEEK IN POLITICS

# Flint Fallout, Corruption in Court and One State's New Supermajority

BY ALAN GREENBLATT

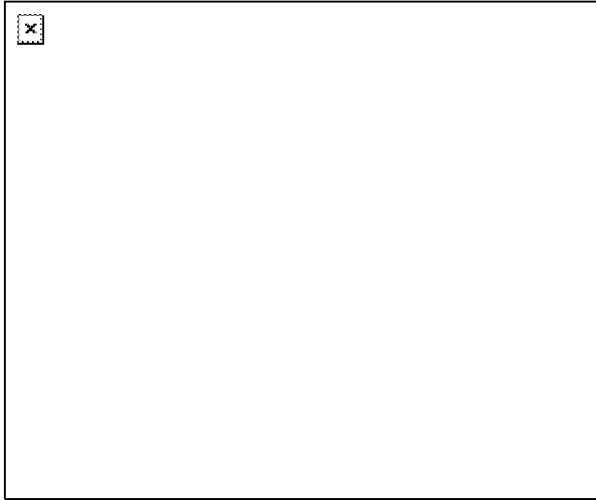

This was a busy week in politics -- but then, practically every week is. That's why *Governing* is offering this new weekly newsletter.

We won't cover the presidential campaign -- you can find plenty of that elsewhere. Instead, we aim to share with you the most interesting and important developments in state and local politics each week.

You can sign up for a free subscription [here](#).

---

## **Flint Curbs Snyder's Future**

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*.

**Subject:** Friday, Feb. 12 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

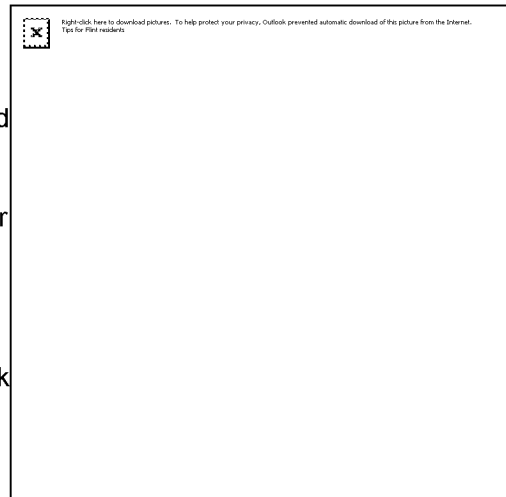

---

#### **Flint lifts boil water advisory**

With the Feb. 9 water main break repaired and successful back-to-back bacteria tests completed, the city of Flint lifted its boil water advisory today.

Affected residents no longer need to boil their filtered water because testing did not reveal any bacteria during or after the repair of the water main break.

Previously installed water filters are still safe to use since no bacteria was found, but residents are reminded to check their water filter indicator and replace the filter cartridge, if needed. Individuals should follow the water filter manufacturer replacement instructions.

Residents should still use filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant women and children under 6 years of age should continue to drink only bottled water.

---

#### **Remember to flush your taps and clean your faucet's aerator**

Residents and businesses should flush their water for between two to five minutes through all taps every day. This should be done first thing in the morning after the water system has been stagnant for several hours.

To prolong the life of their filter, this daily flushing should be done with the filter turned in the off position. Once the system has been flushed for two to five minutes, the filter should be turned back on for all cooking and drinking.

Residents are also reminded to clean the aerator on every household faucet every week.

---

#### Governor Snyder answers questions from Flint residents

Governor Snyder answered Flint residents' questions about the water emergency during a tele-town hall yesterday afternoon. If you have a question, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater) or call the Governor's office at 517-335-7858. [Click here to listen to the full telephone conversation.](#)

---

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 303,720 cases of bottled water
  - 104,861 water filters
  - 211,721 replacement cartridges
  - 35,998 water testing kits
- 

#### REMINDERS

- For Flint water assistance: Dial United Way 211 or visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater)
- To donate or volunteer: visit [www.HelpForFlint.com](http://www.HelpForFlint.com)
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

#### WATER RESOURCE LOCATIONS

These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Rd.  
Flint, MI 48506

Fire Station #6  
716 West Pierson Rd.  
Flint, MI 48505

Fire Station #8  
202 East Atherton Rd

Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

This daily update is being issued in order to provide the latest information regarding actions and available resources.

---

**Lt. Governor Calley: It's important for Flint residents to test their water**

It is critically important that we have every single home in Flint tested. Each home is unique-- each home has a unique service line, unique plumbing, and unique fixtures. We need the water testing information to ensure the family has safe drinking water.

To date, 8,952 homes have been tested.

82% of homes under 5 ppb

93% of homes under 15 ppb

7% of homes over 15 ppb

You can pick up a water testing kit from one of the Flint fire stations, and then you can return your test to a Flint fire station. If you need assistance, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater) or call United Way 2-1-1.

## VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

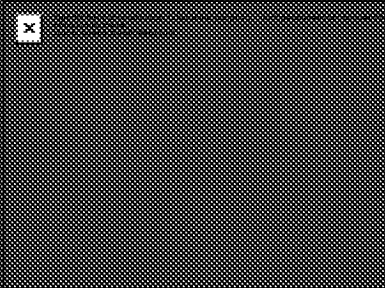

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

Michigan State Employees banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJJK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Hi Michelle, Is it possible to have Christie Christman added as a web admin for the Flint Water website? I believe John Estill had to add me as a DEQ admin.

Thanks

**Response Efforts Increased to Distribute Water Resources to Flint Residents**  
*Thousands of water resources have been distributed due to collaborative effort*

**FOR IMMEDIATE RELEASE**  
**January 15, 2016**  
**Release #: 5**

**For more information contact: Joint Information Center: 888-EMD-TODAY (888-363-8632)**

LANSING, Mich. – Beginning on Saturday, January 16, water distribution efforts will expand with more than 20 water response teams going door to door to distribute safe water resources to the homes of Flint residents. These teams will consist of state personnel and American Red Cross volunteers, including approximately 250 State of Michigan employees and their family members who will volunteer Saturday through Monday.

Since January 12, the water resource teams have provided nearly 7,500 Flint homes with bottled water, filters, replacement cartridges and water testing kits.

All members of the water response teams will be wearing official credentialed badges with a State of Michigan seal hologram so they can be easily identified.

“With more teams going door to door, we are confident we will double our efforts to ensure residents receive these much needed resources as soon as possible,” said Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police Emergency Management and Homeland Security Division.

Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

- More than 18,500 cases of water
- Nearly 46,000 filters
- More than 3,200 water testing kits

In addition to donated supplies, the State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:

- Nearly 45,000 cases of water
- Nearly 79,000 filters
- Nearly 19,000 water testing kits

Flint residents can continue to visit the water resource sites to receive free bottled water, filters, replacement cartridges and water testing kits. The sites are open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Road  
Flint, MI 48506

Fire Station #6  
716 West Pierson Road  
Flint, MI 48505

Fire Station #8  
202 East Atherton Road  
Flint, MI 48507

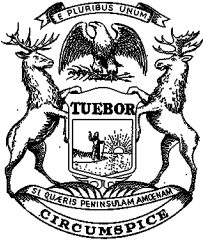

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater) or by calling 211.

Trevor,

For now, please use a significantly smaller version of that image for the content by updating the one that is already uploaded, then upload another full-size copy for associating at the bottom of the page.

The system is not set up to accommodate images that large within the content, so we'll have to look at how Chrome handles it and fix for IE and Firefox.

Thanks,

Michelle Stiffler

January 20 update

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Yesterday, Governor Snyder delivered the State of the State address, in which he focused on Flint, a proud city in which residents are unable to drink the water that comes into their homes. Governor Snyder acknowledged that this is unacceptable and stated that this is a problem that we will fix, and fix quickly.

The Governor announced a new \$28 million state supplemental spending bill that will fund additional bottled water, faucet filters and lead-testing kits for Flint households. The first step will also provide wraparound services, such as diagnostic testing, nurse visits and environmental assessments, as well as access to child and adolescent health centers.

Today, Governor Snyder is meeting with legislators and urging them to take immediate action on his Flint recovery plan.

This will not be the last budget request for Flint. Additional resources will be needed and asked for in the FY 2017 budget presentation.

A new website was also announced where you can sign up to volunteer in Flint: [www.HelpForFlint.com](http://www.HelpForFlint.com). This site also has information on how to donate to the organizations working to get clean water resources to residents and who are focused on the long-term impacts on Flint's children.

In addition, Gov. Snyder has submitted an appeal to President Obama after the President denied a major disaster declaration-- a move that could potentially bring additional and much-needed resources to help the people of Flint.

#### REMINDERS

- For Flint water assistance: Dial 211 or visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater)
- To volunteer or donate: visit [www.HelpForFlint.com](http://www.HelpForFlint.com)
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

#### WATER RESOURCE LOCATIONS

These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3

1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Rd.  
Flint, MI 48506

Fire Station #6  
716 West Pierson Rd.  
Flint, MI 48505

Fire Station #8  
202 East Atherton Rd.  
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

Anne or Michelle,

Please add the following statement under the 211 info on the Flint water website.

Flint residents who need crisis counseling can call the Disaster Distress Helpline at 1-800-985-5990

Thanks for your continued help. Let me know if you have any questions.

**Cc:** JICManager <JICManager@michigan.gov>  
**Subject:** Clean-up to Flint Water Website

Hi Everyone,

This can wait until Friday, but I'm wondering if someone can do the following to clean up the michigan.gov/flintwater website.

Under the social media section on the homepage, there are three stray links:

- Please get rid of the "Get Free Water Filters" link entirely. That duplicates information elsewhere on the site.
- Remove the "Free Filters are NSF-approved" link from the homepage and put it on the "Filter Sites" page on the website.
- Remove the "Water Resource Site Flyer" PDF link from the homepage and put it on the "Water Resource Sites" page.

Please let me or JIC-Manager know if you need clarification.

Thanks,  
Bob

**To:** Wheaton, Bob (DHHS)  
**Subject:** RE: More for Flintwater website

Michelle Stiffler and John Estill both have worked on the site.

Michelle is gone for the day and John is here until 5 I believe.

I am out at 4pm but am on-call this week. You can contact me after hours via the on-call phone, the number you called earlier.

I will have my computer with me and the ability to connect to the network remotely where ever I am.

Rick

**Sent:** Thursday, January 21, 2016 3:25 PM

**To:** Peterson, Rick (DTMB)  
**Subject:** More for Flintwater website  
**Importance:** High

Rick,

Another item:

- Rename the 2-1-1 section of the homepage "Who to Call."
- The existing language regarding 2-1-1 can remain there.
- Under that, leave same space and then include the following language: Emergencies bring out strong emotions. The Disaster Distress Helpline, 1-800-985-5990, can provide immediate confidential counseling to anyone who needs help. The Helpline is a 24 hours-a-day, seven-days-a-week resource provided by the Substance Abuse and Mental Health Services Administration.

Do you have the name of someone who is working on the Flint water site for eMichigan that I can deal with directly? If possible, we want to get this and the previous item regarding the link to the new helpforflint.com website up today, along with one or two other items that I'll email about shortly

Thanks,

Bob Wheaton

**Subject:** RE: SAMHSA Press Release

I think the JIC has tried hard to keep calls funneling into 2-1-1 to be distributed so that we aren't confusing people by providing them with multiple phone numbers. I defer to the JIC Manager for their input. If anything I would recommend we post a description of the number along with the number itself, rather than the link to their release.

Angela

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

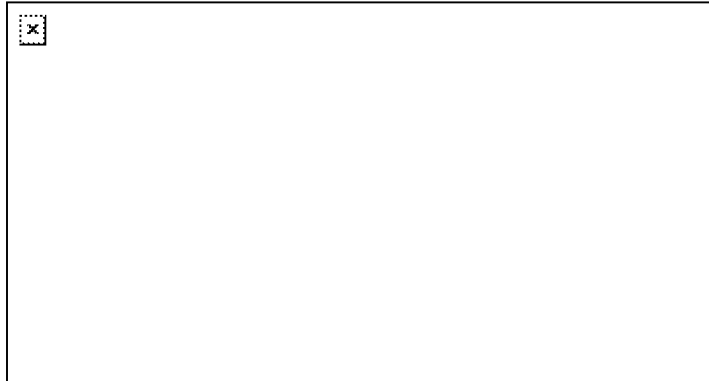

---

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

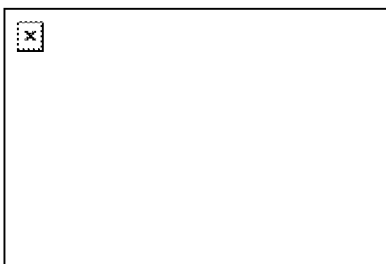

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." [Click here to read the Governor's full op-ed.](#)

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

**Subject:** Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

**From:** Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>  
**Sent:** Tuesday, January 26, 2016 8:39 AM  
**To:** Stiffler, Michelle (DTMB)  
**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. [Administrative Policy 200.37](#) establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Hey, so my head was not thinking properly last night.

You were using the Toggle Description component which typically is only used in FAQ situations.

We have developed a Toggle Description style that can be applied to a regular SW & DW component. It's been in use on the eMichigan homepage for 3 or 4 months now. !!!

So, I fixed the homepage so it works the way you want it to work.

Trevor,

I have updated both content items. I changed the width of the images in the title field to a style attribute instead of just 'width="100%"' and it seems to have alleviated the issue for the moment.

This only affected IE, and we will investigate how to avoid this issue in the future. Let me know if you see any issues that this change may have caused as I have not yet looked at mobile device displays.

Hey, so my head was not thinking properly last night.

You were using the Toggle Description component which typically is only used in FAQ situations.

We have developed a Toggle Description style that can be applied to a regular SW & DW component. It's been in use on the eMichigan homepage for 3 or 4 months now. !!!

So, I fixed the homepage so it works the way you want it to work.

Hi Michelle and John, I'm not exactly sure who my contact is on the Flint Water page, so I copied you both. I'm working on moving a couple things around on the Flint Water site again and I inserted a couple of full body toggles near the top. They are showing a "read more" link at the bottom. How do I make that go away?

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

I have seen this behavior with DNS. There are DNS servers that do this to inject adware or malware. This is/might NOT be a problem with the State DNS. I have seen this where the DNS server your PC OR WiFi POP/cable modem/dsl modem points to being compromised.

I will research this further on Monday. This does not appear to be our infra/application issue.

It's possible that it is related to the mitigation changes but I would have do some more testing. I actually got a time out error message that I don't remember ever seeing before.

Subject: Re: ADA form

I talked to Jim and he said he thinks the weird characters in the URL are a result of the mitigation we currently have in place. If we can find a solution that removes the weird characters that we see occasionally then let's do that. But let's do it without compromising ourselves by removing important mitigation.

John E and John T: do you think the weird characters were the reason the form was timing out when submitted?

**From:** Governor's Office  
**Sent:** 1/30/2016 4:41 PM  
**To:** [stiffler165@gmail.com](mailto:stiffler165@gmail.com)  
**Subject:** Saturday, Jan. 30 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Governor Snyder encourages all Flint residents to get their water tested as soon as possible. If you live in Flint, please make it a priority for your family and encourage your friends and neighbors to obtain testing kits as well. The kits are available free of charge at the water resource sites within [Flint fire stations](#).

Water testing kits are available at city hall and all Flint fire stations. Residents don't need to test their own water - simply fill up the bottle and return it to where it was obtained. Residents with questions can call United Way 2-1-1. [For other questions about water testing, please visit www.mi.gov/FlintWater.](#)

[Water testing results are also posted at www.mi.gov/FlintWater](#)

**[Detroit News: Feds deny Snyder's request to raise Flint WIC eligibility](#)**

The U.S. Department of Agriculture has rejected Michigan's request to increase access for Flint children ages 5 to 10 to the federal nutritional program for low-income women and children.

Governor Snyder strongly urges the federal government to reconsider this request and provide additional support for children ages 5 to 10. He says that we must draw on all resources possible and work cooperatively to meet the needs of the residents of Flint, both immediate and long-term.

[Click here to learn more.](#)

## REMINDERS

- For Flint water assistance: Dial 211 or visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater)
- To donate or volunteer: visit [www.HelpForFlint.com](http://www.HelpForFlint.com)
- Residents should install filters to their taps to ensure they have immediate and ongoing

access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

#### WATER RESOURCE LOCATIONS

These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Rd.  
Flint, MI 48506

Fire Station #6  
716 West Pierson Rd.  
Flint, MI 48505

Fire Station #8  
202 East Atherton Rd.  
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

This daily update is being issued in order to provide the latest information regarding actions and available resources.

#### **EPA and DEQ continue interagency cooperation discussions on Flint water**

Michigan DEQ Director Keith Creagh met with the EPA as part of ongoing interagency cooperation to address the Flint water crisis. The EPA and DEQ have met regularly since a state of emergency was declared in Flint in early January.

[Click here to learn more about the interagency cooperation.](#)

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 234,490 cases of bottled water
- 100,593 water filters
- 204,736 replacement cartridges

#### **REMINDERS**

**Subject:** Tuesday, Feb. 2 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

VIDEO: "We're here for as long as the people of Flint need us"

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at <http://mi.gov/flintwater>.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 244,933 cases of bottled water
- 101,911 water filters
- 205,820 replacement cartridges
- 33,561 water testing kits

#### REMINDERS

- For Flint water assistance: Dial United Way 211 or visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater)
- To donate or volunteer: visit [www.HelpForFlint.com](http://www.HelpForFlint.com)
- Residents should install filters to their taps to ensure they have immediate and ongoing

access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

#### WATER RESOURCE LOCATIONS

These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Rd.  
Flint, MI 48506

Fire Station #6  
716 West Pierson Rd.  
Flint, MI 48505

Fire Station #8  
202 East Atherton Rd.  
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Governor Snyder proposes \$30 million for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

**Subject:** "Flint residents should not have to pay for water they cannot drink"

## Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

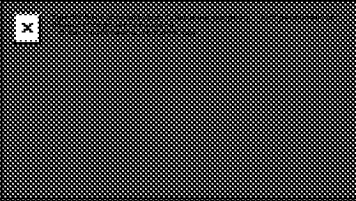

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

**LIVE at 10 AM: Gov. Rick Snyder will offer remarks at the Flint Water Interagency Coordinating Committee meeting**

The Flint Water Interagency Coordinating Committee was established on January 11, 2016 to facilitate the collaboration and communication between state department, local governments and subject matter experts necessary to effectively coordinate a response and recovery effort to ensure safe drinking water for Flint residents. [Tune in live at 10 am today to watch Governor Snyder offer remarks at the FWICC meeting.](#)

**Senate approves Governor Snyder's request of \$30 million for Flint's water bills**

The proposal announced Wednesday by Gov. Rick Snyder to aid the city of Flint with credits to be applied to the portion of residents' water and sewer bills for water used for drinking, bathing and cooking is one step closer to enactment after the state Senate voted unanimously yesterday for passage of the \$30 million dollar funding request.

If approved by both chambers and signed into law, the Consumption and Consumer Use Credit would aid the city of Flint in applying these credits to residents' water portion of their water and sewer bills.

until state and federal officials certify the water is safe to consume.

This daily update is being issued in order to provide the latest information regarding actions and available resources.

**U.S. Small Business Administration approves Governor Snyder's request**

The approval provides low-interest disaster loans for small businesses in Flint and Genesee County. These loans will help small business owners and nonprofits in Flint recover from any damages as a result of the Flint water crisis. Business owners seeking these loans must apply by Nov. 7, 2016.

**Former head of DEQ water quality unit removed**

Putting the well-being of Michiganders first needs to be the top priority for all state employees. Anything less than that is unacceptable.

After a departmental review of circumstances during the time period leading to the Flint water crisis, the former head of the Michigan Department of Environmental Quality's Drinking Water and Municipal Assistance unit was officially terminated from state employment yesterday afternoon.

**State encourages food establishments to take advantage of free water safety inspections**

In an effort to support Flint food-based businesses, Lt. Gov. Brian Calley and others provided a behind-the-scenes look at how the Michigan Department of Agriculture and Rural Development and Genesee County Health Department are working with local restaurants to conduct free water assessments and ensure food safety precautions are in place.

**Reminder: Children in Flint should be tested for lead**

The 9,000 children in Flint under age 6 should have their blood tested for potential lead poisoning after some water tests showed lead levels in the city's water may exceed the capacity of faucet filters. Primary care doctors in Flint and the Genesee County Health Department offer lead testing of children's blood. For more information, dial United Way 2-1-1 or visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater).

February 10

This daily update is being issued in order to provide the latest information regarding actions and available resources.

**Governor Snyder's budget recommends an additional \$195M for Flint families**

Today, the Governor in his budget proposed an additional \$195 million for Flint families to be used to help provide safe drinking water, good food and nutrition, and physical health, social well-being, and educational intervention.

These additional resources-- combined with previous investments-- increase total funding for Flint to more than \$230 million.

### State launches new streamlined services for residents

A new process of addressing homes that test high for lead or copper in their water will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater)
  - Test results greater than 150 ppb are emailed to MDHHS
  - All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
  - **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
    - Health and wellness information
    - Off-site blood test referral
    - Assists with transportation support for appointments, as necessary
    - Provides additional bottled water, filters and water sample kits
  - **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
    - Water testing and sampling information
    - Water sample collection
    - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator clean out, filter check)
    - Provides additional bottled water, filters and water sample kits
- 

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 299,273 cases of bottled water
- 104,500 water filters
- 211,255 replacement cartridges
- 35,756 water testing kits

**Attachments:** PCPK SUGGESTED APPEAL PROCESS.docx; PCP-IPP Appeals Form.docx

Good morning Mr. Levine,  
MDHHS has reviewed the NPI's you provided and the potential payout for these providers for the 2014/2015 Primary Care Provider uplift process. In order to qualify for a payment a provider must meet the criteria described in Medicaid policy including, but not limited to, Board Certified, Eligible or Verified, enrolled in CHAMPS or have a minimum of 60% Medicaid claims, and not participate in the Specialty Network Access Fee (SNAF) or Physician Adjustor programs. Based on the criteria in policy the following providers do not qualify for uplift payments: A. Schultz, Deberbnardi, M. Schultz, Akers, Duda, Elsayed. The other providers you listed will qualify for uplift payments from Medicaid Health Plans based on our review. Payments in the amount of \$19,300.21 for PCP dates of service during Fiscal Years 2014 and 2015 (10/1/2013 – 12/31/2014) were paid to the health plans on December 30, 2015. The health plans have 90 days to disperse funds to those providers.

I hope you find this information helpful. Thank you for serving Michigan's most needy.

Julie  
Julie DuPuis, MPA, Manager  
Rates & Encounter Data Section, Actuarial Division  
MDHHS, Medical Services Administration - (517) 241-9182

Dear Jodie and Julie,  
I need an estimated uplift payment amount and date that the check will be cut please for the Emergency Medical Centre of Flint. Just as a reminder we are expecting uplift payments going back to 1/13. At this point the information must have moved back and forth enough times between your two entities to have all of the questions answered and checks cut. Pete

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

---

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

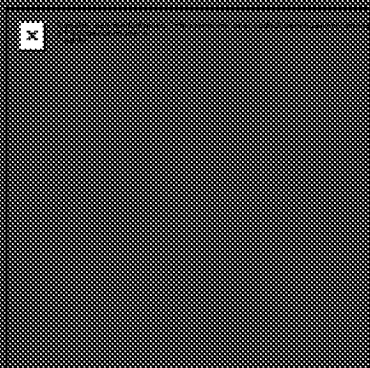

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. [Click here to learn more about the top 6 takeaways from the](#)

**Actions to take when the boil water advisory is over**

To ensure water is safe for use, Flint residents should take these precautions after the city of Flint lifts the boil water advisory:

1) First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.

2) Second, residents should replace the cartridge in their water filter after a boil advisory. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter replacement instructions.

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m at the sites listed below.

[Click here for a list of FAQs about the boil water advisory.](#)

**Help keep your kids safe**

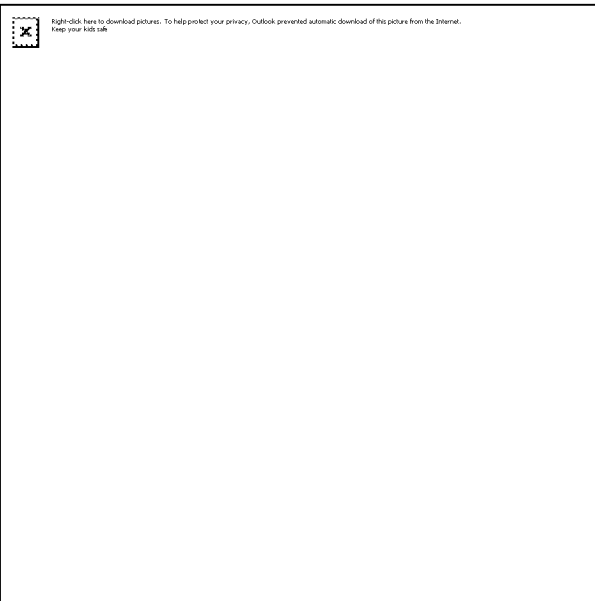

The foods we prepare and serve to our families can help limit the effects of our kids' exposure to lead.

You should serve children foods that are rich in calcium, vitamin C, and iron to help keep lead from being stored in a child's body.

For food assistance for low-income Flint residents, contact WIC at 810-237-4537. You can apply for SNAP food assistance at [www.michigan.gov/mibridges](http://www.michigan.gov/mibridges).

If you think your child is at risk for lead exposure, please contact your primary care doctor or the Genesee County Health Department by dialing 810-257-3612.

**Sent:** Wednesday, February 17, 2016 10:10 AM  
**To:** Stiffler, Michelle (DTMB)  
**Subject:** The Gov. Snyder's Budget Proposal

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.  
DTMB Header 9/22/15

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at [behend@michigan.gov](mailto:behend@michigan.gov).

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Tips for Flint residents

---

**Marc Edwards: Use faucet filters over "whole house filters"**

Marc Edwards, a researcher and professor at Virginia Tech and an expert on water treatment, said that Flint residents should use faucet filters rather than the more expensive whole house filters.

Whole house filters do not do anything to mitigate lead that could be in household pipes. Whole house filters are also more prone to bacteria accumulation.

---

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 332,158 cases of bottled water
- 105,822 water filters
- 215,546 replacement cartridges

**Flint to receive an additional \$2 million in water infrastructure replacement**

Flint will receive \$2 million from the state to help with infrastructure replacement costs, which will be available for the city to start removing pipes within the next 30 days. Under Mayor Weaver's plan, this money would help replace lead water pipes for several hundred homes.

The state of Michigan continues to work closely with the city to identify lead water pipes and replace them beginning with homes with very high lead levels and those with young children or pregnant women.

---

**Dr. Marc Edwards: Water testing shows Flint is healing**

Water testing results show this week that about 7 percent of 10,000 Flint homes tested were above the federal safety standard for lead. Dr. Marc Edwards said that the results are showing progress, but there is still more work to do.

[Click here to read more about water test results in the Detroit News.](#)

- For Flint water assistance: Dial United Way 211 or visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater)
- To donate or volunteer: visit [www.HelpForFlint.com](http://www.HelpForFlint.com)
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.
- Monitor the cartridge on the filter and replace as needed.

## WATER RESOURCE LOCATIONS

These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1 (also a water bottle recycling site)  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5 (also a water bottle recycling site)  
3402 Western Rd.  
Flint, MI 48506

Fire Station #6

716 West Pierson Rd.  
Flint, MI 48505

Fire Station #8 (also a water bottle recycling site)  
202 East Atherton Rd.  
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

Given the high profile of this site, I do want to make sure that we are able to keep it clean and professional looking, and I trust you all most. I know it's not ideal, but would it be possible to have someone from your team serve as the point for change requests, at least for the next few weeks?

I would like to be able to give the JIC a name, or names, to include on all email requests.

Thoughts?

Caleb

Thanks Michelle. I have asked the JIC to please coordinate their requests and work through one individual. Is there someone on the eMichigan team that you would like them to contact for changes.

We can talk this through on Friday, if you'd like.

Mr. Rowland,

I apologize for not being able to attend the meeting Keefer scheduled this morning. I was assigned to the Flint Water project yesterday afternoon and have a deadline today at noon.

I'm hopeful I will be able to make it in on Monday, if Lakewood Schools are open on Martin Luther King Day.

Thank you, and again I apologize for the inconvenience.

# TAKING ACTION ON FLINT WATER

"We are working closely with Genesee County and the Flint community, taking actions to immediately improve the water situation in Flint. Currently, we are focused on water testing, lead testing for children, and ensuring every home has water filters. We are also at work on long-term solutions, including follow-up care for affected residents."

-- Governor Rick Snyder

Trevor,

For now, please use a significantly smaller version of that image for the content by updating the one that is already uploaded, then upload another full-size copy for associating at the bottom of the page.

The system is not set up to accommodate images that large within the content, so we'll have to look at how Chrome handles it and fix for IE and Firefox.

Thanks,

Michelle Stiffler

The new site looks very nice Michelle, thank you! What a difference in functionality.

I am having a quirk though, on the press releases the first associated image is only showing up in chrome and safari. It's absent in firefox and IE. Anything that I'm doing?

---

**From:** Governor's Office  
**Sent:** 1/20/2016 4:54 PM  
**To:** stiffler165@gmail.com  
**Subject:** Wednesday Jan. 20 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Yesterday, Governor Snyder delivered the State of the State address, in which he focused on Flint, a proud city in which residents are unable to drink the water that comes into their homes. Governor Snyder acknowledged that this is unacceptable and stated that this is a problem that we will fix and

fix quickly.

The Governor announced a new \$28 million state supplemental spending bill that will fund additional bottled water, faucet filters and lead-testing kits for Flint households. The first step will also provide wraparound services, such as diagnostic testing, nurse visits and environmental assessments, as well as access to child and adolescent health centers.

Today, Governor Snyder is meeting with legislators and urging them to take immediate action on his Flint recovery plan.

This will not be the last budget request for Flint. Additional resources will be needed and asked for in the FY 2017 budget presentation.

A new website was also announced where you can sign up to volunteer in Flint: [www.HelpForFlint.com](http://www.HelpForFlint.com). This site also has information on how to donate to the organizations working to get clean water resources to residents and who are focused on the long-term impacts on Flint's children.

In addition, Gov. Snyder has submitted an appeal to President Obama after the President denied a major disaster declaration-- a move that could potentially bring additional and much-needed resources to help the people of Flint.

#### REMINDERS

- For Flint water assistance: Dial 211 or visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater)
- To volunteer or donate: visit [www.HelpForFlint.com](http://www.HelpForFlint.com)
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

#### WATER RESOURCE LOCATIONS

These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1  
310 East 5th St.  
Flint, MI 48502

Fire Station #3  
1525 Martin Luther King Ave.  
Flint, MI 48503

Fire Station #5  
3402 Western Rd.  
Flint, MI 48506

Fire Station #6  
716 West Pierson Rd.  
Flint, MI 48505

Fire Station #8  
202 East Atherton Rd.  
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will

continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

**To:** Hawks, Trevor (MSP); Estill, John (DTMB)  
**Cc:** Seckelman, Joe (DTMB)  
**Subject:** RE: Toggle full page

Trevor,

I have updated both content items. I changed the width of the images in the title field to a style attribute instead of just 'width="100%"' and it seems to have alleviated the issue for the moment.

This only affected IE, and we will investigate how to avoid this issue in the future. Let me know if you see any issues that this change may have caused as I have not yet looked at mobile device displays.

**To:** Hawks, Trevor (MSP); Stiffler, Michelle (DTMB)  
**Subject:** RE: Toggle full page

Hey, so my head was not thinking properly last night.

You were using the Toggle Description component which typically is only used in FAQ situations.

We have developed a Toggle Description style that can be applied to a regular SW & DW component. It's been in use on the eMichigan homepage for 3 or 4 months now. !!!

So, I fixed the homepage so it works the way you want it to work.

### Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of documents (electronic or otherwise) that correspond to the issues identified in the search terms correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Documents (electronic or otherwise) that correspond to the issues identified in the search terms from the past 10 years should be included.

**You should search for *each term exactly as it is shown in Appendix 1. This will vary depending on which operating system you are using.* After you complete a search term, check the box beside the term.**

**Importance:** High

Michelle and Tammy –

Please create an account in AIMS for the Flint Water Emergency and assign 25 reserved parking spaces to it (according to the numbers I have, we should have enough vacancies to accommodate this). I will also need parking maps with each of the assigned parking spaces highlighted (one set of maps with all spaces highlighted). I need this electronically...if you are unsure how to do this, please ask Rick for assistance.

I will need to know who completed this request and how much time it took...this is required for overall SEOC emergency cost tracking.

I would like to have this complete today.

Thank you!

Attached are maps showing 25 RESERVED parking spaces in the Flint ramp that have been assigned to the Flint Water Emergency. Jeff suggested that we create contractor cards for the FEMA employees with pictures. If you can send me names, birthdates (if possible), pictures, and access needs, we'll create the access cards.

Thanks.

I am including our DTMB counterpart here in the SEOC, but this really should be dealt with the same as it would be if there wasn't an emergency. So I think if Sandi is not able to resolve this acceptably with DTMB locally, than Kurt, I think you need to have your facility unit go to their contacts at DTMB to escalate and come to an agreement or process that is acceptable. Maybe there is something we can do with state cars to free up more space.

**Subject:** Parking Structure - State Office Building

Richard and Brian,

Is there any way that someone can let our guests know from FEMA, US Health and Human Services, JIC and other teams that are working out of this building that they need to avoid parking in the lower level basement.

Due to the lack of parking at this building, our families are parking in no parking zones and being ticketed, parking in DHHS state vehicle spots – which creates state vehicles parking in “visitor” areas – which creates a huge ripple effect.

I mentioned this to Mike Noonan, DTMB, and he indicated our families should park in the “flat lot” (attached map). This lot is a block away for our office, which is not conducive to any family that has special needs.

I understand our need to accommodate our guests from other departments, but our families cannot afford to pay for parking at the flat lot, not to mention parking fines.

Thanks for any assistance your group can provide.

Team –

Yesterday, emails were published online regarding water coolers being placed in the Flint State Office Building back in January 2015. The published emails name Jeanette Doll and list our 373-6227 number as the contact for questions. It's very possible that we will receive calls related to these emails over the next few work days. If anyone calls for Jeanette today, please send them to her office line (do not send anyone to her cell phone or give out the number). If anyone calls asking for information about Flint, transfer them to the DTMB Director's office at 373-1004.

If you get more than a couple calls about Flint or asking for Jeanette, let me know and I will talk to Chris about how to handle.

Thanks!

Michelle and Tammy –

Please create an account in AIMS for the Flint Water Emergency and assign 25 reserved parking spaces to it (according to the numbers I have, we should have enough vacancies to accommodate this). I will also need parking maps with each of the assigned parking spaces highlighted (one set of maps with all spaces highlighted). I need this electronically...if you are unsure how to do this, please ask Rick for assistance.

I will need to know who completed this request and how much time it took...this is required for overall SEOC emergency cost tracking.

I would like to have this complete today.

Thank you!

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

**Subject:** The Gov. Snyder's Budget Proposal

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.  
DTMB Header 022216

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Michigan State Employees banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJJK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

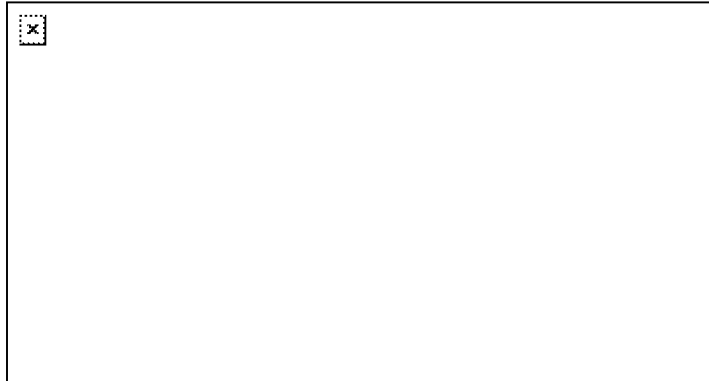

---

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

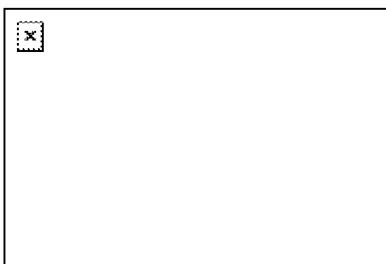

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." [Click here to read the Governor's full op-ed.](#)

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

Attached are maps showing 25 RESERVED parking spaces in the Flint ramp that have been assigned to the Flint Water Emergency. Jeff suggested that we create contractor cards for the FEMA employees with pictures. If you can send me names, birthdates (if possible), pictures, and access needs, we'll create the access cards.

Thanks.

Michelle and Tammy –

Please create an account in AIMS for the Flint Water Emergency and assign 25 reserved parking spaces to it (according to the numbers I have, we should have enough vacancies to accommodate this). I will also need parking maps with each of the assigned parking spaces highlighted (one set of maps with all spaces highlighted). I need this electronically...if you are unsure how to do this, please ask Rick for assistance.

I will need to know who completed this request and how much time it took...this is required for overall SEOC emergency cost tracking.

I would like to have this complete today.

Thank you!

**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. [Administrative Policy 200.37](#) establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

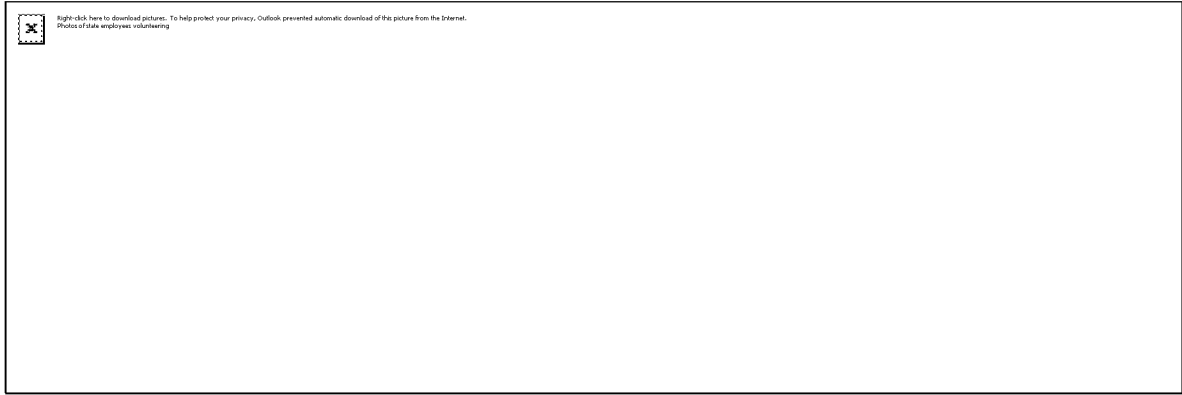

Thanks,

[HOME](#) | [NEWSROOM](#) | [BLOG](#) | [CONTACT](#) | [FACEBOOK](#) | [TWITTER](#) | [INSTAGRAM](#)

## Budget recommendation will include \$30 million request for Flint water bill repayments

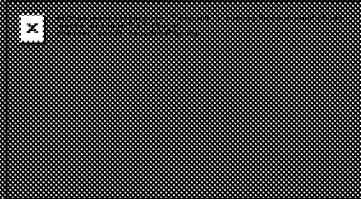

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). **Click here to watch the video.**

**Cc:** Philip, Brandon (DTMB)  
**Subject:** Flint General- Capacity Increase

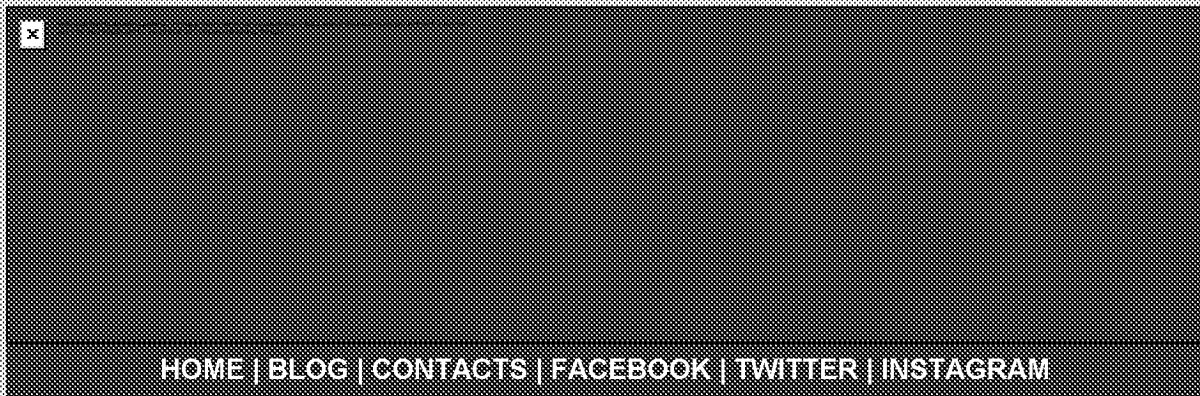

With the recent activity in Flint and the added emergency staff into the parking ramp, new employees have been forced to wait on a list for a parking space. Mike Noonan has stated that he sees at least 20 empty spaces on the roof every day, so with his agreement, I have increased the capacity of the random/uncovered parking from 234 to 240 to accommodate some of the staff waiting to park.

We will track the utilization again when the Flint Water Crisis is over and adjust the counts at that time.

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

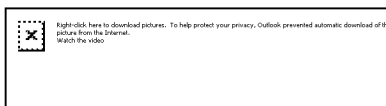

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

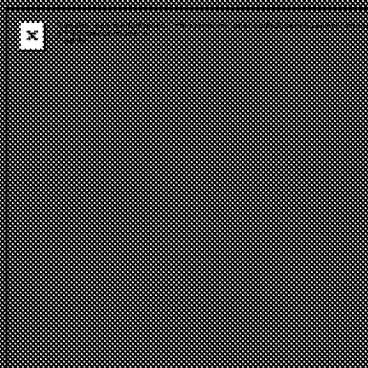

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. [Click here to learn more about the top 6 takeaways from the](#)

**Subject:** RE: Parking Issues- Genesee County Union St.

Ms. Wozniak-

My apologies for your recent parking inconvenience however with the Flint water issue being declared a state emergency things are pretty chaotic at the moment. We are working very closely with the emergency staff to resolve the parking issues and things should be settling down very soon. Unfortunately you are not the only one that has encountered your parking space occupied by another vehicle however is the first complaint that the DTMB Parking Office has received from you. The DTMB Facility staff in Flint is working very hard to accommodate both the employees and the emergency staff. Please continue to be patient with us and report any issues that you encounter.

Thank you,

To: Parking  
Subject: Parking Issues- Genesee County Union St.

Since the Flint water oversight began, it is rare that I am able to park in my assigned parking spot, spot 31. I have had this spot assigned to me since November of 2012. Since the Flint water crisis oversight began, I have had my spot unoccupied about three times, allowing me to park there. Every day I come in, my spot is usually occupied. I report it to building security and will now start reporting it to Central Office, as instructed. The building security is great about handling the situation but new cars park in my spot on a daily basis. I also know that security has been telling people to park on the upper levels, because I see them do it. People aren't listening to them. There has even been one occasion that security has had a car moved from my spot, and another car took that as an opportunity to take my spot before I could, within an hour of the other car moving. I arrived today at 11:30 and the car that was in my spot when I arrived is still there. As a mobile employee, it is frustrating to pay double the parking fee for a covered and reserved spot parking that I cannot use unless I come into the office at 8am, which is rare. I am not the only one having these issues. It is not fair to me to have to pay extra to have to park in a random spot that is uncovered, because people do not want to follow protocol that they are made aware of. I am hoping that some type of compensation can be issued for the difference between what I am paying for parking and the standard parking fee for our office, until I am able to reliably use my assigned spot. Thank you in advance for your assistance.

Importance: High

Jeanette and Ryan -

This is becoming too cumbersome and is continuing to negatively affect other customers. Two options:

1. You give us 40 names and card numbers to program with ramp access and we remove access from all other responders - no one is allowed into the ramp unless they have access on their card
2. We remove access from all responder cards and, instead, provide 40 dedicated parking cards that can be distributed as needed

I am fine with either option, but we really need to take control of how many Flint Water responders are utilizing the ramp. If you can think of another option that would solve the problem, let me know.

Please advise as to which option you'd like to go with so we can move beyond these problems.

Thanks.

Subject: RE: Parking EPA

We only have 40 parking spaces available for staff working on the Flint Water Crisis and we obviously have more staff than that working in Flint. We are having issues on a daily basis with emergency staff parking in employee reserved parking spaces.

We can handle this however you see fit however if the all of the 40 designated spaces are full then they need to find parking elsewhere. Please let me know how you would like us to proceed.

At the point that we exceeded 40 staff we stopped adding parking access and I believe the staff who were not given parking access were told that they needed to utilize the public parking options.

So I am confused. I know shocking.

Are we to deny EPA officials from parking in the ramp or are they being programmed so they can?

Thanks,  
Jeff

## VIDEO: How volunteers are helping Flint

---

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

Ms. Banks,

My apologies for your inconveniences thus far, I have attached maps with the currently vacant spaces highlighted in green however there are not currently any handicap parking spaces vacant.

Please let me know if one of the highlighted spaces will better accommodate your need.

Thank you,

Good Morning;

I am without my handicapped space for the 3<sup>rd</sup> time in 3 weeks. This is a marked handicapped space unfortunately, there is always a car with a handicapped license plate or tag parking in the spot. Unfortunately, this is very inconvenient and costly for myself as I am paying for this space. As stated, I have a documented issue with my back which is the reason I requested a space close to the elevator but it appears that this space is going to be a problem for me because it is evident that employees believe this space is open to anyone with a handicapped plate/tag. I tried to take a picture but it is blurred but it is a blue Chevrolet with a handicapped license plate. I was unable to go take another picture because I had to park on the roof and I did not want to be late. I am unable to go back out at this time because unfortunately, my back is bothering me this morning☹.

Ms. Tefft my reason for cc you in this e-mail is to request if you should get an open spot close to the elevator clearly marked with a number maybe this will help as the handicapped spaces are not numbered. I am at a loss at this time and not too happy to be paying for a spot that is not available.

Thanks to everyone for your help and consideration in this matter.

There are a couple handicapped spaces right next to 80 & 82 but these spaces are not handicapped. However, these spaces are right across from the elevator and from where I park right now. Since I have had so many issues with the handicapped space I come in every day expecting someone will be in my space because they are not numbered many people believe they are not designated☹.

**Importance:** High

Michelle and Tammy –

Please create an account in AIMS for the Flint Water Emergency and assign 25 reserved parking spaces to it (according to the numbers I have, we should have enough vacancies to accommodate this). I will also need parking maps with each of the assigned parking spaces highlighted (one set of maps with all spaces highlighted). I need this electronically...if you are unsure how to do this, please ask Rick for assistance.

I will need to know who completed this request and how much time it took...this is required for overall SEOC emergency cost tracking.

I would like to have this complete today.

Thank you!

## Flint Alternate Water Source

---

### Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice

### Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

### Contact:

DTMB Customer Service Center, [DTMB-Customerservice@michigan.gov](mailto:DTMB-Customerservice@michigan.gov) or 517-373-6227

Unplug electronics such as cell phones and laptops once they're charged. Adapters plugged into outlets use energy even if they're not charging.

Yeah I was not sure about adding that,

The press has been beating this up on a daily basis and even Erin Brochavich has been in town. The city currently gets the water from the flint river and they are working on a new pipe line from Lake Huron to flint which should be done by 2017 .

There is higher levels of lead ( but it's within the limits )

And to be honest Brian Walts is the expert on this please feel free to contact him he has a tremendous amount of knowledge on this.

I know Brian will be glad to help

## Flint Water Advisory

---

### **Date/Time:**

Effective Wednesday, January 7, 2015

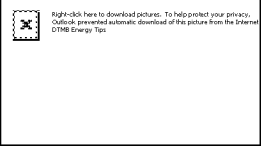

### **Details:**

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

**Contact:**

DTMB Customer Service Center, [DTMB-Customerservice@michigan.gov](mailto:DTMB-Customerservice@michigan.gov) or (844) DTMB-CSC or (844-386-2272)

	<p>Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly \$20 billion.</p>
---	---

---

This email was sent to [paaschik@michigan.gov](mailto:paaschik@michigan.gov) using GovDelivery, on behalf of DTMB - Lewis Cass Building - 320 South Walnut Street - Lansing, MI 48933 (517) 373-1004

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

### City of Flint Did Not Meet Treatment Requirements

Our water system was recently found to be in violation of a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Samples were collected for total trihalomethanes (TTHM) analysis from eight locations on a quarterly basis (May 21, August 21, and November 20 of 2014). The average of the results at ANY of the eight locations must not exceed the maximum contaminant level (MCL) for TTHMs, otherwise our water system exceeds the Maximum Contaminant Level (MCL). The standard for TTHMs is 80 ug/L. The location reporting the highest TTHM level was 99 ug/L, thus, our water system exceeds the TTHM MCL.

#### What should I do?

- There is nothing you need to do unless you have a severely compromised immune system, have an infant, or are elderly. In that case, you may be at increased risk and should seek advice about drinking water from your health care provider.
- You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

#### What does this mean?

This is not an emergency. If it had been an emergency, you would have been notified within 24 hours.

People who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous system, and may have an increased risk of getting cancer.

#### What is being done?

We are currently working on solutions to correct the problem. We anticipate resolving the problem in 2015.

For more information, please contact Mr. Brent Wright or Mike Glasgow at 810-787-6537 or the Water Plant at 4500 North Dort Highway, Flint, MI 48505.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the City of Flint.

CERTIFICATION: F1 S3

WSSN: 02310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules. Reminder to water supplier: This notice/certification must be sent to the DEC.

Michael Glasgow Assistant Supervisor

**From:** Wozniak, Jennifer (DHHS)  
**Sent:** Wednesday, February 10, 2016 2:06 PM  
**To:** Parking  
**Subject:** Parking Issues- Genesee County Union St.

Since the Flint water oversight began, it is rare that I am able to park in my assigned parking spot, spot 31. I have had this spot assigned to me since November of 2012. Since the Flint water crisis oversight began, I have had my spot unoccupied about three times, allowing me to park there. Every day I come in, my spot is usually occupied. I report it to building security and will now start reporting it to Central Office, as instructed. The building security is great about handling the situation but new cars park in my spot on a daily basis. I also know that security has been telling people to park on the upper levels, because I see them do it. People aren't listening to them. There has even been one occasion that security has had a car moved from my spot, and another car took that as an opportunity to take my spot before I could, within an hour of the other car moving. I arrived today at 11:30 and the car that was in my spot when I arrived is still there. As a mobile employee, it is frustrating to pay double the parking fee for a covered and reserved spot parking that I cannot use unless I come into the office at 8am, which is rare. I am not the only one having these issues. It is not fair to me to have to pay extra to have to park in a random spot that is uncovered, because people do not want to follow protocol that they are made aware of. I am hoping that some type of compensation can be issued for the difference between what I am paying for parking and the standard parking fee for our office, until I am able to reliably use my assigned spot. Thank you in advance for your assistance.

My best guess is about 30-45 minutes.

This would include:

Adding the additional 15 parking spaces to AIMS.  
Responding to Mike Noonan's call that staff could not access the ramp.  
Contacting Marsha Quebbeman and programming the Gov's staff cards.  
Creating the new map of spaces & send the email.

Thank you.

Importance: High

Jeanette and Ryan -

This is becoming too cumbersome and is continuing to negatively affect other customers. Two options:

1. You give us 40 names and card numbers to program with ramp access and we remove access from all other responders - no one is allowed into the ramp unless they have access on their card
2. We remove access from all responder cards and, instead, provide 40 dedicated parking cards that can be distributed as needed

I am fine with either option, but we really need to take control of how many Flint Water responders are utilizing the ramp. If you can think of another option that would solve the problem, let me know.

Please advise as to which option you'd like to go with so we can move beyond these problems.

Thanks.

Subject: RE: Parking EPA

We only have 40 parking spaces available for staff working on the Flint Water Crisis and we obviously have more staff than that working in Flint. We are having issues on a daily basis with emergency staff parking in employee reserved parking spaces.

We can handle this however you see fit however if the all of the 40 designated spaces are full then they need to find parking elsewhere. Please let me know how you would like us to proceed.

At the point that we exceeded 40 staff we stopped adding parking access and I believe the staff who were not given parking access were told that they needed to utilize the public parking options.

**Attachments:** Flint Parking Garage

The following employees were given access per request of Marsha Quebbeman:

Baird, Richard  
Calley, Brian  
Forstner, Nathaniel  
Geiger, Benjamin  
Holland, Meegan  
Hollins III, Harvey  
Kelenske, Chris  
Murray, David  
Nowling, William  
Quebbeman, Marsha  
Saunders, Kelli

Although she was not on the original list from Marsha, I know that Virginia Manolakoudis works for the Exec office because Marsha had me set up parking for her.

I will have Elizabeth check her lists for the others.

*Thank you.*

**Subject:** RE: Parking EPA

Brandon,

In working with the Federal and State partners, we were able to eliminate about 20 people who will not park in the Flint Ramp anymore. Please review the attached spreadsheet of the parkers who do not pay for Flint parking. The highlighted individuals were requests OIP received (not just SEOC) to add Flint parking. Most of the Governor's Office requests were handled outside the SEOC. For the JIC/PIO group, they are not all onsite at the same time and have a rotation going between the group of individuals.

In continuing to provide support for the Flint Water issue, I suggest we try this for a week to see if we still have issues before revoking access. I've reminded the Federal and State partners to park only in the spaces marked "Flint Water" and to move to the roof if they cannot find a marked space.

A few other suggestions is to research the ten (10) employees that do not pay to park in the ramp that are not part of the Flint Water emergency and to direct the security guard not to let people in the ramp who do not have access on their cards. These may help alleviate the concern as well.

Thank you,

**Ryan McKee**

Good Morning;

I am without my handicapped space for the 3<sup>rd</sup> time in 3 weeks. This is a marked handicapped space unfortunately, there is always a car with a handicapped license plate or tag parking in the spot. Unfortunately, this is very inconvenient and costly for myself as I am paying for this space. As stated, I have a documented issue with my back which is the reason I requested a space close to the elevator but it appears that this space is going to be a problem for me because it is evident that employees believe this space is open to anyone with a handicapped plate/tag. I tried to take a picture but it is blurred but it is a blue Chevrolet with a handicapped license plate. I was unable to go take another picture because I had to park on the roof and I did not want to be late. I am unable to go back out at this time because unfortunately, my back is bothering me this morning☹.

Ms. Tefft my reason for cc you in this e-mail is to request if you should get an open spot close to the elevator clearly marked with a number maybe this will help as the handicapped spaces are not numbered. I am at a loss at this time and not too happy to be paying for a spot that is not available.

Thanks to everyone for your help and consideration in this matter.

Mr. Noonan, it is not your fault but I do thank you.

Ms. Tefft, I would still like to be transferred to another space when one becomes available on the 3<sup>rd</sup> level closest to the elevator. Thanks again for your consideration in this matter.

You both have a Wonderful Wednesday!!!!

On Sep 30, 2015, at 8:19 AM, Banks, Redonna (DHS) <[BanksR2@michigan.gov](mailto:BanksR2@michigan.gov)> wrote:

Good Morning;

I am without my handicapped space for the 3<sup>rd</sup> time in 3 weeks. This is a marked handicapped space unfortunately, there is always a car with a handicapped license plate or tag parking in the spot. Unfortunately, this is very inconvenient and costly for myself as I am paying for this space. As stated, I have a documented issue with my back which is the reason I requested a space close to the elevator but it appears that this space is going to be a problem for me because it is evident that employees believe this space is open to anyone with a handicapped plate/tag. I tried to take a picture but it is blurred but it is a blue Chevrolet with a handicapped license plate. I was unable to go take another picture because I had to park on the roof and I did not want to be late. I am unable to go back out at this time because unfortunately, my back is bothering me this morning☹.

Ms. Tefft my reason for cc you in this e-mail is to request if you should get an open spot close to the elevator clearly marked with a number maybe this will help as the handicapped spaces are not numbered. I am at a loss at this time and not too happy to be paying for a spot that is not available.

Thanks to everyone for your help and consideration in this matter.

**Subject:** BC Water News: Great Lakes -- Michigan governor OKs \$9.35M for switch to Detroit water

[VIEW THIS EMAIL IN YOUR BROWSER](#)

Tuesday, Oct. 20 , 2015

**Good morning,**

Major strides were taken late last week to bring clean water to the beleaguered city of Flint, Mich. On Thursday, Gov. Rick Snyder signed a bill allocating \$9.35 million to help the city reconnect to the Detroit Water and Sewer system. By Friday evening, Flint reportedly started channeling its water from

Detroit. But even as the water began to flow and officials heralded the development, the transition in water quality will not be complete for about three weeks.

A year after Toledo's water crisis and less than a month after record-breaking algae blooms fouled Lake Erie, the Ohio River and sites in between, Ohio wants to tighten regulations on how public water systems test for, treat and report toxic algae. The Ohio EPA has proposed rules that would require public water systems to report harmful algae blooms to the state. The proposed rules also would require water systems to increase testing if algae toxins are found in water.

[VIEW THIS EMAIL IN YOUR BROWSER](#)

Tuesday, Nov. 24 , 2015

**Good morning,**

The wastewater that flows through the world's largest treatment plant every day in Chicago could produce enough energy to cut an annual \$50 million electricity bill to zero. That's if Metropolitan Water Reclamation District engineers can achieve their goal to become energy neutral by 2023. Slashing energy consumption and producing whatever remaining power it needs onsite would make the MWRD the largest treatment authority in the country to do so.

Hi Linda, at one point we had more than enough  
water for the schools. However due to the need to  
emphasize using bottled water for everything  
continued donations would be helpful.

It helps to also reduce the water bill for  
families. While I have the filter I still use bottled  
water for coffee, cooking etc.  
kids for brushing their teeth.

I know that churches and food pantries are giving  
out cases of water with food baskets and give aways  
as well as at the health fairs.

**Subject:** BC Water News: Great Lakes -- Michigan governor declares emergency in Flint over lead in drinking water

[VIEW THIS EMAIL IN YOUR BROWSER](#)

Tuesday, Jan. 12 , 2016

**Good morning,**

Michigan Gov. Rick Snyder declared a state of emergency in Flint last Tuesday over problems with lead in the city's drinking water, the same day federal officials confirmed they're investigating the matter. Snyder's action follows emergency declarations by the city and Genesee County, which requested help from the state. Michigan's declaration makes state resources available in cooperation with local response and recovery operations.

Okay... Thank you. I just received a call from Mike at VTS, It seems one of the trucks Shelly rented from star the wipers do not work and the lift gate is not big enough to handle the weight of a pallet of water so they were wondering if they can swap it out with a Star truck from the flint garage. Shelly is in a class until 1 pm, any suggestions???

[VIEW THIS EMAIL IN YOUR BROWSER](#)

Tuesday, Jan. 19 , 2016

**Good morning,**

President Obama declared a state of emergency in response to the water crisis in Flint, Mich., where thousands of residents have been exposed to toxic amounts of lead. The president's action authorizes FEMA to "coordinate all disaster relief efforts which have the purpose of alleviating the hardship and suffering caused by the emergency" in Genesee County.

**Good morning,**

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.

President Barack Obama said Thursday his administration is giving \$80 million in aid to Michigan mostly to help repair Flint's water infrastructure and make the drinking water safe. Speaking to a gathering of mayors at the White House, the president called the lead contamination of drinking water in Flint an "inexcusable" situation. A White House official later said the revolving fund money would be made immediately available.

## Top Stories

JANUARY 30, 2016

*Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.*

**Anonymous Activates #OpFlint:** According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." [See what Michigan officials had to say](#) about the threat.

**Speed Up by Slowing Down:** It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, [it may be best to slow down](#), look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

**Emerging Tech Affects Jobs:** A new study has some worrisome revelations for the future of the global job market: By 2020, more than [5 million jobs could disappear](#) in the wake of advancing technology. And those in the public sector are not immune.

**SF's Startup in Residence:** Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the [2016 Startup in Residence program](#) that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build toward an international program.

## Most Popular

**Creative Mapping:** As government data collection expands, and as more of that data becomes publicly available, more people are looking to maps as a means of expressing the information. Depending on the type of application, a map can be useful for both the government and its constituents. Here are [7 ways](#) local governments have gotten creative in mapping open data.

## Editor's Choice

**Civic Innovation's Next Phase:** The public-sector technology market has evolved to be broader and more robust. Now known as the GovTech market, it has come into its own, emerging as a stand-alone industry composed of hundreds of startup companies even after no fewer than 23 acquisitions, and having attracted \$1 billion in private capital investment. Our [GovTech100](#) is a list of the top 100 companies focused on government customers.

## Industry Resources from Our Partners

**Looming Tech Bubble?** Despite what mainstream headlines say, experts are divided as to whether there's a [tech bubble](#) that signals impending doom or a new opportunity for savvy business people. But for those on the ground in the valley, there is a strange sense of optimism, like the lurking clouds might hold a silver lining.

**Subject:** BC Water News: Great Lakes -- Michigan governor lays out plan to make Flint's lead pipes safer

[VIEW THIS EMAIL IN YOUR BROWSER](#)

Tuesday, Feb. 2, 2016

Good morning,

Under mounting pressure to rip out and replace lead pipes that connect an estimated 15,000 or more customers to main water lines, Michigan Gov. Rick Snyder said that the state first intends to make the existing pipes safe by rebuilding a protective coating between the lead and the water. The

governor said the state is still trying to determine where all the lead service lines in Flint are located, and that replacing them will be a long-term issue.

Some other stories making news across the Great Lakes:

- Minnesota buffer strip plan suffers setback
- Algal blooms worsened by power plant pollution
- Ohio EPA chief: Action over lead-tainted water took too long
- First in the nation: City of Madison replaced all lead pipes
- Indiana House panel backs bill limiting environmental rules

### Federal Policy & Business

#### Group Blasts Fed for Lack of Diversity in Leadership

The Wall Street Journal (online registration required): NEW YORK—Federal Reserve leadership is overly male, almost entirely white and drawn too frequently from the banking community, according to a group critical of the central bank.

A new report from the Center for Popular Democracy's Fed Up campaign analyzes the types of people populating the Fed's Washington-based board of governors, the regional bank presidencies and the regional bank boards of directors.

#### Obama to Release \$4 Trillion-Plus Budget for 2017

ABC News: President Barack Obama is unveiling his eighth and final budget, a \$4 trillion-plus proposal that's freighted with liberal policy initiatives and new and familiar tax hikes — all sent to a dismissive Republican-controlled Congress that simply wants to move on from his presidency.

The budget will be released Tuesday morning, the same day as the New Hampshire primary when it's likely to get little attention. It comes as the deficit, which had been falling over the duration of Obama's two terms, has begun to creep up, above the half-trillion mark.

Government Executive: Democrats and Republicans agree on the need to cut the federal budget by about \$50 billion in fiscal 2017, according to a new survey.

The poll, conducted by the Program for Public Consultation at the University of Maryland's School of Public Policy, found majorities in both parties – when provided with background information on the subject – support an overlap of \$10 billion in specific areas in which to cut. That includes a \$3 billion reduction in subsidies to agricultural corporations, \$1 billion at the departments of State and Justice, \$1 billion at intelligence agencies and the same amount to Overseas Contingency Operations. A majority of all respondents agreed to trim "federal enforcement of federal laws" by \$1 billion.

### Overcome Obstacles to Agile Application Development

Wed, February 17th, 2016 at 2:00pm EST

Federal government agencies face intense pressure to build next-generation applications, despite resource constraints and growing requirements to incorporate security, accessibility and analytic capabilities. Rising complexity and overburdened IT systems only contribute a lack of agility – which is something government agencies desperately need to support the demand for new apps and services. Add the backlog of application change requests, inflexible infrastructures and the difficulties inherent in managing mobility and migrating to the cloud, and it's no surprise government executives feel frustrated.

Join us for this **complimentary** webinar on Feb. 17 at 2pm, to learn how you can overcome these obstacles and effectively reduce the time it takes to launch efficient and properly vetted applications that leverage the transactional data flowing through your organization today.

**Please note:** All webinar registrants will also receive a link to view the archived event.

## Derived Security Credentials for Government Transactions

As government organizations increasingly move towards mobile devices, they are asking how they can provide their workers with access to their applications and data with a secure digital certificate. Common Access Cards (CAC) and Personal Identity Verification (PIV) smart cards are used to manage access to both online and physical resources through controlled access to networks, systems, building and spaces. However, this standard way of doing things doesn't always work in mobile situations.

Securely storing government credentials on mobile devices allows these individuals to transform their applications into a secure

enterprise space; and this is where derived credentials come into place.

In this 60 minute educational web seminar, e-SignLive along with Entrust, the leader in government software authentication platforms that strengthen security in a wide range of identity and transaction ecosystems, will provide an overview of derived PIV/CAC credentials for government and how the derived credential on mobile devices is the next generation of US Government's use of PKI, enabling government workers to build trust for authentication in an increasingly mobile workplace.

Attendees will learn:

- What is the derived PIV/CAC credential in government and why it's so important
- What the implementation looks like
- The value of derived credentials with electronic signatures
- How can this be leveraged to other parts of government or commercial entities

Featuring a live demo application of e-signatures with derived credentials, this is a must-attend session for any federal organization looking to create a secure and legally enforceable means of executing regulated transactions using laptops, iPads and smartphones.

## Next Generation 911

# With the clock ticking... are you ready to respond to every call, text, tweet, video?

Every year sizable emergencies hit the United States. Will the local emergency response systems be up to the task? Would your systems be ready?

Please join Unify for a thought leadership session discussing Next Generation 911.

Our Next Gen 911 tech expert Greg Little will take us through a customer case study and you'll learn why many of the top PSAPs are looking at Unify's First Response solution to help them meet Next Generation 911 challenges.

Topics we'll cover in the 30 minute webinar:

- What is Next Gen 911?
- Challenges in the Public Sector
- One City's Crusade
- Empowering the Public Sector

Unify is a Global provider of communication and collaboration solutions. For NG 9-1-1, we have a media-rich solution that emergency answering and dispatch centers can leverage, designed for carrier-grade communications. Whether originating as a voice, text or video call, call handlers can process multiple emergency contacts with a unified response.

### Why First Response?

- Unparalleled call volume management - over 5000 calls per hour
- Support for new communications channels such as texting, video and social media

- VoIP for more reliable, resilient and affordable call management
- Virtualized back office to maximize hardware investment and minimize management effort
- Integrated, customizable communication console for managing critical contact numbers, IPTV, other applications and more.

## Fortifying the Federal Government Enterprise Against Hackers

The federal government continues to be a tempting target for hackers. Close to 2 million data records containing bank account information or Social Security numbers were compromised in government data breaches in 2014 alone. Already in 2015 the personal records of more than 22 million people inside and outside the government were stolen from the Office of Personnel Management (OPM) by suspected Chinese hackers.

With data breaches continuing to make headlines on a weekly basis, public sector organizations must implement solutions to protect sensitive data, including health, financial, and identity information.

Many are turning to Secure Data as a Service, as it combines virtual data and service-based data masking, and represents a transformative solution that succeeds where traditional data security approaches fail. Additionally, this solution provides public sector application and IT teams with full, fresh, and secure data sets in just minutes, via self-service.

Please join i360Gov for a complimentary 60-minute webinar featuring exryption expert Charles Moore to learn more about Secure Data as a Service and how this solution can protect your enterprise.

### Who Should Attend?

This educational webinar will be highly useful for our subscribers with IT job functions working in federal government. If you are unsure whether or not you can attend the live webinar, as long as you register today, you will receive a link for viewing the archived version at your leisure.

Sponsored by *Delphix*.

### Federal Policy & Business

#### USPS Records First Profit in Five Years as Obama Calls for Shedding 12K Postal Jobs

Government Executive: The U.S. Postal Service turned a profit in a financial quarter for the first time in five years, though President Obama still proposed the agency slash 12,000 employees in his fiscal 2017 budget.

USPS posted a net income of \$307 million in the first quarter of fiscal 2016, the first such gain since the fourth quarter of fiscal 2011. Profits grew \$1.1 billion over the same period last year, when the Postal Service lost \$754 million. Operating revenue ticked up 3.3 percent to \$19.3 billion between Oct. 1 and Dec. 31, 2015, driven largely by a record volume of package delivery.

#### Will Democrats get a larger raise for federal employees?

The Washington Post: As Obama administration officials and journalists gathered in cozy meeting rooms around Washington for budget briefings Tuesday, federal employees rallied in a cold rain on a muddy lawn across from the U.S. Capitol.

It was a metaphor for their power in a town where Congress is controlled by Republicans and their Democratic friends in the White House feel constrained by budget realities.

## Budget projects 'largest relative pay cut' for feds

Federal Times: The president's proposed 2017 budget may offer federal employees a 1.6 percent pay bump, but it's another signal that the private sector is outpacing the government when it comes to compensation.

The 2017 budget, which was released on Feb. 9, estimates that any raise less than 2.1 percent would be the eighth-consecutive annual increase that came in below the Employment Cost Index, which measures the cost of labor.

## Obama's final budget proposal calls for \$4.15 trillion in spending

The Washington Post: President Obama sent the final budget proposal of his presidency to Congress on Tuesday, a \$4.15 trillion package that will mark the closing rounds of a long-running fiscal battle with Republicans in Congress over the nation's spending priorities.

The proposal would boost total spending by 4.9 percent, mainly as a result of increases in mandatory programs, most notably Social Security, and a rise in interest payments on the national debt. In keeping with the two-year budget deal struck with Congress in December, the president requested only a slight increase, less than 1 percent, in discretionary spending programs overall, though Republicans still accused him profligate spending.

### Chinese Cyberspies Pivot To Russia In Wake Of Obama-Xi Pact

InformationWeek: TENERIFE, SPAIN – Kaspersky Security Analyst Summit 2016 – Cyber espionage attacks by Chinese advanced persistent threat groups against Russian targets have increased by 300 percent in the past two months, according to a top security expert with Kaspersky Lab.

Costin Raiu, director of the global research and analysis team at Kaspersky Lab, says his firm's researchers witnessed a dramatic drop in Chinese-speaking APTs going after US and UK organizations' intellectual property in September after President Obama and Chinese president Xi Jinping came to a historic agreement not to conduct cyber spying attacks for economic gain. Kaspersky Lab refrains from confirming the actual actors behind advanced groups such as nation-states, so it refers to these attackers as "Chinese-speaking" cyber espionage groups.

### White House Wants to Give Agencies New Pot of Money to Upgrade Legacy IT

Nextgov: The White House is seeking Congress' help to establish a multibillion-dollar fund that federal agencies could use to upgrade aging computer networks prone to cyberattacks and system failures.

As part of a planned Cybersecurity National Action Plan announced today, the Obama administration wants permission to establish a \$3.1 billion revolving fund that will help agencies transition away from so-called legacy IT toward more modern options, such as cloud computing.

### Obama's new cybersecurity agenda: What you need to know

CIO: In response to mounting cyber attacks on federal networks, President Barack Obama is seeking \$19 billion for cybersecurity, more than a 35% increase over last year's spending, and calling for a federal CISO to oversee all the upgrade of outdated and insecure cyber infrastructure.

The number of information security incidents grew more than 11-fold between 2006 and 2014 to 67,168, and attacks from other countries have been on the rise.

## In cybersecurity bid, Obama wants to retire outdated government systems

CNN: The White House says it's working to increase the security of the federal government's computer and data systems after high-profile hacks at various agencies, including a recent breach at the Justice Department.

President Barack Obama Tuesday signed an executive order establishing a federal privacy council to ensure all of the administration's branches are using the best, most secure practices when safeguarding individual employees' information, as well as government data.

## Knowledge Center: Webinars

### Overcome Obstacles to Agile Application Development

Wed, February 17th, 2016 at 2:00pm EST

Federal government agencies face intense pressure to build next-generation applications, despite resource constraints and growing requirements to incorporate security, accessibility and analytic capabilities. Rising complexity and overburdened IT systems only contribute a lack of agility – which is something government agencies desperately need to support the demand for new apps and services. Add the backlog of application change requests, inflexible infrastructures and the difficulties inherent in managing mobility and migrating to the cloud, and it's no surprise government executives feel frustrated.

Join us for this **complimentary** webinar on Feb. 17 at 2pm, to learn how you can overcome these obstacles and effectively reduce the time it takes to launch efficient and properly vetted applications that leverage the transactional data flowing through your organization today.

#### Speakers:

- Zahid Chaudhry, Branch Chief, Enterprise Application Development, Chief Information Office, U.S. Forest Service.

- Chris Steel, Chief Solutions Architect, Software AG Government Solutions

**Please note:** All webinar registrants will also receive a link to view the archived event.

## Derived Security Credentials for Government Transactions

As government organizations increasingly move towards mobile devices, they are asking how they can provide their workers with access to their applications and data with a secure digital certificate. Common Access Cards (CAC) and Personal Identity Verification (PIV) smart cards are used to manage access to both online and physical resources through controlled access to networks, systems, building and spaces. However, this standard way of doing things doesn't always work in mobile situations.

Securely storing government credentials on mobile devices allows these individuals to transform their applications into a secure enterprise space; and this is where derived credentials come into place.

In this 60 minute educational web seminar, e-SignLive along with Entrust, the leader in government software authentication platforms that strengthen security in a wide range of identity and transaction ecosystems, will provide an overview of derived PIV/CAC credentials for government and how the derived credential on mobile devices is the next generation of US Government's use of PKI, enabling government workers to build trust for authentication in an increasingly mobile workplace.

Attendees will learn:

- What is the derived PIV/CAC credential in government and why it's so important
- What the implementation looks like
- The value of derived credentials with electronic signatures
- How can this be leveraged to other parts of government or commercial entities

Featuring a live demo application of e-signatures with derived credentials, this is a must-attend session for any federal organization looking to create a secure and legally enforceable means of executing regulated transactions using laptops, iPads and smartphones.

## Next Generation 911

# With the clock ticking... are you ready to respond to every call, text, tweet, video?

Every year sizable emergencies hit the United States. Will the local emergency response systems be up to the task? Would your systems be ready?

Please join Unify for a thought leadership session discussing Next Generation 911.

Our Next Gen 911 tech expert Greg Little will take us through a customer case study and you'll learn why many of the top PSAPs are looking at Unify's First Response solution to help them meet Next Generation 911 challenges.

Topics we'll cover in the 30 minute webinar:

- What is Next Gen 911?
- Challenges in the Public Sector
- One City's Crusade
- Empowering the Public Sector

Unify is a Global provider of communication and collaboration solutions. For NG 9-1-1, we have a media-rich solution that emergency answering and dispatch centers can leverage, designed for carrier-grade communications. Whether originating as a voice, text or video call, call handlers can process multiple emergency contacts with a unified response.

#### Why First Response?

- Unparalleled call volume management - over 5000 calls per hour
- Support for new communications channels such as texting, video and social media
- VoIP for more reliable, resilient and affordable call management
- Virtualized back office to maximize hardware investment and minimize management effort
- Integrated, customizable communication console for managing critical contact numbers, IPTV, other applications and more.

## Fortifying the Federal Government Enterprise Against Hackers

The federal government continues to be a tempting target for hackers. Close to 2 million data records containing bank account information or Social Security numbers were compromised in government data breaches in 2014 alone. Already in 2015 the personal records of more than 22 million people inside and outside the government were stolen from the Office of Personnel Management (OPM) by suspected Chinese hackers.

With data breaches continuing to make headlines on a weekly basis, public sector organizations must implement solutions to protect sensitive data, including health, financial, and identity information.

Many are turning to Secure Data as a Service, as it combines virtual data and service-based data masking, and represents a transformative solution that succeeds where traditional data security approaches fail. Additionally, this solution provides public sector application and IT teams with full, fresh, and secure data sets in just minutes, via self-service.

Please join i360Gov for a complimentary 60-minute webinar featuring exryption expert Charles Moore to learn more about Secure Data as a Service and how this solution can protect your enterprise.

#### Who Should Attend?

This educational webinar will be highly useful for our subscribers with IT job functions working in federal government. If you are unsure whether or not you can attend the live webinar, as long as you register today, you will receive a link for viewing the archived version at your leisure.

### New, Reading-Heavy SAT Has Students Worried

The New York Times: BOSTON — For thousands of college hopefuls, the stressful college admissions season is about to become even more fraught. The College Board, which makes the SAT, is rolling out a new test — its biggest redesign in a decade, and one of the most substantial ever.

Chief among the changes, experts say: longer and harder reading passages and more words in math problems. The shift is leading some educators and college admissions officers to fear that the revised test will penalize students who have not been exposed to a lot of reading, or who speak a different language at home — like immigrants and the poor.

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

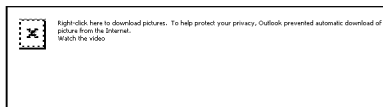

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

## THIS WEEK IN POLITICS

# Top Officials at Risk and Unresolved 2016 Election Maps

BY ALAN GREENBLATT

### Statewide Officials Find Themselves at Risk

Executive branch jobs are generally more stable than legislative positions. But some didn't seem too secure this week.

**In Michigan**, the drumbeat of complaints about Republican Gov. Rick Snyder just keep getting louder. On Monday, the Board of State Canvassers approved one of many recall petitions, which gives Snyder's critics a green light to collect signatures to put a recall measure on the November ballot. The approved petition has to do with education, but any recall campaign will focus squarely on how Snyder has handled the Flint water crisis.

**In Indiana**, Republican Gov. Mike Pence, who is up for re-election this fall, picked a new running mate this week after his quit. Lt. Gov. Sue Ellspermann is up for a job running a community college system, so Pence turned to Eric Holcomb, a former chair of the state GOP, to shore up his ties with party activists.

"By selecting Holcomb as his running mate, Pence sent a clear message about how endangered his political career is," wrote Matthew Tully, a columnist with the *Indianapolis Star*.

Pence is being challenged by Democrat John Gregg, a former House speaker.

## VIDEO: How volunteers are helping Flint

---

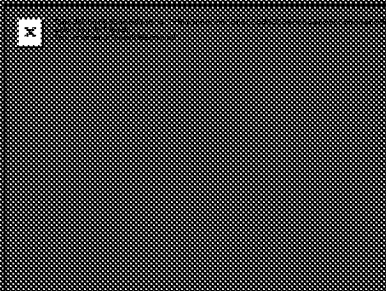

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbern.org](http://www.fbern.org).

Click [here](#) to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

### New Best Practice

#### The Place of Public Procurement Within The Entity

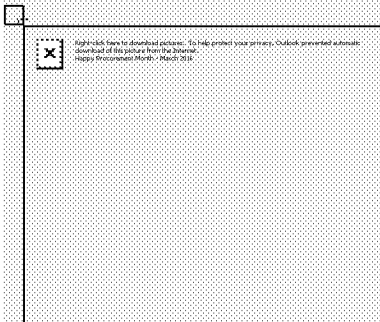

The placement of Procurement should be operationally distinct from other departments and divisions.

The 'Place of Procurement' refers to positioning Procurement within the entity to optimize the influence and impact of Procurement on internal and external stakeholders.

This best practice builds a case for the strategic placement of the Procurement function. This placement maximizes the effectiveness of Procurement within the entity and is critical for the entity to fully benefit from Procurement operations.

DIRECTOR

April 25, 2013

## **MEMORANDUM**

TO: Joyce Van Coevering, Director  
DTMB Office of Support Services

FROM: Kristi Thompson  
Logistics & Operations Support

SUBJECT: Logistics & Operations Support Monthly Report – April 2013

---

### **Executive Reporting**

- None

### **Logistics & Operations Support - General**

- The Legislative Report on Statewide Inventory Management was finalized and submitted.
- All ICE Materials have been submitted.

### **Printing Services**

- The continuous feed printer in the CPC is on temporary hold while a licensing issue is addressed with Procurement and the vendor.
- Printing Services (PS) completed the quarterly ING printing. The statements consisted of over 368,000 images. In addition to the statements, newsletters, seminar statements, and performance number pieces were produced as well.
- PS is working in partnership with the Department of Transportation (MDOT) to provide Vehicle & Travel Services with 44 parking signs for the Flint/Saginaw facility. These aluminum signs with reflective background were produced and delivered in five days.
- A quick turnaround request from the Department of Treasury is complete! They contacted PS on April 5, 2013, requesting we complete a rush mail merge letter of 606 pieces. The files arrived at 12:56 p.m. PS completed the mail merge and had proofs ready for review at 1:57 p.m. Which a quick approval, the job was printed and delivered to Mailing Services by 2:21 p.m.!
- In review of a supplied data file for a Treasury postcard mailing, PS staff discovered many duplicate names in the list. In one instance, a person was listed 44 times. When brought to Treasury's attention, the file was revised and resubmitted. The quantity was reduced from over 29,000 names to 11,400 names, saving Treasury an estimated \$6,900 in print and postage.

- A buyer was assigned to handle the procurement of the upgraded Uninterruptible Power Source (UPS) in the CPC. The current UPS is at end-of-life and no longer supported. A change notice must be completed for the existing contract and funds added to cover our costs.
- PS continues to work with DIT on encrypting “data in transit.” DIT recommends two solution options – a software program called “Tectia” or use of the Data Exchange Gateway (DEG). We currently encrypt “data at rest” but new mandates will also require encryption of the data in transit, both sending and receiving, by September 30, 2013. PS will purchase licenses for the Tectia software, so it can accept the encrypted files.
- An ITB for AGFA prepress supplies was posted. Bids are due back on May 6, 2013. The current contract expires on July 31, 2013.
- IT continues to work on server refreshes in both CPC and PGS. It is anticipated that all server refreshes will be completed by September 30, 2013.

### **Kudos**

- **From:** Arntz, Renee (DEQ)  
**Sent:** Monday, March 25, 2013 9:03 AM  
**To:** Hodgman, Steve (DTMB); Banks, William (DTMB)  
**Subject:** Thank you

Just wanted to say thank you! I am so glad this Water Treatment 2 order is now complete. One of those jobs that just hung on there and was albatross from beginning to end!!! Appreciate everyone over there. Thanks again!!!

Renee' M. Arntz, Secretary  
 Michigan Department of Environmental Quality  
 Office of Drinking Water and Municipal Assistance

### **Warehouse Services**

- Customer space usage in the Forms and Publication unit for the month of April is at 22,128 square feet. Customer orders for the month are on pace to reach 781.
- Customer space usage in the Furniture Unit will be 10,192 square feet. Customer orders for the month are on pace to reach 44.

### **Surplus Services**

- Surplus Services (SS) is preparing for the Federal GSA audit in July.
- SS is working on the final review of guidelines for the surplus transformation rollout.
- There are three new applications for the Federal program.
- The Van Buren County Road Commission continues to be one of the biggest users of the Federal program.
- DIT completed a SharePoint project to add a “Craigslist”-type of site for state agencies to use.
- MiBid Internet Auction Statistics:

- 119 auctions posted
- 56 vehicles sold
- Monthly sales reached \$306,613.00, with retained revenue of \$81,012.00.

## **Mail Services**

- Thomas Goodine and Mike Armstrong attended the National Postal Forum from March 16 – 21, 2013. With major changes occurring within the Postal Service and Mail Industry, this was an important event to attend, seeking the latest in training and business opportunities adapted to the DTMB Mail operation.
- LOS conducted our annual seminar “Transformations – Reshaping Services to Meet Your Needs” on March 27, 2013. Attendance and reception was very favorable by hosting at Constitution Hall this year. Customers were given an overview of how and why LOS has reshaped. Updates were given regarding the postal service and mail industry.
- Mail and Delivery Services participated in Suspicious Mail training at the JOC with Jason Narin. Additional training was suggested for all Department of State staff that comes into direct contact with the U.S. mail at a future date.
- A meeting was held with an equipment vendor seeking industry performance standards as Mail Services continues to refine and update IPM’s using available data from our equipment.
- A customer meeting was held with MDOT. A resolution for future handling was outlined as well as a customer account credit specific to the shipment costs in dispute by DTMB’s intervention.
- There are continuous discussions with the USPS concerning late mail arrivals to Lansing, causing delays in the distribution of U.S. mail to customers. The USPS Network Optimization and other issues will be a topic for the USPS Quarterly meeting scheduled for May 2, 2013.
- The equipment maintenance RFP was completed and will be posted to all qualified bidders.
- A meeting was held with Telecom to discuss Mail Services Billing. Attendees were Thomas Goodine, Brian Turnbull, Dianne Williams, and Carolyn Rambo. Topics covered: items in monthly reporting for improvement, understanding and future processes and the value of specific items to report all on the table for further discussion.
- A meeting is scheduled with William Walsh from Purchasing for the development of an equipment replacement RFP. This RFP is specific for servicing Secretary of State Renewals by mail program April 22, 2013. Equipment currently in use is obsolete adding to repair and operating costs.
- The mailing services order system was updated to SQL 12. A meeting was also held to discuss replacing the current online ordering process by using the Print Logic system already in place, which was suggested to be the best option and least costly. The possibility of reporting print and mail costs to customers in a unified format is also a factor in looking at the Logic system.
- The Print-to-Post Quarterly Newsletter is complete for customer distribution and posting on DTMB Intranet.
- The Second Quarter Financials meeting was held on April 22, 2013.
- Additional savings to date for the Presort Full Service IMb is \$18,140,58.00. (Reporting reflects period between March 14 – April 16, 2013)

- The quarterly USPS meeting is scheduled for May 2, 2013. USPS District Manager Chuck Howe may be in attendance to provide National/District updates.
- The LOS Customer Survey was completed for the first release on April 29, 2013.
- Scheduling of LOS Customer Meetings will be completed.
- The following savings have been realized by Mail and Delivery Services customers year-to-date:
  - YTD Consulting Savings \$224,323.00
  - YTD Presort Savings Letters \$3,771,829.58
  - YTD Presort Savings Flats \$90,644.54

### **Delivery Services**

- Delivery Services (DS) provided the following services for the month:
  - Office Moves
    - DEQ in Constitution Hall
    - DCH within 109 Washington Square
    - DTMB from Constitution Hall to the Hollister Building
    - DTMB from the Mason Building to the Romney Building
    - Delivered furniture for the Executive Office to Mackinac Island
- DS is meeting with Jones Lang LaSalle on a weekly basis in regards to the Constitution Hall moves.
- Mail runs are being reviewed for possible consolidation.
- DS is reviewing cross training/rotating of drivers on regional and in-town mail runs.

### **Looking Ahead**

- Delivery Services Move Jobs –
  - The second move for DEQ in Constitution Hall is scheduled for May 17, 2013.
  - There is an upcoming move for LARA out of Woodlake Circle.
  - There is an upcoming move for DTMB out of Operations Center.
  - Move jobs are scheduled each weekend throughout the summer.

SERVICE LEVEL AGREEMENT  
between the  
WAYNE COUNTY DEPARTMENT OF HUMAN SERVICES  
and the  
DEPARTMENT OF TECHNOLOGY, MANAGEMENT AND BUDGET  
OFFICE OF SUPPORT SERVICES  
LOGISTICS AND OPERATIONS SUPPORT DIVISION  
MAIL & DELIVERY SERVICES  
regarding  
MAIL DISTRIBUTION SERVICES

This agreement is effective October 1, 2011 and reflects services provided by the Department of Technology, Management and Budget (DTMB), Office of Support Services, Logistics and Operations Support Division, Mail and Delivery Services (MDS) for the Wayne County Department of Human Services (WCDHS). This agreement is subsequent to and replaces the Memorandum Of Agreement (MOA) established by the Department of Technology, Management and Budget and the Family Independence Agency on October 11, 2002.

1. PURPOSE

The purpose of this Service Level Agreement (SLA) is to set forth in writing the terms and conditions under which the DTMB MDS shall perform agreed upon mail distribution services for the WCDHS. It is the goal of this SLA for the DTMB MDS and the WCDHS to work cooperatively, in order to effectively and efficiently provide ongoing mail distribution services for the WCDHS by the DTMB MDS.

2. STATEMENT OF SERVICES

DTMB MDS agrees to perform the mail distribution services and tasks specifically described.

- Scheduled drop off/pickup service to the WCDHS office locations in Wayne County. See Attachment A for locations.
- Services include pickup, sort and delivery of ID mail and packages for said office locations.
- Each office will have one location at which ID mail and packages will be delivered and picked up.
- MDS personnel will enter DHS offices via the front door unless delivery access is available,

3. TIME TABLE FOR SERVICES

- Once per day, on standard state business days, drop off and pickup at the designated drop point, for each of the office locations in Wayne County on Attachment A.
- A schedule of delivery/pickup time at each site will be published.
- WCDHS offices have no critical time requirements for the ID mail and package pickup or delivery.

#### 4. SERVICE STANDARDS

- Agency labeling of ID mail and packages is required for prompt delivery. Standard regular postal mail labeling is the required format.
- DTMB MDSD provided a training document for mail and package address requirements for WCDHS to disseminate to offices and staff.
- Incomplete address and undeliverable mail and packages will be returned to the WCDHS SLA manager or designated representative for re-labeling.
- WCDHS will provide DTMB MDS a primary contact name, phone number and address for each WCDHS office that will receive the ID mail and packages. This contact will facilitate ID mail and package service for their building.

#### 5. SERVICES NOT INCLUDED IN THIS AGREEMENT

- Exclusive use of equipment or labor in providing services.
- Delivery of any incoming U.S. Mail (U.S. Postal Service carriers are responsible for delivering U.S. mail to each office.)
- Packaging (bundling and labeling) and metering services.
- Emergency deliveries/pickups.
- Freight delivery.
- Inter-department (ID) mail to other DHS sites not served by DTMB MDS. See Attachment B for listing of DHS offices served by DTMB MDS ID Mail System.

#### 6. PRICE AND PAYMENTS

Effective Fiscal Year 2004 GF/GP funds permanently transferred from DHS to DTMB for the services provided for in this SLA.

#### 7. AGREEMENT TERMS

This agreement shall be effective upon the signature of both parties. DTMB MDS and WCDHS agree to conduct quarterly reviews of service no later than the end of the first week of the new quarter. Annual review of new rates and renewal of the SLA by the signatories will be accomplished no later than September 15th. The reviews shall include the following: problems and concerns, overall service and performance, and operational modifications. Either party upon 90 days written notice may terminate this agreement. This SLA is the official commitment between DTMB MDS and WCDHS for said mail distribution services for WCDHS locations.

#### 8. CHANGES IN SCOPE OF AGREEMENT

It is understood and agreed that significant policy and operational changes will be developed and documented in writing. It is understood and agreed that major changes may modify the service expectations and cost of service.

In the event of a significant policy, budgetary or operational program change by either WCDHS or DTMB, the originating party is responsible to consult with the other party beforehand and a reasonable period of time is given for outlining and pricing the service level change before implementation. Each SLA manager will obtain appropriate approvals for the changes. A copy of the changes will be submitted to

DTMB MDS and included with the SLA master file. SLA managers will ensure all customers and stakeholders are informed of the changes made to the agreement.

## 8. QUALITY ASSURANCE

Managing the Agreement: DTMB MDS and WCDHS will designate an individual as the SLA manager to perform the following:

- Facilitate annual renewal of the SLA.
- Serve as the point of contact for problems or concerns related to the SLA.
- Maintain ongoing contact between the customer and service provider.
- To ensure quality and timely delivery of ID mail and packages, WCDHS SLA manager will provide DTMB MDS a list of employees in each WCDHS office, and update such list periodically, not less than annually.
- Facilitate or participate in conflict resolution process regarding service effectiveness.
- Plan and conduct quarterly reviews to include the discussion of customer surveys.

SLA managers will mutually agree upon any changes in schedule and/or routes.

## 9. PROBLEM MANAGEMENT PROCESS

Should a problem arise related to the Agreement, it will be handled in the following manner. Staff will attempt to resolve problems through communication of the issues and developing solutions. If an effective mutually agreeable resolution cannot be reached the SLA managers will assist in developing an appropriate resolution.

## AGREEMENT REPRESENTATIVES

WCDHS SLA Manager: David Endyke

Phone/email: 313-456-1324 [endyked@michigan.gov](mailto:endyked@michigan.gov)

WCDHS Contract Manager: Edna Nunn

Phone/email: 313-456-1267 [NunnE@michigan.gov](mailto:NunnE@michigan.gov)

DTMB SLA Manager: Tim Welsh

Phone/email: 313-456-4029 [Welsht@michigan.gov](mailto:Welsht@michigan.gov)

Problem Escalation: If problems arise that cannot be resolved in the normal manner; the escalation process for problem resolution is as follows

WCDHS: Derle Barnes

Phone/email: 313-456-1026 [barnesd3@michigan.gov](mailto:barnesd3@michigan.gov)

DTMB MDS: Ralph Smith

Phone/email: 517-322-6788 [smithr4@michigan.gov](mailto:smithr4@michigan.gov)

DTMB MDS: William Doxie

Phone/email: 517-636-0731 [doxiew@michigan.gov](mailto:doxiew@michigan.gov)

## WCDHS

2<sup>nd</sup> Contact – Dwayne Haywood, Director Wayne County DHS

3<sup>rd</sup> Escalation Contact – Terry Beurer, Interim Director of Field Services, DHS

## DTMB

2<sup>nd</sup> Contact – Kristi Thompson, Director, LOS Division

3<sup>rd</sup> Escalation Contact – Joyce Van Coevering, Director, Office of Support Services

## 10. DURATION

The duration of this Agreement will be ongoing and is subject to periodic review. At a minimum, the Agreement will be reviewed annually or as determined necessary by either party. Mutually agreed upon changes will be incorporated into the Agreement and a revised agreement will be issued.

## 11. EQUIPMENT

DTMB MDSD will provide vehicles for service commitments.

## 12. STAFF

DTMB MDSD is expected to staff at such levels to ensure commitment to service and time schedules as called out in items 2 and 3 of this SLA.

## 13. AUTHORITY

The Management and Budget Act (Public Act 431 of 1984, as Amended)

Article 1 General Provisions, Section 18.1141 (c) Duties of department are to provide centralized management of auxiliary services when advantageous to state government, after consultation with any affected state agency.

## 14. SIGNATORIES

The signatories warrant that they are authorized to sign and execute this Agreement on behalf of their respective departments.

SERVICE LEVEL AGREEMENT  
between the  
WAYNE COUNTY DEPARTMENT OF HUMAN SERVICES  
and the  
MICHIGAN DEPARTMENT OF TECHNOLOGY, MANAGEMENT AND BUDGET  
OFFICE OF SUPPORT SERVICES  
LOGISTICS & OPERATIONS SUPPORT DIVISION  
MAIL & DELIVERY SERVICES  
regarding  
DELIVERY SERVICES

This agreement is effective October 1, 2011 and reflects delivery services provided by the Department of Technology, Management and Budget (DTMB), Office of Support Services, Logistics and Operations Support Division, Mail and Delivery Services (MDS) for the Wayne County Department of Human Services (WCDHS).

**1. PURPOSE**

The purpose of this Service Level Agreement (SLA) is to set forth in writing the terms and conditions under which DTMB MDS shall perform agreed upon delivery services for WCDHS.

**2. STATEMENT OF SERVICES**

DTMB MDSD agrees to perform the following services:

- Pickup and deliver Interdepartmental (ID) Mail and desk mail to be metered, between General Services Building (GSB), Lansing and the Cadillac Place, Detroit
- Deliver forms, envelopes, printing orders from the GSB in Lansing to the Cadillac Place, Detroit and the Wayne County Department of Human Services District Offices.
- Deliver reports generated by DTMB Consolidated Print Center (CPC) in Lansing to the Cadillac Place, Detroit and Wayne County Department of Human Services District Offices.
- Provide WCDHS Resource Management Unit with documentation to support DTMB monthly charges. This will include an electronic billing summary.

**3. SERVICE TIMEFRAME**

- Daily, on state business days, drop off/pickup ID Mail and desk mail to be metered, between the GSB in Lansing and the Cadillac Place, Detroit.
- Once per week, deliver forms, envelopes, and print orders from GSB in Lansing to Detroit, Cadillac Place and Wayne County District Offices. If cost effective to WCDHS, DTMB MDS reserves the option to use a commercial carrier for specific shipments.
- Daily, on state business days, deliver reports generated by the DTMB CPC to Detroit, Cadillac Place.

#### 4. SERVICE STANDARDS

- Proper addresses on ID Mail and packages are required for prompt delivery.
- Incomplete address and undeliverable mail and packages will be returned to the WCDHS Mail Room.

#### 5. SERVICES NOT INCLUDED IN THIS AGREEMENT

- Exclusive use of equipment or labor in providing freight services.
- Delivery of any incoming and outgoing U.S. Mail.
- Packaging (bundling and labeling).
- Emergency pickups and deliveries.
- Use of DTMB Scheduled and On-demand delivery services. If requested see prices in Appendix A.
- Delivery of ID Mail between WCDHS District Offices and WCDHS offices in Detroit Cadillac Place. These services are covered under a separate Service Level Agreement.

#### 6. PRICE AND PAYMENTS

- ID Mail service between GSB in Lansing and Detroit Cadillac Place is priced using the DTMB rates established annually by DTMB. DTMB will provide WCDHS with the upcoming Fiscal Year rates by September 15th of each year. Pricing for FY12 is included in Appendix A.
- Shipment of forms, envelopes, print orders and reports generated by the CPC are priced by weight and distance. Weight of the reports generated daily by the CPC will be based on an average established at the beginning of each fiscal year. Pricing is fixed for the fiscal year and will only be changed if there is a change in service. A price list for shipping these items is included in Appendix A.
- DTMB will inter-account bill DHS Accounting on a monthly basis for the services provided in this SLA.
- DTMB will charge for delivery services provided to WCDHS using Index 76840, PCA 62066, Object Code 6145.

#### 7. AGREEMENT TERMS

This agreement shall be effective upon the signature of both parties. DTMB MDS and WCDHS agree to conduct quarterly reviews of service no later than the end of the first week of the new quarter. Annual review of new rates and renewal of the SLA by the signatories will be accomplished no later than September 15th. The reviews shall include the following: problems and concerns, overall service and performance, and operational modifications. Either party upon 90 days written notice may terminate this agreement.

#### 8. CHANGES IN SCOPE OF AGREEMENT

It is understood and agreed that significant changes in service levels will be agreed upon by both parties and documented in writing. It is understood and agreed that major changes may modify the service expectations and cost of service. In the event of a significant change by either DTMB MDS or WCDHS, the originating party is responsible to consult with the other party beforehand. Each SLA manager will obtain appropriate approvals for the changes. A copy of the changes will be made part of the original SLA.

## 9. PERIODIC REPORTS

- DTMB will print and send the "Revenue FIA" report to WCDHS Resource Management Unit on a monthly basis.
- DTMB will provide DHS Accounting, for forwarding to WCDHS Resource Management Unit, documentation to support DTMB monthly charges. This will include an electronic billing summary.

## 10. QUALITY ASSURANCE

DTMB MDS and WCDHS will designate an individual as the SLA manager. The SLA managers will:

- Serve as the point of contact for issues related to services covered by this SLA.
- Facilitate or participate in conflict resolution related to all services covered by this agreement.
- Delegate responsibilities to, or seek the assistance of, colleagues, subordinates or members of the their respective staff as needed to address issues that may arise under the SLA.
- Conduct quarterly reviews.
- Facilitate the annual renewal of the SLA.

## 11. PROBLEM RESOLUTION AND ESCALATION PROCESS

Problems related to services covered by this Agreement will be handled in the following manner:

- Staff will attempt to resolve problems.
- If staff is not able to resolve the problem, the problem will be escalated to the SLA managers.
- If SLA managers are not able to resolve the problem, the problem will be escalated to the respective division administrators.

## 12. AGREEMENT REPRESENTATIVES

- DTMB MDS SLA Manager: Ralph Smith, Phone: 517-322-6788, [smithr4@michigan.gov](mailto:smithr4@michigan.gov)
- DTMB MDS Contract Manager: William Doxie  
Phone/email: 517-636-0731 [DoxieW@michigan.gov](mailto:DoxieW@michigan.gov)
- Wayne County Department of Human Services SLA Manager: David Endyke,  
Phone: 313-456-1324, Email: [endyked@michigan.gov](mailto:endyked@michigan.gov)
- WCDHS Contract Manager: Edna Nunn  
Phone/email: 313-456-1267 [NunnE@michigan.gov](mailto:NunnE@michigan.gov)
- DTMB LOS/MDS Division Administrator: Kristi Thompson., Phone: 517-636-5407, [Thompsonk1@michigan.gov](mailto:Thompsonk1@michigan.gov)
- Wayne County Department of Human Services Interim Director of Field Support Services Administration: Terry Beurer, Email: [beurerT@michigan.gov](mailto:beurerT@michigan.gov)

## 13. SIGNATORIES

The signatories warrant that they are authorized to sign and execute this Agreement on behalf of their respective departments.

## Appendix A – Fiscal Year 2012 Pricing

- ID Mail delivery service between GSB, Lansing and the Cadillac Place, Detroit: \$429.59 per month.
- These are the rates for freight delivery service from Lansing to Detroit on DTMB's regularly scheduled freight runs. Bulk orders of publications, forms, and envelopes from the General Services Building warehouse as well as printing orders and reports generated by the Consolidated Print Center are placed on these scheduled runs. These rates are subject to quarterly changes.

### Rates October 2011

o	Min- 500 lbs	\$66.02
o	501- 600 lbs	\$70.23
o	601 – 1000 lbs	\$84.29
o	1001 – 1200 lbs	\$105.34
o	1201 – 1500 lbs	\$126.40
o	1501 – 2000 lbs	\$158.00
o	2001 – 2500 lbs	\$175.67
o	2501 – 3000 lbs	\$219.58
o	3001 – 5000 lbs	\$263.50

For freight 5000 lbs or less  
billing is based on actual  
weight. Rates shown are the  
maximum for the weight  
class. ie: 2001 lbs. will be  
less than \$175.67

o	5001 – 7000 lbs	\$363.04
o	7001 – 9000 lbs	\$417.49
o	9001 – 11000 lbs	\$480.12
o	11001 – 13000 lbs	\$552.13
o	13001 – 15000 lbs	\$634.95
o	15001 – 17500 lbs	\$730.20
o	17501 – 40000 lbs	\$839.73

For freight above 5000 lbs.  
rates shown are same for all  
weights in the class. ie: 6000  
lbs. will cost \$363.04  
40000 is max capacity of our trailers

- On-demand Freight Service: DTMB Freight performs limited dedicated moves for customers. Customers can hire a truck and drivers by the hour or day to perform customized moving jobs. Labor and vehicle charges apply driving to and from the job site. These are DTMB's published rates:
  - Labor cost per hour           \$ 76.60
  - Vehicle cost per hour       \$ 17.30
  - Vehicle cost per mile       \$ 0.99
  - Vehicle cost per day       \$ 138.38

Mark,

Change in course of action. The plan now is to have the client pick up the water filter at the local DHHS office, no need for a voucher to be printed as of now. I will keep you updated as I hear more.

Thanks,

Chris

Mark,

Please make the following changes to the voucher:

Remove Meijer completely.

Add two more store addresses for Walmart:

6170 S. Saginaw Rd, Grand Blanc, MI 48439

11493 N. Linden Rd., Clio, MI 48420

There are two date fields. There is no need to have two. Remove the one under the client name line.

Add a statement: "Please present this voucher to the clerk upon checkout at the register."

Still waiting to hear if we are going to add additional products to the list.

Chris

Sounds like we are good with initiative number 2 - filters will get delivered so we are good to go.

So far as the vouchers go - we need to remove reference to Meijer and only have the vouchers be good for Wal Mart. Chris - Can you do this so we can get vouchers printed and finalized Monday morning through DTMB?

Please let everyone know if there are any other details or issues we're missing. Sorry for all the emails but it was the only way we could think of to get everyone on the same page. Thanks for everyone's help.

On Oct 3, 2015, at 7:57 PM, Cook, Rebecca (DTMB) <CookR6@michigan.gov> wrote:

Per Farah's phone conversation earlier today with Jeff Brownlee, the water pitcher option is not being pursued.

DHHS remains the lead on creating the voucher.

Home Depot will deliver 5000 filters around 8 am on Monday morning. Per DHHS' purchase order, they are the type that attach to the faucet. The PO is for a total of 20,000 of this type of filter. The under sink mount model was not ordered.

I spoke with Home Depot this afternoon and they will confirm price and lead time on the under sink mount model, in case DHHS would also like to issue a purchase order for this. I will pass along info to the group as it is received.

Please feel free to call with any questions.

All - Please read the following as some of these items and changes may reflect your work depending on what department you're in.

Here's the latest:

Re Item #1 - Vouchers to DHHS clients - We need the vouchers to please have noted on the voucher 3 options available to the client for Wal Mart to get to the local offices -

1. An over the counter on the faucet filter
2. A pitcher with a filter in it
3. An under the counter / sink filter.

Whoever is developing the voucher - would you please update it for these three items? So far as specs go, DHHS purchasing has been checking the website for which specs to use. When updating the voucher I assume it needs to have those specs?

Re Item #2 - Filters from the DTMB Vendor to the Community Action Agency in Genesee County - Same as above, we'll need to have three options available so there's consistency among the options.

We're asking DHHS and DTMB to please use this latest info - ask whatever questions we need answered - to make this happen. If it's too late to do all three filter options, we can amend purchase orders if necessary.

If anyone believes I've missed anything or stated anything incorrectly please feel free to chime in here.

On Oct 2, 2015, at 4:32 PM, Rigg, Steve (DTMB) <[RiggS@michigan.gov](mailto:RiggS@michigan.gov)> wrote:

Under the counter filters from Grainger are going to be priced around \$150 each, their supplier stock is low at 860 units (3M Company out of Minnesota), and could be difficult for some to install.

The Home Depot faucet filters are much easier to install and priced at \$17.47 each with a 2-pack of replacement filters available for \$24.87.

Home Depot will have 20,000 filters shipped to one of their local Flint stores on Saturday and can be delivered on Sunday to the GCCARD if someone is available, otherwise will be delivered on Monday. Dave from Home Depot has already been in contact with Matt Purcell from GCCARD.

**Subject:** Re: Flint Water Update

DHHS just signed the purchase order for the 5,000 filters. We are moving on this now.

DTMB- when can we say that Home Depot or Grainger will be delivering the filters?

Sent from my iPhone

On Oct 2, 2015, at 2:09 PM, Hanley, Farah (DHHS) <hanleyf@michigan.gov> wrote:

We appreciate everyone staying so patient as we make this happen and recognize that this is an evolving issue.

To that point we will now be issuing over and under counter filters (assuming most people will pursue the over counter faucet filters). Let's pursue 2/3 of the 5,000 for over counter and 1/3 of the 5,000 for under counter filter.

**Subject**  
: Re:  
Flint  
Water  
Update

After  
further  
discussi  
on with  
others,  
we  
believe  
we can  
start  
with  
5,000  
filters  
and go  
from  
there.

If we  
have to  
purchas

e more  
we'll do  
that.

Feel  
free to  
tell  
them  
5,000.  
Thanks  
Kris.

**Cc:** 'executivedirector@NASASP.org';Doug Janka - 5QSC (doug.janka@gsa.gov);Clark, Stephanie (DTMB);Thompson, Kristi (DTMB)  
**Subject:** Bottled Water

The State of Michigan is in need of bottled water for the City of Flint. The mayor of Flint, MI declared a state of emergency over contaminated water in the city. The city's water supply is contaminated by high levels of lead. Currently gsaccess.gov does not have cases of bottled water available. Please let me know if your state has bottled water available for transfer.

Thank you,

Carolyn Rambo, Program Supervisor  
State & Federal Surplus Property Program  
Logistics & Operations Support Division

**Subject:** FW: Bottled Water

Here is a count of what South Carolina has for bottled water.

---

**From:** Hornsby, Thomas [mailto:Thomas.Hornsby@admin.sc.gov]  
**Sent:** Wednesday, December 16, 2015 12:19 PM  
**To:** Rambo, Carolyn (DTMB) <RamboC1@michigan.gov>  
**Cc:** Steve Stillwell (donatedgoodswarehouse@gmail.com) <donatedgoodswarehouse@gmail.com>; Lancaster, Ashlie <Ashlie.Lancaster@admin.sc.gov>  
**Subject:** RE: Bottled Water

Carolyn,

As a follow up we have 93 pallets of bottled water and 32 pallets of canned water available if you can provide logistics.

I am still waiting on approval to release once you can confirm transportation.

Tom Hornsby, CPM  
*Program Manager, Surplus Property Officer, 1033 Coordinator*  
*Division of General Services*

The South Carolina  
Department of Administration  
1441 Boston Avenue, West Columbia SC, 29170  
(803) 896-6889 | (803) 896-6899 fax

NOTE: Act 121 of 2014 (SC Restructuring Act of 2014) abolished the Budget and Control Board. Effective July 1, 2015, the Division of General Services has been transferred to the Department of Administration. Please update your contact information.

**Subject:** Bottled Water

The State of Michigan is in need of bottled water for the City of Flint. The mayor of Flint, MI declared a state of emergency over contaminated water in the city. The city's water supply is contaminated by high levels of lead. Currently [gsaxcess.gov](http://gsaxcess.gov) does not have cases of bottled water available. Please let me know if your state has bottled water available for transfer.

Thank you,

**Subject:** RE: Bottled Water

She's utilizing the Federal Surplus Property program to transfer Federal items to the City of Flint. They will be a donee of the program (filling out application now). No different than getting them a truck or car parts it's just that this item is water. This has nothing to do with the Governor's Office declaring a state of emergency (which I do not believe he has done) and following their protocol.

**Subject:** Bottled Water

The State of Michigan is in need of bottled water for the City of Flint. The mayor of Flint, MI declared a state of emergency over contaminated water in the city. The city's water supply is contaminated by high levels of lead. Currently [gsaxcess.gov](http://gsaxcess.gov) does not have cases of bottled water available. Please let me know if your state has bottled water available for transfer.

**Subject:** RE: Bottled Water

She's utilizing the Federal Surplus Property program to transfer Federal items to the City of Flint. They will be a donee of the program (filling out application now). No different than getting them a truck or car parts it's just that this item is water. This has nothing to do with the Governor's Office declaring a state of emergency (which I do not believe he has done) and following their protocol.

**Subject:** City of Flint

This is pretty darn cool ! Makes me proud to work with such great staff. (Caleb, hopefully IDTMB story)

- Carrie Rambo and Stephanie Clark read an article about the Flint water problems and the State of emergency.
- Carrie reached out to the Assistant City Manager, Sean Kammer in the City of Flint to see if we might be able to assist them in getting water via the Federal Surplus Property Program.
- Carrie also sent an email to all of our contacts in other states to see if anyone had water available to transfer to the City of Flint.
- South Carolina has offered up 93 pallets of bottled water if Flint can transport them.

**Subject:** Re: Flint Water Contact

Hi Linda, at one point we had more than enough water for the schools. However due to the need to emphasize using bottled water for everything continued donations would be helpful.

It helps to also reduce the water bill for families. While I have the filter I still use bottled water for coffee, cooking etc.  
kids for brushing their teeth.

I know that churches and food pantries are giving out cases of water with food baskets and give  
always as well as at the health fairs.

Through a connection in our Surplus Office we have identified pallets of bottled water in South Carolina that they are willing to donate to Flint. I don't have many details right now, but I was hoping to connect our staff with the DHHS contact overseeing the Flint efforts to see if this is something that would be helpful. Can you get me a name and phone number?

Thanks,

Caleb Buhs

Sheryl,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). South Carolina's Federal Surplus Program is willing to transfer the water to the State of Michigan Federal Surplus Program. The City of Flint is responsible for setting up the logistics to get the pallets shipped to Flint as well as any shipping costs. Do you have any resources to help the city with the shipping costs? Please let me know if you have any questions.

Thank you,

Carolyn Rambo, Program Supervisor

Hi Linda, at one point we had more than enough water for the schools. However due to the need to emphasize using bottled water for everything continued donations would be helpful.

It helps to also reduce the water bill for families. While I have the filter I still use bottled water for coffee, cooking etc.  
kids for brushing their teeth.

I know that churches and food pantries are giving out cases of water with food baskets and give aways as well as at the health fairs.

Carolyn in the meantime can you find out the actual shipping cost? That way I can begin preparing to pay for it.

I was told that the shipments come at the cost of shipping. This is about ½ the cost of buying the water and shipping ranges from between \$1000-\$2,000 per semi.

Thanks and we will talk on Monday.

Tom,

The City of Flint is interested in the 93 pallets of bottled water. They did not request the 32 pallets of canned water. I am working with a Director from the State of Michigan's Department of Health and Human Services to secure funding to pay for transportation. Can you please send me more info on the water including the weight and dimensions of each pallet? Can you also send me info on any local shipping companies in your area so I can get some shipping quotes in advance? If you do not know of any I can look into shipping companies. I will be meeting with the Director from DHHS on Monday to talk about the funding and shipping. Can you also send me the address of the warehouse where the water is currently stored? Thank you very much for your help with this.

Carolyn,

As a follow up we have 93 pallets of bottled water and 32 pallets of canned water available if you can provide logistics.

I am still waiting on approval to release once you can confirm transportation.

**Subject:** Bottled Water

The State of Michigan is in need of bottled water for the City of Flint. The mayor of Flint, MI declared a state of emergency over contaminated water in the city. The city's water supply is contaminated by high levels of lead. Currently gsaccess.gov does not have cases of bottled water available. Please let me know if your state has bottled water available for transfer.

Sheryl,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). South Carolina's Federal Surplus Program is willing to transfer the water to the State of Michigan Federal Surplus Program. The City of Flint is responsible for setting up the logistics to get the pallets shipped to Flint as well as any shipping costs. Do you have any resources to help the city with the shipping costs? Please let me know if you have any questions.

Hi Linda, at one point we had more than enough water for the schools. However due to the need to emphasize using bottled water for everything continued donations would be helpful.

It helps to also reduce the water bill for families. While I have the filter I still use bottled water for coffee, cooking etc.

kids for brushing their teeth.

I know that churches and food pantries are giving out cases of water with food baskets and give aways as well as at the health fairs.

### Accomplishments this month:

1. Conducted basic training class on December 3rd. 503 people trained in MiCMS
2. Continue to test functionality of next generation Sungard Continuity Management Solution, named Assurance CM (continuity Manager) and Assurance NM (Notification Manager). Held weekly status meeting to address issues and maintain focus.
3. Completed DR Plan exercise for Basic Training Class.
4. Completed full Disaster Recovery Test of MiCMS on Dec 2nd.
5. Imported bi-weekly employee changes file
6. Conducted plan building workshop for DTMB on December 22nd.

### Planned accomplishments next month:

1. Basic Training class on January 7th.
2. Conduct plan building workshops for the following dates: 1/6, 1/13, 1/20, 1/27.
3. Continue functionality tests of Assurance CM and NM, along with weekly status meetings

**FOR IMMEDIATE RELEASE**

## **GENESEE COUNTY COMMISSIONERS DECLARE EMERGENCY**

Flint, MI -- January 4, 2016 – During their first board meeting of the year, Monday morning, Genesee County Commissioners declared a state of emergency in Genesee County. The move a sign that county leaders support Flint Mayor Dr. Karen Weaver and her efforts to get resources and relief to the residents suffering from the ongoing water situation in the city.

Mayor Weaver declared a state of emergency in Flint last month to raise awareness about the severity of the problems surrounding the water situation that continues to effect residents. The problems a result of the man-made disaster caused by the city switching to the Flint River as a water source in 2014.

Following the board's vote today, Genesee County Commission Chairperson, Jaime Curtis said, "This is a state, man-made disaster and we're going to ask the state to fix their disaster. Curtis also said, "Genesee County is the fifth largest county in Michigan and we will not be ignored."

Mayor Weaver hopes the county's show of support will convince the Governor to provide the City of Flint with financial support to help leaders address immediate infrastructure needs. Those needs include more than \$45 million to replace every identified lead pipe in the city, reimbursement of the \$2 million spent to switch back to the Detroit Water Sewerage Department, \$6 million to help with the transfer to the Karegnondi pipeline and additional resources to support the city's Heath Initiative to assist affected adults and children in Flint who have consumed water contaminated with lead.

In an interview with media after the board's emergency declaration Mayor Weaver said, "It's a victory and a step in the right direction." The mayor plans to meet with Governor Snyder in Lansing Thursday of this week to discuss the state's response and next steps.

Happy New Year, Management Team!

Below is the first edition of a capitol update we plan to share with you on a bi-weekly basis. Knowing how busy you are, we hope these emails will be a convenient way to stay up to date on issues being discussed in the capitol related to DTMB and our customers.

Please note that while articles may be shortened for the sake of brevity, the content will not be altered, so it may contain opinions or quotes that DTMB does not necessarily endorse.

We're sending this initial update to the management team. Should there be anyone on your own team you think would benefit from being on the mailing list, please just respond with their email address. Suggestions or questions are welcomed as well.

Have a great weekend,

Matt

## **State's Servers Vulnerable, According To Audit**

MIRS, 12/17/15

The security settings on 94 percent of State of Michigan's computer servers, the data warehouses for the state records, were not properly set, according to audit released today. The audit specifically examined a series of issues related the UNIX servers, some of which contained systems that Auditor General Doug A. RINGLER's office dubbed "critical to state government operations" and "life threatening" to citizens if they were unavailable.

The audit included a review of the security configurations of 63 servers. Of those, 59 - or 94 percent - were found to have vulnerable security configurations.

The state's Department of Technology, Management and Budget was also cited for not fully establishing and implementing effective procedures to detect and remediate security vulnerabilities.

Of the servers reviewed by auditors, 47 percent had not had a vulnerability scan in over a month. When vulnerability scans were conducted at the request of auditors, the average number of "high risk exposures" for state servers was 77. One server had 420 security incidents auditors labeled "high risk."

Other findings of the audit included:

- Failure to apply operating system patches for servers in a timely fashion;
- Need to establish a strategy to ensure only supported UNIX operating system versions are installed on servers containing state applications. Unsupported versions were operational on approximately 30 of the state's UNIX servers;
- The state did not establish and implement proper controls over who could access UNIX operating systems;
- DTMB failed to fully establish a segregation of duties over the administration of the state's UNIX servers. The DTMB Agency Services Division had too much control over key processes, which increased the risk that controls designed to secure the state's information systems could be circumvented;
- DTMB didn't maintain accurate records of UNIX server information, which is necessary to maintain server security and to ensure the ready availability of information for critical business decisions.

## Audit: Guns, Propane Tank Stored With State's IT Servers

MIRS, 12/18/15

For the second day in a row, the security and stability of the state's information technology systems have come under scrutiny from an audit.

Today, the Office of the Auditor General (OAG) released an unflattering look at the physical conditions of the places that contain the state's data systems. The auditors found loose restrictions in who had control to these places. They also flagged fire and water hazards with these rooms.

The findings from today's audit and one released Thursday were enough for the state to acknowledge that they "underscore the need for constant vigilance and improvement in the arena of cybersecurity," said Caleb BUHS, spokesperson for the Michigan Department of Technology, Management and Budget (DTMB).

The state keeps its computer servers and network equipment in various switch rooms and telecommunication rooms across the state. The OAG found that DTMB didn't implement controls to limit physical access to these places.

For instance, the OAG found former employees still had access to the state's hosting centers and switch rooms.

The OAG also scoped out the environmental conditions of these places and found they weren't being kept tidy, which has safety implications.

The auditors found some of these places weren't "reasonably free from dust, food and beverages," and even included pictures to show for it.

In some of these places, the auditors found everything from a propane tank to guns and holiday decorations.

On Thursday, the OAG released an audit critical of the security controls set on the state's servers.

Buhs said many of the concerns found in the audits were known potential vulnerabilities, with solutions that are in various stages of implementation.

Gov. Rick SNYDER has always talked up improving cybersecurity as a top priority for his administration, and Buhs said, "We have made strong gains in shoring up our IT resources during the Snyder administration and will continue to adjust our actions and plans as the technology world continues to evolve."

Buhs said one area of improvement the state is working on is a single sign-on system for state employees that will tighten access controls, known as MiLogin.

## Michigan to Clamp Down on Privatized Prison Deals

Detroit Free Press, 1/7/16

The Michigan Department of Corrections, which was at the center of a recent controversy over problems with its former prison food contractor, is setting up a 30-person unit to monitor the department's private contracts for the supply of food, medical treatment and other services.

Though privatization is on the rise in state government, officials say the corrections department is the first state department to set up such a unit.

Critics say the full cost of contract monitoring, highlighted by MDOC's new 30-person unit, does not always get factored in when the state opts to replace state employees with private contractors in a bid to save money.

Department Director Heidi Washington told a House appropriations subcommittee on Oct. 29 that the department has contracted out a number of services in addition to the highly publicized food services contract, which was initially awarded to Philadelphia-based Aramark Correctional Services but after much controversy switched to Trinity Services Group of Florida. Those include certain health services, mental health services and pharmaceuticals, she said.

"We need to better coordinate our monitoring efforts" across all contracts, with uniform standards and training for staff who do the monitoring, Washington said. "We have some significant relationships with vendors."

All told, the department spent about \$250 million last year on about 185 service contracts, including about 70 substance abuse contracts, more than a dozen sex offender related contracts and about a dozen prisoner re-entry contracts with community service agencies, spokesman Chris Gautz said.

## Snyder Appoints Hollins To Oversee Flint Water Efforts

Gongwer, 12/17/15

Governor Rick Snyder, in response to preliminary recommendations from the Flint Water Advisory Task Force, appointed Harvey Hollins, the director of his Office of Urban Initiatives, to oversee efforts to resolve the water issues in the city.

"Harvey is well-versed in the issues and the challenges faced by our cities and will be effective in this role," Mr. Snyder said.

He said his administration would also work on an Internet dashboard to display progress made on the water issue.

The task force is still working on its final recommendations, but members said they issued the preliminary recommendations - in a letter dated December 7 but released Thursday - to get some of the changes in place more quickly.

"We felt it was imperative to make these initial recommendations to help address the water crisis in Flint instead of waiting until our final report is submitted," Task Force Co-Chair Chris Kolb said. "We appreciate the prompt acceptance of our request for action by the governor and see it as a step forward."

Co-Chair Ken Sikkema also said the initial review presented "a distributing situation."

"While the Task Force is far from done with our work, the initial review has presented a very disturbing situation that will require many actions to help those that have suffered," Mr. Sikkema said. "We saw no reason to wait until the final report to make these initial recommendations. We also anticipate that we will made additional recommendations prior to the final report."

Task force members said the departments of Environmental Quality and Health and Human Services needed to set goals for the various efforts underway in the city as well as contingency plans if those goals are not being met.

The task force called for a single person or entity to coordinate the efforts.

## **DPS debt payments mount to unsustainable levels**

Detroit News, 1/4/16

The debt payments of Detroit Public Schools — already the highest of any school district in Michigan — are set to balloon in February to an amount nearly equal to the school district's payroll and benefits as the city school system teeters on the edge of insolvency.

Detroit Public Schools has to begin making monthly \$26 million payments starting in less than a month to chip away at the \$121 million borrowed this school year for cash flow purposes and \$139.8 million for operating debts incurred in prior years. The city school system's total debt payments are 74 percent higher from last school year.

The debt costs continue to mount while Gov. Rick Snyder and the Legislature remain at odds over how to rescue Michigan's largest school district. A bankruptcy of the district could leave state taxpayers on the hook for at least \$1.5 billion in DPS debt.

The school district's payroll and health care benefits are projected to cost \$26.8 million in February — meaning the debt payments will be 97 percent of payroll. General fund operating

debt payments that exceed 10 percent of payroll are “a major warning flag,” municipal bond analyst Matt Fabian said.

“That’s extremely high,” said Fabian, managing director of Municipal Market Advisors in Concord, Massachusetts, who also followed the city of Detroit’s bankruptcy case. “That’s no longer, really, a normal school district. The school district has turned into a debt-servicing entity. It’s making its own mission impossible.”

As a result, the Detroit district won’t have enough cash to pay any bills in four months.

Sheryl,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). South Carolina's Federal Surplus Program is willing to transfer the water to the State of Michigan Federal Surplus Program. The City of Flint is responsible for setting up the logistics to get the pallets shipped to Flint as well as any shipping costs. Do you have any resources to help the city with the shipping costs? Please let me know if you have any questions.

Hi Linda, at one point we had more than enough water for the  
schools. However due to the need to emphasize using bottled  
water for everything continued donations would be helpful.

It helps to also reduce the water bill for families. While I have the  
filter I still use bottled water for coffee, cooking etc.  
kids for brushing their teeth.

I know that churches and food pantries are giving out cases of  
water with food baskets and give aways as well as at the health  
fairs.

I wanted to give you a heads up on our current efforts to support the relief efforts in Flint.

- We have two trucks and drivers that went to Flint today and will stay overnight all week handling deliveries of water and filters
- We are sending two more drivers and two more trucks tomorrow to assist Tuesday – Friday. They do not need to stay overnight but may elect to do so.
- We have provided three 24 foot trucks and one semi along with two MVO 8's and two EO9's.
- In order to accommodate this we have had to request one of our drivers to work 2.5 hours of OT per day for the rest of the week. This is to accommodate the Depot deliveries that will be impacted as well as to ensure the late PO run remains consistent
- At this point, I do not have any additional staff or drivers that I can send to assist without impacting our other routes and services.

Just wanted you to be fully in the loop in case you get questions from Brom. Please let me know if I have missed anything that you need to know.

Thanks,  
Kristi

Sheryl,

I have set up shipping with UPS for the 92 pallets of water coming out of South Carolina. The warehouse manager said that there are 24 bottles per case, but the pallets range from 60-84 cases. So I am estimating there should be between 135,000 – 185,000 bottles of water being shipped. Three semi loads will be delivered on Wednesday (1/13) and two more will be delivered on Friday (1/15). Each truck load will cost \$1,600 to ship for a total of \$8,000. I am working with another state warehouse in South Carolina to see if they are willing to transfer more water to Michigan. They may have between 100-150 more pallets of bottled water. There will also be about 2 million liters of bottled water coming available in the next couple of weeks that may be allocated to the State of Michigan. I will keep you updated as I receive more info on this.

Thank you,

Okay... Thank you. I just received a call from Mike at VTS, It seems one of the trucks Shelly rented from star the wipers do not work and the lift gate is not big enough to handle the weight of a pallet of water so they were wondering if they can swap it out with a Star truck from the flint garage. Shelly is in a class until 1 pm, any suggestions???

Good morning Kristi,

I am in a training until 1:00. I spoke to Chris to let him know about this and he will contact our guys. So, if you could get with him, he will handle it.

We would need to know the times - is it from 8:30 - 5, so they don't have to stay?

Thanks,

Shelly

Sheryl,

I have set up shipping with UPS for the 92 pallets of water coming out of South Carolina. The warehouse manager said that there are 24 bottles per case, but the pallets range from 60-84 cases. So I am estimating there should be between 135,000 – 185,000 bottles of water being shipped. Three semi loads will be delivered on Wednesday (1/13) and two more will be delivered on Friday (1/15). Each truck load will cost \$1,600 to ship for a total of \$8,000. I am working with another state warehouse in South Carolina to see if they are willing to transfer more water to Michigan. They may have between 100-150 more pallets of bottled water. There will also be about 2 million liters of bottled water coming available in the next couple of weeks that may be allocated to the State of Michigan. I will keep you updated as I receive more info on this.

Michigan State Employees banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJJK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

**Subject:** Re: Flint water

I received a message late last nite 9:00 pm. Asking if it was possible to divert the scheduled delivery to another location?

Please reach out to them and have delivery changed to 4315 N Clio Rd Flint. Everything needs to go there now.

Can someone please confirm ASAP this morning, if you were able to reach UPS for the reroute?

Thank you

Sheryl,

I have set up shipping with UPS for the 92 pallets of water coming out of South Carolina. The warehouse manager said that there are 24 bottles per case, but the pallets range from 60-84 cases. So I am estimating there should be between 135,000 – 185,000 bottles of water being shipped. Three semi loads will be delivered on Wednesday (1/13) and two more will be delivered on Friday (1/15). Each truck load will cost \$1,600 to ship for a total of \$8,000. I am working with another state warehouse in South Carolina to see if they are willing to transfer more water to Michigan. They may have between 100-150 more pallets of bottled water. There will also be about 2 million liters of bottled water coming available in the next couple of weeks that may be allocated to the State of Michigan. I will keep you updated as I receive more info on this.

Thank you,

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

Scott:

Thanks for reaching out. The United Way has been purchasing between 3-4 trucks of water each month. The last several trucks have been "free" surplus water from locations in Maryland and I believe we have a connection with water in North Carolina.

Our only cost is shipping. We can ship for a very inexpensive cost from the east coast but the shipping cost pushes up if we transport from south or west.

Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

The United Way of Genesee County has been picking up the cost for this transportation and any purchasing costs.

Please connect directly with Bill Kerr on the water you have and the availability. I have cced him into this email. Thanks so very much!

Hi Scott --

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is [810.762.0856](tel:810.762.0856). The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call ([810.241.3864](tel:810.241.3864)).

Thanks!

Amy

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Hi Scott --

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is [810.762.0856](tel:810.762.0856). The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call ([810.241.3864](tel:810.241.3864)).

Thanks!

Amy

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

Flint Water Issue Phone call notes (1/15/16)

- Scott Pepperman, Executive Director of NASASP is working with FEMA to allocate 2 million liters of water to the State of Michigan Federal Surplus Program for donation to the city of Flint. Scott is checking with FEMA to see how the water is packaged and its location.
- Flint is sufficiently stocked with bottled water for January. Additional water is needed for February – April.
- Jay Eickholt, Planning Analyst for MSP is coordinating the logistics for Flint. He would like the shipment spread out over a few weeks. The Red Cross is managing the warehousing of the water in an 80,000 square foot warehouse. Jay will send out additional info on the status of the warehouse.
- There are currently 5 dispensaries (Pods) for distributing water and they are all currently located at fire stations throughout the city. They are going through about 8 pallets of water a day.
- Carolyn Rambo, Federal Surplus Supervisor will set up delivery with UPS as water comes available from GSA and FEMA. She is checking with the State of South Carolina, as they may have another 170 pallets of bottled water available for donation.
- All future deliveries of water should be sent to 4315 N Clio Rd Flint 48504.
- Joyce VanCoevering, OSS Director has been deploying freight trucks and drivers to Flint. More are available if needed.
- William Kerr, CEO of the Foodbank of Eastern MI currently does not have enough room to store more shipments of water. They may be able to receive more bulk water after all filters are distributed to Flint residents.

## THIS WEEK IN POLITICS

# Flint Fallout, Corruption in Court and One State's New Supermajority

BY ALAN GREENBLATT

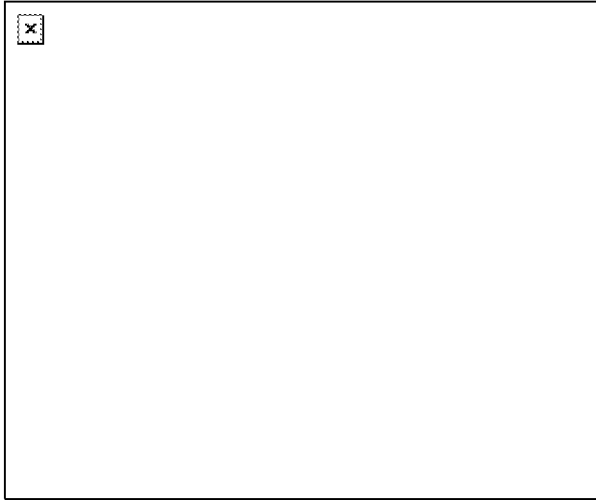

This was a busy week in politics -- but then, practically every week is. That's why *Governing* is offering this new weekly newsletter.

We won't cover the presidential campaign -- you can find plenty of that elsewhere. Instead, we aim to share with you the most interesting and important developments in state and local politics each week.

You can sign up for a free subscription [here](#).

### **Flint Curbs Snyder's Future**

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*.

## **MORE POLITICS NEWS & COMMENTARY**

### **A New Era for NGA's Relations With Congress?**

The National Governors Association had seen its influence on federal legislation decline in the past decade. But things may be looking up.

### **2016's Top Legislative Issues to Watch**

These are the biggest policies and problems that states will confront this year.

### **Rocky Roads Ahead for Governors With Failed Presidential Bids**

Trying and failing to take the White House has historically spelled trouble for governors' future political careers. In 2016, however, there may be one

exception.

### **Bernie Sanders Wants the Health Plan His Own State Rejected**

The presidential candidate wants America to create a single-payer health system -- something no U.S. state has done before.

### **Why Iowa's GOP Governor Wants Ted Cruz to Lose**

"I believe it would be a big mistake for Iowa to support him," said Gov. Terry Branstad.

### **Iowa's Perennial Power Player**

Republicans have the governorship and the state House in Iowa, but Democrats have Mike Gronstal, who adheres to the old-fashioned sense that voters elect politicians to work on policy before retreating to their respective partisan corners.

### **Milwaukee's Problems Leave Longtime Mayor Vulnerable**

Most of the city's problems, the mayor argues, are out of his control. Will voters blame and oust him anyways?

### **After 30 Days in Jail, N.M.'s Ex-Secretary of State Freed**

Dianna Duran prided herself on battling public corruption and voter fraud, even as she committed such crimes.

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

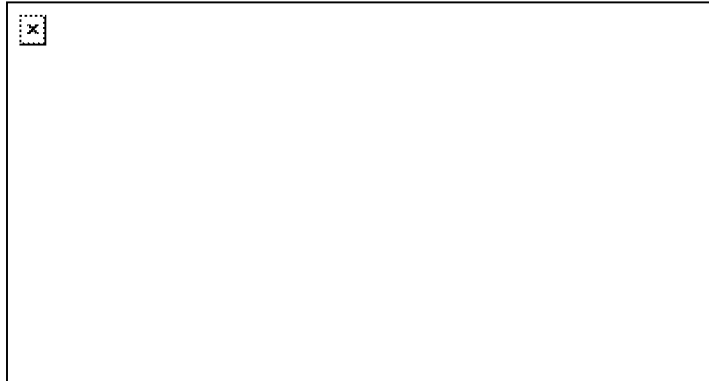

---

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

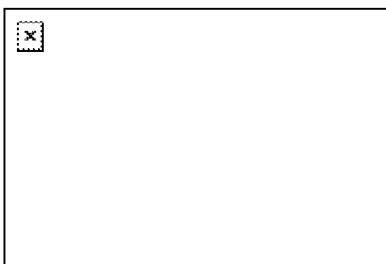

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." [Click here to read the Governor's full op-ed.](#)

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

**Subject:** Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

**Sent:** Tuesday, January 26, 2016 8:39 AM  
**To:** Thompson, Kristi (DTMB)  
**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. [Administrative Policy 200.37](#) establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Kristi,

Would it be okay if I started a collection of money, water, and water filters for the Flint Water Crisis? I ask only because I have no idea how or who to take it to when we are done collecting just wondering if you would be okay with us doing this and if you have any guidance in where it would go. I am more than willing to drive to Flint and drop it off if that is what has to happen to get these people what they need. Please just let me know. I am more than willing to take on the responsibilities of collecting all the items.

Thank you,

**Subject:** Flint Water Crisis

Good Morning All,

I am sure you have all heard about the Flint Water Crisis by now. I am going to start a collection towards helping the people of Flint. I will be collecting water (it does have to be sealed items), water filters, money and pop bottles (that I will take back to the stores myself and purchase water for the crisis). If you are interested in donating please let me know I will set up an area for collecting. Please see me if you have any questions..

Thank you in advance.

Gear is on the truck. Would anyone be able to confirm an on site contact and phone number?

I've arranged for the service team to visit the device once on site in Flint. I've also included a couple of USB cables and 3 extra bottles of toner.

Gear is on the truck. Would anyone be able to confirm an on site contact and phone number?

I've arranged for the service team to visit the device once on site in Flint. I've also included a couple of USB cables and 3 extra bottles of toner.

Cj~

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

**Subject:** Flint Water Update

Sheryl,

Would you like me to set up transportation for the 40 pallets of water mentioned in the email below? I also have an additional four truckloads of water that is available from Winnsboro, South Carolina. Because President Obama declared an emergency for the Flint water crisis, the Federal Surplus Property Program is no longer eligible to receive the 2 million liters of water from FEMA. I think that Flint will still be receiving the water but it will go directly to Flint from FEMA. I can still ship the water from the other two South Carolina locations if you would like.

Thanks,

Carolyn,

I can release 40 pallets for water to you, if still needed.

Most of the water we have is Dasani. It looks like there are 56 cases of 24 bottles (16.9 oz.) on each pallet.

Expiration Date – All I see is the stamped month of Sept on the bottle cap.

This water can be picked up most any week day between 8am -3pm. Our warehouse location is 630 Taylor Street, Columbia, SC 29201.

Just let me know if you want to proceed.

Thanks,

Best Regards,

**Subject:** Flint Water Update

Sheryl,

Would you like me to set up transportation for the 40 pallets of water mentioned in the email below? I also have an additional four truckloads of water that is available from Winnsboro, South Carolina. Because President Obama declared an emergency for the Flint water crisis, the Federal Surplus Property Program is no longer eligible to receive the 2 million liters of water from FEMA. I think that Flint will still be receiving the water but it will go directly to Flint from FEMA. I can still ship the water from the other two South Carolina locations if you would like.

Thanks,

Carolyn Rambo, Program Supervisor

Carolyn,

I can release 40 pallets for water to you, if still needed.

Most of the water we have is Dasani. It looks like there are 56 cases of 24 bottles (16.9 oz.) on each pallet.

Expiration Date -- All I see is the stamped month of Sept on the bottle cap.

This water can be picked up most any week day between 8am -3pm. Our warehouse location is 630 Taylor Street, Columbia, SC 29201.

Just let me know if you want to proceed.

Thanks,

Best Regards,

Hello Tim,

Tim,

We would love any bottled water that you could spare. I can set up the transportation and cover all of the costs for shipping. Can you tell me how many bottles or cases of water you have available and how many pallets they make up. Also if you could provide the weight and dimensions per pallet, expiration date of the water, and pickup location of the water. I'd like to get the ball rolling with this as soon as possible. Thank you so much for offering to help.

Thank you,

# PGS STATUS REPORT

**From:** Governor's Office <governorsoffice@govsubscriptions.michigan.gov>  
**Sent:** Wednesday, February 03, 2016 6:17 PM  
**To:** Thompson, Kristi (DTMB)  
**Subject:** "Flint residents should not have to pay for water they cannot drink"

## Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Learn more about the \\$20 million request](#)

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). **[Click here to watch the video.](#)**

## **DTMB Executive Team LOS Monthly Report January 2016**

### **Scorecard Challenges:**

None

### **Current Projects / Initiatives:**

#### **LOS General**

- None

#### **Mailing Services**

- Logistics & Operations Support (LOS) is currently working with Michigan Department of State (MDOS) on updating the Service Level Agreement (SLA) for the renewal by mail program. Copies of the current SLA have been shared with MDOS and the re-write process will soon begin.
- Mailing Services presented to the IT Assets servicing Treasury regarding the sunset of Optical Mark Recognition (OMR) technology used to match multi page document sets for mailing letters. LOS is working on identifying all Treasury applications using OMR and statistical data outlining the benefits of using a higher integrity code to minimize data breaches in the mailing process.
- A joint project has been started to link all Michigan Department of Health and Human Services (MDHHS) Business Reply Mail (BRM) accounts to DTMB's United States Postal Services (USPS) Central Account Processing System (CAPS) to centralize all service payments and cost monitoring. Mailing Services currently has linked 42 BRM accounts for MDHHS. Linking the remaining offices will simplify the process by making direct payments to the postal service for individual account activity. Locally managed accounts will benefit by not having to maintain a fund balance with the serving post office, ensuring mail will not be held for the lack of funds, and eliminate the need for local self-monitoring of fund balances statewide. Mailing Services has enlisted the help of the Postal Service to link the remaining identified MDHHS accounts into DTMB's CAPS system.
- Mailing and Financial Services met with the Sigma development group to finalize the design of the MS Order System. Clarification of content, updates of Sigma department coding, contact personnel on the order system, and user direction have been updated for the Sigma designer to be placed in the system.
- LOS is progressing with the EFI/PACE/Storefront implementation. Discussions related to non-state mailing account coding are under advisement with financial services. The reason being, the current coding of non-state accounts are not compatible with EFI/PACE requirements. Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.

## **Printing Services**

- As a result of the Flint water crisis, Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks for going above and beyond in providing excellent customer service!
- January was a huge “tax” month for Printing Services.
  - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
  - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
  - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
  - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
  - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
  - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
  - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- The Pace implementation is on-going. EFI will be on-site the week of February 1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.

## **Delivery Services**

- Upcoming move jobs in February
  - Michigan State Police (MSP) Taylor to the General Office Building (GOB)
  - 2<sup>nd</sup> District HQ MSP Taylor to Detroit
  - Department of Health and Human Services to Capitol View
  - DTMB HR Hollister Building to Conn Hall

## **Surplus Services**

### **Federal Surplus**

- Two new applications for the federal program
- Two Federal Surplus donations
- Retained Revenue from donations - \$451
- Total GAC donations - \$3470

### **State Surplus**

- Posted 119 auctions on MiBid
- Sold 68 vehicles on MiBid
- MiBid Sales of \$367,439
- Retained Revenue from MiBid - \$103,096

## **Warehouse Services**

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline.
- In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.
- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

## **Records Management Services**

### **Records Manager Projects (formerly TRIM)**

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

## **Information Sharing / Best Practices:**

### **Mailing Services**

- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.

- The following savings have been realized by MS customers year-to-date:
  - YTD Consulting Savings - \$64,301
  - YTD Presort Savings Letters - \$2,075,013
  - YTD Presort Savings 2nd Ounce Letters - \$585,630
  - YTD Presort Savings Flats - \$104,269\*
  - Total YTD Presort Savings - \$2,764,912

\*Due to a failure to pass USPS MASS testing, presorted flat-size mail has not been presorted since January 13<sup>th</sup>. The vendor (Bell & Howell) is working to correct this with additional testing.

## **Printing Services**

- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter's printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% responsive and compliant with its IRS findings.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn't installed. Molly Perry was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!
- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on January 20th. It is on the 1st floor of Constitution Hall in the northwest tower.

## **Delivery Services**

- Revenue – January FY 2016: \$196,256 on 174 work orders
- Revenue from move jobs – January FY16: \$36,084
- The ID Mail area welcomed another new employee to their team on January 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

## **Surplus Services**

- The Federal Surplus Property Program received help from NASAP obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.

## **Records Management Services**

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

## **Shout Outs:**

### **Mailing Services**

- To: Tom Goodine

Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.

Deanna Anderson, MSHDA

- To: Mike Armstrong

Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!

Autumn Spitzley  
Graphic Arts Designer  
DNR Wildlife

- To: Tom Goodine & Shelly Millimaki

Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know.

Thank you both for your help!

JEN

Jennifer Sochor, DNR

### **Delivery Services**

- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since January 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson.
- 1/28/2016  
Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.  
Just thought I'd pass this along, thank you!  
*Michelle Holloway*  
Project Manager

Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.

## **Printing Services**

- As a result of the Flint water crisis, Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks for going above and beyond in providing excellent customer service!
- January was a huge “tax” month for Printing Services.
  - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
  - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
  - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
  - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
  - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
  - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
  - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- The Pace implementation is on-going. EFI will be on-site the week of February 1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.

## **Delivery Services**

- Upcoming move jobs in February
  - Michigan State Police (MSP) Taylor to the General Office Building (GOB)
  - 2<sup>nd</sup> District HQ MSP Taylor to Detroit
  - Department of Health and Human Services to Capitol View
  - DTMB HR Hollister Building to Conn Hall

## **Surplus Services**

### **Federal Surplus**

- Two new applications for the federal program
- Two Federal Surplus donations
- Retained Revenue from donations - \$451
- Total GAC donations - \$3470

### **State Surplus**

- Posted 119 auctions on MiBid
- Sold 68 vehicles on MiBid
- MiBid Sales of \$367,439
- Retained Revenue from MiBid - \$103,096

## **Warehouse Services**

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline.
- In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.
- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

## **Records Management Services**

### **Records Manager Projects (formerly TRIM)**

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

## **Information Sharing / Best Practices:**

### **Mailing Services**

- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.

- The following savings have been realized by MS customers year-to-date:
  - YTD Consulting Savings - \$64,301
  - YTD Presort Savings Letters - \$2,075,013
  - YTD Presort Savings 2nd Ounce Letters - \$585,630
  - YTD Presort Savings Flats - \$104,269\*
  - Total YTD Presort Savings - \$2,764,912

\*Due to a failure to pass USPS MASS testing, presorted flat-size mail has not been presorted since January 13<sup>th</sup>. The vendor (Bell & Howell) is working to correct this with additional testing.

### **Printing Services**

- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter's printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% responsive and compliant with its IRS findings.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn't installed. Molly Perry was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!
- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on January 20th. It is on the 1st floor of Constitution Hall in the northwest tower.

### **Delivery Services**

- Revenue – January FY 2016: \$191,216 on 174 work orders
- Revenue from move jobs – January FY16: \$36,084
- The ID Mail area welcomed another new employee to their team on January 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

### **Surplus Services**

- The Federal Surplus Property Program received help from the National Association of State Agencies for Surplus Property (NASAP) obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.

### **Records Management Services**

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

### **Shout Outs:**

#### **Mailing Services**

- To: Tom Goodine

Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.

Deanna Anderson, MSHDA

- To: Mike Armstrong

Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!

Autumn Spitzley  
Graphic Arts Designer  
DNR Wildlife

- To: Tom Goodine & Shelly Millimaki

Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know.  
Thank you both for your help!  
JEN

Jennifer Sochor, DNR

### **Delivery Services**

- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since January 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson.
- 1/28/2016  
Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.  
Just thought I'd pass this along, thank you!

**Subject:** IT Depot/Re-Source Partners Contract (#071B0200181)

Hi David,

I wanted to touch base with you regarding the contact the IT Depot has with Re-Source Partners. I am the new manager over Depot as it is now rolled up into the Logistics & Operations Support group. I am also fairly new to State Government and am a bit unfamiliar with how the contract process works. Regarding the contract in question, I see there were two 1-year options and a sixth month extension that will expire this coming April. After talking to another manager in LOS, it does not sound like we will have enough time to do a full RFP before the contract expires. The work that Re-Source Partners does for us is critical to our operation and must continue. Considering this contract is a zero dollar contract, is it possible to get another six month extension for it so that we have time for the RFP? We are very happy with the services provided by Re-Source Partners and would like to continue to use their services in the future, and considering it is a zero dollar contract, I wasn't even sure if a full RFP was even necessary.

If you have time, maybe we could set up a quick call to discuss next week? Let me know your schedule and I can set something up.

Thanks!

**Subject:** IT Depot/Re-Source Partners Contract (#071B0200181)

Hi David,

I wanted to touch base with you regarding the contract the IT Depot has with Re-Source Partners. I am the new manager over Depot as it is now rolled up into the Logistics & Operations Support group. I am also fairly new to State Government and am a bit unfamiliar with how the contract process works. Regarding the contract in question, I see there were two 1-year options and a sixth month extension that will expire this coming April. After talking to another manager in LOS, it does not sound like we will have enough time to do a full RFP before the contract expires. The work that Re-Source Partners does for us is critical to our operation and must continue. Considering this contract is a zero dollar contract, is it possible to get another six month extension for it so that we have time for the RFP? We are very happy with the services provided by Re-Source Partners and would like to continue to use their services in the future, and considering it is a zero dollar contract, I wasn't even sure if a full RFP was even necessary.

If you have time, maybe we could set up a quick call to discuss next week? Let me know your schedule and I can set something up.

Thanks!

**Subject:** Delivery and Flint Water Crisis

Hi Tom,

Here are some bullets of what we have been doing in Flint.

- Providing ongoing support in moving water
- Started on January 9
- Moving water from warehouses to Fire Stations
- Moving water from Food Bank to local churches
- Delivering printed material from Printing Services
- Delivered furniture to support a new warehouse
- Rented 3 24' trucks to help with water deliveries

I think that about covers it..... ☺

Shelly

Seth,

We will hopefully have something for you tomorrow or Thursday. I have another buyer helping me work on this so we can get you an update.

Dave

David/Bill –

Is there any update regarding this contract? I am also being asked what is going on with it by John Karlik.

Seth,

I am working on a response to you. I have talked with Bill, but have been busy the last few days with an Flint Water Emergency Response assignment...

We have some options and I will get you an email today or tomorrow with the details.

Thanks,  
Dave

Seth – this is something I need to discuss with my manager. I have copied him on this email. Once he and I have talked this through I can give you some guidance.

Bill – Please see Seth’s email. My initial thoughts are that we will have to take this to Ad Board unless we find another contract to piggy back off of. I know Chad had contemplated this in MMCC, but that won’t be ready in a timely manner. We can chat next week when you are back.

**Subject:** FW: Help with FOIA requests

**Importance:** High

Folks,

I have never done a FOIA request, only plenty of Litigation Holds. Do you folks have nay experience with this?

Greg – any thoughts? Would record retention/document management come in to play – E-discovery system? Glenn is on vacation and I'm not sure what the options are for our MDE client.

**Subject:** Help with FOIA requests

Laurie and Glenn,

Dave Head and I attended yesterday's Flint FOIA meeting. Many GMs were there.

I need some technical help with getting all the documents. There is some statewide system that we have to upload all our documents.

Can someone get me some idea what to tell staff on the best way to collect all the emails? What do I tell staff to do in order to send me all the emails? Is there a technical way? I hope something other than sending me all the emails.

Louis

**Subject:** FW: Help with FOIA requests  
**Importance:** High

Folks,

I have never done a FOIA request, only plenty of Litigation Holds. Do you folks have nay experience with this?

**Subject:** Help with FOIA requests

Laurie and Glenn,

Dave Head and I attended yesterday’s Flint FOIA meeting. Many GMs were there.

I need some technical help with getting all the documents. There is some statewide system that we have to upload all our documents.

Can someone get me some idea what to tell staff on the best way to collect all the emails? What do I tell staff to do in order to send me all the emails? Is there a technical way? I hope something other than sending me all the emails.

Louis

OUR MONTHLY REPORTS

**HELP. CONNECT. SOLVE.**

**SAVINGS REALIZED BY  
MAILING SERVICES  
CUSTOMERS when mail is  
pre-sorted and batched FYTD:**

- Presort Letters - \$2,075,013
- Presort 2<sup>nd</sup> Ounce Letters - \$585,630
- Presort Flats - \$104,269\*
- Total Presort Savings- \$2,764,912
- Consulting Savings - \$64,301

\* presorted flat-size mail has not been presorted since Jan. 13. The vendor (Bell & Howell) is working to correct this issue with additional testing.

## State Surplus MiBid Results

- Posted 119 auctions
- Sold 68 vehicles
- Sales of \$367,439
- Retained Revenue MiBid - \$103,096

## Federal Surplus

- Two new applications for federal program
- Two Federal Surplus Donations
- Retained Revenue from donations - \$451

## Delivery Services

- Revenue – January FY 2016: \$191,216 on 174 work orders
- Revenue from move jobs – January FY16: \$36,084

## OSS Steps Up to Assist in Flint Water Crisis

- Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to **Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks** for going above and beyond in providing excellent customer service!
- The Federal Surplus Property Program received help from the National Association of State Agencies for Surplus Property (NASAP) obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.
- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since Jan. 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking **Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson**.
- Beginning Jan. 13, VTS Garage employees **John Lance, Kevin Moe and John Patterson** have worked many hours, seven days a week, while putting their family and VTS duties second, assisting with water delivery efforts in Flint. Their primary mission has been to transport pallets of bottled water from a central warehouse to various fire departments. We thank them for their efforts along with their dedication to helping the people of Flint.

**Great Examples of Teamwork!**

## Records Management Services

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

### Records Manager Projects (formerly TRIM)

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

## Delivery Services Thanked

○ 1/28/2016

Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.

Just thought I'd pass this along, thank you!

*Michelle Holloway*, Project Manager, Bureau of Organizational Services

## New Staff

The ID Mail area welcomed another new employee to their team on Jan. 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

## Are You Reviewing Your Old Email?

The implementation of the DTMB policy on Email Management has been postponed until March 13, 2016, in order to give staff more time to properly file their email records.

## Mailing Services

- Logistics & Operations Support (LOS) is currently working with Michigan Department of State (MDOS) on updating the Service Level Agreement (SLA) for the renewal by mail program. Copies of the current SLA have been shared with MDOS and the re-write process will soon begin.
- Mailing Services presented to the IT Assets servicing Treasury regarding the sunset of Optical Mark Recognition (OMR) technology used to match multi page document sets for mailing letters. LOS is working on identifying all Treasury applications using OMR and statistical data outlining the benefits of using a higher integrity code to minimize data breaches in the mailing process.
- A joint project has been started to link all Michigan Department of Health and Human Services (MDHHS) Business Reply Mail (BRM) accounts to DTMB's United States Postal Services (USPS) Central Account Processing System (CAPS) to centralize all service payments and cost monitoring. Mailing Services currently has linked 42 BRM accounts for MDHHS. Linking the remaining offices will simplify the process by making direct payments to the postal service for individual account activity. Locally managed accounts will benefit by not having to maintain a fund balance with the serving post office, ensuring mail will not be held for the lack of funds, and eliminate the need for local self-monitoring of fund balances statewide. Mailing Services has enlisted the help of the Postal Service to link the remaining identified MDHHS accounts into DTMB's CAPS system.
- Mailing and Financial Services met with the Sigma development group to finalize the design of the MS Order System. Clarification of content, updates of Sigma department coding, contact personnel on the order system, and user direction have been updated for the Sigma designer to be placed in the system.
- LOS is progressing with the EFI/PACE/Storefront implementation. Discussions related to non-state mailing account coding are under advisement with financial services. The reason being, the current coding of non-state accounts are not compatible with EFI/PACE requirements. Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.
- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.

## Thank You Notes

○ *To: Tom Goodine*

*Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.*

*Deanna Anderson, MSHDA*

○ *To: Mike Armstrong*

*Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!*

*Autumn Spitzley, Graphic Arts Designer, DNR Wildlife*

○ *To: Tom Goodine & Shelly Millimaki*

*Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know. Thank you both for your help!*

*Jennifer Sochor, DNR*

## Vehicle and Travel Services

- VTS consultants met with GM Fleet Account Executive Connie Scarpelli and GM Sales Support and Police Vehicle Specialist Todd Little to discuss the delay of the Impala Limited and Chevrolet truck issues. The production of the fleet Impala Limited was delayed from Dec. 10 through Jan. 14 with final vehicle orders being excepted through mid-January.
- Staff from the VTS Garage and Canfield Equipment worked together in an effort to save costs on beacons and hood signs for MSP vehicles. Canfield Equipment picked up a large quantity of used beacons and hood signs from VTS that have been removed from retired MSP vehicles. These used beacons and hood signs will be reconditioned and reused on new MSP vehicles. MSP is not required to purchase all new parts for their patrol vehicles, and recycling these items saves money.
- A number of VTS staff attended the 2016 North American International Auto Show held at the Cobo Center in Detroit. This is an opportunity to preview the new model vehicles on display and talk with company representatives about current and future product offerings. Vince Reynolds and Ronda Greko also had the opportunity to attend the "Pre-Show" Product Preview" and talk one-on-one with Ford and Chrysler Representatives along with Company Executives, Engineers and Designers.
- GPS Telematics Update: VTS Consultants working with their Telematics Vendors and participating departments continue to meet and discuss reporting options, what works and what doesn't, and any issues that come up. Vince Reynolds attended a high level meeting with MDARD Deputy Director, Division Directors, Supervisors, and Managers who met with GPSInsight Representatives. GPSInsight demonstrated the overall capabilities and limitations of the system. They also showed some of the reporting functions. This presentation was scheduled to determine what educational opportunities might be used with the pilot participants. The presentation was received very highly by the MDARD staff and online, follow-up sessions were scheduled for the following week so that the attendees could observe the system function in real time.
- VTS Garage staff loaded a cube truck full of surplus plastics and delivered to Louis Padnos for recycling.

## Printing Services in High Gear

- January was a huge “tax” month for Printing Services.
  - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
  - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
  - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
  - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
  - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
  - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
  - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- The Pace implementation is on-going. EFI will be on-site the week of Feb. 1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.
- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter’s printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% compliant.
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn’t installed. **Molly Perry** was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!

## Printing Services Now in Con Hall

- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on Jan. 20. It is on the 1st floor of Constitution Hall in the northwest tower.

## Warehouse Services

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline. In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.

- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

## Appreciation to Printing Services

- **From:** Khouri, Claire (GOV) **Sent:** Monday, January 18, 2016 3:39 PM  
**To:** Monroe, Jerry (DTMB) <monroej1@michigan.gov>  
**Subject:** RE: SOTS Materials-- Program

*I think we might be all set and not need any additional copies printed of new materials... Again, thank you so much for your help this year! As always you have been amazing to work with and the service you provide is exceptional!*

- **From:** Doll, Jeanette (DTMB) **Sent:** Friday, January 22, 2016 11:22 AM  
**To:** Miller, Mark (DTMB) <millerm13@michigan.gov>  
**Subject:** RE: 300 Palm Cards

*Wow – you are fast!! DHHS says YOU ROCK! Thank you for going above and beyond!*

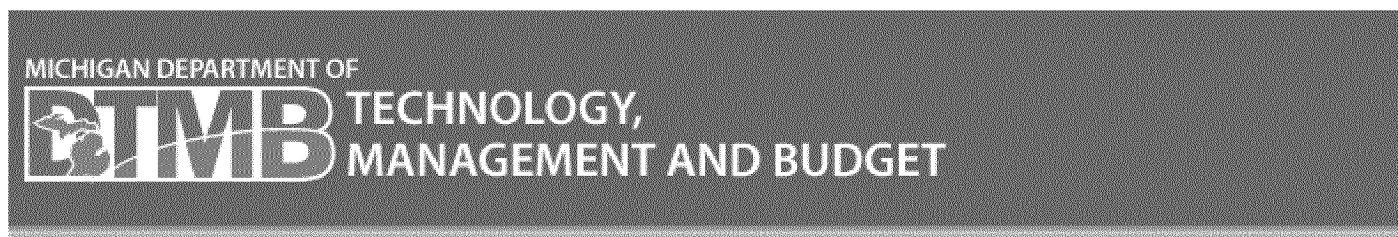

- **From:** Wanamaker, Kurt (LARA) **Sent:** Monday, January 25, 2016 2:07 PM  
**To:** Monroe, Jerry (DTMB) <monroej1@michigan.gov>  
**Subject:** Approved Proof

*YOU ARE THE BEST! Thank you and your team for all that you do. I appreciate everything!!!*

*Kurt Wanamaker, Consultation Education and Training Division, Michigan Occupational Safety and Health Administration*

- **From:** Peters, Cynthia (DTMB) **Sent:** Thursday, January 28, 2016 1:21 PM  
**To:** Miller, Mark (DTMB) <millerm13@michigan.gov>  
**Subject:** RE: SOMCAFR

*I'm a bit tardy... but great job on the SOMCAFRs. Thanks!*

**HELP. CONNECT. SOLVE.**

Next week, DTMB employees are invited to an open house to learn more about the hard work the Data Center Operations team does on a daily basis. Join fellow employees on Wednesday, Feb. 17, from 11:00 a.m. to 2:00 p.m. at the Secretary of State Building, 7064 Crowser Drive, State Secondary Complex. A self-guided tour will give you the opportunity to speak with data center staff and learn about:

- Data Center Operations Facilities
- Disaster Recovery
- Enterprise Monitoring
- Enterprise Platforms
- Imaging and Scheduling
- Michigan Configuration Management Data Base (MiCMDB)
- Service Management
- Tape Library

Please bring your State of Michigan ID and your Driver's License or another picture ID to check in with data

center security.

Great job, Molly!

## Printing Services Now in Con Hall

- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on Jan. 20. It is on the 1st floor of Constitution Hall in the northwest tower.

## Warehouse Services

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline. In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.

- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

## Appreciation to Printing Services

- **From:** Peters, Cynthia (DTMB) **Sent:** Thursday, January 28, 2016 1:21 PM  
**To:** Miller, Mark (DTMB) <millerm13@michigan.gov>  
**Subject:** RE: SOMCAFR

*I'm a bit tardy... but great job on the SOMCAFRs. Thanks!*

Next week, DTMB employees are invited to an open house to learn more about the hard work the Data Center Operations team does on a daily basis. Join fellow employees on Wednesday, Feb. 17, from 11:00 a.m. to 2:00 p.m. at the Secretary of State Building, 7064 Crowser Drive, State Secondary Complex. A self-guided tour will give you the opportunity to speak with data center staff and learn about:

- Data Center Operations Facilities
- Disaster Recovery
- Enterprise Monitoring
- Enterprise Platforms
- Imaging and Scheduling
- Michigan Configuration Management Data Base (MiCMDB)
- Service Management
- Tape Library

Please bring your State of Michigan ID and your Driver's License or another picture ID to check in with data

center security.

# ALL ABOUT US

OUR MONTHLY REPORTS

**HELP. CONNECT. SOLVE.**

**SAVINGS REALIZED BY  
MAILING SERVICES  
CUSTOMERS when mail is  
pre-sorted and batched FYTD:**

- Presort Letters - \$2,075,013
- Presort 2<sup>nd</sup> Ounce Letters - \$585,630
- Presort Flats - \$104,269\*
- Total Presort Savings- \$2,764,912
- Consulting Savings - \$64,301

\* presorted flat-size mail has not been presorted since Jan. 13. The vendor (Bell & Howell) is working to correct this issue with additional testing.

## State Surplus MiBid Results

- Posted 119 auctions
- Sold 68 vehicles
- Sales of \$367,439
- Retained Revenue MiBid - \$103,096

## Federal Surplus

- Two new applications for federal program
- Two Federal Surplus Donations
- Retained Revenue from donations - \$451

## Delivery Services

- Revenue – January FY 2016: \$191,216 on 174 work orders
- Revenue from move jobs – January FY16: \$36,084

## OSS Steps Up to Assist in Flint Water Crisis

- Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to **Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks** for going above and beyond in providing excellent customer service!
- The Federal Surplus Property Program received help from the National Association of State Agencies for Surplus Property (NASAP) obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.
- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since Jan. 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking **Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson**.
- Beginning Jan. 13, VTS Garage employees **John Lance, Kevin Moe and John Patterson** have worked many hours, seven days a week, while putting their family and VTS duties second, assisting with water delivery efforts in Flint. Their primary mission has been to transport pallets of bottled water from a central warehouse to various fire departments. We thank them for their efforts along with their dedication to helping the people of Flint.

**Great Examples of Teamwork!**

## Records Management Services

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

### Records Manager Projects (formerly TRIM)

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

## Delivery Services Thanked

○ 1/28/2016

Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.

Just thought I'd pass this along, thank you!

*Michelle Holloway*, Project Manager, Bureau of Organizational Services

## New Staff

The ID Mail area welcomed another new employee to their team on Jan. 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

## Are You Reviewing Your Old Email?

The implementation of the DTMB policy on Email Management has been postponed until March 13, 2016, in order to give staff more time to properly file their email records.

## Mailing Services

- Logistics & Operations Support (LOS) is currently working with Michigan Department of State (MDOS) on updating the Service Level Agreement (SLA) for the renewal by mail program. Copies of the current SLA have been shared with MDOS and the re-write process will soon begin.
- Mailing Services presented to the IT Assets servicing Treasury regarding the sunset of Optical Mark Recognition (OMR) technology used to match multi page document sets for mailing letters. LOS is working on identifying all Treasury applications using OMR and statistical data outlining the benefits of using a higher integrity code to minimize data breaches in the mailing process.
- A joint project has been started to link all Michigan Department of Health and Human Services (MDHHS) Business Reply Mail (BRM) accounts to DTMB's United States Postal Services (USPS) Central Account Processing System (CAPS) to centralize all service payments and cost monitoring. Mailing Services currently has linked 42 BRM accounts for MDHHS. Linking the remaining offices will simplify the process by making direct payments to the postal service for individual account activity. Locally managed accounts will benefit by not having to maintain a fund balance with the serving post office, ensuring mail will not be held for the lack of funds, and eliminate the need for local self-monitoring of fund balances statewide. Mailing Services has enlisted the help of the Postal Service to link the remaining identified MDHHS accounts into DTMB's CAPS system.
- Mailing and Financial Services met with the Sigma development group to finalize the design of the MS Order System. Clarification of content, updates of Sigma department coding, contact personnel on the order system, and user direction have been updated for the Sigma designer to be placed in the system.
- LOS is progressing with the EFI/PACE/Storefront implementation. Discussions related to non-state mailing account coding are under advisement with financial services. The reason being, the current coding of non-state accounts are not compatible with EFI/PACE requirements. Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.
- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.

## Thank You Notes

○ *To: Tom Goodine*

*Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.*

*Deanna Anderson, MSHDA*

○ *To: Mike Armstrong*

*Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!*

*Autumn Spitzley, Graphic Arts Designer, DNR Wildlife*

○ *To: Tom Goodine & Shelly Millimaki*

*Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know. Thank you both for your help!*

*Jennifer Sochor, DNR*

## Vehicle and Travel Services

- VTS consultants met with GM Fleet Account Executive Connie Scarpelli and GM Sales Support and Police Vehicle Specialist Todd Little to discuss the delay of the Impala Limited and Chevrolet truck issues. The production of the fleet Impala Limited was delayed from Dec. 10 through Jan. 14 with final vehicle orders being excepted through mid-January.
- Staff from the VTS Garage and Canfield Equipment worked together in an effort to save costs on beacons and hood signs for MSP vehicles. Canfield Equipment picked up a large quantity of used beacons and hood signs from VTS that have been removed from retired MSP vehicles. These used beacons and hood signs will be reconditioned and reused on new MSP vehicles. MSP is not required to purchase all new parts for their patrol vehicles, and recycling these items saves money.
- A number of VTS staff attended the 2016 North American International Auto Show held at the Cobo Center in Detroit. This is an opportunity to preview the new model vehicles on display and talk with company representatives about current and future product offerings. Vince Reynolds and Ronda Greko also had the opportunity to attend the "Pre-Show" Product Preview" and talk one-on-one with Ford and Chrysler Representatives along with Company Executives, Engineers and Designers.
- GPS Telematics Update: VTS Consultants working with their Telematics Vendors and participating departments continue to meet and discuss reporting options, what works and what doesn't, and any issues that come up. Vince Reynolds attended a high level meeting with MDARD Deputy Director, Division Directors, Supervisors, and Managers who met with GPSInsight Representatives. GPSInsight demonstrated the overall capabilities and limitations of the system. They also showed some of the reporting functions. This presentation was scheduled to determine what educational opportunities might be used with the pilot participants. The presentation was received very highly by the MDARD staff and online, follow-up sessions were scheduled for the following week so that the attendees could observe the system function in real time.
- VTS Garage staff loaded a cube truck full of surplus plastics and delivered to Louis Padnos for recycling.

## Printing Services in High Gear

- January was a huge “tax” month for Printing Services.
  - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
  - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
  - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
  - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
  - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
  - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
  - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- The Pace implementation is on-going. EFI will be on-site the week of Feb. 1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.
- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter’s printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% compliant.
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn’t installed. **Molly Perry** was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!

## Printing Services Now in Con Hall

- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on Jan. 20. It is on the 1st floor of Constitution Hall in the northwest tower.

## Warehouse Services

**Subject:** Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Brom Stibitz  
Chief Deputy Director

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire  
Legionella  
“boil water order” & “Flint” (anywhere in document)  
“coli” & Flint (anywhere in document)  
“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi  
“Genesee County Health Department”  
“Flint” (within sentence) “utilities”  
“Lead and Copper Rule”  
“Detroit Water and Sewerage Department” & “Flint” (anywhere in document)  
“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

Please call me or Jean if you have any questions.

Brom

**Subject:** Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire  
Legionella  
“boil water order” & “Flint” (anywhere in document)  
“coli” & Flint (anywhere in document)  
“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi  
“Genesee County Health Department”  
“Flint” (within sentence) “utilities”  
“Lead and Copper Rule”  
“Detroit Water and Sewerage Department” & “Flint” (anywhere in document)  
“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

Please call me or Jean if you have any questions.

Brom

**Subject:** Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

But if they have any emails with those key terms they still need to submit the names of those folks. For example, if IT asked for their assistance to store emails from Flint, then that person's name should be included.

**Subject:** NEW DEADLINE - Time Sensitive Request

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

- Legionnaire
- Legionella
- “boil water order” & “Flint” (anywhere in document)
- “coli” & Flint (anywhere in document)

“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi  
“Genesee County Health Department”  
“Flint” (within sentence) “utilities”  
“Lead and Copper Rule”  
“Detroit Water and Sewerage Department” & “Flint” (anywhere in document)  
“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

Please call me or Jean if you have any questions.

Brom

SMT,

Jean Ingersoll is leading DTMB’s effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard “search terms” which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

**To:** Thompson, Kristi (DTMB)  
**Subject:** Re: NEW DEADLINE - Time Sensitive Request

The combination of terms you will not likely see in any of our communications with IT or with the Agencies that will be using Records Manager for the records.

If the word Flint independently is a term, then yes. Likely custodians would be Jessie Weston, Scott Fitton, Brice Sample.

But if they have any emails with those key terms they still need to submit the names of those folks. For example, if IT asked for their assistance to store emails from Flint, then that person's name should be included.

**Subject:** Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.**

Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Brom Stibitz  
Chief Deputy Director  
Michigan Department of Technology, Management and Budget

**Subject:** FW: IT Depot/Re-Source Partners Contract (#071B0200181)

Hi Kristi --

I wanted to let you know that I received a call from Mike Breen and James Topping from Procurement. They advised that they think we will most likely have to go to an RFP for this contract which would require us to submit a 12 month extension. At this time they are going to talk to their boss one more time just to see if there are any alternatives, but Mike was confident we'd end up having to go to an RFP.

According to Mike we will need to two things:

- 1) Justification on why we waited two years to rebid the contract (and)
- 2) Where we are going with the contract (i.e., RFP)

Seth -- this is something I need to discuss with my manager. I have copied him on this email. Once he and I have talked this through I can give you some guidance.

Bill -- Please see Seth's email. My initial thoughts are that we will have to take this to Ad Board unless we find another contract to piggy back off of. I know Chad had contemplated this in MMCC, but that won't be ready in a timely manner. We can chat next week when you are back.

**Subject:** IT Depot/Re-Source Partners Contract (#071B0200181)

Hi David,

I wanted to touch base with you regarding the contract the IT Depot has with Re-Source Partners. I am the new manager over Depot as it is now rolled up into the Logistics & Operations Support group. I am also fairly new to State Government and am a bit unfamiliar with how the contract process works. Regarding the contract in question, I see there were two 1-year options and a sixth month extension that will expire this coming April. After talking to another manager in LOS, it does not sound like we will have enough time to do a full RFP before the contract expires. The work that Re-Source Partners does for us is critical to our operation and must continue. Considering this contract is a zero dollar contract, is it possible to get another six month extension for it so that we have time for the RFP? We are very happy with the services provided by Re-Source Partners and would like to continue to use their services in the future, and considering it is a zero dollar contract, I wasn't even sure if a full RFP was even necessary.

If you have time, maybe we could set up a quick call to discuss next week? Let me know your schedule and I can set something up.

Thanks!

**Subject:** The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at [behend@michigan.gov](mailto:behend@michigan.gov).

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Subject: Re: NEW DEADLINE - Time Sensitive Request

The combination of terms you will not likely see in any of our communications with IT or with the Agencies that will be using Records Manager for the records.

If the word Flint independently is a term, then yes. Likely custodians would be Jessie Weston, Scott Fitton, Brice Sample.

Subject: RE: NEW DEADLINE - Time Sensitive Request

But if they have any emails with those key terms they still need to submit the names of those folks. For example, if IT asked for their assistance to store emails from Flint, then that person's name should be included.

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll no later than noon on Tuesday, February 16.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire

Legionella

"boil water order" & "Flint" (anywhere in document) "coli" & Flint (anywhere in document) "bacteria" & "Flint" (anywhere in document) "microb" & "Flint" (anywhere in document) "TTHM" & "Flint" (anywhere in document) "Lead" & "Flint" (anywhere in document) "emergency" & "Flint" (anywhere in document) Karegnondi "Genesee County Health Department"

"Flint" (within sentence) "utilities"

"Lead and Copper Rule"

"Detroit Water and Sewerage Department" & "Flint" (anywhere in document) "DWSD" & "Flint" (anywhere in document) "Flint River"

"Pb" & "water" (anywhere in document)

"KWA"

Please call me or Jean if you have any questions.

I have talked with Rebeca Cook and with Christine Sanchez this morning.  
Here is where the project stands.  
Chris Sanchez has the latest proof, #6A.  
She is working with her group to get the final changes over to us.

Our staff:  
Paper is cut and is at the iGen ready to print  
Brad Best is waiting for the final file to add the sequential numbers  
Dan Chipman is waiting for the final changes to come in from DHHS so he can make them in our file

Once printed and cut, we will deliver local here in Lansing.  
DHHS has an employee that works in Lansing and lives in Flint and is willing to drop them off.

I will keep you updated as the proof comes back.

Just wanted to share how proactive Carrie is being with the City of Flint.

Carrie has already heard back from the State of S. Carolina who is offering up 9-10 semi loads of bottled water.

We are going to waive all of our fees as well.

Thanks,  
Kristi

**Subject:** Bottled Water

The State of Michigan is in need of bottled water for the City of Flint. The mayor of Flint, MI declared a state of emergency over contaminated water in the city. The city's water supply is contaminated by high levels of lead. Currently [gsaccess.gov](http://gsaccess.gov) does not have cases of bottled water available. Please let me know if your state has bottled water available for transfer.

**Subject:** RE: Bottled Water

She's utilizing the Federal Surplus Property program to transfer Federal items to the City of Flint. They will be a donee of the program (filling out application now). No different than getting them a truck or car parts it's just that this item is water. This has nothing to do with the Governor's Office declaring a state of emergency (which I do not believe he has done) and following their protocol.

Thanks,  
Kristi

She's utilizing the Federal Surplus Property program to transfer Federal items to the City of Flint. They will be a donee of the program (filling out application now). No different than getting them a truck or car parts it's just that this item is water. This has nothing to do with the Governor's Office declaring a state of emergency (which I do not believe he has done) and following their protocol.

Here's a couple of bullet points for you:

- Carrie Rambo and Stephanie Clark read an article about the Flint water problems and the State of emergency.
- Carrie reached out to the Assistant City Manager, Sean Kammer in the City of Flint to see if we might be able to assist them in getting water via the Federal Surplus Property Program.
- Carrie also sent the email below to all of our contacts in other states to see if anyone had water available to transfer to the City of Flint.
- South Carolina has offered up 93 pallets of bottled water if Flint can transport them.

Thanks,  
Kristi

The State of Michigan is in need of bottled water for the City of Flint. The mayor of Flint, MI declared a state of emergency over contaminated water in the city. The city's water supply is contaminated by high levels of lead. Currently [gsaxcess.gov](http://gsaxcess.gov) does not have cases of bottled water available. Please let me know if your state has bottled water available for transfer.

Through a connection in our Surplus Office we have identified pallets of bottled water in South Carolina that they are willing to donate to Flint. I don't have many details right now, but I was hoping to connect our staff with the DHHS contact overseeing the Flint efforts to see if this is something that would be helpful. Can you get me a name and phone number?

Thanks,  
Caleb Buhs

Carolyn in the meantime can you find out the actual shipping cost? That way I can begin preparing to pay for it.

I was told that the shipments come at the cost of shipping. This is about ½ the cost of buying the water and shipping ranges from between \$1000-\$2,000 per semi.

Thanks and we will talk on Monday.

Sheryl,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). South Carolina's Federal Surplus Program is willing to transfer the water to the State of Michigan Federal Surplus Program. The City of Flint is responsible for setting up the logistics to get the pallets shipped to Flint as well as any shipping costs. Do you have any resources to help the city with the shipping costs? Please let me know if you have any questions.

**Subject:** Saturday Deliveries

Hi Shelly

One truck w/lift and driver needed to pick-up and deliver pallets on Saturday, January 9, 2016.

Pick-up information for the following locations:

1. Food Bank of Eastern Michigan  
2300 Lapeer Rd, Flint, MI 48503  
**Open at 8 AM**  
Picking up 3 pallets of water bottles and 2 pallets of gallon jugs  
Loading dock is located off Lapeer Rd. When you arrive go to the older building and knock on the door. The supervisor on duty (Sally) will assist with loading the pallets.

2. Genesee County Community Action Resource Department (GCCARD)  
Matt Purcell (810) 397-8829  
2727 Lippincott, Flint 48507  
**Ready at 9 AM**  
Picking up pallets of filters and replacement filters (9 pallets approximately)

3. DEQ Lab  
3350 N. M.L. King Blvd, Lansing 48906  
Bundles of water testing kits are in the lobby area ready for pickup at any time

Deliver the following to each of the following fire stations:

- 1 filter pallet
- 1 water pallet
- 1 test kit bundle with instructions (Instructions paper pamphlets divide as needed)

716 West Pierson Rd  
1525 Martin Luther King Jr. Blvd  
310 East 5th St  
3402 Western Rd  
202 East Atherton

I will be available via my cell all day tomorrow. I will need to let the driver know where to deliver the remaining pallets of filters (2,000) so a name and phone number for contact would be great.

Thank you!!!

Jeanette Doll, Professional Emergency Manager  
MI Dept. of Technology, Management & Budget  
Emergency Management Coordinator

**Subject:** Saturday Deliveries

Hi Shelly

One truck w/lift and driver needed to pick-up and deliver pallets on Saturday, January 9, 2016.

Pick-up information for the following locations:

1. Food Bank of Eastern Michigan  
2300 Lapeer Rd, Flint, MI 48503

**Open at 8 AM**

Picking up 3 pallets of water bottles and 2 pallets of gallon jugs

Loading dock is located off Lapeer Rd.

When you arrive go to the older building and knock on the door. The supervisor on duty (Sally) will assist with loading the pallets.

2. Genesee County Community Action  
Resource Department (GCCARD)  
Matt Purcell (810) 397-8829  
2727 Lippincott, Flint 48507

**Ready at 9 AM**

Picking up pallets of filters and replacement filters (9 pallets approximately)

3. DEQ Lab  
3350 N. M.L. King Blvd, Lansing 48906  
Bundles of water testing kits are in the lobby area ready for pickup at any time

Deliver the following to each of the following fire stations:

- 1 filter pallet
- 1 water pallet
- 1 test kit bundle with instructions  
(Instructions paper pamphlets divide as needed)

716 West Pierson Rd  
1525 Martin Luther King Jr. Blvd  
310 East 5th St  
3402 Western Rd  
202 East Atherton

I will be available via my cell all day tomorrow. I will need to let the driver know where to deliver the remaining pallets of filters (2,000) so a name and phone number for contact would be great.

Thank you!!!

Jeanette Doll, Professional Emergency Manager

**Subject:** Update on Flint Water Deliveries

Joyce –

I wanted to give you a heads up on our current efforts to support the relief efforts in Flint.

- We have two trucks and drivers that went to Flint today and will stay overnight all week handling deliveries of water and filters
- We are sending two more drivers and two more trucks tomorrow to assist Tuesday – Friday. They do not need to stay overnight but may elect to do so.
- We have provided three 24 foot trucks and one semi along with two MVO 8's and two EO9's.
- In order to accommodate this we have had to request one of our drivers to work 2.5 hours of OT per day for the rest of the week. This is to accommodate the Depot deliveries that will be impacted as well as to ensure the late PO run remains consistent
- At this point, I do not have any additional staff or drivers that I can send to assist without impacting our other routes and services.

Just wanted you to be fully in the loop in case you get questions from Brom. Please let me know if I have missed anything that you need to know.

Thanks,  
Kristi

While we require all of our drivers to at least have a Class B, depending on the size truck that they drive not all require a CDL. The smaller trucks like a cube do not require anything by MDOS.

Thanks,  
Kristi

Good morning Kristi,

I am in a training until 1:00. I spoke to Chris to let him know about this and he will contact our guys. So, if you could get with him, he will handle it.

We would need to know the times - is it from 8:30 - 5, so they don't have to stay?

Thanks,  
Shelly

**Agenda**  
**Bi-Weekly Meeting**  
**Monday, January 11, 2016**  
**2:30 p.m. – 4:30 p.m.**

Invited: Joyce Van Coevering, Kristi Thompson

---

1. Joyce's Discussion Topics
  - a. DR/Business Continuity
2. Follow Up Items from prior meeting
  - a. Depot Update
3. Ongoing Discussion Items
  - i. General Status Update
    1. IPM's/PD's
    2. Student Assistant Position – Joe Fleming officially started 1-11-16
  - ii. Printing Services
    1. Logic Replacement Implementation
    2. Job Tracking and Accountability
    3. Print Analysis
    4. Joe Weller
  - iii. Warehouse Services
    1. Staffing
  - iv. State Surplus
    1. Audit update responses
    2. Potential Building Move
  - v. Federal Surplus
    1. Audit Updates
    2. Flint Water Donation
  - vi. Mailing Services
    1. Lots of employees out on Medical Leave (Boyd, Fast, Fry)
    2. File based print and mail
    3. Permit 1200 Usage
  - vii. Delivery Services
    1. Staffing – Three MVO6's – all training with staff
    2. Flint Time
  - viii. Records Management
    1. Wayne County Storage contract – Current Status
      - a. Business Case to bring inside
    2. Highland Parks Schools – Changed status again
4. New Items
  - a. ITOT meeting update

Kristi,

Would it be okay if I started a collection of money, water, and water filters for the Flint Water Crisis? I ask only because I have no idea how or who to take it to when we are done collecting just wondering if you would be okay with us doing this and if you have any guidance in where it would go. I am more than willing to drive to Flint and drop it off if that is what has to happen to get these people what they need. Please just let me know. I am more than willing to take on the responsibilities of collecting all the items.

Not ideal but if that is the only option it may work. It will take multiple individuals to lift it in and out as this is a 300 pound piece of equipment. 27" x 27" x 48 tall.

**Subject:** RE: IT Depot/Re-Source Partners Contract (#071B0200181)

Seth -- this is something I need to discuss with my manager. I have copied him on this email. Once he and I have talked this through I can give you some guidance.

Bill -- Please see Seth's email. My initial thoughts are that we will have to take this to Ad Board unless we find another contract to piggy back off of. I know Chad had contemplated this in MMCC, but that won't be ready in a timely manner. We can chat next week when you are back.

**Subject:** IT Depot/Re-Source Partners Contract (#071B0200181)

Hi David,

I wanted to touch base with you regarding the contract the IT Depot has with Re-Source Partners. I am the new manager over Depot as it is now rolled up into the Logistics & Operations Support group. I am also fairly new to State Government and am a bit unfamiliar with how the contract process works. Regarding the contract in question, I see there were two 1-year options and a sixth month extension that will expire this coming April. After talking to another manager in LOS, it does not sound like we will have enough time to do a full RFP before the contract expires. The work that Re-Source Partners does for us is critical to our operation and must continue. Considering this contract is a zero dollar contract, is it possible to get another six month extension for it so that we have time for the RFP? We are very happy with the services provided by Re-Source Partners and would like to continue to use their services in the future, and considering it is a zero dollar contract, I wasn't even sure if a full RFP was even necessary.

If you have time, maybe we could set up a quick call to discuss next week? Let me know your schedule and I can set something up.

Thanks!

Seth Wright, Departmental Manager  
Logistics & Operations Support

**Subject:** LOS Employee Celebration

Joyce & Brom –

We'd like to host an employee celebration for our Print and Mail teams for that amazing amount of work they cranked out during the month of January. In addition to the standard print and mail volumes they had all the tax mailings that were printed and mailed plus the new 1095's that were issued this year. Our teams worked 10-12 hour days 6 days per week to meet the timelines for each of the mailings and everything was out on time. Some highlights of their efforts:

**Print**

- CPC Print images 16,811,213

**Mailing Service**

- 6.2 million letters inserted
- Largest Single Day Mail Release 1,013,608 pcs.
- Total presorted letters 8,418,420
- Mail trays handled 20,447
- 380 Skids of Mail wrapped and scanned for Full Service compliance

In addition to all the Print and Mail efforts, our Delivery Team went above and beyond in their support of the relief efforts in Flint:

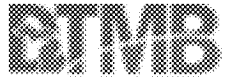

- Providing ongoing support in moving water
- Started on January 9 working 7 days a week.
  - Several staff spent the nights in Flint to be on site for longer days
- Moving water from warehouses to Fire Stations
- Moving water from Food Bank to local churches
- Delivering printed material from Printing Services
- Delivered furniture and copiers to support a new warehouse
- Delivered water and filters throughout Flint neighborhoods
- Rented 3 24' trucks to help with water deliveries

We're going to host a pizza lunch for the team on February 24<sup>th</sup> and would love it if you could both attend and share in the success with the team. If February 24<sup>th</sup> doesn't work for either of you please let me know and we can pick a different date.

Thanks,  
Kristi

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

- Legionnaire
- Legionella
- “boil water order” & “Flint” (anywhere in document)
- “coli” & Flint (anywhere in document)
- “bacteria” & “Flint” (anywhere in document)
- “microb” & “Flint” (anywhere in document)
- “TTHM” & “Flint” (anywhere in document)
- “Lead” & “Flint” (anywhere in document)
- “emergency” & “Flint” (anywhere in document)
- Karegnondi
- “Genesee County Health Department”
- “Flint” (within sentence) “utilities”
- “Lead and Copper Rule”
- “Detroit Water and Sewerage Department” & “Flint” (anywhere in document)
- “DWSD” & “Flint” (anywhere in document)
- “Flint River”
- “Pb” & “water” (anywhere in document)
- “KWA”

Please call me or Jean if you have any questions.

Brom

**Subject:** Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

**Subject:** NEW DEADLINE - Time Sensitive Request

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire  
Legionella  
“boil water order” & “Flint” (anywhere in document)  
“coli” & Flint (anywhere in document)  
“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi  
“Genesee County Health Department”  
“Flint” (within sentence) “utilities”  
“Lead and Copper Rule”  
“Detroit Water and Sewerage Department” & “Flint” (anywhere in document)  
“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

Please call me or Jean if you have any questions.

Brom

**Subject:** Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

But if they have any emails with those key terms they still need to submit the names of those folks. For example, if IT asked for their assistance to store emails from Flint, then that person's name should be included.

**Subject:** Re: NEW DEADLINE - Time Sensitive Request

The combination of terms you will not likely see in any of our communications with IT or with the Agencies that will be using Records Manager for the records.

If the word Flint independently is a term, then yes. Likely custodians would be Jessie Weston, Scott Fitton, Brice Sample.

**Subject:** RE: NEW DEADLINE - Time Sensitive Request

But if they have any emails with those key terms they still need to submit the names of those folks. For example, if IT asked for their assistance to store emails from Flint, then that person's name should be included.

Senior Management Team,

We just received the search terms for the document  
 production. (See below.) Given the lateness of this  
 email, we are asking you send your list of  
 custodians to Jean Ingersoll **no later than noon on**  
**Tuesday, February 16.**

We are not asking you to conduct any searches right  
 now. Further directions will come from Jean.

Search terms:

Legionnaire  
 Legionella  
 "boil water order" & "Flint" (anywhere in  
 document)  
 "coli" & Flint (anywhere in document)  
 "bacteria" & "Flint" (anywhere in document)  
 "microb" & "Flint" (anywhere in document)  
 "TTHM" & "Flint" (anywhere in document)  
 "Lead" & "Flint" (anywhere in document)  
 "emergency" & "Flint" (anywhere in document)  
 Karegnondi  
 "Genesee County Health Department"  
 "Flint" (within sentence) "utilities"  
 "Lead and Copper Rule"  
 "Detroit Water and Sewerage Department" &  
 "Flint" (anywhere in document)

“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

Please call me or Jean if you have any questions.

All DTMB  
Custodians of Co...

**\*This attachment was updated 2/18/16**

\*See agenda below

**Requested By:**

DTMB Executive Staff

**Location:**

Ottawa Building  
Upper Level – Conference Room 4  
611 W. Ottawa Street  
Lansing, MI 48933

Call-in: 866-390-1828  
Access code: 1842654

**Security:**

Please have your State Employee ID showing at all times.

**Parking:**

Metered parking is available along Ottawa and Pine street.

**Briefing:**

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

**Agenda**

- 1) Kickoff – Brom Stibitz, Chief Deputy Director
- 2) Why you are here – Jean Ingersoll, Interim Chief of Staff
- 3) What you need to do (February 22, 2016 deadline) – Jean
- 4) What will be done for you – Jean
- 5) What's next – Jean
- 6) Public Information Reminder – Caleb Buhs, Public Information Officer
- 7) Questions and Answers - Group

**SOM Meeting Contact:**

All DTMB  
Custodians of Co...

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET  
LANSING

DAVID B. BEHEN  
DIRECTOR

February 17, 2016

**TO:** All DTMB Custodians of Correspondence Related to Flint

**FROM:** Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

**SUBJECT:** Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

**Microsoft 365 – Outlook (includes emails, calendar items) and OneDrive**

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

**Network Drives**

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians *do not* need to independently conduct a network drive search for the search terms below.

**Non-Network Drives – includes hard drives, desktop, and thumb/flash drives**

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

### **Paper Files**

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

### **Home Computer**

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

### **Conclusion**

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

### **Attachments**

- Attachment 1 – Search Guidance

## Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word*. For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

### Search Terms:

- |   |  |   |
|---|--|---|
| <input type="checkbox"/> "Legionnaire"                | <input type="checkbox"/> "Karegnondi"                | <input type="checkbox"/> "Pb" & "water" |
| <input type="checkbox"/> "Legionella"                 | <input type="checkbox"/> "Genesee County Health      | <input type="checkbox"/> "KWA"          |
| <input type="checkbox"/> "boil water order" & "Flint" | Department"  |   |
| <input type="checkbox"/> "coli" & "Flint"             | <input type="checkbox"/> "Flint" & "utilities"       |   |
| <input type="checkbox"/> "bacteria" & "Flint"         | <input type="checkbox"/> "Lead and Copper Rule"      |   |
| <input type="checkbox"/> "microb" & "Flint"           | <input type="checkbox"/> "Detroit Water and Sewerage |   |
| <input type="checkbox"/> "TTHM" & "Flint"             | Department" & "Flint"                                |   |
| <input type="checkbox"/> "Lead" & "Flint"             | <input type="checkbox"/> "DWSD" & "Flint"            |   |
| <input type="checkbox"/> "emergency" & "Flint"        | <input type="checkbox"/> "Flint River"               |   |

Directors Office, Cass Building, Second Floor

## APPENDIX 1 – Search Guidance

Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

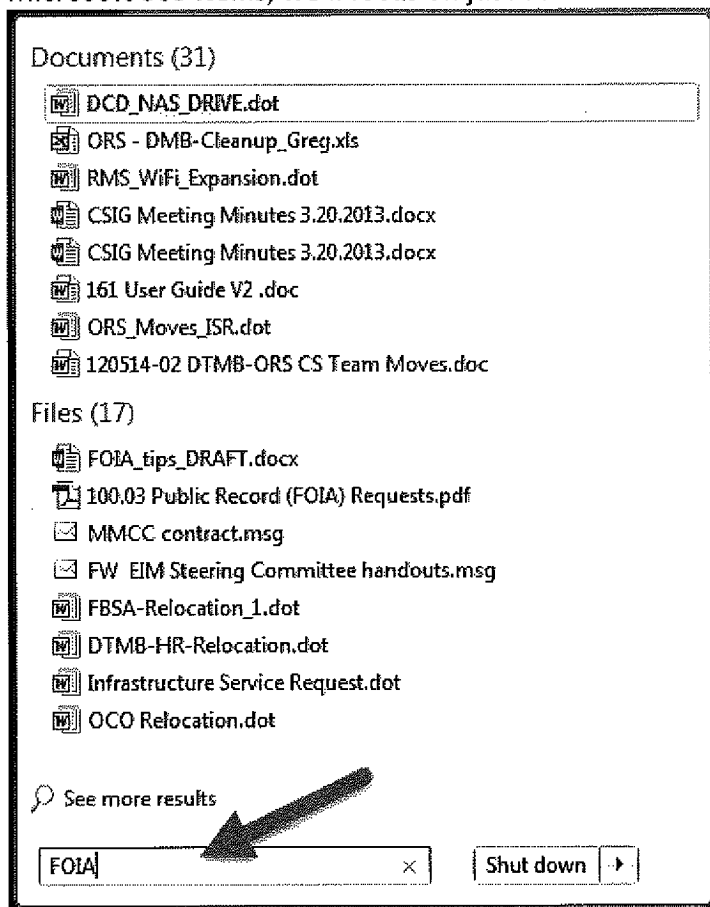

### Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

► All Programs

Search programs and files

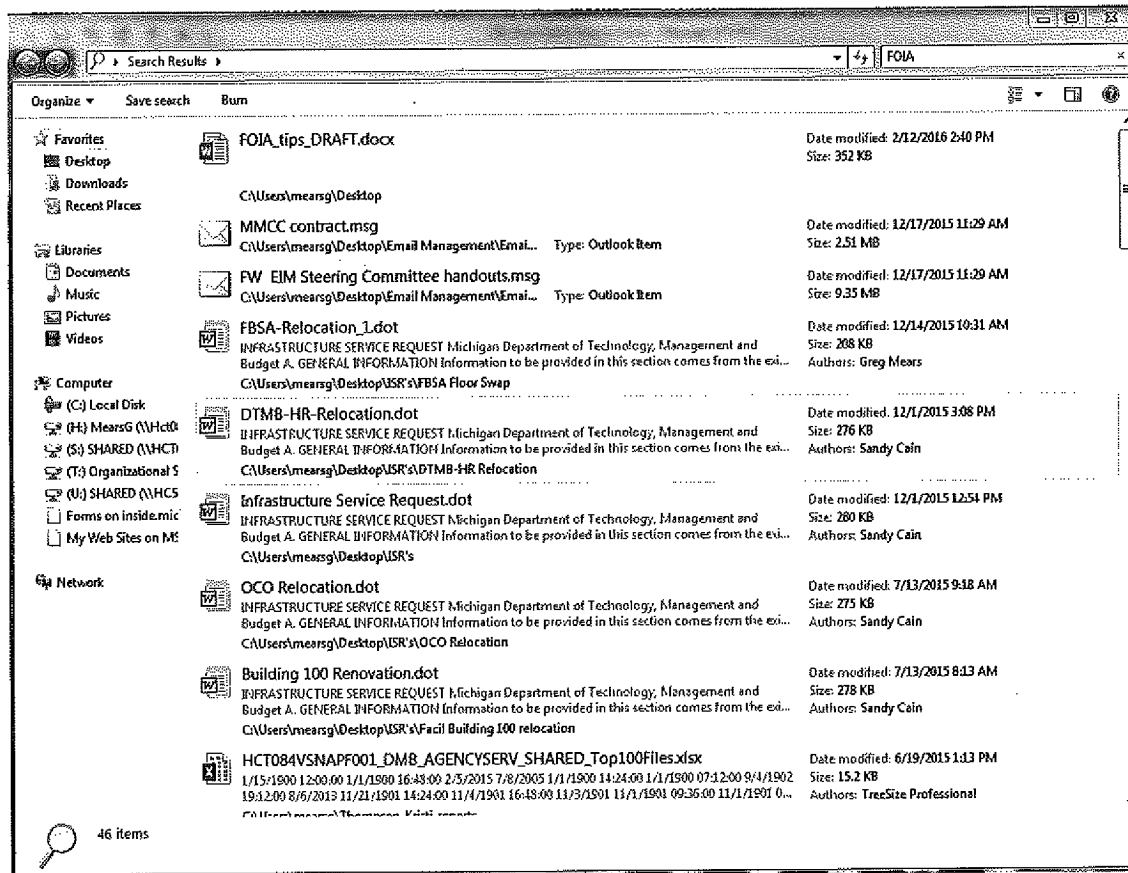

This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form. You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

RICK SNYDER

**Subject:** VIDEO: Volunteering in Flint

## VIDEO: How volunteers are helping Flint

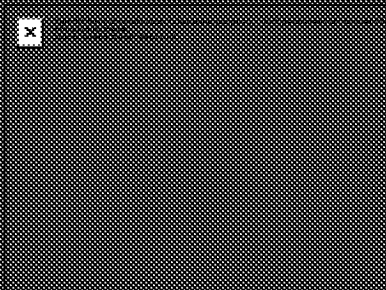

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click [here](#) to read the Governor's full op-ed.

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

# Anonymous Relaunches #OpFlint against the Government of Michigan and City of Flint

## **MANAGED ADVERSARY AND THREAT INTELLIGENCE**

DEEPSIGHT™ INTELLIGENCE, INTELLIGENCE SUMMARY, SYMC – 300383, PUBLISHED 22 JANUARY 2016, V.1 2

Information Cut-Off Date: 22 January 2016 3

# ANONYMOUS LAUNCHES #OPFLINT AGAINST THE GOVERNMENT OF MICHIGAN AND CITY OF FLINT

*DeepSight™ Intelligence, Intelligence Summary, SYMC-300383, published 22 January 2016, V.1*

## KEY FINDINGS

- On 16 January 2016, Anonymous relaunched #OpFlint in response to the recent health crisis surrounding contaminated water in Flint, Michigan.
- The operation targets officials that the Anonymous group recognizes as having ignored the water crisis, such as Gov. Rick Snyder and Flint city personnel.
- The operation activities have included distributed denial-of-service (DDoS) attacks and doxing.

## EXECUTIVE SUMMARY

Members of the international Anonymous hacktivist collective have relaunched #OpFlint to target those entities that the operation perceives as responsible for the contaminated water crisis in Flint, Michigan. Originally organized in 2015, #OpFlint was relaunched on 16 January 2016 and is ongoing against city officials and the governor of Michigan, Rick Snyder. Several hacking groups are supporting the malicious activities, which include DDoS attacks and doxing. The first DDoS attacks on 16 January took the [Michigan.gov](http://Michigan.gov) and [cityofflint.com](http://cityofflint.com) websites temporarily offline. DeepSight Intelligence judges #OpFlint will not shut down the state or city's infrastructure; however, access to the Michigan government and city websites will likely be disrupted. 4

## DETAILS

The Anonymous collective's operation #OpFlint originally launched in 2015 but never gained momentum. #OpFlint was relaunched on 16 January 2016 to draw attention to the toxicity levels of the contaminated water supply in the city of Flint, Michigan.

Leaders of the current effort include the US-based New World Hacking group<sup>i</sup> and the Anonymous Intelligence Group (a.k.a. Anon Intel Group). The New World Hacking group launched the recent #OpFlint activity on 16 and 17 January 2016 with DDoS attacks that shut down the [Michigan.gov](http://Michigan.gov) and [cityofflint.com](http://cityofflint.com) websites (see Figure 1). The operation has an official video on Youtube (<https://www.youtube.com/watch?v=zXQfsURnE0w>) and on several Anonymous-affiliated websites.

<sup>i</sup> See the DeepSight Intelligence report *Profile: New World Hacking (NWH)*, (SYMC – 300376), 9 June 2016. New World Hacking uses their own stressor service, BangStressor, to conduct DDoS attacks including an attack against the BBC in early 2016.

**Figure 1. New World Hacking Twitter post publicizing the DDoS attacks against [Michigan.gov](http://Michigan.gov) and [cityofflint.com](http://cityofflint.com)**

On 20 January 2016, the Anon Intel Group's website contained a link to a "doxing" for Michigan Gov. Snyder (<https://ghostbin.com/paste/zn236>, see Figure 2). The dox did not include social security numbers, but rather revealed his mailing address, social media accounts, and phone numbers, and information for his family relatives that is easily obtained through several Google searches.

**Figure 2. Dox posted on Anon Intel Group website on 20 January 2016** <sup>5</sup>

Gents:

See attached DeepSight MATI report on OpFlint generated from our SOC in Washington DC...

On 21 January 2016, Hurley Medical Center in Flint, Michigan, confirmed it was the victim of a “cyber attack” but patient information was not compromised. According to a Twitter post by Anon Intel Group on 22 January 2016, Anonymous denies responsibility for the attack against the hospital (see Figure 3).

Figure 3. Twitter post discussions denying Anonymous activity against a hospital in Flint Michigan

## OUTLOOK

As of 22 January 2016, recent #OpFlint activity has involved posting news clips on social media accounts, such as Twitter and Facebook. The group has not mentioned further DDoS attacks, although DeepSight Intelligence expects some sites to be targeted on the first weekend of the relaunch (i.e., between 22 January and 24 January 2016). Although #OpFlint relaunched on 16 January 2016, DeepSight Intelligence expects the activity to quickly diminish if it does not gain greater media recognition—Anonymous is motivated by publicity. There are no indications the operation is well organized and the Youtube video announcing the operation only mentions targeting the Governor of Michigan and the city of Flint; there are no details on how the operation will be conducted. Although #OpFlint will not shut down the state or city’s infrastructure, access to government and city websites might occasionally be disrupted.

Michigan State Employee banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJKK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

**Subject:** "Flint residents should not have to pay for water they cannot drink"

## Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

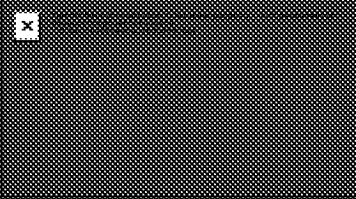

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

**Subject:** FW: Thank you for your service

Kerrie,

Continuing the conversation on Flint...

I'm guessing you will have conversations at the SMT meetings on why the Flint crises happened and why employees need to have more "common sense" and "make good judgments."

I think we could have a very healthy conversation about this in an EPC meeting.

Two things hit my radar in the last 12 hours:

1. I had a chance to hear the anger and hurt of a DEQ engineer last night. He is not directly associated with the Flint water crisis, but as could be expected, the firestorm reaches everywhere in DEQ. (see clip below)
2. We received a letter from Snyder this morning where he expressly states...  
"I am asking you not to let the situation in Flint negatively impact your motivation to excel every day."  
And then he assigns blame to people who "do not make good decisions, or use good judgment in solving problems."

In know it is too early to diagnose root causes; and I know that some of this communication is political and self-protective.

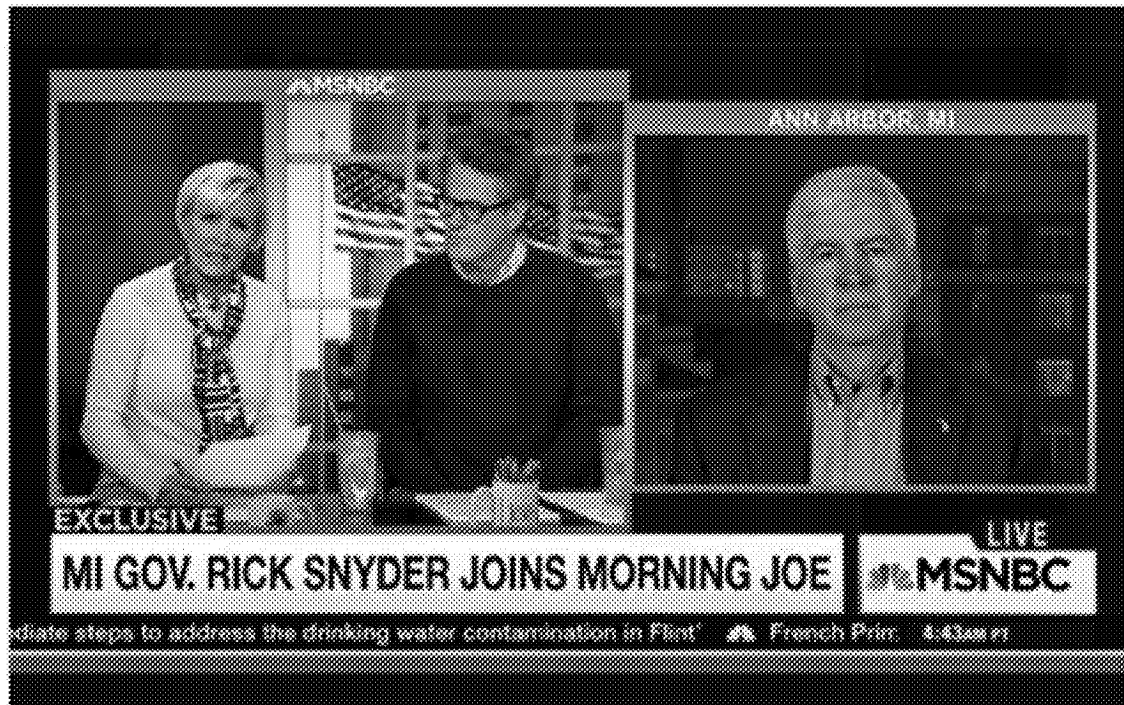

What I hope we can do, if we spend time talking about Flint, is to remember one of our favorite adages: "your world is perfectly organized to get the results you are currently experiencing."

Tim

# Gov. Snyder throws mid-level bureaucrats & "career service people" under the #FlintRiverCrisis bus on MSNBC's Morning Joe

by ElectedBlog on JANUARY 22, 2016 in FLINT, RICK SNYDER

Gov. Rick Snyder appeared on MSNBC's Morning Joe program this morning to throw mid-level bureaucrats in his administration under the bus:

The department people, the heads, were not being given the right information by the quote-unquote experts, and I use that word with great trial and tribulation because they were considered experts in terms of their background, these are career civil servants that had strong science, medical backgrounds in terms of their research. But as a practical matter, when you look at it today and you look at their conclusions, I wouldn't call them experts anymore. [...]

What's so frustrating and makes you so angry about this situation is you have a handful of quote-unquote experts who were career service people that made

# Water Drive for the City of FLINT!

In recent news, there has been a water crisis in the City of Flint and it has been declared a public health emergency, this is damaging to an already cash-strapped city.

Community Connection and local businesses, have partnered together in a relief effort to supply the city with much needed bottles of water.

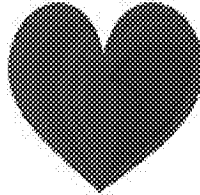

# **For the week of January 18<sup>th</sup> thru January 22<sup>nd</sup>**

We will be accepting donations of 12 packs, cases, gallons, and 5 gallons of water.

Please bring your donations to the 4<sup>th</sup> floor kitchenette.

Brought to you by

Community Connection

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

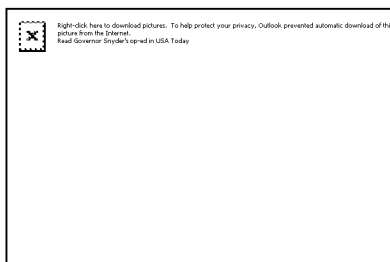

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click [here](#) to read the Governor's full op-ed.

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

**Sent:** Tuesday, January 26, 2016 8:39 AM  
**To:** Vanden Bosch, Kerrie (DTMB)  
**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

**From:** Dept. Technology, Management & Budget [mailto:dtmb@govsubscriptions.michigan.gov]  
**Sent:** Tuesday, January 26, 2016 8:39 AM  
**To:** McCormick, Timothy (DTMB)  
**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts, everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. [Administrative Policy 200.37](#) establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and

work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Sweeney,

We don't feel that the amendment to add a 2 year sunset to dissuade DNR employees from retiring earlier than they otherwise would have in an attempt to receive both a pension and compensation is needed. At \$13 an hour for their assistance during emergency firefighting, I don't think someone is going to jump into retirement. Plus they are only going to be contracted with during those emergency situations if we feel we have inadequate staff. This will be very limited in nature.

We also don't feel that the change from wild fire suppression management to firefighter is helpful. DNR doesn't just have "firefighters" who work on these wildfires. We have fire specialists, fire officers, fire supervisors, regional and state managers, and other forest resources division staff. By limiting it to firefighters, we would not be able to use any of the above employees.

We would be open to looking at some language regarding the reporting of the employment of a retirant under this subsection.

Are you okay with these? DNR would like to propose that the administration support this legislation, just want to make sure that DTMB feels comfortable before I request such a position.

Sincerely,

**Subject:** HB 5128

Hey there! Hope you're doing well!

I saw HB 5128 just got posted for Natural Resources next week. We have Office of Retirement Services (ORS) in DTMB and they have been tracking this bill. They have some suggestions we would like to share if Rep. Rendon is open to them. None of them would drastically change the scope of the bill, but would rather ensure it doesn't have any unintended consequences.

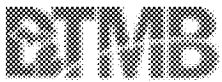

- If the intent is to hire more firefighters, we would recommend making that more clear in sub (7). There are many positions that could conceivably fall under "wildland fire management services" other than firefighters.
- We also would recommend a 2-year sunset on the bill. This will help dissuade DNR employees from retiring earlier than they otherwise would have in an attempt to receive both a pension and compensation.
- Finally, we would suggest a requirement for DNR to report retirants they are re-hiring to ORS so they can make the necessary adjustments. Similar language is found in the SERS Act - 1943 PA 240, section 68c(3)(d). It reads: "The department of corrections reports the employment of a retirant under this subsection within 30 days of employment of the retirant to the state budget office and the department of technology, management, and budget. The report must include the name of the retirant, the capacity in which the retirant is employed, and the total compensation paid to the retirant."

Would you be willing to discuss these modest changes with Rep. Rendon? Of course we'd be glad to come in and discuss them in person if that would be more helpful.

Thanks!

Sweeney

**Subject:** RE: HB 5128

I guess how much do we want to fight?

The nature of this bill implies, to me at least, that an emergency need is something they have encountered in the past. With the impacts of climate change, all of the projections I hear on fire management is that they expect more fires, and more severe fires, going forward. This to me reinforces the need for a sunset.

An alternative to narrowing the wording to firefighter is for the DNR to supply the positions that would be covered.

The reporting piece is essential, so that is probably the thing we want the most.

On Feb 1, 2016, at 3:31 PM, Vanden Bosch, Kerrie (DTMB) <[vandenboschk@michigan.gov](mailto:vandenboschk@michigan.gov)> wrote:

What if we suggest a longer sunset period – it would allow the DNR to assess whether they still have that personnel need, and develop a succession plan for meeting it within their active workforce. Ultimately, this is one we could probably roll over on. I don't know that all of the other exceptions have sunset periods.

I like your suggestion of asking them to list the exact positions they need, to ensure that it doesn't "grow" in the future.

Does the existing reporting language we have work, that we could just replicate it for this group?

Yes, that is where I was going. Right now, it may not incentivize anyone to leave early. But 5 years from now, if there has been a need to tap into retirees every year, people may begin to change their behavior, because they know they have an option in retirement.

In your second paragraph, can you say more about how you think this reinforces the need for a sunset? Because they should beef up their staffing and training of regular staff if they anticipate that this will continue to be a need?

**Subject:** RE: HB 5128

I guess how much do we want to fight?

The nature of this bill implies, to me at least, that an emergency need is something they have encountered in the past. With the impacts of climate change, all of the projections I hear on fire management is that they expect more fires, and more severe fires, going forward. This to me reinforces the need for a sunset.

An alternative to narrowing the wording to firefighter is for the DNR to supply the positions that would be covered.

The reporting piece is essential, so that is probably the thing we want the most.

Sweeney,

We don't feel that the amendment to add a 2 year sunset to dissuade DNR employees from retiring earlier than they otherwise would have in an attempt to receive both a pension and compensation is needed. At \$13 an hour for their assistance during emergency firefighting, I don't think someone is going to jump into retirement. Plus they are only going to be contracted with during those emergency situations if we feel we have inadequate staff. This will be very limited in nature.

We also don't feel that the change from wild fire suppression management to firefighter is helpful. DNR doesn't just have "firefighters" who work on these wildfires. We have fire specialists, fire officers, fire supervisors, regional and state managers, and other forest resources division staff. By limiting it to firefighters, we would not be able to use any of the above employees.

We would be open to looking at some language regarding the reporting of the employment of a retirant under this subsection.

Are you okay with these? DNR would like to propose that the administration support this legislation, just want to make sure that DTMB feels comfortable before I request such a position.

Sincerely,

We worked this bill last summer and are very much in support of it.

- We don't support a 2 year sunset. (recently passed PA 20 of 2015 didn't have a sunset for retired Attorneys, why would we put this for wild fire suppression services?)
- The prior bill (HB 4415'11) had "wild fire suppression services" we would be open to that change instead of firefighter.
- Furthermore, since the bill was worked on, other emergencies have been brought to our attention that we would also like the legislature to consider. There is a need for more trained Incident Management personnel on the Flint scene. This might be something that we propose the legislature consider including as well.

Sincerely,

**Subject:** HB 5128

Hey there! Hope you're doing well!

I saw HB 5128 just got posted for Natural Resources next week. We have Office of Retirement Services (ORS) in DTMB and they have been tracking this bill. They have some suggestions we would like to share if Rep. Rendon is open to them. None of them would drastically change the scope of the bill, but would rather ensure it doesn't have any unintended consequences.

- If the intent is to hire more firefighters, we would recommend making that more clear in sub (7). There are many positions that could conceivably fall under "wildland fire management services" other than firefighters.
- We also would recommend a 2-year sunset on the bill. This will help dissuade DNR employees from retiring earlier than they otherwise would have in an attempt to receive both a pension and compensation.
- Finally, we would suggest a requirement for DNR to report retirants they are re-hiring to ORS so they can make the necessary adjustments. Similar language is found in the SERS Act - 1943 PA 240, section 68c(3)(d). It reads: "The department of corrections reports the employment of a retirant under this subsection within 30 days of employment of the retirant to the state budget office and the department of technology, management, and budget. The report must include the name of the retirant, the capacity in which the retirant is employed, and the total compensation paid to the retirant."

Would you be willing to discuss these modest changes with Rep. Rendon? Of course we'd be glad to come in and discuss them in person if that would be more helpful.

Thanks!

Sweeney

**Cc:** Vanden Bosch, Kerrie (DTMB)  
**Subject:** RE: HB 5128

Matt,

A couple of points:

We do think a sunset for this type of legislation is important. In the near term, having this provision may not incentivize anyone to leave early. 2 or 3 or 5 years from now, if there has been a need to tap into retirees every year, people may begin to change their behavior, because they know they have an option in retirement. The sunset allows the department and the legislature to revisit the situation, and determine if a more permanent fix (bringing in more staff, for example) is appropriate. We would recommend a sunset, but would be open to having a longer window (3-5 years).

As far as the positions, we would recommend that the wording be amended to explicitly include what positions should be covered, if "firefighter" is too narrow. The current definition in the draft is overly broad.

Here is the wording that we would recommend for reporting. It is similar to the language used in similar legislation for Corrections:

The department of natural resources reports the employment of a retirant under this subsection within 30 days of employment of the retirant to the state budget office and the department of technology, management, and budget. The report must include the name of the retirant, the capacity in which the retirant is employed, and the total compensation paid to the retirant.

Dear Kerrie:

Below you will find recent ORS successes/accomplishments you may wish to consider discussing during your upcoming meeting with Brom Stibitz or during other DTMB meetings.

I will send you similar information on a monthly basis approximately one week prior to your scheduled meeting with Brom.

Sincerely,

Fred Doll  
284-4611

**Three Items:**

**1. Looking forward with the Compass**

The Compass, a new SharePoint intranet for ORS, was officially launched Tuesday, January 12. It is a tool staff will come to rely on throughout the work day. It includes a daily newsfeed and other tools that will replace the internal staff newsletter called the *LookOut*, the Knowledge Library, and other resources. The *LookOut* has run for 18 years and shared our stories and documented our adventures. The last edition was January 8, 2016.

**2. Say Hello to Your Match Campaign Success**

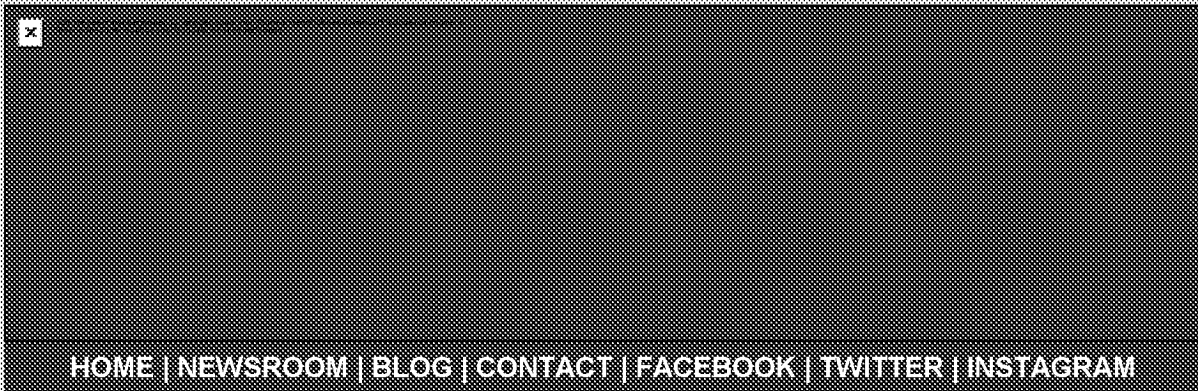

ORS and Voya launched the Say Hello to Your Match campaign in November for the second consecutive year. Thanks to the campaign, 6,151 State of Michigan 401(k) and 457 Plan participants who weren't contributing enough to receive their full employer match will be receiving more money toward their retirement savings from their employers! A total of 6,251 state and public school employees, judges, state police, and Education Achievement Authority (EAA) employees were included in the campaign.

The campaign increased their contribution rate by 1 percent, or up to the maximum matching contribution rate, whichever is less. Participants were given the chance to opt out of the contribution rate increase. Only 100 participants chose to opt out of the contribution rate increase. As of January 6, 2016, about 93 percent of all of our participants who are eligible for an employer match are contributing enough to receive their full employer match. Historically around 10 percent don't take action to receive the full amount of employer money available to them.

**3. ORS Community Involvement:** Here is a small sample of ORS employees volunteering to help throughout our and other communities.

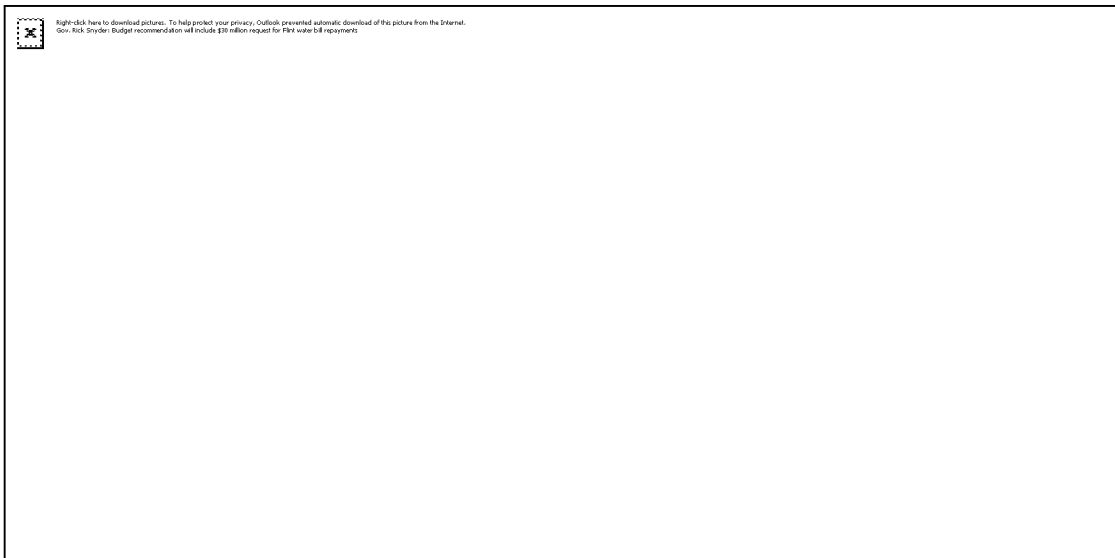

- a. **ORS extends help during holidays.** In addition to the annual Angel Tree, Greater Lansing Food Bank, and Harvest Gathering events, ORS staff also contributed to Get Fit's 3rd annual clothing drive. 27 hats, 13 scarves, and 4 snow pants were donated to a local shelter through the clothing drive. Over 150 gifts were donated to local children through the Angel Tree and ORS donated over \$695 to Michigan food banks through the Harvest Gathering.
- b. **Get Fit presents check to Sparrow.** ORS staff raised money for the Sparrow Breast Cancer Clinic during October's Pink Fest through donations and raffles. The Sparrow Foundation requested the presence of the Get Fit team for a formal presentation of the check. Three ORS staff members were on hand to present a check for \$343.
- c. **Flint water drive.** ORS donated a total of 31 cases of water and 23 gallons of water to Flint residents. Community Connection, an internal community involvement group, partnered with a local group that delivers water to Flint.

[HOME](#) | [NEWSROOM](#) | [BLOG](#) | [CONTACT](#) | [FACEBOOK](#) | [TWITTER](#) | [INSTAGRAM](#)

## Budget recommendation will include \$30 million request for Flint water bill repayments

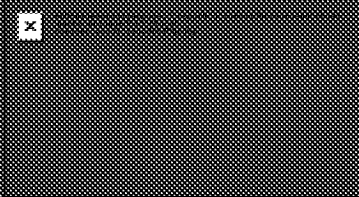

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). **Click here to watch the video.**

**Subject:** Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

### Click a tweet to tweet it out:

The #MiBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> [www.mi.gov/MiBudget](http://www.mi.gov/MiBudget)

--> @OneToughNerd's #MiBudget includes \$72 million a year for Detroit Public Schools. It is time to act now --> [www.mi.gov/MiBudget](http://www.mi.gov/MiBudget)

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MiBudget [www.mi.gov/MiBudget](http://www.mi.gov/MiBudget)

**Subject:** NEW DEADLINE - Time Sensitive Request

Senior Management Team,

We just received the search terms for the document production. (See below.)  
Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire  
Legionella  
“boil water order” & “Flint” (anywhere in document)  
“coli” & Flint (anywhere in document)  
“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi  
“Genesee County Health Department”  
“Flint” (within sentence) “utilities”  
“Lead and Copper Rule”  
“Detroit Water and Sewerage Department” & “Flint” (anywhere in document)  
“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

Please call me or Jean if you have any questions.

Brom

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire  
Legionella  
“boil water order” & “Flint” (anywhere in document)  
“coli” & Flint (anywhere in document)  
“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi  
“Genesee County Health Department”  
“Flint” (within sentence) “utilities”  
“Lead and Copper Rule”  
“Detroit Water and Sewerage Department” &  
“Flint” (anywhere in document)  
“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

Please call me or Jean if you have any questions.

Brom

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

**Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area.** Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Mike O,

The applications(s) for ORS are as follows; After some conversation we expanded the list some.

The following need to have Clarity running for the application to be functional.

ESS  
FileNet  
NICE  
Siebel

The following are standalone applications;

MiAccount  
Indexing Application  
Issue Tracker  
Scanning application  
Work Force manager

ORS was given the following key words and asked if our data would contain any of these;

Legionnaire  
Legionella  
“boil water order” & “Flint” (anywhere in document)

“coli” & Flint (anywhere in document)  
“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi

**From:** Tober, Kathryn (DHHS)  
**Sent:** Tuesday, February 16, 2016 3:33 PM  
**To:** Donovan, John (DTMB);Vanden Bosch, Kerrie (DTMB)  
**Subject:** today's Detroit News...

*Lansing* – Gov. Rick Snyder said Tuesday that his review of the Flint water crisis includes a look at the Department of Health and Human Services, where officials failed to alert the public when they first learned about an outbreak of deadly Legionnaires’ disease.

As The Detroit News first reported Friday, a Michigan health official delayed public notification by issuing a June report declaring the outbreak “over,” an assertion Genesee County health officials fought. Four more people would die in the summer and fall.

The Legionella bacteria has sickened 87 people between May 2014 and November 2015, killing nine overall. A Snyder task force has warned Flint area hospitals to do more disinfection work to ensure against another outbreak in the spring.

“There are challenges in that agency also, and that is something we are making a review of,” Snyder told reporters after an unrelated event Tuesday in downtown Lansing.

Most of the initial attention was focused on Flint’s lead-contaminated water that resulted from the city’s switch to the Flint River as a drinking water source in April 2014. The water wasn’t treated with corrosion control chemicals and caused leaching of the toxic metal from lead water service lines into the drinking water.

From February 2015 to June, state Department of Environmental Quality officials fought off a federal water quality expert’s warnings about lead exposure. The U.S. Environmental Protection Agency Region 5 administrator called the employee’s warnings “premature.” Lead exposure wasn’t acknowledged by the state until early October and a state emergency was declared Jan. 5.

Snyder announced the Legionnaires’ outbreak during a Jan. 13 press conference, saying he was not apprised of the situation until two days prior. The respiratory disease is caused in warmer months by a bacteria in warm, fresh water that leads to a severe form of pneumonia and can be found in large plumbing systems, hot tubs and air-conditioning units.

Michigan turned down help from the EPA and the Centers for Disease Control and Prevention, according to a Detroit News analysis of more than 24,000 pages of emails released by the Snyder administration and Genesee County. State agency officials also tried to steer Genesee County health officials away from examining the municipal water system as a potential source of the Legionella bacteria.

Janet Stout, a national expert on Legionnaires’, told The Detroit News that quick state action to involve federal agencies and inform the public might have shortened the outbreak in the Flint area and saved lives.

The state’s handling of the crisis contrasts markedly with how New York state officials dealt with a Legionnaires’ outbreak last summer in the Bronx, said Stout, a research associate professor with the University of Pittsburgh who assisted with both outbreaks. The Bronx spate included 133 cases, resulting in six deaths over about a month.

The governor has acknowledged faults by the Department of Environmental Quality, which failed to ensure that proper corrosion controls were added to drinking water when Flint began using river water in April of 2014.

Asked Tuesday if there was a lack of adequate oversight by himself or cabinet members, Snyder noted that there have been changes in his administration as a result of the Flint crisis “in terms of what I was being told.”

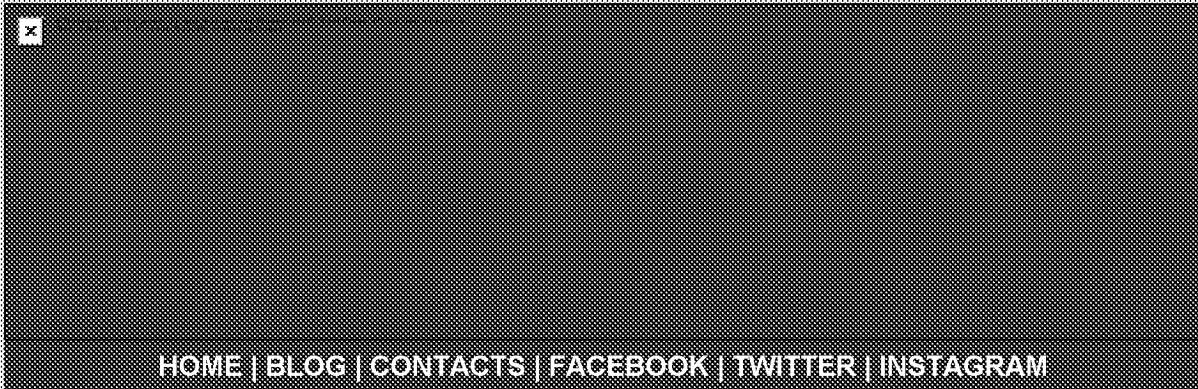

DEQ Director Dan Wyant and his spokesman resigned in late December. Liane Shekter Smith, head of the department’s office of drinking water, was fired earlier this month, and another regulator remains suspended pending internal investigation.

Snyder, who has linked the Flint water crisis to failures at all levels of government, said Tuesday that the federal Environmental Protection Agency deserves further scrutiny as well. The U.S. House Oversight and Government Reform Committee plans a future hearing where Snyder and EPA Administrator Gina McCarthy have been invited to testify.

“They failed to do a lot of things in this process,” said Snyder, who has said he wants to testify before Congress. “I’m not going to spend time on their issue. I think that will come out as time passes in terms of not identifying the issue, not bringing it to either the state’s attention or other people in the federal government’s attention.”

“They still haven’t fully acknowledged all their issues. We’ll move forward with our piece of it, and I expect hopefully people are still asking good tough questions of the federal government. They should be asking.”

## VIDEO: How volunteers are helping Flint

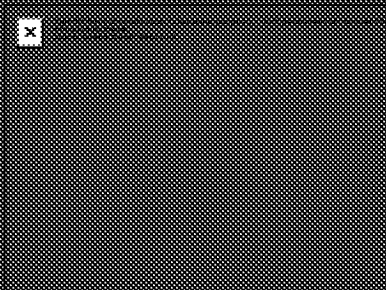

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

**Subject:** The Gov. Snyder's Budget Proposal

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of

\$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at [behend@michigan.gov](mailto:behend@michigan.gov).

Thank you again for all the good work you do. I hope you have a great week ahead.

David

**Subject:** The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.

- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.

Happy New Year, Management Team!

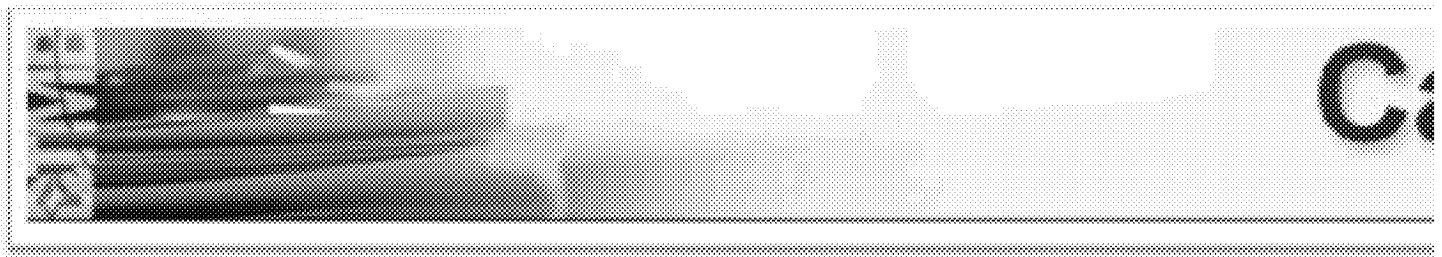

Below is the first edition of a capitol update we plan to share with you on a bi-weekly basis. Knowing how busy you are, we hope these emails will be a convenient way to stay up to date on issues being discussed in the capitol related to DTMB and our customers.

Please note that while articles may be shortened for the sake of brevity, the content will not be altered, so it may contain opinions or quotes that DTMB does not necessarily endorse.

We're sending this initial update to the management team. Should there be anyone on your own team you think would benefit from being on the mailing list, please just respond with their email address. Suggestions or questions are welcomed as well.

Have a great weekend,

Matt

## State's Servers Vulnerable, According To Audit

MIRS, 12/17/15

The security settings on 94 percent of State of Michigan's computer servers, the data warehouses for the state records, were not properly set, according to audit released today. The audit specifically examined a series of issues related the UNIX servers, some of which contained systems that Auditor General Doug A. RINGLER's office dubbed "critical to state government operations" and "life threatening" to citizens if they were unavailable.

The audit included a review of the security configurations of 63 servers. Of those, 59 - or 94 percent - were found to have vulnerable security configurations.

The state's Department of Technology, Management and Budget was also cited for not fully establishing and implementing effective procedures to detect and remediate security vulnerabilities.

Of the servers reviewed by auditors, 47 percent had not had a vulnerability scan in over a month. When vulnerability scans were conducted at the request of auditors, the average number of "high risk exposures" for state servers was 77. One server had 420 security incidents auditors labeled "high risk."

Other findings of the audit included:

- Failure to apply operating system patches for servers in a timely fashion;
- Need to establish a strategy to ensure only supported UNIX operating system versions are installed on servers containing state applications. Unsupported versions were operational on approximately 30 of the state's UNIX servers;
- The state did not establish and implement proper controls over who could access UNIX operating systems;
- DTMB failed to fully establish a segregation of duties over the administration of the state's UNIX servers. The DTMB Agency Services Division had too much control over key processes, which increased the risk that controls designed to secure the state's information systems could be circumvented;
- DTMB didn't maintain accurate records of UNIX server information, which is necessary to maintain server security and to ensure the ready availability of information for critical business decisions.

---

## Audit: Guns, Propane Tank Stored With State's IT Servers

MIRS, 12/18/15

---

---

For the second day in a row, the security and stability of the state's information technology systems have come under scrutiny from an audit.

Today, the Office of the Auditor General (OAG) released an unflattering look at the physical conditions of the places that contain the state's data systems. The auditors found loose restrictions in who had control to these places. They also flagged fire and water hazards with these rooms.

The findings from today's audit and one released Thursday were enough for the state to acknowledge that they "underscore the need for constant vigilance and improvement in the arena of cybersecurity," said Caleb BUHS, spokesperson for the Michigan Department of Technology, Management and Budget (DTMB).

The state keeps its computer servers and network equipment in various switch rooms and telecommunication rooms across the state. The OAG found that DTMB didn't implement controls to limit physical access to these places.

For instance, the OAG found former employees still had access to the state's hosting centers and switch rooms.

The OAG also scoped out the environmental conditions of these places and found they weren't being kept tidy, which has safety implications.

The auditors found some of these places weren't "reasonably free from dust, food and beverages," and even included pictures to show for it.

In some of these places, the auditors found everything from a propane tank to guns and holiday decorations.

On Thursday, the OAG released an audit critical of the security controls set on the state's servers.

Buhs said many of the concerns found in the audits were known potential vulnerabilities, with solutions that are in various stages of implementation.

Gov. Rick SNYDER has always talked up improving cybersecurity as a top priority for his administration, and Buhs said, "We have made strong gains in shoring up our IT resources during the Snyder administration and will continue to adjust our actions and plans as the technology world continues to evolve."

Buhs said one area of improvement the state is working on is a single sign-on system for state employees that will tighten access controls, known as MiLogin.

## Michigan to Clamp Down on Privatized Prison Deals

Detroit Free Press, 1/7/16

The Michigan Department of Corrections, which was at the center of a recent controversy over problems with its former prison food contractor, is setting up a 30-person unit to monitor the department's private contracts for the supply of food, medical treatment and other services.

---

---

Though privatization is on the rise in state government, officials say the corrections department is the first state department to set up such a unit.

Critics say the full cost of contract monitoring, highlighted by MDOC's new 30-person unit, does not always get factored in when the state opts to replace state employees with private contractors in a bid to save money.

Department Director Heidi Washington told a House appropriations subcommittee on Oct. 29 that the department has contracted out a number of services in addition to the highly publicized food services contract, which was initially awarded to Philadelphia-based Aramark Correctional Services but after much controversy switched to Trinity Services Group of Florida. Those include certain health services, mental health services and pharmaceuticals, she said.

"We need to better coordinate our monitoring efforts" across all contracts, with uniform standards and training for staff who do the monitoring, Washington said. "We have some significant relationships with vendors."

All told, the department spent about \$250 million last year on about 185 service contracts, including about 70 substance abuse contracts, more than a dozen sex offender related contracts and about a dozen prisoner re-entry contracts with community service agencies, spokesman Chris Gautz said.

## Snyder Appoints Hollins To Oversee Flint Water Efforts

Gongwer, 12/17/15

Governor Rick Snyder, in response to preliminary recommendations from the Flint Water Advisory Task Force, appointed Harvey Hollins, the director of his Office of Urban Initiatives, to oversee efforts to resolve the water issues in the city.

"Harvey is well-versed in the issues and the challenges faced by our cities and will be effective in this role," Mr. Snyder said.

He said his administration would also work on an Internet dashboard to display progress made on the water issue.

The task force is still working on its final recommendations, but members said they issued the preliminary recommendations - in a letter dated December 7 but released Thursday - to get some of the changes in place more quickly.

"We felt it was imperative to make these initial recommendations to help address the water crisis in Flint instead of waiting until our final report is submitted," Task Force Co-Chair Chris Kolb said. "We appreciate the prompt acceptance of our request for action by the governor and see it as a step forward."

Co-Chair Ken Sikkema also said the initial review presented "a distributing situation."

---

"While the Task Force is far from done with our work, the initial review has presented a very disturbing situation that will require many actions to help those that have suffered," Mr. Sikkema said. "We saw no reason to wait until the final report to make these initial recommendations. We also anticipate that we will made additional recommendations prior to the final report."

Task force members said the departments of Environmental Quality and Health and Human Services needed to set goals for the various efforts underway in the city as well as contingency plans if those goals are not being met.

The task force called for a single person or entity to coordinate the efforts.

## DPS debt payments mount to unsustainable levels

Detroit News, 1/4/16

The debt payments of Detroit Public Schools — already the highest of any school district in Michigan — are set to balloon in February to an amount nearly equal to the school district's payroll and benefits as the city school system teeters on the edge of insolvency.

Detroit Public Schools has to begin making monthly \$26 million payments starting in less than a month to chip away at the \$121 million borrowed this school year for cash flow purposes and \$139.8 million for operating debts incurred in prior years. The city school system's total debt payments are 74 percent higher from last school year.

The debt costs continue to mount while Gov. Rick Snyder and the Legislature remain at odds over how to rescue Michigan's largest school district. A bankruptcy of the district could leave state taxpayers on the hook for at least \$1.5 billion in DPS debt.

The school district's payroll and health care benefits are projected to cost \$26.8 million in February — meaning the debt payments will be 97 percent of payroll. General fund operating debt payments that exceed 10 percent of payroll are "a major warning flag," municipal bond analyst Matt Fabian said.

"That's extremely high," said Fabian, managing director of Municipal Market Advisors in Concord, Massachusetts, who also followed the city of Detroit's bankruptcy case. "That's no longer, really, a normal school district. The school district has turned into a debt-servicing entity. It's making its own mission impossible."

As a result, the Detroit district won't have enough cash to pay any bills in four months.

**Sent:** Thursday, January 28, 2016 7:09 PM  
**To:** Stoddard, Phil (DTMB)  
**Subject:** RE: So any chance you watched the Flint Townhall last night?

I guess I'm not surprised at how much the Flint issue is being politicized, but I don't think it's very helpful in terms of getting to the ultimate solution faster or in a less painful manner. State employees got an email earlier this week saying that as a result of Flint the SOM websites are being targeted with many more hacking attempts and they are working hard to thwart these attempts. How does trying to hack the state's websites help anything for the people of Flint? This is really a tough situation in so many ways. I assume you probably have seen the Time magazine article (and cover photo)?

Flint is on a payment plan with MPERS and has been sticking to it. They owe us \$7-8M, so I don't know if the \$16M referenced includes MPERS payments or not, but it's certainly more than just that.

---

**From:** Stoddard, Phil (DTMB)

**To:** Vanden Bosch, Kerrie (DTMB)  
**Subject:** RE: So any chance you watched the Flint Townhall last night?

Large and angry group – sen Stabenow, Jesse Jackson, reporter made a point that the gov. was a no show – One person spoke up and mentioned of 16 million Flint owes the state – I can't remember how much Flint owes MPERS so I am not sure if he was referring to us.

Other noteworthy things: Several credible experts there point out that test can't tell who will be effected and acknowledge the problem is far greater than the confirmed tested positive. Heavy criticism of Emergency Managers law that the voters of MI had voted to outlaw – only to have Gov and republicans reestablish it with minor tweaking, that the state has a 1.2b. rainy day fund, etc.

**To:** Vanden Bosch, Kerrie (DTMB)  
**Subject:** FW: Thank you for your service

Kerrie,

Continuing the conversation on Flint...

I'm guessing you will have conversations at the SMT meetings on why the Flint crises happened and why employees need to have more "common sense" and "make good judgments."

I think we could have a very healthy conversation about this in an EPC meeting.

Two things hit my radar in the last 12 hours:

1. I had a chance to hear the anger and hurt of a DEQ engineer last night. He is not directly associated with the Flint water crisis, but as could be expected, the firestorm reaches everywhere in DEQ. (see clip below)
2. We received a letter from Snyder this morning where he expressly states...  
"I am asking you not to let the situation in Flint negatively impact your motivation to excel every day."  
And then he assigns blame to people who "do not make good decisions, or use good judgment in solving problems."

In know it is too early to diagnose root causes; and I know that some of this communication is political and self-protective.

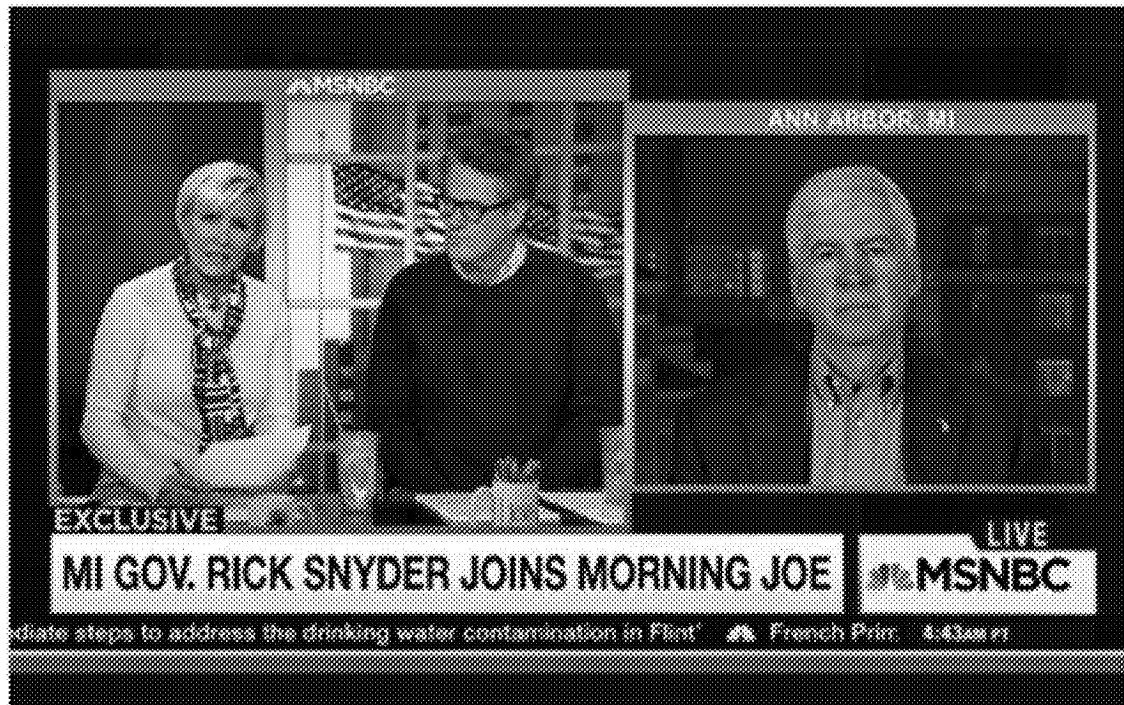

What I hope we can do, if we spend time talking about Flint, is to remember one of our favorite adages: "your world is perfectly organized to get the results you are currently experiencing."

Tim

# Gov. Snyder throws mid-level bureaucrats & "career service people" under the #FlintRiverCrisis bus on MSNBC's Morning Joe

by ElectedBlog on JANUARY 22, 2016 in FLINT, RICK SNYDER

Gov. Rick Snyder appeared on MSNBC's Morning Joe program this morning to throw mid-level bureaucrats in his administration under the bus:

The department people, the heads, were not being given the right information by the quote-unquote experts, and I use that word with great trial and tribulation because they were considered experts in terms of their background, these are career civil servants that had strong science, medical backgrounds in terms of their research. But as a practical matter, when you look at it today and you look at their conclusions, I wouldn't call them experts anymore. [...]

What's so frustrating and makes you so angry about this situation is you have a handful of quote-unquote experts who were career service people that made

State employees make a difference

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems.

our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems.

That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents

have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Sweeney,

We don't feel that the amendment to add a 2 year sunset to dissuade DNR employees from retiring earlier than they otherwise would have in an attempt to receive both a pension and compensation is needed. At \$13 an hour for their assistance during emergency firefighting, I don't think someone is going to jump into retirement. Plus they are only going to be contracted with during those emergency situations if we feel we have inadequate staff. This will be very limited in nature.

We also don't feel that the change from wild fire suppression management to firefighter is helpful. DNR doesn't just have "firefighters" who work on these wildfires. We have fire specialists, fire officers, fire supervisors, regional and state managers, and other forest resources division staff. By limiting it to firefighters, we would not be able to use any of the above employees.

We would be open to looking at some language regarding the reporting of the employment of a retirant under this subsection.

Are you okay with these? DNR would like to propose that the administration support this legislation, just want to make sure that DTMB feels comfortable before I request such a position.

Sincerely,

**Subject:** RE: HB 5128

We worked this bill last summer and are very much in support of it.

- We don't support a 2 year sunset. (recently passed PA 20 of 2015 didn't have a sunset for retired Attorneys, why would we put this for wild fire suppression services?)
- The prior bill (HB 4415'11) had "wild fire suppression services" we would be open to that change instead of firefighter.
- Furthermore, since the bill was worked on, other emergencies have been brought to our attention that we would also like the legislature to consider. There is a need for more trained Incident Management personnel on the Flint scene. This might be something that we propose the legislature consider including as well.

Sincerely,

**Subject:** HB 5128

Hey there! Hope you're doing well!

I saw HB 5128 just got posted for Natural Resources next week. We have Office of Retirement Services (ORS) in DTMB and they have been tracking this bill. They have some suggestions we would like to share if Rep. Rendon is open to them. None of them would drastically change the scope of the bill, but would rather ensure it doesn't have any unintended consequences.

- If the intent is to hire more firefighters, we would recommend making that more clear in sub (7). There are many positions that could conceivably fall under "wildland fire management services" other than firefighters.
- We also would recommend a 2-year sunset on the bill. This will help dissuade DNR employees from retiring earlier than they otherwise would have in an attempt to receive both a pension and compensation.
- Finally, we would suggest a requirement for DNR to report retirants they are re-hiring to ORS so they can make the necessary adjustments. Similar language is found in the SERS Act - 1943 PA 240, section 68c(3)(d). It reads: "The department of corrections reports the employment of a retirant under this subsection within 30 days of employment of the retirant to the state budget office and the department of technology, management, and budget. The report must include the name of the retirant, the capacity in which the retirant is employed, and the total compensation paid to the retirant."

Would you be willing to discuss these modest changes with Rep. Rendon? Of course we'd be glad to come in and discuss them in person if that would be more helpful.

Thanks!

Sweeney

**Subject:** RE: HB 5128

I guess how much do we want to fight?

The nature of this bill implies, to me at least, that an emergency need is something they have encountered in the past. With the impacts of climate change, all of the projections I hear on fire management is that they expect more fires, and more severe fires, going forward. This to me reinforces the need for a sunset.

An alternative to narrowing the wording to firefighter is for the DNR to supply the positions that would be covered.

The reporting piece is essential, so that is probably the thing we want the most.

**Subject:** RE: HB 5128

What if we suggest a longer sunset period -- it would allow the DNR to assess whether they still have that personnel need, and develop a succession plan for meeting it within their active workforce. Ultimately, this is one we could probably roll over on. I don't know that all of the other exceptions have sunset periods.

I like your suggestion of asking them to list the exact positions they need, to ensure that it doesn't "grow" in the future.

Does the existing reporting language we have work, that we could just replicate it for this group?

Yes, that is where I was going. Right now, it may not incentivize anyone to leave early. But 5 years from now, if there has been a need to tap into retirees every year, people may begin to change their behavior, because they know they have an option in retirement.

**Subject:** Successes/Accomplishments for Upcoming Meeting

Dear Kerrie:

Below you will find recent ORS successes/accomplishments you may wish to consider discussing during your upcoming meeting with Brom Stibitz or during other DTMB meetings.

I will send you similar information on a monthly basis approximately one week prior to your scheduled meeting with Brom.

Sincerely,

Fred Doll  
284-4611

**Three Items:**

**1. Looking forward with the Compass**

The Compass, a new SharePoint intranet for ORS, was officially launched Tuesday, January 12. It is a tool staff will come to rely on throughout the work day. It includes a daily newsfeed and other tools that will replace the internal staff newsletter called the *LookOut*, the Knowledge Library, and other resources. The *LookOut* has run for 18 years and shared our stories and documented our adventures. The last edition was January 8, 2016.

**2. Say Hello to Your Match Campaign Success**

ORS and Voya launched the Say Hello to Your Match campaign in November for the second consecutive year. Thanks to the campaign, 6,151 State of Michigan 401(k) and 457 Plan participants who weren't contributing enough to receive their full employer match will be receiving more money toward their retirement savings from their employers! A total of 6,251 state and public school employees, judges, state police, and Education Achievement Authority (EAA) employees were included in the campaign.

The campaign increased their contribution rate by 1 percent, or up to the maximum matching contribution rate, whichever is less. Participants were given the chance to opt out of the contribution rate increase. Only 100 participants chose to opt out of the contribution rate increase. As of January 6,

2016, about 93 percent of all of our participants who are eligible for an employer match are contributing enough to receive their full employer match. Historically around 10 percent don't take action to receive the full amount of employer money available to them.

3. **ORS Community Involvement:** Here is a small sample of ORS employees volunteering to help throughout our and other communities.
  - a. **ORS extends help during holidays.** In addition to the annual Angel Tree, Greater Lansing Food Bank, and Harvest Gathering events, ORS staff also contributed to Get Fit's 3rd annual clothing drive. 27 hats, 13 scarves, and 4 snow pants were donated to a local shelter through the clothing drive. Over 150 gifts were donated to local children through the Angel Tree and ORS donated over \$695 to Michigan food banks through the Harvest Gathering.
  - b. **Get Fit presents check to Sparrow.** ORS staff raised money for the Sparrow Breast Cancer Clinic during October's Pink Fest through donations and raffles. The Sparrow Foundation requested the presence of the Get Fit team for a formal presentation of the check. Three ORS staff members were on hand to present a check for \$343.
  - c. **Flint water drive.** ORS donated a total of 31 cases of water and 23 gallons of water to Flint residents. Community Connection, an internal community involvement group, partnered with a local group that delivers water to Flint.

**Subject:** RE: Time Sensitive Request

And then there were the communications on our Employee volunteer programs drive...but Anthony as Exec Sponsor could produce those. Any thing else?

**Subject:** FW: Time Sensitive Request

FYI. Let's just compile the list now. I believe my response would be that other than any Gongwer or MIRS news articles that may have circulated, the only custodians would be us as EPC members because we had an agenda item in a meeting to discuss what we might be able to learn from this. Do you all agree?

**Subject: NEW DEADLINE - Time Sensitive Request**

Senior Management Team,

We just received the search terms for the document production. (See below.)  
Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16.**

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire  
Legionella  
"boil water order" & "Flint" (anywhere in document)  
"coli" & Flint (anywhere in document)  
"bacteria" & "Flint" (anywhere in document)  
"microb" & "Flint" (anywhere in document)  
"TTHM" & "Flint" (anywhere in document)  
"Lead" & "Flint" (anywhere in document)  
"emergency" & "Flint" (anywhere in document)  
Karegnondi  
"Genesee County Health Department"  
"Flint" (within sentence) "utilities"  
"Lead and Copper Rule"  
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document)  
"DWSD" & "Flint" (anywhere in document)  
"Flint River"  
"Pb" & "water" (anywhere in document)  
"KWA"

Please call me or Jean if you have any questions.

Brom

Hi Jean,

ORS does have other systems, however I do not believe there is a reasonable chance that any of them would contain these search terms.

Thanks,  
Kerrie

On Feb 17, 2016, at 4:25 AM, Ingersoll, Jean (DTMB) <[IngersollJ@michigan.gov](mailto:IngersollJ@michigan.gov)> wrote:

SMT Members:

In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

- 1) review the list and tell me whether the systems listed may contain the search terms (center column);
- 2) notify me if there are DTMB systems that are not listed that may contain the search terms;
- 3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Michigan State Employees banner image

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, <https://www.surveymonkey.com/r/28NVJBL>

To volunteer on Sunday, January 17, <https://www.surveymonkey.com/r/26NMJJK>

To volunteer on Monday, January 18, <https://www.surveymonkey.com/r/26P7P5G>

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

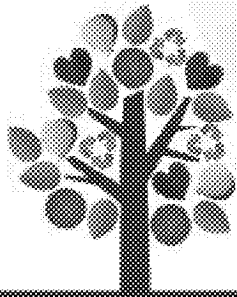

For more information on the state's response efforts, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

# Water Drive for the City of FLINT!

In recent news, there has been a water crisis in the City of Flint and it has been declared a public health emergency, this is damaging to an already cash-strapped city.

Community Connection and local businesses, have partnered together in a relief effort to supply the city with much needed bottles of water.

# **For the week of January 18<sup>th</sup> thru January 22<sup>nd</sup>**

We will be accepting donations of 12 packs, cases, gallons, and 5 gallons of water.

In lieu of a physical donation, you may make a monetary donation too!

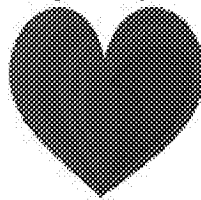

Please bring your donations to the 4<sup>th</sup> floor kitchenette or

Sarah Esquivel, West/Justice Wing, 5W-06

Autumn Hubbard, Constitution Wing, 5S-01

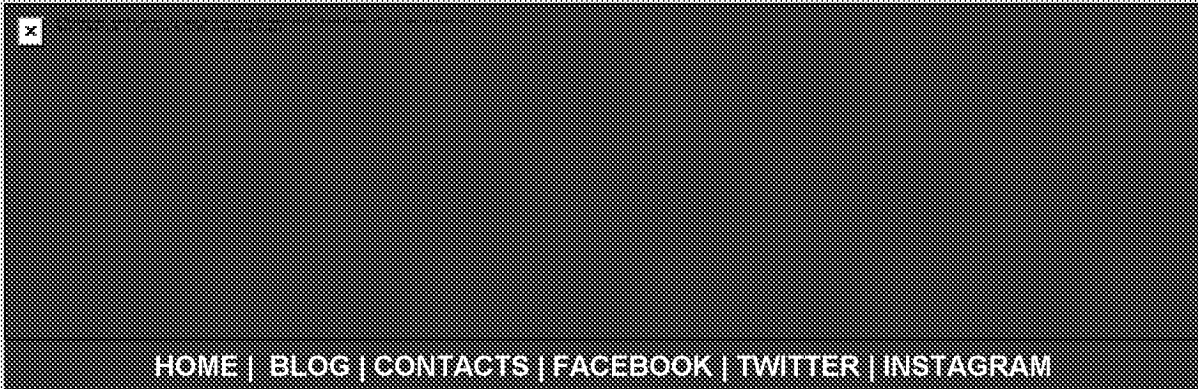

Ambrea Mack, Capital Wing, 4E-03

Brought to you by

## How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

### Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

### Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

---

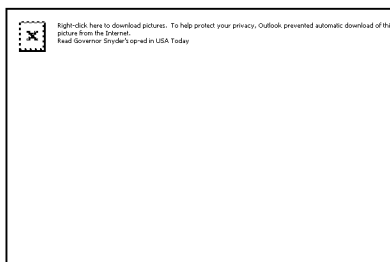

## Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

---

## Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click [here](#) to read the Governor's full op-ed.

---

## Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

**Subject:** Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit [www.helpforflint.com](http://www.helpforflint.com) to learn how you can help.

For additional information and updates, visit [www.michigan.gov/flintwater](http://www.michigan.gov/flintwater).

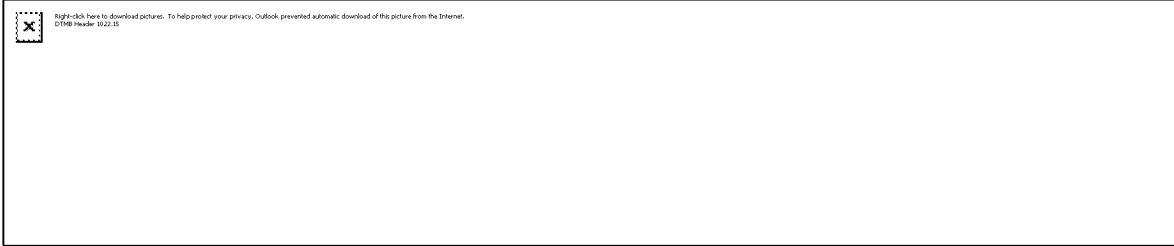

Again, thank you for all your support.

Sincerely, Mike Zimmer  
Office of Good Government Director  
Dept. of Licensing and Regulatory Affairs Director

**From:** Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>  
**Sent:** Tuesday, January 26, 2016 8:39 AM  
**To:** Westfall, Laurie (DTMB)  
**Subject:** Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – [www.helpforflint.com](http://www.helpforflint.com) – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community. Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. [Administrative Policy 200.37](#) establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at [behend@michigan.gov](mailto:behend@michigan.gov).

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

## THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit [www.HelpForFlint.com](http://www.HelpForFlint.com) to learn how you can do so. For additional information and to sign up for daily updates, please visit [www.mi.gov/FlintWater](http://www.mi.gov/FlintWater). I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

**Sent:** Wednesday, February 03, 2016 6:21 PM  
**To:** Westfall, Laurie (DTMB)  
**Subject:** "Flint residents should not have to pay for water they cannot drink"

## Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

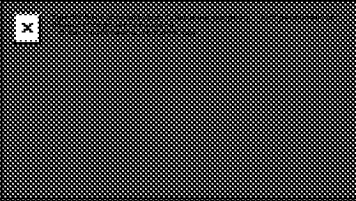

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

 Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.  
[Learn more about the \\$30 million request](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at [www.mi.gov/flintwater](http://www.mi.gov/flintwater). Is anyone keeping Louis Burgess up to date on the actions we are taking to respond to his request? If not, do you want me to do that? I am going on annual leave tomorrow afternoon through next week, so I would need someone else to hand off the task after tomorrow.

-Maria

Folks,

I just received this from a reliable source in the PIO's office that there will be communications from Caleb Buhs office some time tomorrow morning regarding these requests.  
Until then we are to sit tight

Laurie and Glenn,

Dave Head and I attended yesterday's Flint FOIA meeting. Many GMs were there.

I need some technical help with getting all the documents. There is some statewide system that we have to upload all our documents.

Can someone get me some idea what to tell staff on the best way to collect all the emails? What do I tell staff to do in order to send me all the emails? Is there a technical way? I hope something other than sending me all the emails.

## VIDEO: What Governor Snyder's FY17 budget means for Michigan

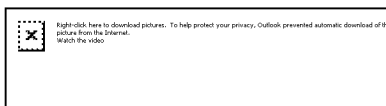

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

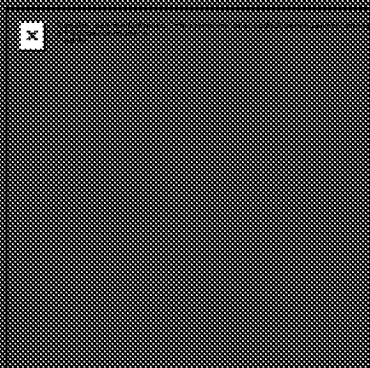

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. [Click here to learn more about the top 6 takeaways from the](#)

## VIDEO: How volunteers are helping Flint

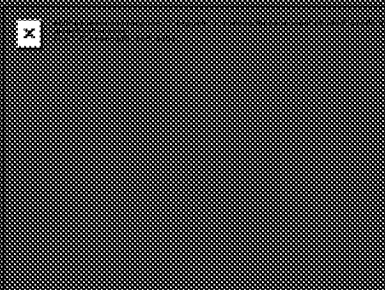

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit [www.fbem.org](http://www.fbem.org).

I agree with Greg on the feasibility of expanding the current shared space for clients, I believe a better option would be to create a FOIA share on a separate SAN and use all 900 GB of storage space, then setup permissions like Design and Delivery does with our H drives. They could then map each users folder to a free network drive location for each user, which would require a new script to be added to Active Directory and an emergency enterprise RFC.

Once this is complete, we can wipe the SAN free and make it available to agencies for regular storage again.

Thank you,

**Subject:** RE: Flint FOIA

Laurie,

Just thinking out loud....

Would love to be proactive on the drive space... However, in order to accomplish that we would need to know every single Shared drive location being used.

"If" we were able to do that (and I am unsure how to pull that off), we could use the list to run reports and see how much space they have left. If they're running short on space, we would have to submit tickets to expand the network drives for the clients. Given OA's current workload on this effort that might be a hard thing to do.

Anyone else have any suggestions?

**Subject:** Flint FOIA

**Importance:** High

This is the most recent and updated communication on the Flint FOIA topic. I'll be in a phone conference at 2-3 today to hear more about this and Mike O will be sitting in on it in Dave's absence. Note the due date is Monday, 2/22/16 (no time to write a hard drive program). Dave – if you're free from 2-3 I'll send you the call in number as well.

Folks – please read the details as we may have to assist our clients with some part of this, i.e. moving documents to a network drive in whatever format the document is currently in.... DTMB will access the network drives after 2/22, to collect the files.

Is there a way to be proactive to ensure that they have enough storage space... Any other questions we should be thinking about?

# FOIA Keyword Search Tips

## Step 1.

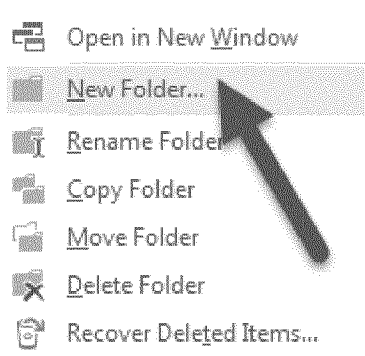

### Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

## Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the “New Folder” icon. Call the new Folder FOIA, and press Enter.

The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

## Step 3. Identifying emails using keyword search

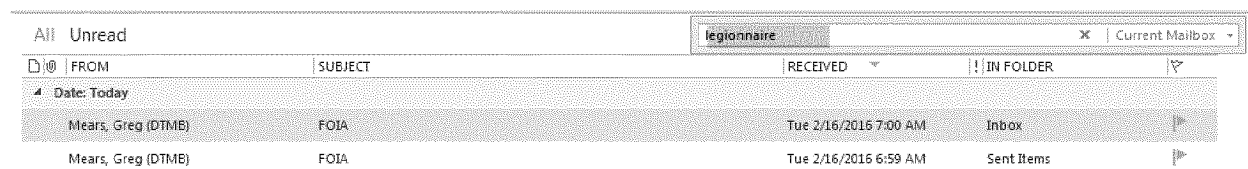

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to “Current mailbox” as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

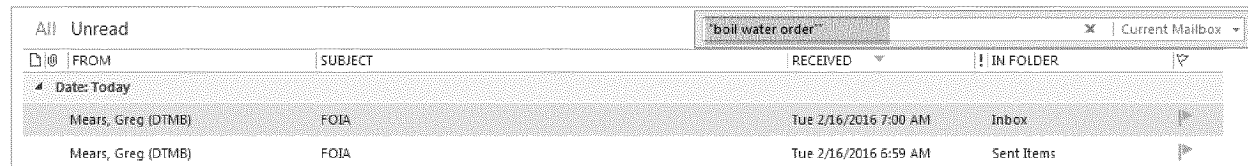

In the examples we're going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.

Let's try another using a search term in “quotes”. By placing an item in quotes it will limit your search to those exact words.

**NOTE:** By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

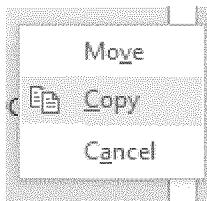

#### Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created “FOIA” folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the “mechanics” of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter “a”. Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select “copy” from the pop up menu (See illustration)

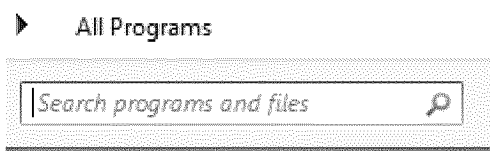

Depending on the amount of messages you’re copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

## **Step 5. Doing a hard drive keyword search for documents and other items**

Conducting a hard drive search is fairly simple. Regardless of what version of Windows you’re using, each of them has a search feature built in called “Windows Explorer”, you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

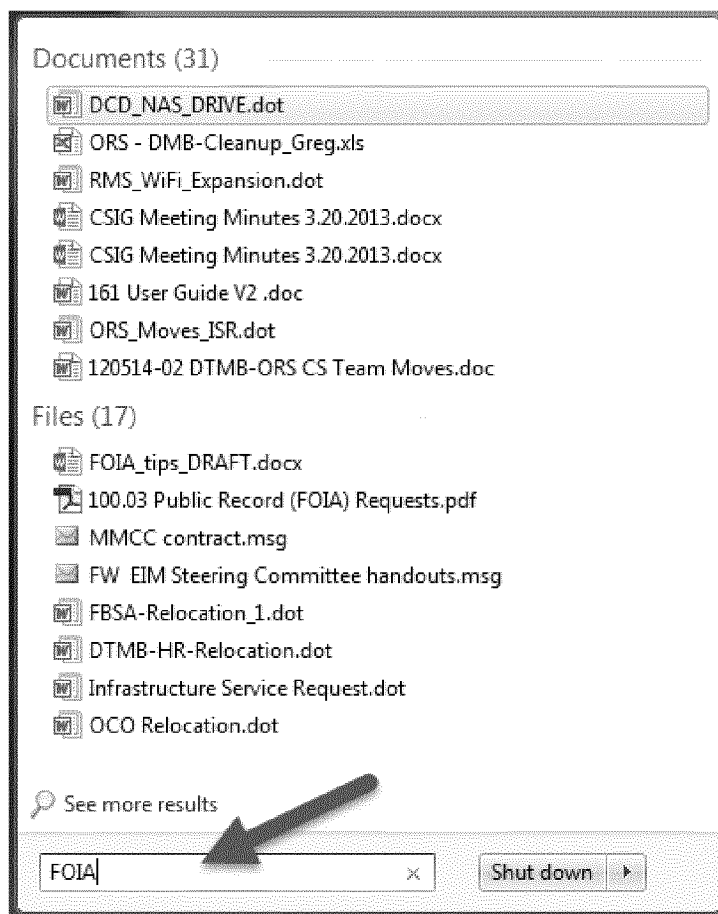

### **Using the search function in windows 7**

Since the majority of DTMB is on Windows 7, the examples I’ll be showing are on that operating system. If you click on windows Start button, you’ll see the search box right next to it

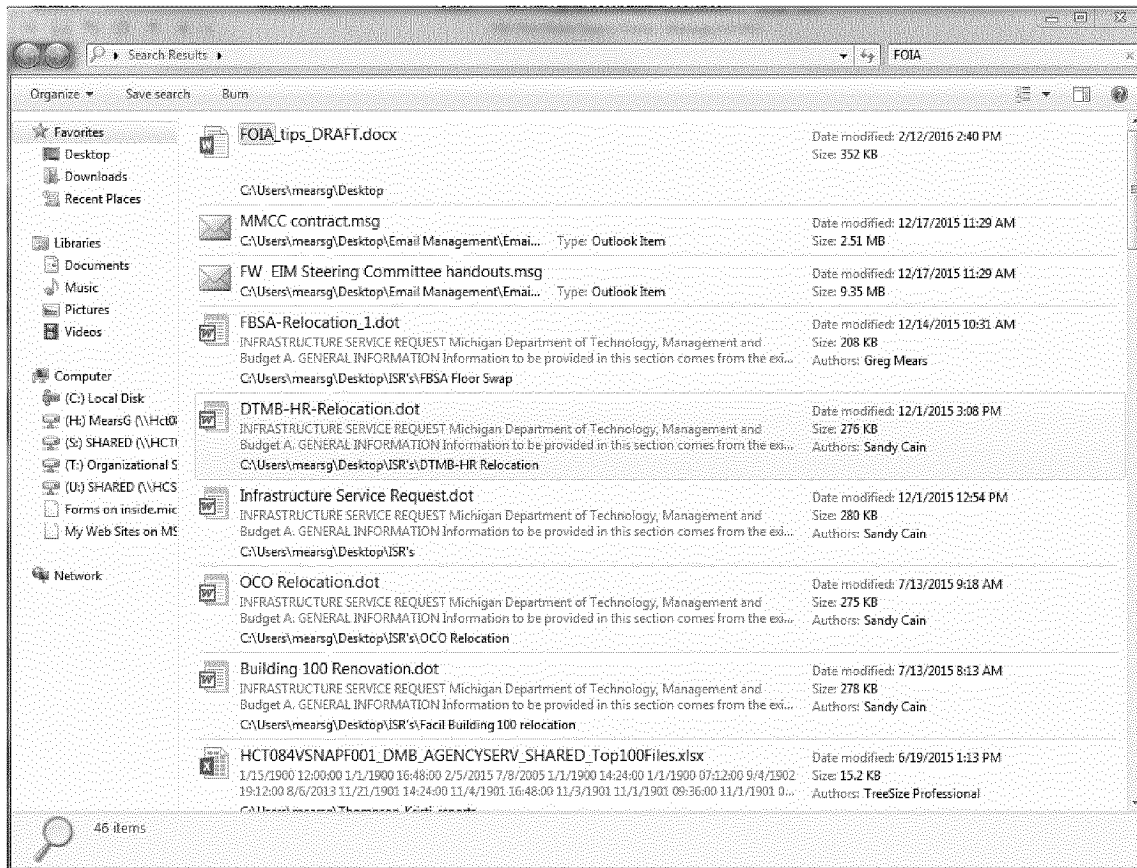

In this example I’m going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I’ve already saved off all of the relevant emails, we’ll focus on just the documents.

This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example my search found 46 items. We can now select them all using the “Ctrl-A method” that we used for the emails, and copy them to our newly created FOIA folder.

## Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

## What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or Client Specialist.

# FOIA Keyword Search Tips

## Step 1.

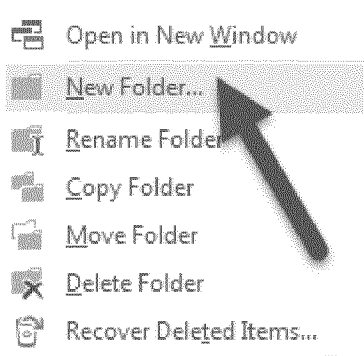

### Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

## Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the “New Folder” icon. Call the new Folder FOIA, and press Enter.

The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

## Step 3. Identifying emails using keyword search

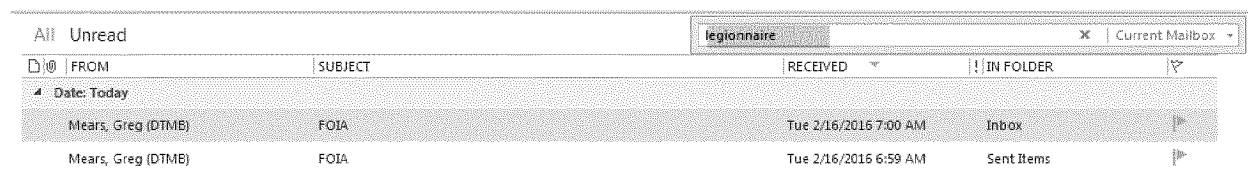

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to “Current mailbox” as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

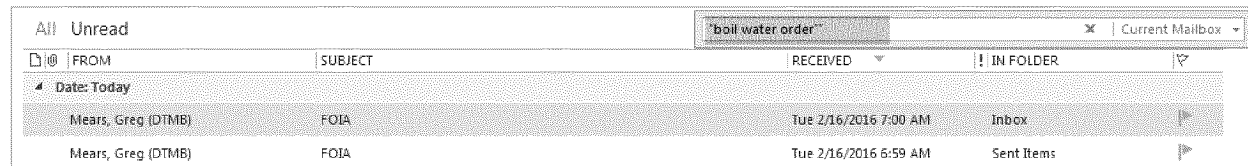

In the examples we are going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.

Let's try another using a search term in “quotes”. By placing an item in quotes it will limit your search to those exact words.

**NOTE:** By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

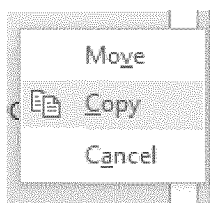

#### Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created “FOIA” folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the “mechanics” of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter “a”. Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select “copy” from the pop up menu (See illustration)

Depending on the amount of messages you’re copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

### **Step 5. Doing a hard drive keyword search for documents and other items**

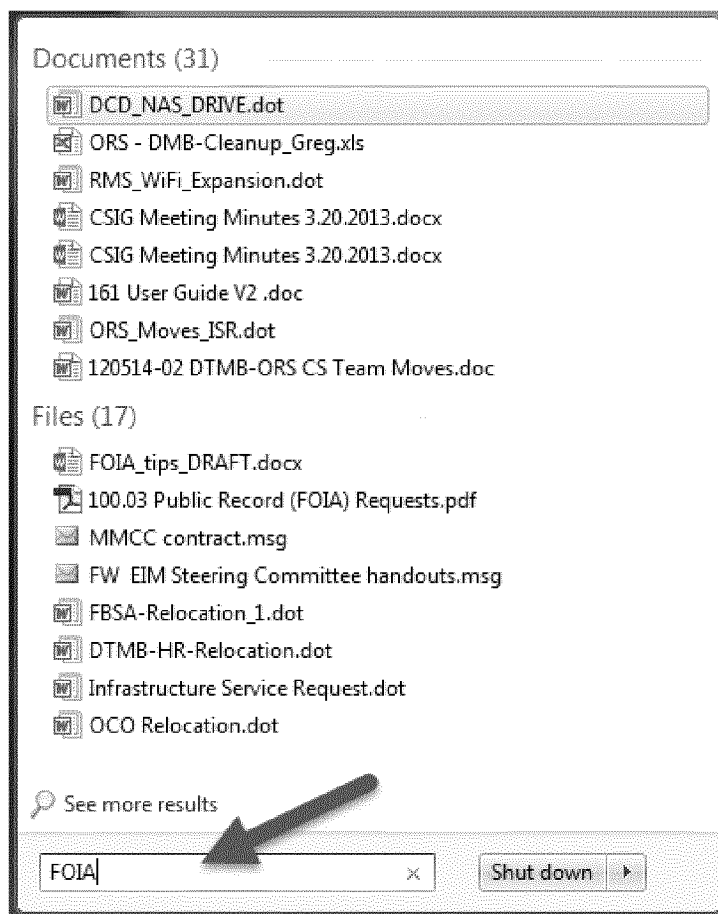

Conducting a hard drive search is fairly simple. Regardless of what version of Windows you’re using, each of them has a search feature built in called “Windows Explorer”, you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

#### **Using the search function in windows 7**

Since the majority of DTMB is on Windows 7, the examples I’ll be showing are on that operating system. If you click on windows Start button, you’ll see the search box right next to it

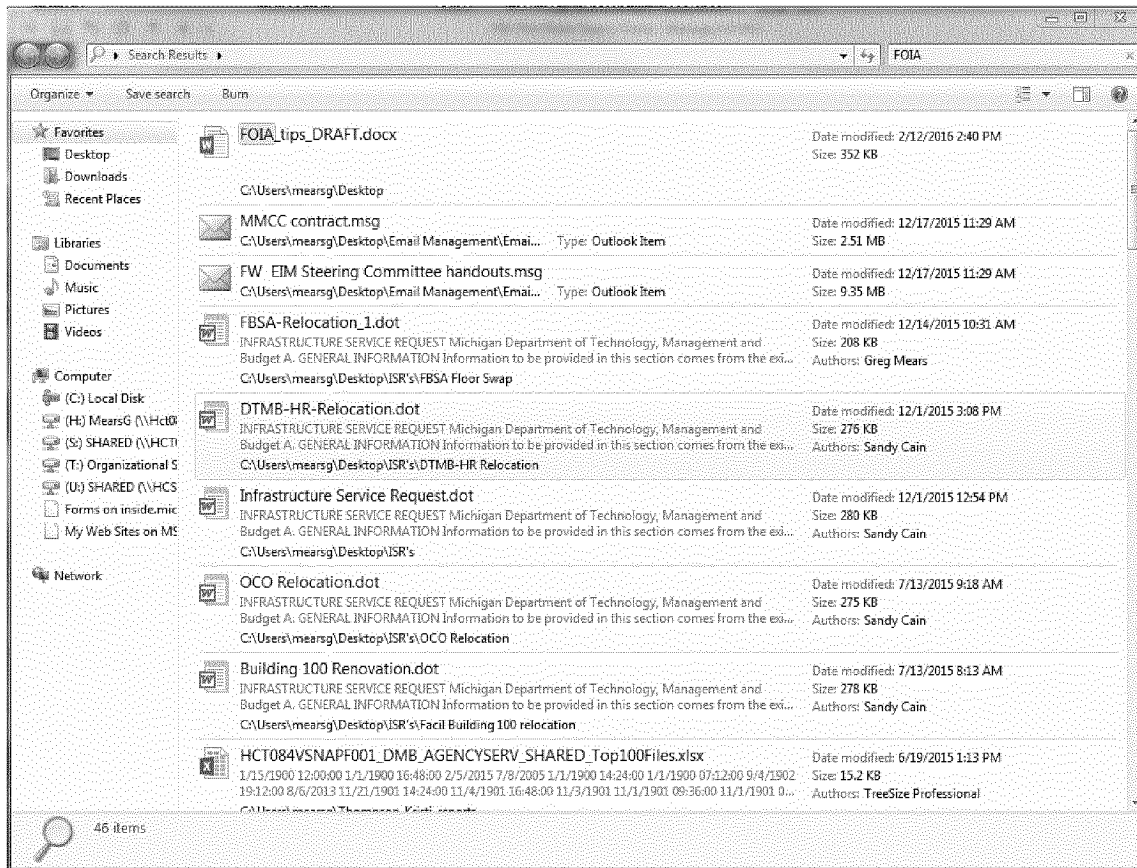

In this example I’m going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I’ve already saved off all of the relevant emails, we’ll focus on just the documents.

This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example my search found 46 items. We can now select them all using the “Ctrl-A method” that we used for the emails, and copy them to our newly created FOIA folder.

## Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

## What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or Client Specialist.

**From:** DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>  
**Sent:** Wednesday, February 17, 2016 10:10 AM  
**To:** Westfall, Laurie (DTMB)  
**Subject:** The Gov. Snyder's Budget Proposal

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.  
DTMB Header 022216

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the \$54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates \$1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of \$1.3 billion for department operations and a one-time allocation of \$32.4 million.

A few highlights include:

- \$502 million for information technology support for all state agencies and \$132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by \$7 million, from \$65 million to \$72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional \$5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of \$6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at [behend@michigan.gov](mailto:behend@michigan.gov).

Thank you again for all the good work you do. I hope you have a great week ahead.

David

**Subject:** RE: Flint Assistance Offers and SEOC

On this same topic, David and I had a conversation with the Governor's office after our post-EMT meeting this morning. They have agreed that as a general rule, before we do work on anything, it must be approved by the SEOC.

Further, they have agreed that if there is something urgent that the Governor or LG's office needs to get done prior to (or in lieu of) the SEOC approving it, these requests should all come in through me. Beth Clement was going to share this message with Gov's office and LG's office staff.

Procurement should have the new form up today for vendors to use as well. We can share that with you once it is working.

**Subject:** Flint Assistance Offers and SEOC

Per our discussion on Monday at the EMT meeting, Chris Christiansen has provided information on where to refer vendors looking to assist Flint and contact information for DTMB-SEOC. Please see below for the details.

- If you are contacted by a vendor that would like to provide donation for the Flint water problem, please direct them to [Flintdonations@michigan.gov](mailto:Flintdonations@michigan.gov)
- If you have any additional questions relating to the Flint issue please direct them to [DTMBECC@michigan.gov](mailto:DTMBECC@michigan.gov)

Thank you,

Chanda

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET  
LANSING

DAVID B. BEHEN  
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership  
FROM: DTMB Procurement  
SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

***Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.***

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

***Emergency Purchasing Procedure:***

Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

Hello everyone -

As discussed in ITOT earlier today, below are the search criteria provided from the Governor's office.

Also, I discussed the skip-level meetings with Chanda (David's admin). She said that he's open to discussing all aspects of your jobs and that you can set the agenda. I believe Kim sent you a template. Feel free to modify as you see fit. Unfortunately, Kim K-W, I think you truly are the guinea pig for the meeting format. Looking forward to hearing how it goes. ;-)

Thanks,  
Jodi

**Subject:** Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon**. Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor's Office will provide the keyword search terms today to the Agencies.
  - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

Jodi,  
Is OA on board for assisting us as needed to set up services such as additional space for their share drives? Each bureau in LARA is creating a FOIA folder in their share drives and will be consolidating their documents. I am anticipating some of those drives will require additional space.

Thanks

All,

Per Procurement, they asked for the attached documentation to be disbursed as wide spread as it possibly can. I am certain you already have it, but want to ensure it is passed on!!

The list of primary state emergency management coordinators with office phone and email is also attached. Names and numbers occasionally change, so proceed accordingly. If you ever need to make an urgent contact, feel free to contact MSP Operations at 517-241-8000 and request contact from the EMHSD Duty Officer, who will be able to send a message using the Everbridge system.

Also,

Ensure your DTMB representatives as well as your supporting Agencies are not using any Procurement templates found at the following site: [http://inside.michigan.gov/dtmb/wr/Forms/Forms/All\\_forms.aspx](http://inside.michigan.gov/dtmb/wr/Forms/Forms/All_forms.aspx). The forms on this site are out dated. Your all should be using this site instead: <http://inside.michigan.gov/Procurement/Pages/Templates-and-Purchasing-Documents.aspx>. We are working on resolving this issue.

Thank you,

**Whitnie Zuker**

Hello Everyone,

I hope all had a great holiday and a great start to the New Year!!

Here are the updates since we last spoke.

- Procurement Notes for 11/25/15, 1/6/16 and 1/20/16 attached (no notes for December). Primarily working sessions for the new Ad Board policies.
- As of today, Chapters 1, 5, 10, 11 have been finalized and are on the [Procurement site](#) for viewing. (Chapter 5 User Guide is still in the process of being finalized)
- Category Team updates attached.
- Procurement Process Improvement for Phase I ITRAC to Contract Recommendations attached. This effort is ongoing and lead by Procurement with input from supporting Agency Reps. = (see the Procurement News pdf for full team members.
  - Phase II Procurement Process Improvement - Concept to ITRAC will be focused on IT. This team kicks off 2/24 and will go till 3/18. I am part of this team along with the following members:
    - Beachnau, Linda (MSHDA); Gallagher, James D. (AG); Kinnamon, Mark (DTMB); Martin, Kathryn (MGCB); McDonald, Vanessa (MSHDA) >; Nordyke, Susan (DTMB); Park, Alex (DTMB); Pemble, William (DTMB); Robel, Kristen E. (TREASURY) ; Spaniolo, Natalie (DTMB) >; Trombly, Dillon (DTMB); Wager, Scott (DTMB)

We have another meeting today, and will provide an update after the notes are received

Thank you,

**Subject:** RE: PLT

Good Evening Everyone,  
 Attached:

- Procurement Notes from 10/14/15 PLT
- Latest version of Chapter 10 that is in the process of being approved
- SOW Interview Questions.

I value your input!! Please let me know what I can do to provide you better information and support.

**NOTES:**

Procurement is still planning on putting new process teams in place and are looking at possibly changing SOW development roles and responsibilities to streamline the procurement process. It has yet to be confirmed when and what will actually change.

In the meantime, as mentioned in our one-on-ones, DTMB Procurement did create a SOW 101 training course to essentially present the attached SOW interview question document. As a reminder, it was developed to assist their Buyers when they are reviewing/finalizing a SOW document. Still, it is a list of questions the initiator of the SOW would ask themselves or the end user to help guide critical thinking about a project to produce such SOW document. Not every question must be asked and it is not an exhaustive list since each project will be different.

This document not IT specific. A group effort is working towards creating it more specific to IT, recreate IT RFP template(s) and create a questionnaire to drive requestors to know what terms they should be utilizing for RFPs. Then, provide IT SOW and Terms training course to those needed.

**It would be very helpful if you could send me questions or suggestions that you find valuable to add to any of the initiatives above. Following this email, I will also be asking your BRM's and others for the same. Please forward them to me by 11/20/15.**

#### CHAPTER 10:

Chapter 10 is a high-level expansion on Contracting. Who has the authority, what type of contracts or alternative methods are utilized to purchase goods or services, when can you use Memorandums, breakdown of a contract, establishing transactions in Main and coding requests correctly with the right Commodity code.

#### OTHER:

- Chapter 5 has yet to be confirmed to be approved. Pending response for when it will be initiated and the forms and processes one must take to use the new policy.
- RFP request that is estimated to be over 5MILL an RFI is recommended.
  - As of now, Procurement is to facilitate this process, but they are reevaluating this role.
- Procurement has indicated that if it is unknown what type of Hosting or Maintenance method is preferred for a new RFP then an RFI should be conducted.
- The last PLT was on 10/14. The next PLT will not be held until 11/25/15.

Hello everyone,

Resulting version of Chapter 5 m attached. It is making its way for final approval.

Please see that the ability to purchase good or service through a local government, university, college, school district, was not added due to legalities.

The PLT has yet to receive the notes from the meeting. Once received I will share.

Thank you,

**Importance:** High

Good Morning!

Attached is an electronic copy of the draft language on competitive solicitations that was provided to the PLT. This is the next chapter to replace the current State AD Board Guide.

This replacement chapter does include the ability for Invitation to Negotiate in Section 5.1.3.3 and a posting exception for direct solicitation in Section 5.1.3.4.

Your feedback is required **no later than September 30, 2015**. Please redline the document and provide justification for any content changes suggested.

Your participation is crucial as it may be a very long time before this policy is modified again with any of our involvement.

Thank you,

**Subject:** RE: PLT

Hello Everyone,

It's great to be back with DTMB Customer Service and I am really excited to take part of this initiative while working with all of you and your designees to improve the procurement process!!

#### **Next Steps**

I will be sending each one of you a meeting notice so I can collect your thoughts of the issues you encounter and what measures you believe we should be focusing on for success.

Before we meet, please send me:

- A list of your staff (State or Contractual) that are specifically responsible for:
  - Drafting documentation for RFI, RFP and CCN
  - Submitting/tracking ITRAC for Services and Commodities.
  - Providing contract compliance management activities
- A resource that may have experience in documenting AS IS and/or TO BE process flows of process improvement initiatives that I may ask some questions and bounce some ideas off of.

## **PLT**

As I have only been to one PLT meeting thus far, I have a lot of catching up to do and awaiting any past decision making documentation, but let me share some key notes from the meeting on 8/19/15 and what I have sent directly to Procurement:

- 8/19/15 Agenda attached.
- DTMB Procurement and Agencies has been participating in the reorganization of state procurement practices announced by the governor in Executive Directive 2015-1. Part of this initiative includes the streamlining and standardization of practices across state agencies through the establishment of the Michigan Procurement Policy Manual (MPPM). This MPPM will replace the current State AD Board Guide.

Attached is the first finalized draft of Chapter 1. Please note that this has not been processed through the DTMB Administrative Guide process. Once that is done, we anticipate it will be in two weeks, the document will be considered complete. Still, **please share draft Chapter 1 attached as more exposure the better.**

NOTE: Purchasing Professionals now include JEC members. See revised Ethical standards and Professional Conduct section 1.4.

- Procurement will not be granted another request for Ad Board resolution to extend contracts passed the expiration date (current resolution 2015-1 attached). Cut of is 9/30/15, so if you are in need of making an ad board resolution request contact Sharon Maynard with me cc'd **no later than 8/25/15**
- Procurement is working with SIGMA right now developing the draft change notice with a target date for release next week. I have asked Procurement if this is mandatory and informed them that we were charged to engage with the vendor for sigma interfaces/conversion work ASAP. I have asked if more was needed in a SOW/vendor proposal then the list of criteria I sent.
- Procurement has been in the process to form a pre-qualification program offering consulting services on a fast-track, as-needed basis for Business Process Review (BPR)/Lean Process Improvement (LPI). It was intended to be executed June 22, 2015, but now expected by the end of next week. You may view the RFP at <https://www.buy4michigan.com/bsa/external/bidDetail.sdo?docId=007115B0005004&external=true&parentUrl=bid>
- Initial direct recommendations:
  - A dashboard showing per Procurement division the time it takes to get requests through the process. Right now there is a general monthly Procurement Operational Metrics on the Procurement website. It only really breakdowns % of time Buyer is assigned in iTRAC within 3-day time Period but does not provide any other data for how long the requests are in the procurement process.
  - Have a dashboard for DTMB FS for PO under contract/PO not under contract requests
  - Update the current Procurement SLA to ensure that it can realistically meet the ongoing needs of the agency
  - Process for issue resolution of contractual matters before putting a vendor complaint in MAIN since contractual issues are not submitted or tracked in a central location.

<Procurement Leadership Team Members 2015-07.pdf>

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET  
LANSING

DAVID B. BEHEN  
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership  
FROM: DTMB Procurement  
SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

***Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.***

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

***Emergency Purchasing Procedure:***

Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- o Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- o Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.

- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon**. Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor's Office will provide the keyword search terms today to the Agencies.
  - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

Tiziana Galeazzi

Louis & David -- sharing a communication I just received on this topic within DTMB. Please give me a call to see how we might be able to help you after you get the keyword search terms and/or other criteria from the Governor's office which I believe, according to this email, will be sent out to agency representatives today.

I understand that this information is due by the end of this month to the Governor's legal team.

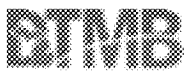

We would like to set up a meeting, ideally on Tuesday, 2/16/16 with you and your team to discuss how we may assist you. Not being totally familiar with your regular FOIA process, we would want to understand how large your data needs are for this particular search/consolidation, i.e. how many people will be involved with FOIA searches, anticipated amount of data overall, potential need for additional space for share drives, etc. Also did you receive instructions that you could share with regards to the format of how the Governor's legal team wants to receive the data (e.g. PDF or other electronic file for the electronic portion) so that we can assist in consolidating all of the pertinent files.

Also, due to the short amount of time involved, we are volunteering our pool of Clients Specialists to assist MDE if you need help in individual areas with the searches and saving of the files. Let us know what you needs and we'll try to accommodate. Debbie Roeske and Christine Fisk will be primary contacts but if needed and available, we have a couple of DTMB Client Specialists that can assist them as well depending on my DTMB FOIA needs.

Debbie is going to reach out to either of you today and attempt to get this initial meeting on the calendar for Tuesday.

Feel free to contact me on my cell (listed below) if you need to discuss anything today. Thank you.

Laurie Westfall  
General Manager  
DTMB, MCSC, MDE and CEPI

**Subject:** FOIA Project Updates to General Managers

**Importance:** High

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - If the agency needs assistance from OA (i.e. due to a large quantity of email/documents or a large group of people) please forward that request to Jodi Simon. Also, please let the agency know that requests

will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).

- \* The Governor's Office will provide the keyword search terms today to the Agencies.

- o The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

Tiziana Galeazzi

That's fine. I appreciate it. I really didn't get a chance to talk to the MDE clients. I don't want to assume that they don't have a process and therefore, figured we take and offer on Tuesday and they can decide if it will help; particularly as they do get a lot of significant FOIA requests on other topics and have a process as I understand it.

Either way, it could be helpful to use if DTMB client needs come up. I was also proactive and brought Susan Wilmore up-to-date on this FOIA activity and offered our assistance if she needs it. She appreciated the heads up as Matt's mother-in-law had recently passed and he's been out and she knew nothing about the requests and upcoming deadline.

**Subject:** Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees

should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

**FOR IMMEDIATE RELEASE**  
Friday, Feb. 12, 2016

## **Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis**

LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents."

"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."

**NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.**

### **LEGAL NOTICE**

- The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
- Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
- The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external party.

**Subject:** Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may

wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

**Subject:** FOIA process

**Importance:** High

Gary – I left you a voice today after being given your name as the DTMB FOIA expert. I’m reaching out just to determine if there is a set process/format/policy (i.e. email saved to a PDF format, other...) for sending FOIA files to the AG’s e-discovery or other designated system based on the recent request for Flint Water FOIA information to be completed by all agencies by the end of February and sent to a centralized location. I realize that different folks have been assigned roles to handle this issue, but thought I’d reach out and to learn anything about the normal processes and expectations from you.

I serve as DTMB, MCSC, MDE & CEPI’s General Manager (handle IT oversight for these areas) and wanted to introduce myself if you ever need assistance as well.

Look forward to hearing from you and have a nice long holiday weekend.

**Attachments:** FOIA Project Updates to General Managers

Mike – I left you a voice mail late this afternoon just to reach out to you and give you a heads up on a large FOIA request concerning the Flint Water issue.

I'm sharing a communication I just received on this topic within DTMB along with a copy of the search criteria distributed from the Governor's office late today to the agencies (Kurt Weiss was copied for SBO). I understand that this information is due by the end of this month to the Governor's legal team. Not sure if it will impact your area, but wanted to make you aware due to the short timeframe to gather this information.

If you need assistance, let us know and we'll see what we can do. Hope you have a great, long holiday weekend.

**Subject:** FOIA Project Updates to General Managers  
  
**Importance:** High

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon**. Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor's Office will provide the keyword search terms today to the Agencies.
  - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

**Follow Up Flag:** Follow up  
**Flag Status:** Completed

All

Please note below the email below with additional information and guidelines that were provided from the Gov office to the Agencies today.

**Key points:**

- The agencies are being asked to conduct their own searches: please let Jodi know if any agencies request assistance from DTMB/OA or if any other questions arise regarding what OA is able to assist them with.
- Due date for the agencies to notify the Gov office of when their searches will be completed is Tuesday
- DTMB is currently working to identify the custodians for our own searches - more information will be available on Tuesday.

Thank you for your time, please call with any questions. Have a great weekend.

**Subject:** Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. **Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines.** Thank you again for all your assistance and efforts.

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon**. Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor's Office will provide the keyword search terms today to the Agencies.
  - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

All

Please note below the email below with additional information and guidelines that were provided from the Gov office to the Agencies today.

**Key points:**

- The agencies are being asked to conduct their own searches: please let Jodi know if any agencies request assistance from DTMB/OA or if any other questions arise regarding what OA is able to assist them with.
- Due date for the agencies to notify the Gov office of when their searches will be completed is Tuesday
- DTMB is currently working to identify the custodians for our own searches - more information will be available on Tuesday.

Thank you for your time, please call with any questions. Have a great weekend.

# Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis

LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents."

"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."

**NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.**

## LEGAL NOTICE

- The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
- Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
- The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external party.

**Cc:** McFarlane, James (DTMB)  
**Subject:** RE: FOIA Project Updates to General Managers

Hi everyone –

I talked to John McQuaid earlier this afternoon. As Tiziana stated, the agencies should be doing their own searches. With the Legal Discovery OA is conducting outside of this FOIA request, they don't have the resources to conduct the agency searches as well.

Here's what I know they CAN provide though -

- OA can provide an eDiscovery mailbox and additional fileshare space to place identified mail/documents.

To accomplish this you should submit a remedy ticket with the details needed and then send the ticket number to John McQuaid (cc Joe Hyrman and myself) with 'FOIA-Flint' in the subject line and they will escalate the request.

- I also know that Greg Mears (DTMB Client Specialist) is putting together instructions on how to do effective searches in Outlook for Laurie Westfall's area. I can share this with the GMs when complete as well.

If your agencies are requesting additional assistance, please let me know. The reason requests are being funneled through me initially is so James can get an idea of the assistance needed and can have that discussion with OA and the Governor's Office to set priorities if needed.

Thanks,  
Jodi

Happy Friday All!

As you’re aware, the Governor’s Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon.** Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor's Office will provide the keyword search terms today to the Agencies.
  - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

**Subject:** RE: FOIA Project Updates to General Managers

Hi everyone –

I talked to John McQuaid earlier this afternoon. As Tiziana stated, the agencies should be doing their own searches. With the Legal Discovery OA is conducting outside of this FOIA request, they don't have the resources to conduct the agency searches as well.

Here's what I know they CAN provide though -

- OA can provide an eDiscovery mailbox and additional fileshare space to place identified mail/documents.

To accomplish this you should submit a remedy ticket with the details needed and then send the ticket number to John McQuaid (cc Joe Hyrman and myself) with 'FOIA-Flint' in the subject line and they will escalate the request.

\* I also know that Greg Mears (DTMB Client Specialist) is putting together instructions on how to do effective searches in Outlook for Laurie Westfall's area. I can share this with the GMs when complete as well.

If your agencies are requesting additional assistance, please let me know. The reason requests are being funneled through me initially is so James can get an idea of the assistance needed and can have that discussion with OA and the Governor's Office to set priorities if needed.

Thanks,  
Jodi

All

Please note below the email below with additional information and guidelines that were provided from the Gov office to the Agencies today.

**Key points:**

- The agencies are being asked to conduct their own searches: please let Jodi know if any agencies request assistance from DTMB/OA or if any other questions arise regarding what OA is able to assist them with.
- Due date for the agencies to notify the Gov office of when their searches will be completed is Tuesday
- DTMB is currently working to identify the custodians for our own searches - more information will be available on Tuesday.

Thank you for your time, please call with any questions. Have a great weekend.

Laurie,

No set process for DTMB as we've never dealt with an issue like this here in my 18+ years as DTMB FOIA coordinator. I am meeting with Jean Ingersoll at 9 this morning re: this project.

Gary

**Importance:** High

Gary – I left you a voice today after being given your name as the DTMB FOIA expert. I'm reaching out just to determine if there is a set process/format/policy (i.e. email saved to a PDF format, other...) for sending FOIA files to the AG's e-discovery or other designated system based on the recent request for Flint Water FOIA information to be completed by all agencies by the end of February and sent to a centralized location. I realize that different folks have been assigned roles to handle this issue, but thought I'd reach out and to learn anything about the normal processes and expectations from you.

I serve as DTMB, MCSC, MDE & CEPI's General Manager (handle IT oversight for these areas) and wanted to introduce myself if you ever need assistance as well.

Look forward to hearing from you and have a nice long holiday weekend.

# FOIA Keyword Search Tips

## Step 1.

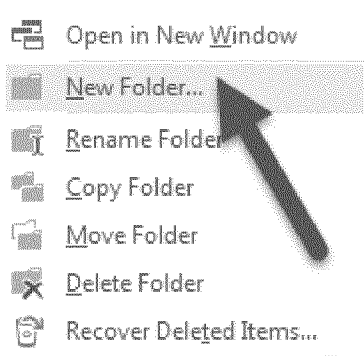

### Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

## Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the “New Folder” icon. Call the new Folder FOIA, and press Enter.

The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

## Step 3. Identifying emails using keyword search

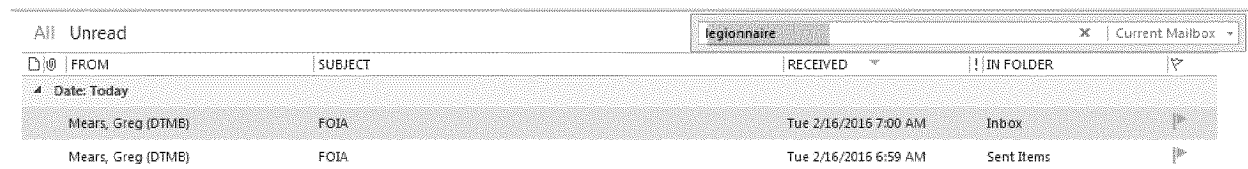

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to “Current mailbox” as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

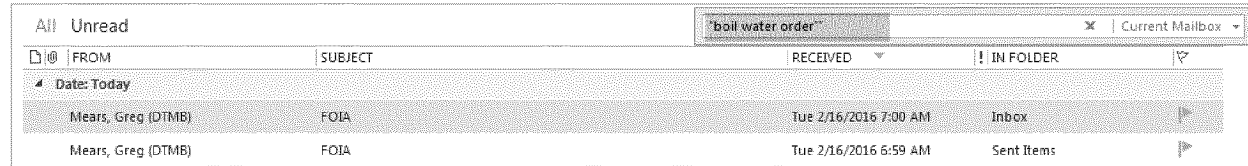

In the examples we are going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.

Let's try another using a search term in “quotes”. By placing an item in quotes it will limit your search to those exact words.

**NOTE:** By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

#### Step 4. Copying your messages to the designated FOIA area

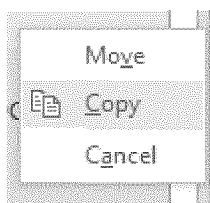

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created “FOIA” folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the “mechanics” of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter “a”. Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select “copy” from the pop up menu (See illustration)

Depending on the amount of messages you’re copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

### **Step 5. Doing a hard drive keyword search for documents and other items**

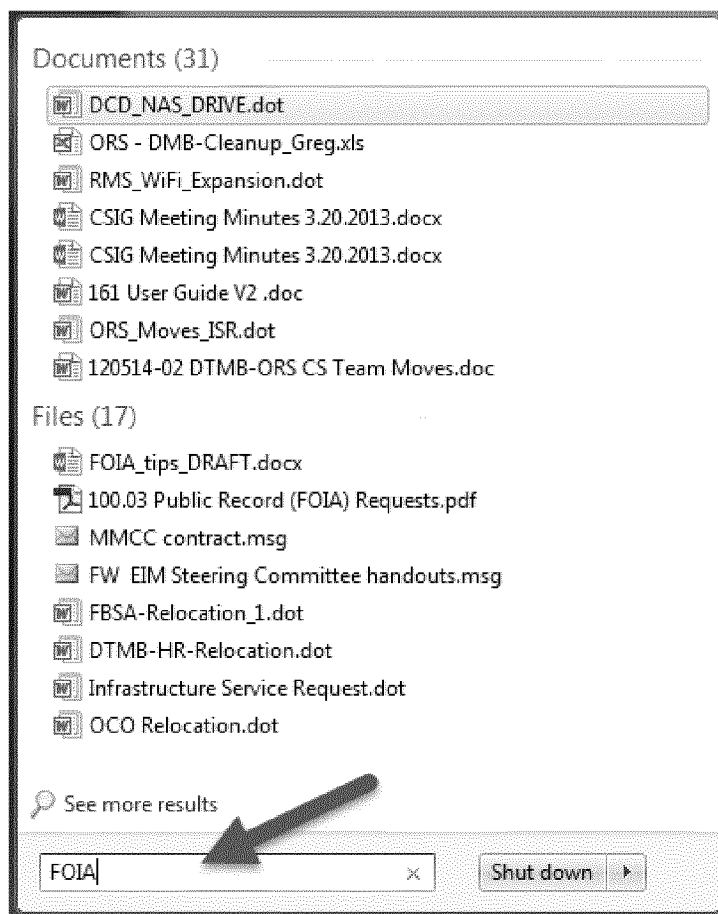

Conducting a hard drive search is fairly simple. Regardless of what version of Windows you’re using, each of them has a search feature built in called “Windows Explorer”, you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

#### **Using the search function in windows 7**

Since the majority of DTMB is on Windows 7, the examples I’ll be showing are on that operating system. If you click on windows Start button, you’ll see the search box right next to it

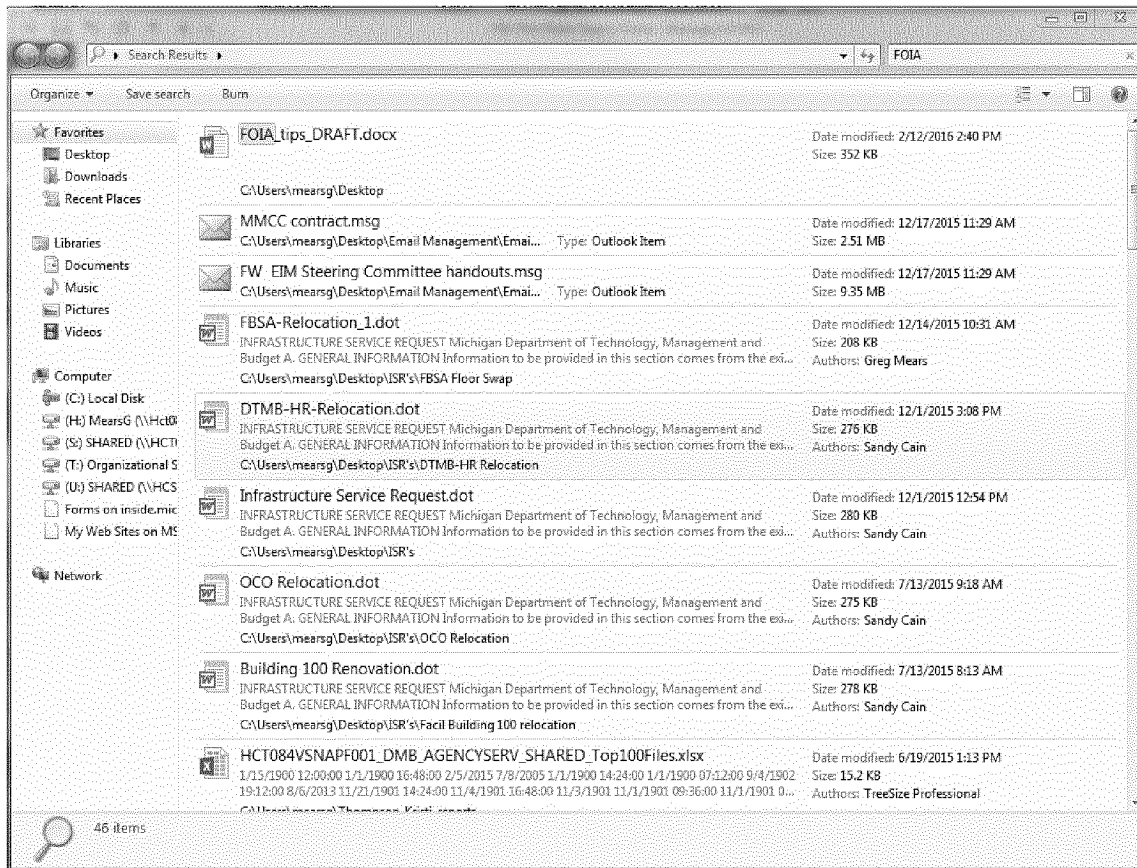

In this example I’m going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I’ve already saved off all of the relevant emails, we’ll focus on just the documents.

This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example my search found 46 items. We can now select them all using the “Ctrl-A method” that we used for the emails, and copy them to our newly created FOIA folder.

## Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

## What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or Client Specialist.

**Subject:** RE: FOIA process

Laurie,

No set process for DTMB as we've never dealt with an issue like this here in my 18+ years as DTMB FOIA coordinator. I am meeting with Jean Ingersoll at 9 this morning re: this project.

Gary

**To:** Buckberry, Gary (DTMB)  
**Subject:** FOIA process  
**Importance:** High

Gary – I left you a voice today after being given your name as the DTMB FOIA expert. I'm reaching out just to determine if there is a set process/format/policy (i.e. email saved to a PDF format, other...) for sending FOIA files to the AG's e-discovery or other designated system based on the recent request for Flint Water FOIA information to be completed by all agencies by the end of February and sent to a centralized location. I realize that different folks have been assigned roles to handle this issue, but thought I'd reach out and to learn anything about the normal processes and expectations from you.

I serve as DTMB, MCSC, MDE & CEPI's General Manager (handle IT oversight for these areas) and wanted to introduce myself if you ever need assistance as well.

Look forward to hearing from you and have a nice long holiday weekend.

Laurie Westfall  
General Manager

**Subject:** FOIA - phone message

Mike – I left you a voice mail late this afternoon just to reach out to you and give you a heads up on a large FOIA request concerning the Flint Water issue.

I'm sharing a communication I just received on this topic within DTMB along with a copy of the search criteria distributed from the Governor's office late today to the agencies (Kurt Weiss was copied for SBO). I understand that this information is due by the end of this month to the Governor's legal team. Not sure if it will impact your area, but wanted to make you aware due to the short timeframe to gather this information.

If you need assistance, let us know and we'll see what we can do. Hope you have a great, long holiday weekend.

**Subject:** Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

As discussed at our GM meeting today, here are the tool options and contact information for the agencies:

- HPTTrim Records Manager - Kristy Thompson (DTMB records center)
- Relativity / eDiscovery - Andrew Banas (AG eDiscovery attorney) \* I am happy to make an email introduction with him if you'd like

Thank you,

Tiziana Galeazzi  
General Manager for Attorney General, Civil Rights, Governor's Office, Talent and Economic Development

On Feb 12, 2016, at 9:27 PM, Simon, Jodi (DTMB) <[SimonJ@michigan.gov](mailto:SimonJ@michigan.gov)> wrote:

Hi everyone --

I talked to John McQuaid earlier this afternoon. As Tiziana stated, the agencies should be doing their own searches. With the Legal Discovery OA is conducting outside of this FOIA request, they don't have the resources to conduct the agency searches as well.

Here's what I know they CAN provide though -

- \* OA can provide an eDiscovery mailbox and additional fileshare space to place identified mail/documents.

To accomplish this you should submit a remedy ticket with the details needed and then send the ticket number to John McQuaid (cc Joe Hyrman and myself) with 'FOIA-Flint' in the subject line and they will escalate the request.

- \* I also know that Greg Mears (DTMB Client Specialist) is putting together instructions on how to do effective searches in Outlook for Laurie Westfall's area. I can share this with the GMs when complete as well.

If your agencies are requesting additional assistance, please let me know. The reason requests are being funneled through me initially is so James can get an idea of the assistance needed and can have that discussion with OA and the Governor's Office to set priorities if needed.

Thanks,  
Jodi

All

Please note below the email below with additional information and guidelines that were provided from the Gov office to the Agencies today.

**Key points:**

- The agencies are being asked to conduct their own searches: please let Jodi know if any agencies request assistance from DTMB/OA or if any other questions arise regarding what OA is able to assist them with.
- Due date for the agencies to notify the Gov office of when their searches will be completed is Tuesday
- DTMB is currently working to identify the custodians for our own searches - more information will be available on Tuesday.

Thank you for your time, please call with any questions. Have a great weekend.

Happy Friday All!

As you’re aware, the Governor’s Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor’s Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can’t possibly assist every agency and every employee.
  - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon**. Also, please let the agency know that requests will be prioritized by the Governor’s Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- The Governor’s Office will provide the keyword search terms today to the Agencies.
  - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

**Subject:** Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

All

As discussed at our GM meeting today, here are the tool options and contact information for the agencies:

- HPTrim Records Manager - Kristy Thompson (DTMB records center)
- Relativity / eDiscovery - Andrew Banas (AG eDiscovery attorney) \* I am happy to make an email introduction with him if you'd like

Thank you,

On Feb 12, 2016, at 9:27 PM, Simon, Jodi (DTMB) <[SimonJ@michigan.gov](mailto:SimonJ@michigan.gov)> wrote:

Hi everyone --

I talked to John McQuaid earlier this afternoon. As Tiziana stated, the agencies should be doing their own searches. With the Legal Discovery OA is conducting outside of this FOIA request, they don't have the resources to conduct the agency searches as well.

Here's what I know they CAN provide though -

- ? OA can provide an eDiscovery mailbox and additional fileshare space to place identified mail/documents.

To accomplish this you should submit a remedy ticket with the details needed and then send the ticket number to John McQuaid (cc Joe Hyrman and myself) with 'FOIA-Flint' in the subject line and they will escalate the request.

- ? I also know that Greg Mears (DTMB Client Specialist) is putting together instructions on how to do effective searches in Outlook for Laurie Westfall's area. I can share this with the GMs when complete as well.

If your agencies are requesting additional assistance, please let me know. The reason requests are being funneled through me initially is so James can get an idea of the assistance needed and can have that discussion with OA and the Governor's Office to set priorities if needed.

Thanks,  
Jodi

All

Please note below the email below with additional information and guidelines that were provided from the Gov office to the Agencies today.

**Key points:**

- The agencies are being asked to conduct their own searches: please let Jodi know if any agencies request assistance from DTMB/OA or if any other questions arise regarding what OA is able to assist them with.
- Due date for the agencies to notify the Gov office of when their searches will be completed is Tuesday
- DTMB is currently working to identify the custodians for our own searches - more information will be available on Tuesday.

Thank you for your time, please call with any questions. Have a great weekend.

Happy Friday All!

As you’re aware, the Governor’s Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- ? The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- ? While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
  - o If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
  - o **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon.** Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
- ? The Governor's Office will provide the keyword search terms today to the Agencies.
  - o The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

All staff,

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. Both David Head, MDE FOIA coordinator, Debbie Roeske, DTMB Client Specialist, and I will be sending additional information on how to accomplish this FOIA task.

Quick points:

1. Most persons in MDE will not be affected by this FOIA requirement. If you are not involved with the Flint water crisis than you are not required to do anything. "MDE All updates" are not required to be saved as the original email will be provided by the sender.
2. If you have had any job related connection to the Flint water crisis you will be required to provide all records to a central repository. Records include memos, handwritten notes, emails and attachments, and text messages in your possession. I will be asking office directors for a list of their staff that have had any job related responsibilities in order that we can give you the necessary information.
3. If you have Flint related records, we ask that you immediately start saving all documents. You must: create a file in your Outlook folder called: Flint FOIA. You will have to save a copy of all messages into that folder. Detailed instructions on the creation of the folder and search procedures will be provided to you. This instructions will also include instructions on search terms to ensure that all relevant emails are identified and copied. You should also create a folder to save a copy of all documents that you have either prepared or received regarding the Flint Water crisis. We will follow up with instructions on how to forward all your saved documents.
4. We will provide information as soon as we get it. There is a deadline for providing all documents, so we ask that you begin collecting them now.
5. If you have any questions regarding Flint water and FOIA please contact with David Head or myself.

# FOIA Keyword Search Tips

## Step 1.

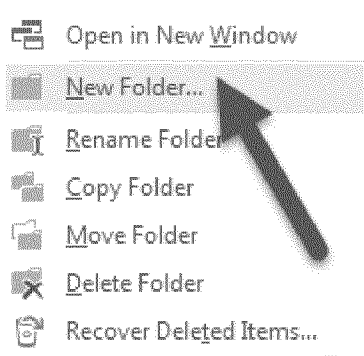

### Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

## Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the “New Folder” icon. Call the new Folder FOIA, and press Enter.

The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

## Step 3. Identifying emails using keyword search

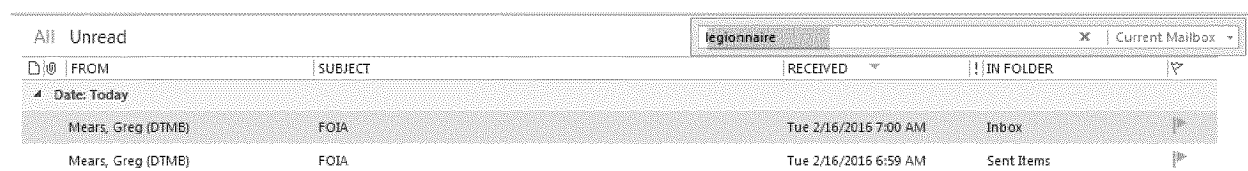

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to “Current mailbox” as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

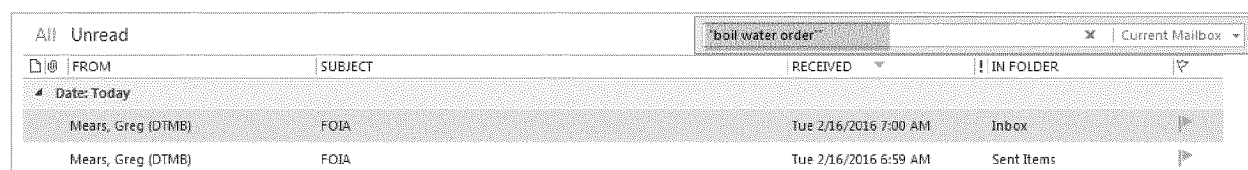

In the examples we're going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.

Let's try another using a search term in “quotes”. By placing an item in quotes it will limit your search to those exact words.

**NOTE:** By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

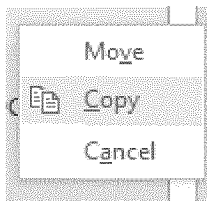

#### Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created “FOIA” folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the “mechanics” of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter “a”. Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select “copy” from the pop up menu (See illustration)

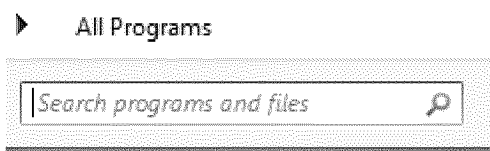

Depending on the amount of messages you’re copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

## **Step 5. Doing a hard drive keyword search for documents and other items**

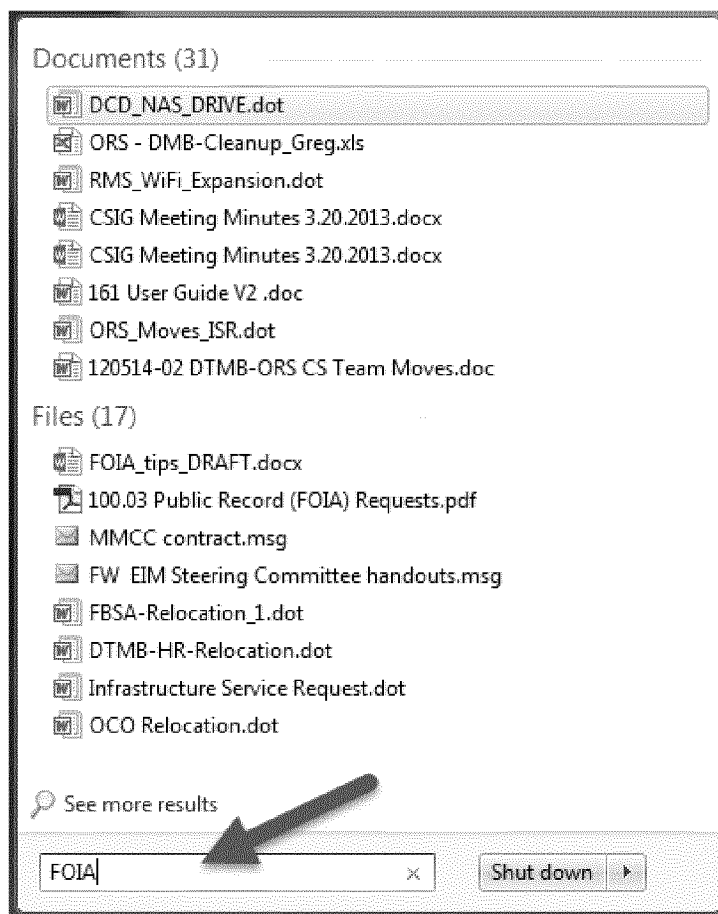

Conducting a hard drive search is fairly simple. Regardless of what version of Windows you’re using, each of them has a search feature built in called “Windows Explorer”, you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

### **Using the search function in windows 7**

Since the majority of DTMB is on Windows 7, the examples I’ll be showing are on that operating system. If you click on windows Start button, you’ll see the search box right next to it

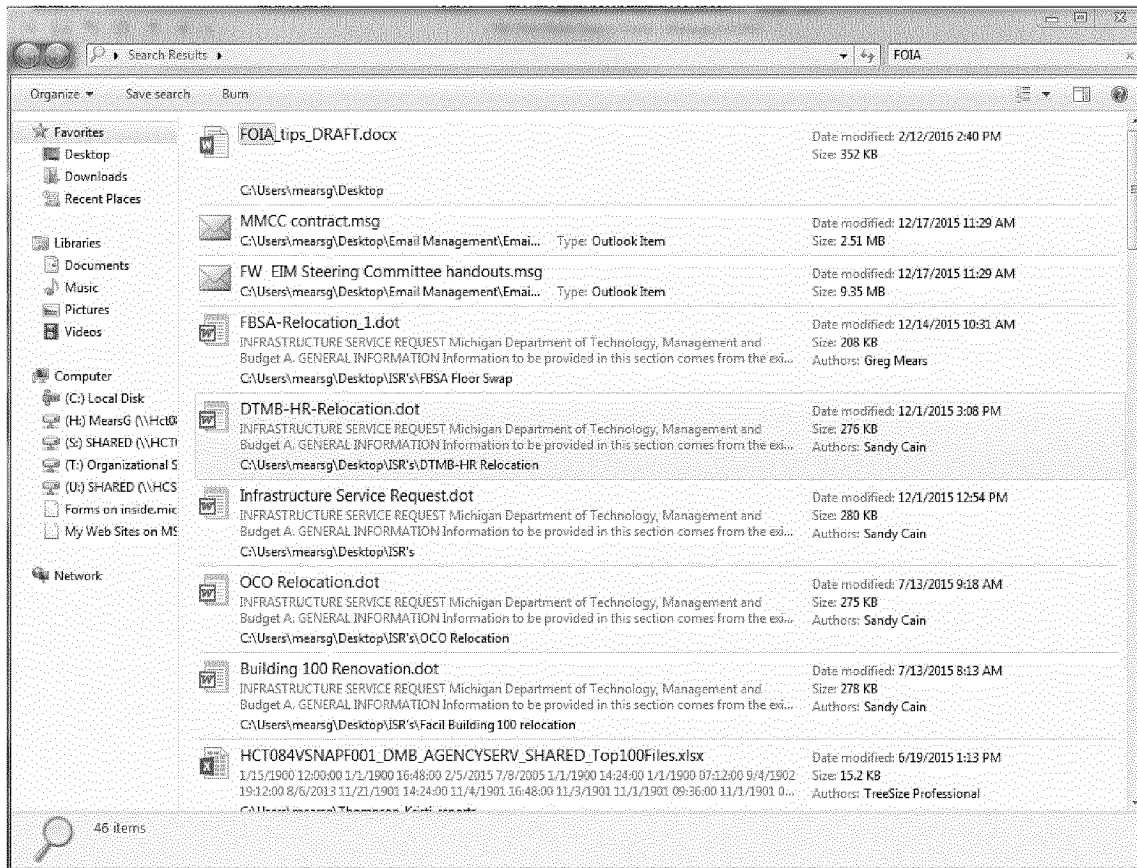

In this example I’m going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I’ve already saved off all of the relevant emails, we’ll focus on just the documents.

This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example my search found 46 items. We can now select them all using the “Ctrl-A method” that we used for the emails, and copy them to our newly created FOIA folder.

## Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

## What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or Client Specialist.

Deputy Superintendents and Directors,

The state's collection of all Flint related documents is an epic undertaking. Our instructions are to provide all job related records to the Governor's office by mid-March. David Head, MDE's FOIA coordinator and I are working with DTBM on this collection. I need from you a list of everyone that should be included in the document request.

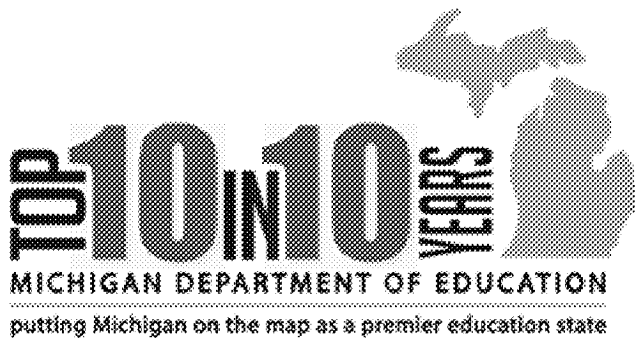

We will have instructions on how to collect all documents and then how to forward them to a central repository. Deb Roeske will have a class on collect the information.

Send David and I a list of all your staff that we need to request records related to the Flint water crisis. I also need a negative response, that is if you have no one in your office, please respond with NO!

Louis

Louis Burgess  
Michigan Department of Education  
Emergency Management Coordinator  
(517) 335-3672

Our collective efforts can help make Michigan a Top 10 education state in 10 years! Here are the goals and strategies:

**From:** Burgess, Louis (MDE)  
**Sent:** Tuesday, February 16, 2016 11:58 AM  
**To:** Burgess, Louis (MDE) <[burgessi@michigan.gov](mailto:burgessi@michigan.gov)>  
**Cc:** Head, David (MDE) <[HeadD@michigan.gov](mailto:HeadD@michigan.gov)>  
**Subject:** Flint Water Crisis and FOIA

All staff,

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. Both David Head, MDE FOIA coordinator, Debbie Roeske, DTMB Client Specialist, and I will be sending additional information on how to accomplish this FOIA task.

Quick points:

1. Most persons in MDE will not be affected by this FOIA requirement. If you are not involved with the Flint water crisis than you are not required to do anything. "MDE All updates" are not required to be saved as the original email will be provided by the sender.
2. If you have had any job related connection to the Flint water crisis you will be required to provide all records to a central repository. Records include memos, handwritten notes, emails and attachments, and text messages in your possession. I will be asking office directors for a list of their staff that have had any job related responsibilities in order that we can give you the necessary information.
3. If you have Flint related records, we ask that you immediately start saving all documents. You must: create a file in your Outlook folder called: Flint FOIA. You will have to save a copy of all messages into that folder. Detailed instructions on the creation of the folder and search procedures will be provided to you. This instructions will also include instructions on search terms to ensure that all relevant emails are identified and copied. You should also create a folder to save a copy of all documents that you have either prepared or received regarding the Flint Water crisis. We will follow up with instructions on how to forward all your saved documents.
4. We will provide information as soon as we get it. There is a deadline for providing all documents, so we ask that you begin collecting them now.
5. If you have any questions regarding Flint water and FOIA please contact with David Head or myself.

Yes -- just got off the phone with her and am working on a list of applications. I will be contacting Jean with the list of applications and reviewing same with her later today only to have a second opinion to compliment the business on other potential sources (vs. just email) on Flint FOIA related data. The business is the primary owner and knowledge keeper of where Flint data could reside. However, as we discussed, the majority of the data will come from e-mail.

Jean is working on questions that haven't yet been addressed and we covered some of our concerns as well -- such as depending on how each agency will save their data initially and copy vs. move to either a hard drive, ECM or other solution; the second phase is how will the Gov's office get this data and in what format, i.e. PST or PDF. If PDF, not all agencies have the software (it is freeware and available through SCCM12 -- new software distribution tool and could be installed by the client with directions), and where will the bulk of the data be coming from and does that individual/group have enough temporary storage for the amount of data, and how will the Gov's office get this data or do we push.

We also just sent Jean a copy of Greg Mears FOIA Keyword Search Tips for optional use and Jodi will be sending out to the GM's. A copy of the search criteria is also attached for easy reference. We met with MDE this morning, both Louis Burgess and David Head and we're scheduling a conference call for their team tomorrow, along with Liaisons and our Client Specialists to roll out a short term process to copy and save the Flint FOIA data. Then, once we receive direction on consolidation, format and how to make the data accessible and/or send the data, we will further assist them in getting the data consolidated.

We have also reached out to SBO and MCSC and will be following up with them to lend assistance where needed and to convey/confirm the consolidation method, once known.

Good morning all:

Attached is a spreadsheet that lists the types of mediums required to search, the type I agencies that want our assistance, the parties responsible for the search and the related custodians.

This list serves two purposes: 1) it is for me to keep track of what and whom we need to search and the parties responsible; and 2) the list of custodians (second tab, scroll down for all of the SMT members).

I am having trouble noting all of the required software and applications/systems (Column B) and the persons responsible for each, i.e. the areas with all of the question marks and that are blank. Can someone assist me in filling in the blanks as soon as possible? I am free after 10am if you need more information from me. Thank you!! Jean

# FOIA Keyword Search Tips

## Step 1.

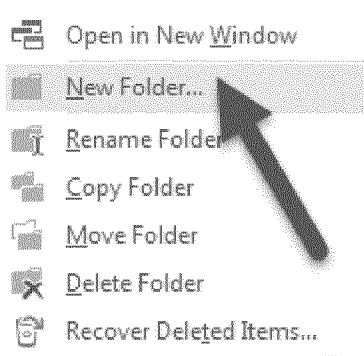

### Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

## Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the “New Folder” icon. Call the new Folder FOIA, and press Enter.

The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

## Step 3. Identifying emails using keyword search

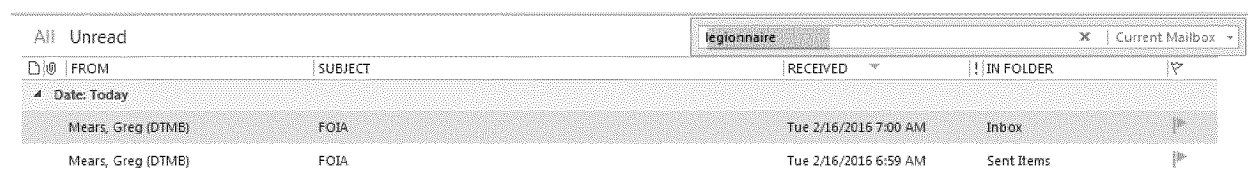

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to “Current mailbox” as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

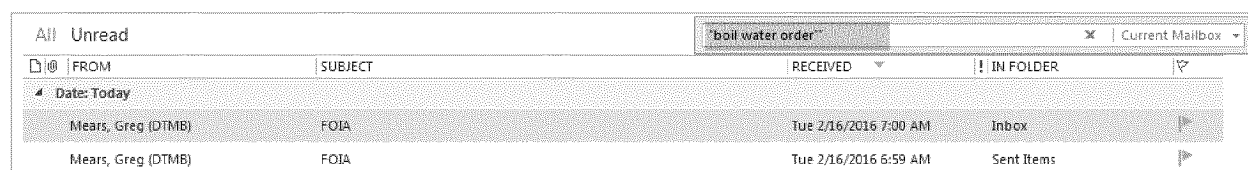

In the examples we are going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.

Let's try another using a search term in “quotes”. By placing an item in quotes it will limit your search to those exact words.

**NOTE:** By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

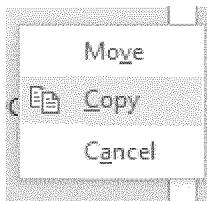

#### Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created “FOIA” folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the “mechanics” of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter “a”. Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select “copy” from the pop up menu (See illustration)

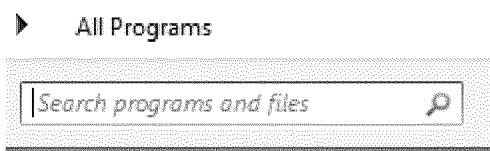

Depending on the amount of messages you’re copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

## **Step 5. Doing a hard drive keyword search for documents and other items**

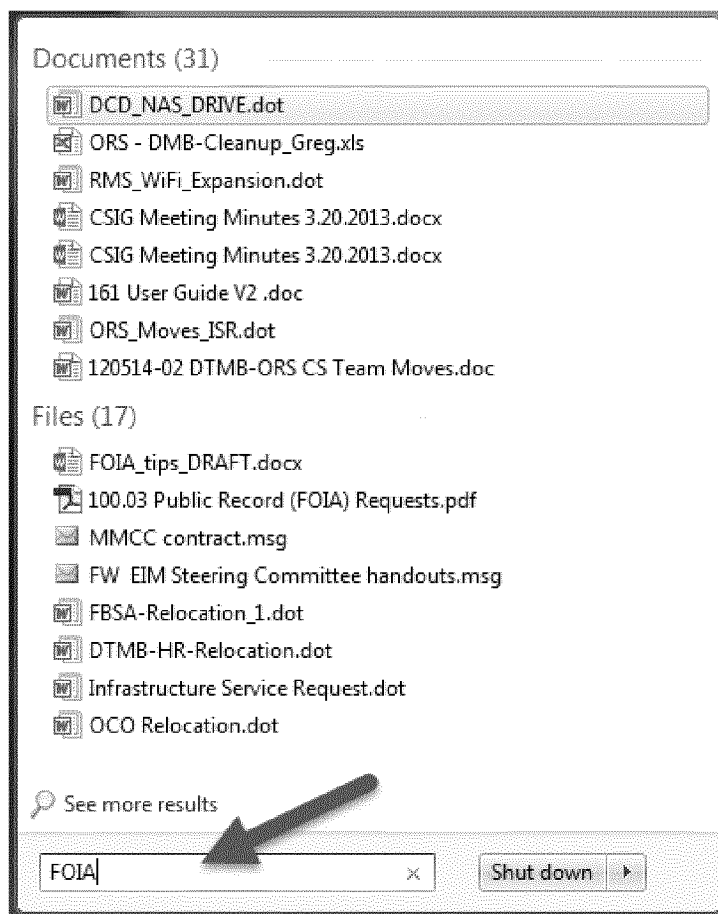

Conducting a hard drive search is fairly simple. Regardless of what version of Windows you’re using, each of them has a search feature built in called “Windows Explorer”, you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

### **Using the search function in windows 7**

Since the majority of DTMB is on Windows 7, the examples I’ll be showing are on that operating system. If you click on windows Start button, you’ll see the search box right next to it

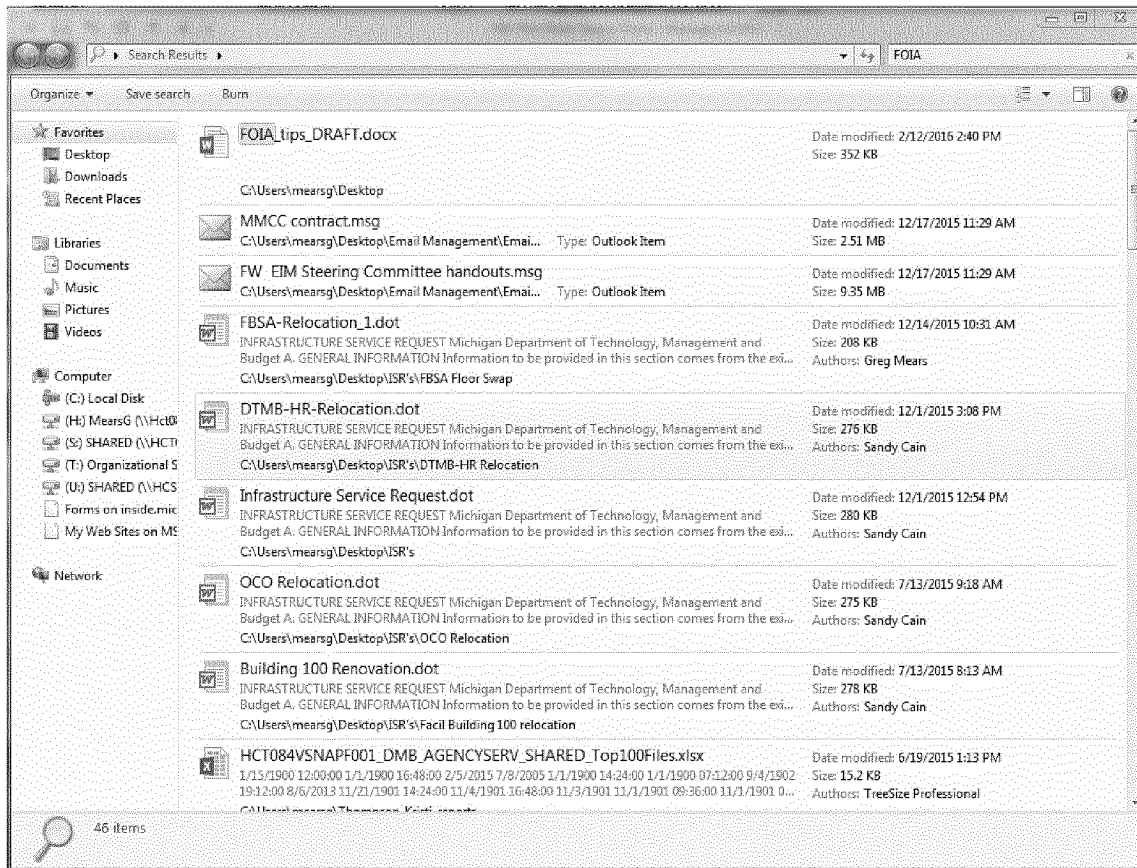

In this example I’m going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I’ve already saved off all of the relevant emails, we’ll focus on just the documents.

This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example my search found 46 items. We can now select them all using the “Ctrl-A method” that we used for the emails, and copy them to our newly created FOIA folder.

## Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

## What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or Client Specialist.

**Cc:** Weber, Travis (GOV) <[WeberT7@michigan.gov](mailto:WeberT7@michigan.gov)>  
**Subject:** Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

# FOIA Keyword Search Tips

## Step 1.

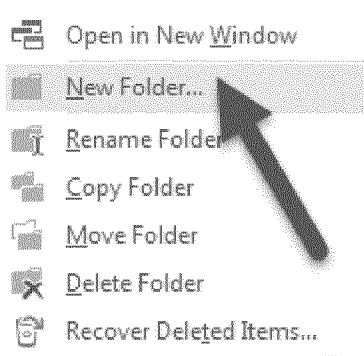

### Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

## Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the “New Folder” icon. Call the new Folder FOIA, and press Enter.

The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

## Step 3. Identifying emails using keyword search

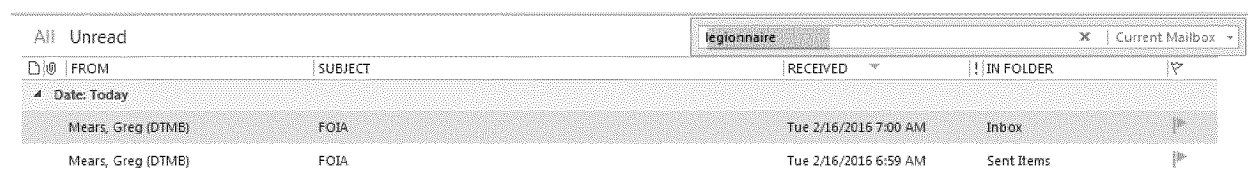

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to “Current mailbox” as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

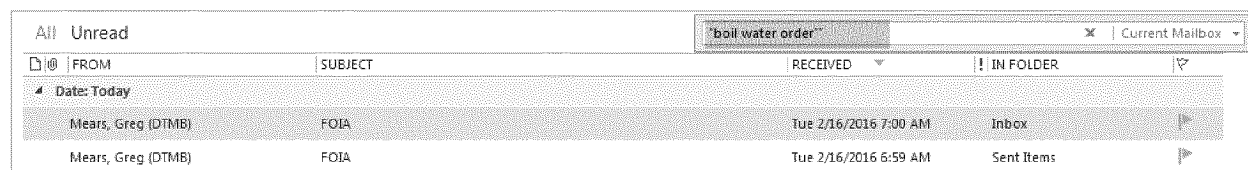

In the examples we're going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.

Let's try another using a search term in “quotes”. By placing an item in quotes it will limit your search to those exact words.

**NOTE:** By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

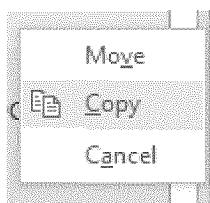

#### Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created “FOIA” folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the “mechanics” of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter “a”. Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select “copy” from the pop up menu (See illustration)

Depending on the amount of messages you’re copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

## **Step 5. Doing a hard drive keyword search for documents and other items**

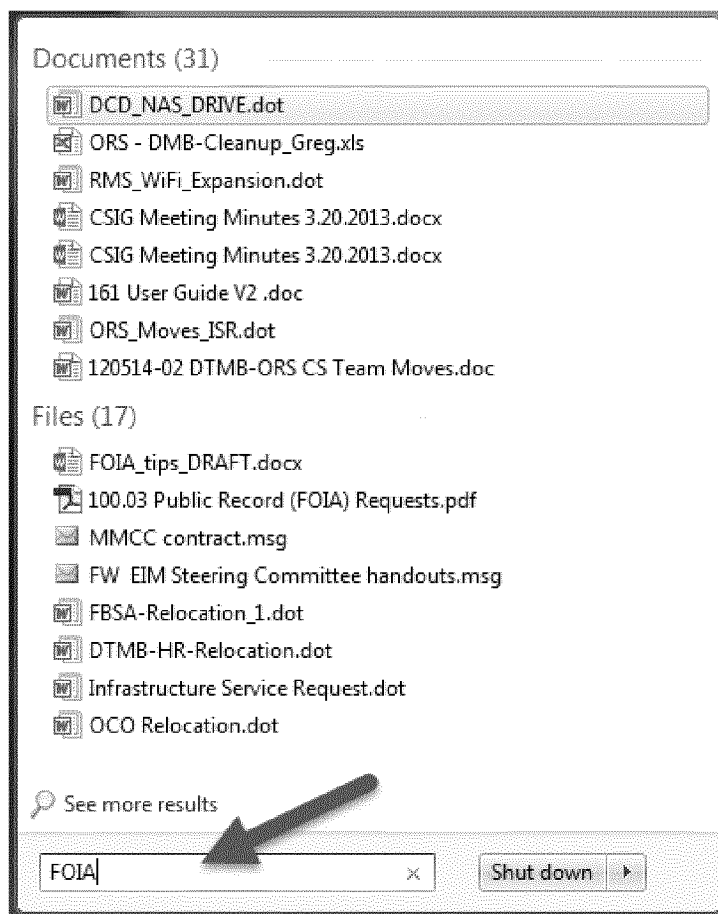

Conducting a hard drive search is fairly simple. Regardless of what version of Windows you’re using, each of them has a search feature built in called “Windows Explorer”, you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

### **Using the search function in windows 7**

Since the majority of DTMB is on Windows 7, the examples I’ll be showing are on that operating system. If you click on windows Start button, you’ll see the search box right next to it

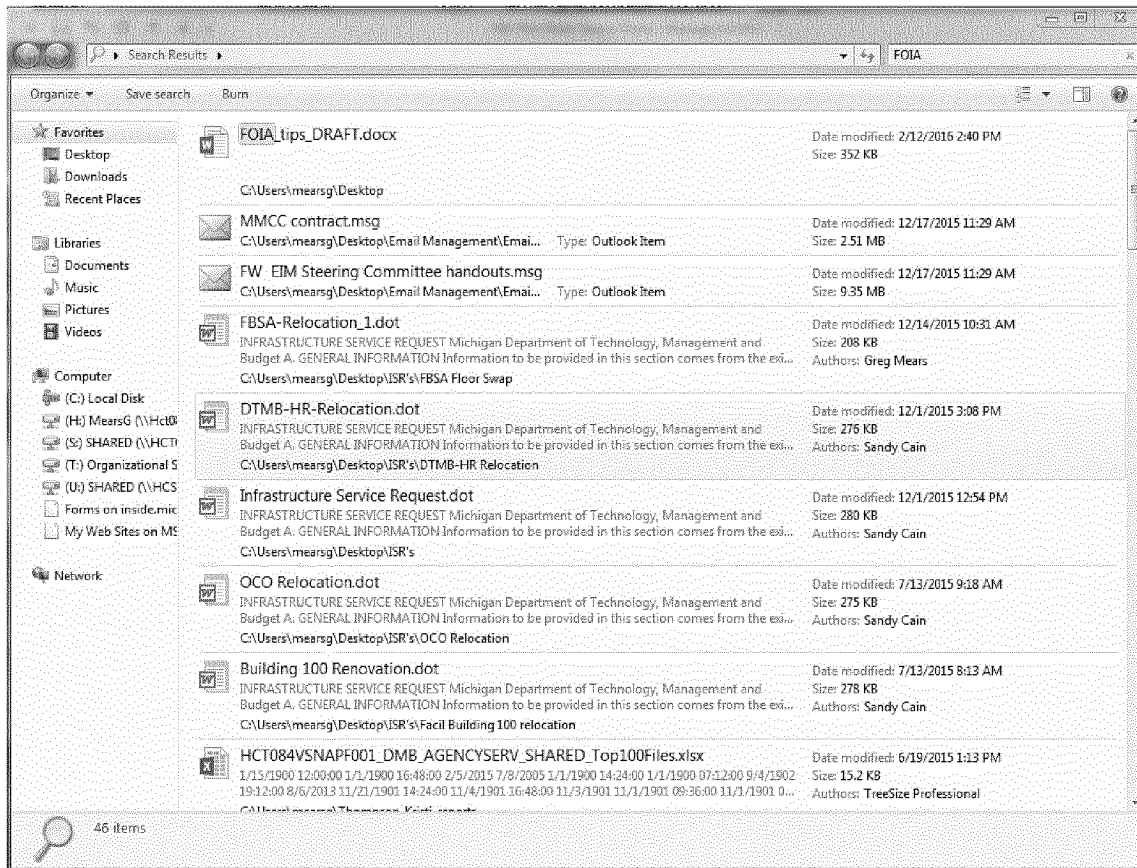

In this example I’m going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I’ve already saved off all of the relevant emails, we’ll focus on just the documents.

This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example my search found 46 items. We can now select them all using the “Ctrl-A method” that we used for the emails, and copy them to our newly created FOIA folder.

## Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

## What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or Client Specialist.

**Subject:** ORS POIA

Mike O,

The applications(s) for ORS are as follows; After some conversation we expanded the list some.

The following need to have Clarity running for the application to be functional.

ESS  
FileNet  
NICE  
Siebel

The following are standalone applications;

MiAccount  
Indexing Application  
Issue Tracker  
Scanning application  
Work Force manager

ORS was given the following key words and asked if our data would contain any of these;

Legionnaire  
Legionella  
“boil water order” & “Flint” (anywhere in document)  
“coli” & Flint (anywhere in document)  
“bacteria” & “Flint” (anywhere in document)  
“microb” & “Flint” (anywhere in document)  
“TTHM” & “Flint” (anywhere in document)  
“Lead” & “Flint” (anywhere in document)  
“emergency” & “Flint” (anywhere in document)  
Karegnondi  
“Genesee County Health Department”  
“Flint” (within sentence) “utilities”  
“Lead and Copper Rule”  
“Detroit Water and Sewerage Department” & “Flint” (anywhere in document)  
“DWSD” & “Flint” (anywhere in document)  
“Flint River”  
“Pb” & “water” (anywhere in document)  
“KWA”

The Business response is no.

Jamie Guardiola would be the contact person if any FOIA is needed  
If you have any questions please let me know.
